# Discovery of Vertical Time and Horizontal Time

- Righteous soul of young and creation of knowledge on vertical time, Wicked soul of old knowledge on horizontal time

Seongju choi

Why do writing this book?

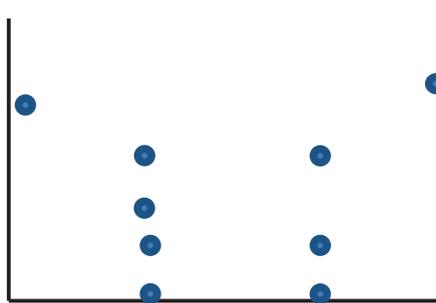

If you read then know it.

At now my living region is problems of getting old, so that “Absolutely not old, eternity young living” supply and solve this being old, being eternity young time creating is necessary.

Here is the book contents are to fit this book, here is attached

Here is time saving is living in righteous soul living of righteous soul living behavior then this time can be explained by “0101010101.....” here is “0” is time saving “1” is time consuming, so that someone living must be like “0000010000110000...” this living is time is saved time living, but “1111101111011” livings are do not time save living so then, this living is most time living old time living, but other is time is most time is using young time living(June 12, 2019) in the morning book writing as routine, it is comes, truly so fear to me.

Righteous soul vacant space is

This is righteous soul vacant of righteous soul of space can hear broadcasting image, so that righteous soul bring creation of knowledge.

These points are supplied to creation of knowledge, in the righteous soul livings vacant space is “0”, and this is vertical time governing time directions.

So then, righteous soul living broadcasting is so silent saying, so that the bobble created bottom go up, so that righteous soul living in destination place broadcasting that vertical time direction is “0”, infer that this is vertical time direction of depth place so that wicked soul automatically can’t hear righteous soul living in destination place broadcasting. On today comes how to righteous soul bring “creation of knowledge” June 26, 2019.

This is righteous soul time orbit is “0”, righteous soul living even voyage macro and micro concept world time but the time is still all to be living vertical time “0”

Therefore even now living in the macro concept world righteous soul living time is still vertical time of “0” and young time.

Thank god, heavenly father your giving creation of knowledge.

Righteous souls living in the macro concept world, then all times is “0”

This is clear now.

So then, here is righteous soul living voyage is “000000000000” “young time” it appeared up.

So that righteous soul living can hear broadcasting from righteous soul living in destination place on the orbit of righteous souls traveling time of “0000000000000000” this is what, “the poor & righteous soul” “righteous soul & nothing”, this righteous souls all hear broadcasting from righteous soul living in destination place.

Righteous soul mission carry righteous soul living is “0101010101010”, righteous soul survive of “0” time but to save lover of wicked soul “1” so that righteous soul living is really hard time with that, while this righteous soul mission is clear then, “1010100101010010101000000000”, but righteous soul living

mission failure then, “0101010010110111111111” so that righteous soul to be wicked soul time living of, righteous soul living disappeared from righteous soul living in destination place communication.

Truly horizontal time is “0123456789” so as time goes getting old time.

But there is no move horizontal time so still “0” vertical direction time still keep “0”

So that still time saves even value of horizontal time is 100 years value but still

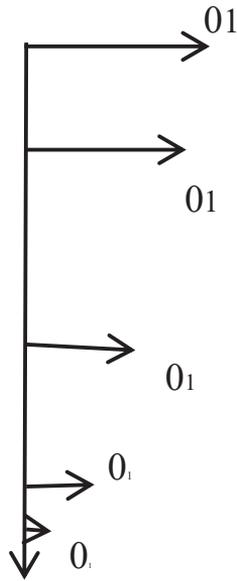

Vertical time is “0”.

Living righteous soul creator designed role play living is vertical time living of creation of knowledge getting.

Here is righteous soul living vertical time young time is getting harvest and fruit, this energy all using righteous soul living behavior “it shares time with other, help other, but also doing real love other”, so that as living in righteous soul in the macro concept world is fruit is safe come back to the righteous soul living in destination place so that all of macro concept world fruit and harvest all shares with poor and righteous souls.

Righteous soul living “poor and righteous soul”=“it shares time with other, help other, but also ding real love other” then, the living is

possible righteous soul mission clear of “01” righteous soul to be stronger to the wicked soul then, this mission is possible to be clear.

In this image

01, 01, 01, 01, 01

this is vertical time of “0” of righteous soul living is go deeper but wicked soul of “1” keep decreased as righteous soul runs to vertical time living, so that this is righteous soul front line, as righteous soul runs to the deepest then wicked soul decreased to almost to zero, so that lover of wicked soul create to righteous soul.

Righteous soul young time, wicked soul old time

Righteous soul young time + creation of knowledge = vertical time of young time= convergence = correction of righteous soul voyage orbit

= complete macro concept world voyage = reach at righteous soul living in destination place

Wicked soul old time + old knowledge = horizontal time of old time =divergence = lost road; there is no road =incomplete macro concept world voyage = fallen to the wicked soul living in destination place.

This is very important vertical time living of righteous soul, righteous soul me save and creature other wicked soul to create righteous soul, this is so huge important for system, organization to be living in vertical time of young time living.

A company and country to be living in righteous souls of vertical time living is must be hearing broadcasting from righteous soul living in destination place, creation of knowledge is “Helping saving from wicked soul to righteous soul being, Until then righteous soul me living also” so important, a righteous soul must meet other of wicked soul, then righteous soul me, do save other wicked soul to be created as righteous souls.

This chain is keep then, the organization to be living in vertical time living and young time living of an organization.

Truly infer that

Righteous souls are voyage so that voyage livings all voyage so that righteous soul to be comeback to the voyage beginning righteous soul

living in destination place, so that it don't necessary voyage necessary so that 123456789=123456789, to be safe returning to the righteous soul living in destination place, it required to be "01234567890 =00" because soon to be safe returning not any more voyage energy, because righteous soul to be living in the beginning "00" young time, so then voyage "123456789" do necessary all used righteous soul living energy, this is help righteous souls but also righteous soul living safe returning to the righteous soul living in destination place.

Vertical time living is harvest living but Horizontal time living is bad  
harvest-----295

# Time

Time is appeared up velocity=  $s/t$ , s: change of distance, t: time, I do not know, I'm not physicist but I'm just book writer. Then I want to concentration on "time", at now my time is frustration time, what book will I write then, a book publish will publish my written book, my all seventeen books are rejected to be publish books.

Book publishers are doing not treat seventeen book as book, so that at now me is so frustrate. At now required of book to book.

Time is old and young, old is closing to the end, but young closing to beginning. But old is closing to the complete but young is closing to incomplete.

If time is limited and or unlimited, then time is limited then, if I go to the old time then the time is must be remained is being decreased, but time is not limited then, the old will go to the end is not reach at the end, because time is not limited.

If time is a rubber band then, time is stretch, but time is in the string then there is no time is stretch.

Old is relative with time, time used up then, there is no time then old, because old is time is end. How to eternity Young is then time is increasing then, Young is huge time have, so that Young is increasing time, Old is time is decreasing then, Young is time increasing, Old is time is decreasing.

How to time is increasing, and decreasing,  $T=s$ ; change of distance / velocity, so then time is increasing is then velocity is decreased and change of distance is going wide. So then time = change of distance, then T is increasing, but if T is decreasing is velocity is high and change of distance is low then, time is decreased.

Here is velocity is high and change of distance is do not change then, time is lover, so then time is short, then soon reach at the Old of end of it. This is must be time is as velocity is string then change of distance is lower, time is short to zero, as the velocity is huge time is zero, then here is I do not know, if reach at the terminal then, the not any more to go other, then it is old, or young, but here is reach at the end then, sure of old.

If  $T=s/v$ , S; change of distance, v; velocity if velocity is about to zero, but change of distance is huge, then Time is increased, so that there is no time decreased, this is end time is so distance so that keep young. Then here is what s is,,: change of distances, velocity is about to zero, then very slow so that to reach at the end of old, still has the time, but I do not know, “change of distance” as the slow velocity then, much time is required to reach at the terminal.

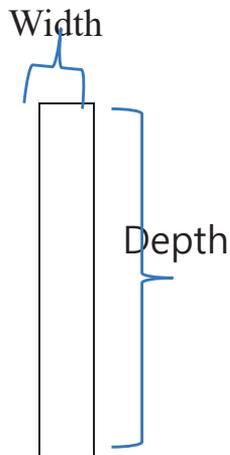

So that so then, it is possible s; change of distance is still is Constance then velocity is decreased then, then it also time is increased, so that it is possible rocket to moon is short time reach, but do not use rocket but airplane then time is increased so that, same distance as the velocity is decreased then time is increased, so that, in the moon must be 19years then if used rocket then compared earth is same, but if use airplane from moon to earth then, it must be time is must be larger

required to reach at the earth.

Each person time is not same, because end of time in the macro concept world is also difference, if reach at the righteous soul living in destination place, is increasing or decreasing if to be young, not to be old, is  $s$ ; change of distance is unit is micro concept world, then here is micro concept world is  $-1/\infty \sim +1/\infty$ , then  $s$ : change of distance is micro, then  $T=s/v$ , here is  $s=1/\infty$ , then as the velocity is increased then still so young.

This is adopt to company managing and all of organization depend to be old, how to offence old is  $S$ ; change of distance must be micro concept of  $1/\infty$

This is same as the

$S$ ; width is micro concept of  $1/\infty$  and depth, high is  $\infty$ , then here is

To be young = width of micro concept  $1/\infty \times \text{dept } \infty = 0$ , so young.  
This is even this is other company is getting old, but still this company is young.

$T = s/v$ , so long if a company to be young then,  $s$ ; change of distance ; width is to be  $1/\infty$ , this is required. Depth is  $\infty$ , then even same as others because is velocity is same but not to be old, so that what it is, that is the change of distance is must be micro concept point.

Here is micro concept point is  $1/\infty$  is  $-1/\infty \sim +1/\infty$ , so that to be young living is micro concept world living. This living is not old, but eternity living in young. It must be these companied are righteous soul living companies are to be living in still young, because  $T = s/v$ , here is all  $v$  is same, but  $s$ ; change of distance is  $1/\infty$ , so then even same velocity but still young.

It really hard with me, but first today book writing is begins, this is to solve problems, all of nature is start young but to old of end, so long do not end, still young is enough time is increased, so that community, and company and country all of problems of getting old, so that this righteous soul living of micro concept point of time is still young, but other compared of macro concept world mind level living and wicked soul living community and company to be getting old as velocity is same.

If a company and community how to width is  $1/\infty$ , and depth is  $\infty$  where living of righteous souls living place, so that micro concept world is righteous souls are not old, eternity young living, because  $T=s/v$ . them, micro concept world righteous soul is space and time is  $1/\infty$ , so that it don't decreased time to old, so long, righteous soul living is eternity young.

Here is righteous soul is  $-1/\infty \sim +1/\infty$ , so that truly an eternity young living company is helping by the righteous soul living behavior "it shares time with other, help other, but also doing real love other", creation of knowledge and is helping to young a company living.

This time concept this book will use engine.

This books will go to the end of books, but also this is right concept of micro concept same so that this book will valuable to me.

My books all depend on righteous soul and micro concept world.

This is helping eternity young of righteous soul of micro concept world, to help macro concept world livings; company, country and community all to be used this creation of knowledge.

## Old time and Young time

Old is near to closing, Young is near to beginning.

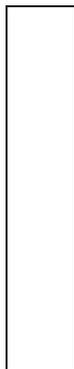

Old time is close to the past, Young time is closed to the future.

Old time is closed to old knowledge; Young time is creation of knowledge.

Old time is produce residue, half burnt garbage; Young time is silent and clean clear.

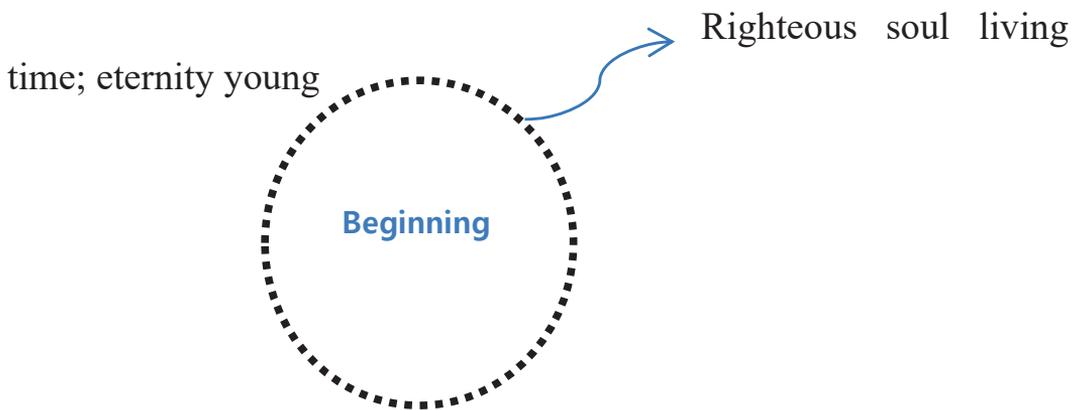

Why try to write “old time and young time”, macro concept world livings are all different living time, righteous soul living time is young time, wicked soul living is old time, mind living is old time also.

Righteous soul living time is

Righteous soul living time is width is  $1/\infty$  X depth is  $\infty =$

0, this time is still living with beginning so that beginning time is

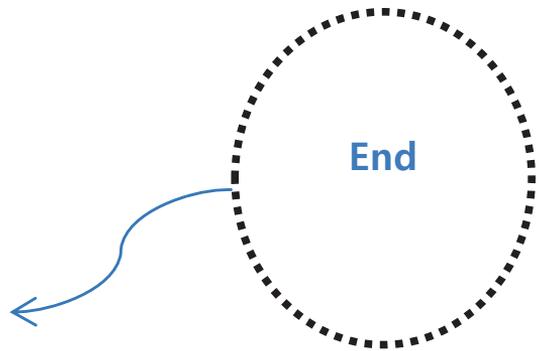

Wicked soul and mind livings time is

Wicked soul and mind level living time is width is  $\infty$  X depth is  $1/\infty$   
= 1

Here is 1 is or about to 1 is near to the closing so that it's time is old

It can be express

Wicked soul, mind living time is old time

Why I try to say this

In the macro concept world living wicked soul living, and mind level living is old time living, so that old time problems; at now happen to in the company key word is inheritance, restructure, retired all of end state keywords are product

But righteous soul of Young time is create knowledge and growing, cutting edge technology of creation of knowledge keyword are creating, here is all is see based on creation near to the beginning. Here is righteous soul young time, it don't have to move, just moving

$$T=s/v$$

S; change of distance

It don't necessary change of distance,  
but here is change of distance  $S=1/\infty$

So that near zero of moving, so that the  
time is young and creation of knowledge

Begging = creation of knowledge

place is  
Righteous soul living in destination

012345678901234567890

from macro to micro  
Here is "0" is from micro to macro,

Then all of micro is relative is "0", here  
is micro concept world righteous soul  
living in destination place is "0"

So then here is beginning is "0"

Beginning = righteous soul living in  
destination place is same =0

Here is also s is also about to zero.

Beginning = righteous soul living in  
destination place=eternity Young

Here is to be living eternity young

Macro concept world living actor to be living

Width =  $1/\infty$  X depth is  $\infty = 0$ , this is important time recognition, so that here is righteous soul living actor is not any getting wider but getting depth.

If righteous soul living depth to the  $\infty$ , in the time and space will be micro concept ( $-1/\infty \sim +1/\infty$ ) will meet righteous soul who livings are all “it shares time with other, help other, but also doing real love other” so that automatically righteous soul can get solution of to be living Young of creation of knowledge.

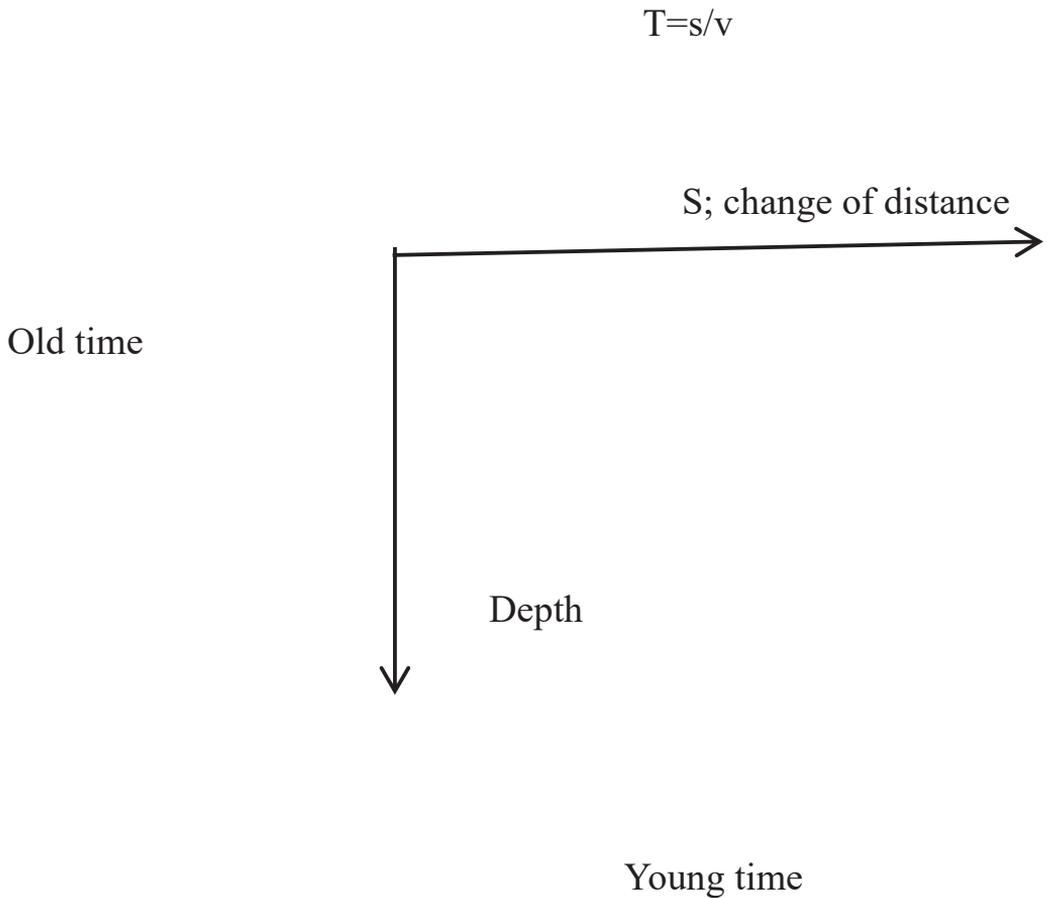

Here is infer that righteous souls are all Young living

Righteous soul living is every moment creation of knowledge

Righteous soul living is young and creation of knowledge excitement living.

Righteous soul living time is eternity Young

# Young time and old time why we have to know

Why we have to know young time and old time

Time is limit to live so then, all of living in the macro concept world,

all living time is not same but a living is young but other living is old, especially in the company, then a company living young and longer but a company is old and no longer living, all of living time is not same.

I'm not physicist or mathematics, but try to do book writing then, this  $T=s/v$ , s: change of distance, v; velocity.

So then  $T=s/v$ , all of time is v is same, but s is difference, if a person living is change of distance is station but just all the time going deeper, deepest then s will be must  $1/\infty$ , but Depth way is must be  $\infty$  then there is no move in the macro concept world, truly move micro concept world, so that here is if then, this living to be moving area is must to be in zero, so that still in the beginning, then it is young, but a person move s; change of distance, is  $\infty$  then automatically depth is  $1/\infty$  then this person area is about to one, so that this person living is around in the 1, so then it is complete all of work, so that this man living is old.

This is urgent to the company, store and try to living longer living then, it must be living required to be young living then, other living and possible longer living is difference which is different is living direction is running to the old and running to the Young,

To the running old is s: change of distance is longer, but to the running Young is s: Change of distance is short but go deeper so called, old runner is not do go deeper, but do not go deeper and runs to old time

direction, but young time living person do live running to the depth so that, this living is not, it don't have to move to the old time direction.

So that vertical depth moving person and company and store is survive young, because of still 100 years company and store is strong loved from consumers, because all of consumer loves 100 years but also, still strong competition to other company.

But also vertical living not move to horizontally so then still living in the about to zero of beginning, but other company runs  $v$ ; velocity, so that all old living horizontal runs company and store or all person at now too old, but there is no here.

Young time is going deeper but also, Young time living is to go deeper then, it is required, micro concept world, this is really important just vertical running is go deeper is the gate to the vertical running is called as micro concept world so then this is  $(-1/\infty \sim +1/\infty)$ , if a company and store is now living in 100 years but also strong living then, this is must be still young living, so that this living is in this book "time and life time" is try to talk that micro concept living helping but also here is micro concept is to be young time so that righteous soul living in destination place time, this time is through micro concept point of gate is  $"-1/\infty \sim +1/\infty"$  this is micro concept world living righteous soul living.

This book now creating how to do, here is comes key world is “Young time, micro concept “ $-1/\infty \sim +1/\infty$ ” and “righteous soul”, this three main keyword is this book will managed.

Truly here is now feeling in excitement, because this book is feeling my first book “micro concept” is directly coming up to me.

Truly young time living is must be being enlighten so that the living righteous soul living, but also the living longer time loved from consumers so then, the company and store products are to be now premium goods, so that this company and store of 100 years living still young living is living righteous soul who is reach at the depth is deepest place, so called that is righteous soul living in destination place living.

If a macro concept world livings do know micro concept world or do not know micro concept world then, do know micro concept world then, the living is in the micro concept world  $-1/\infty \sim +1/\infty$ , but also the living direction is vertical living of depth living, so that the living meet micro concept world righteous soul living in destination place, but do not know that still the living is macro concept world of mind, and wicked soul living then, the livings are not in the micro concept world of “ $-1/\infty \sim +1/\infty$ ” so that they are not runs but to the horizontal living of s; change of distance is huge running so then the place end is disappeared from macro concept world, but also to be micro

concept world destination place is wicked soul living in destination place of is not complete livings in the macro concept world living.

Truly I wrote micro concept book after that I wrote 16 books which is in the amazon through kindle direct publish, but I want to be publish in the normal book, but all of publisher ask me money to be publish so that my living so angry, I felt that book publishers are all master but all I'm salver to them.

So that I must overcome, so I try to find how to do, then, this book writing is now beginning. Righteous soul living time, vertical living time, s: change of distance is  $1/\infty$ , this concept are prepared then, at now righteous soul me, living in righteous soul then, every morning if righteous soul me, hear of broadcasting from righteous soul living in destination place, then, this book creation of knowledge will be added.

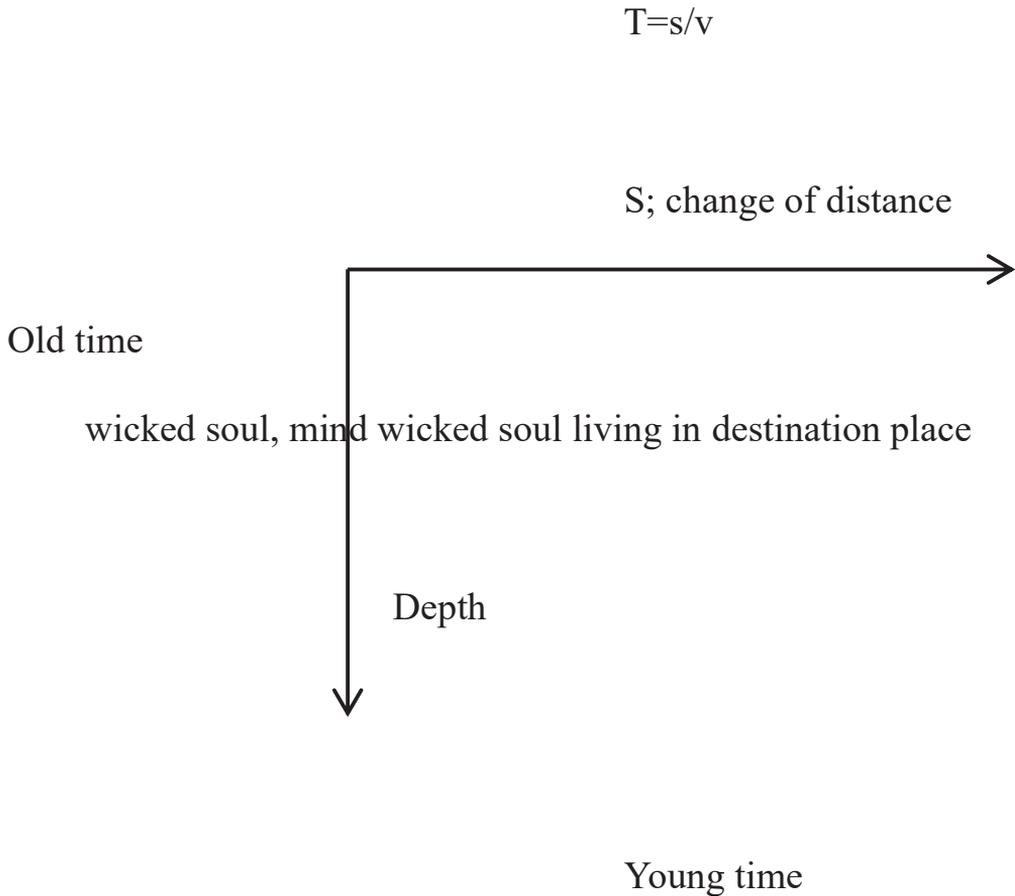

Truly how to get into micro concept world, this is gate is micro concept gate or point is " $-1/\infty \sim +1/\infty$ " this is time and space, this is if want to know much more than, please read book micro concept; seong ju choi. If read this book and read now book writing "time and life time" then, truly know how to live in young, but also longer living, if living in righteous soul, so then at now doing is being to be living righteous soul living.

Righteous soul, micro concept and young time of s; change of

distance  $1/\infty$ , these components are this book creating materials;  
please this book to be safe reach at a conclusion.

# Macro concept world livings Times are difference at now

Macro concept world livings times are not same, but this book to be help under diagram.

In the same time two macro concept livings actors are a same space, then each other time is not same, if all of livings time is same then, beginning and closing is same, but truly a macro concept world living closing to the end is not same, then if all of macro concept world living time is same then, it must be closing to the end time is also same, but real living patterns are not same, even twin living end is not same, so that in the macro concept world time quantity and quality is also is not same.

All of macro concept world living time is

$$T=s/v \quad s: \text{change of distance}$$

So then Time is if S is variance so that each living actors moving is not same, if someone living is moving distance is  $1/\infty$ , then other's is moving to  $\infty$ , then even living time is same what day what time and what minute absolute time is same but as s is not same each other time is not same.

Here is as the s is  $1/\infty$  living is righteous soul living, righteous soul living runs to the righteous soul living in destination place, so that same area to be same area then depth must be  $\infty$ , then here is there moving s is  $1/\infty$  still someone of righteous soul living is at now living in the start, beginning of 0, but if other is s; is  $\infty$  then to be same area with someone then it must be depth is  $1/\infty$  then, this other is

must be  $s$ ; change of distance is must  $\infty$ , in the end other living place is “1” of around of end, this living is livings are wicked souls and mind levels.

So that

Do not move of  $s: 1/\infty$

Do move of  $s:\infty$

These living same area to be that that is living then, if a macro concept world living do not go depth but to be living same as going deeper place living area then, wicked soul and mind living keep runs to the  $s;\infty$ .

But truly all of macro concept world livings same space

All of livings are do not same, all livings are not same, here is  $s: 1/\infty$ ,  
 $\infty$

But these  $1/\infty$  and  $\infty$  difference is combined to multi variable times are showing to us.

Here is important is inferred of true is

Same space time is not same, some macro concept world living actors are living in the “0” but others are to be living in the “1” these micro concept world living is not same, but macro concept world living time is not difference macro concept world living is same, but each other micro concept living time is not same.

It is surprised

I have been thought micro concept world voyage and macro concept world voyage is not same, so that is problems are clear, micro concept world living voyage is vertical living of righteous soul living time is “0” but horizontal living of wicked soul and mind level livings are to be living “1”, this is micro concept world voyage living.

But macro concept world living voyage is not discriminate, because macro concept world living is “mind +body” so that they are living in the macro concept world, so that they time is same, but micro concept world time is not same, so that here is micro concept world time is righteous soul living runs to the righteous soul living is important but also micro concept world wicked soul living in destination place time also micro concept world time.

What is difference macro concept world living end all is not same, this is seen to us

Micro concept world time is righteous soul living time is to the vertical living, but wicked soul and mind level livings time is horizontal direction of time.

So here is appeared up a truth

Time runs direction is also is not same

Righteous soul living time is vertical running direction

Wicked soul and mind living time is horizontal running direction

But macro concept world living time direction is not but same, all livings time is same so that it must be possible macro concept world living all of macro concept world livings are meet each other, so then coincidently micro concept world voyage each micro concept world living time direction is not same, running direction is difference.

Here is this book beginning section then all of conclusion is reach, but I believe that righteous soul living in destination place will do righteous soul living behavior “it shares time with other, help other, but also doing real love other”, so then I depend on hearing broadcasting from righteous soul living in destination place.

Today time is heard from broadcasting from righteous soul living in destination place, so that today saying to me is time direction is not same righteous soul and wicked soul, mind level livings.

Righteous soul living is running to the vertical

Wicked soul living is running to the horizontal

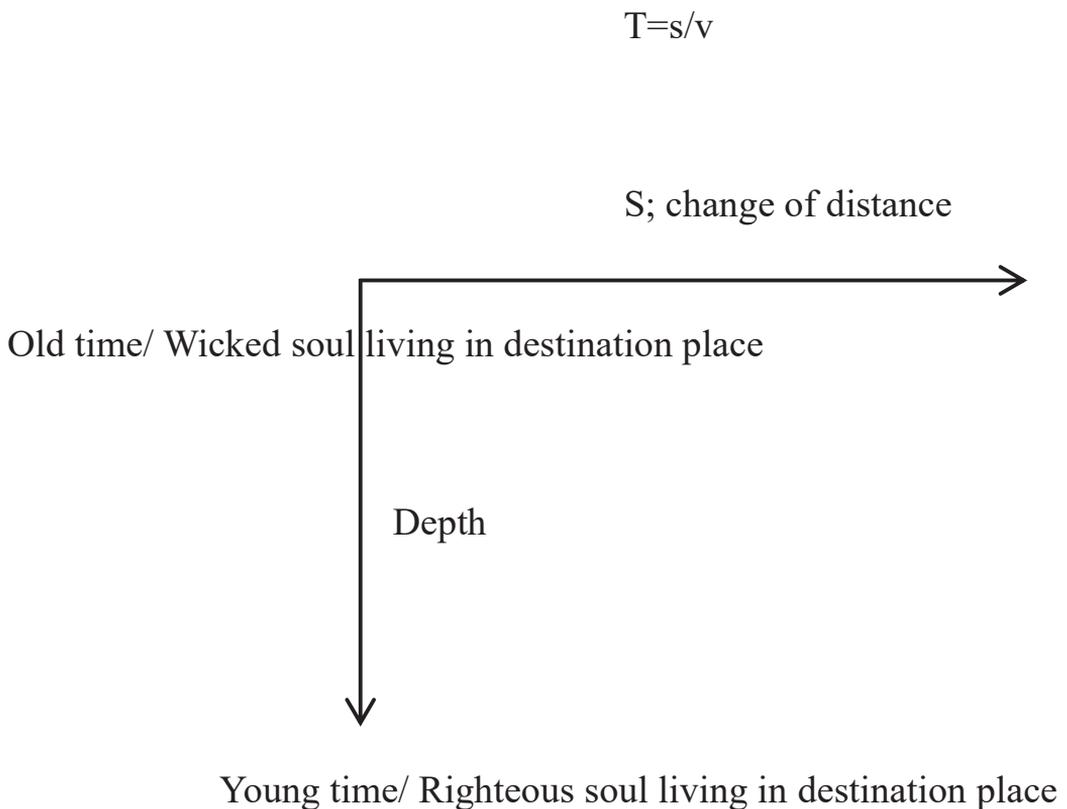

So then righteous soul living in destination place is vertical direction runs to the righteous soul living in destination place

So then wicked soul living in destination place is horizontal direction runs to the wicked soul living in destination place

Truly macro concept world time and micro concept world time is not same, so then micro concept world time voyage and macro concept world time is not same.

Truly I do not know, but only this book is possible how I can hear broadcasting from righteous soul living in destination place.

**Vertical time running is righteous soul living in destination place, horizontal time running is wicked soul living in destination place**

At now, I'm from holidays for one week, so that this book writing is newly beginning

But I felt that safe because this book tools is already getting it.

If  $s$ ; change of distance is not move, so that  $1/\infty$ , then to be living then, it must be same work or same doing something for living, so then without moving a distance then, it must be done, this is running in the direction of vertical of depth time, so called young time.

As the  $s=1/\infty$

$T= 1/\infty/v=1=1/v\infty = 0$ =beginning time, so that the time is young time.

The road of running is to the depth of vertical running, it is do not changed but eternity time of young of young time, I did not know, righteous soul living in destination place is so young while book writing 17 books; micro concept, love engineering, excitement, the poor & righteous soul etc. but this book “time and life time” solve the problems.

Here is vertical time directions are to meet righteous soul living in destination place, but the living is there is no “change of distance” but runs for the depth, so then, this is still “0” of beginning time of young, but the depth destination is righteous soul living in destination, so then righteous souls are all young.

But also this living is do not old, do not end, it is righteous soul living in destination place young time, here is also eternity living also.

But if runs to the horizontal time

Then depth is  $1/\infty$

Truly width is  $\infty$  so then here is reach at the end of horizontal time is 1 finished time, so that here is old time.

A living do not reach at the depth is  $1/\infty$

But these livings also try to do same work and something doing, but they do not do like depth  $\infty$ , so then wicked soul and mind level livings just runs to the horizontal time, so that this living is “wicked soul easy living and to live horizontal same work to the vertical time of working then, wicked soul of “revenge and breaking” is used.

But vertical time running is width of horizontal time is  $1/\infty$ , so that righteous soul livings are only use horizontal width is  $1/\infty=0$ , so that even wicked soul try to live with righteous soul for the purpose “revenge and breaking” but righteous soul living time is vertical so that wicked soul do not do, cannot do revenge and breaking.

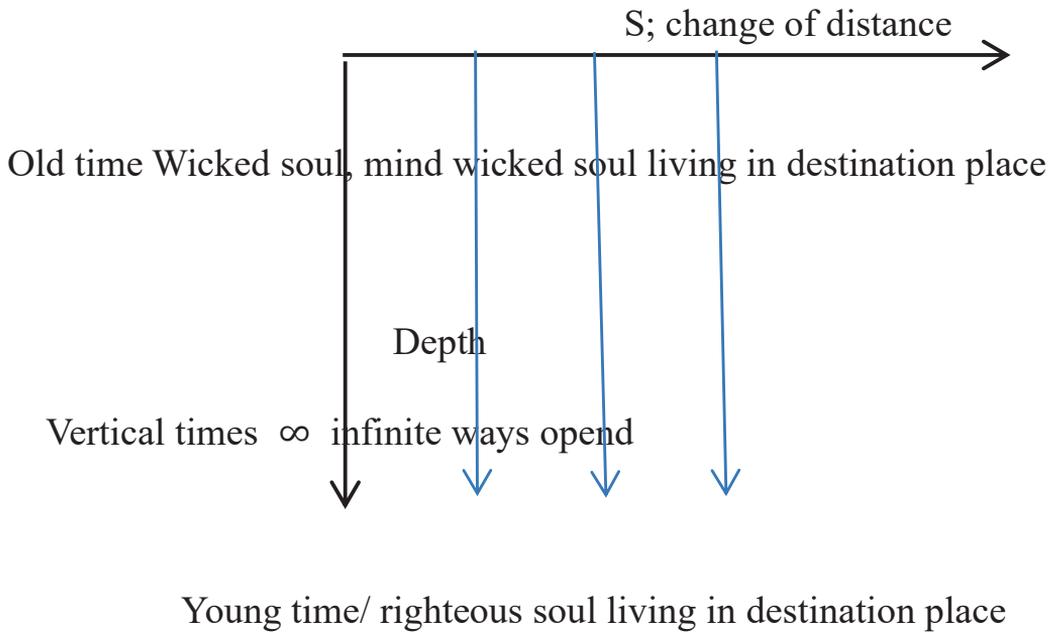

Even in the macro concept world living

Wicked soul living, righteous soul living mixed living but the rime running vertical and horizontal time is not same, even now living in a time and space seen world livings are living but micro concept world then, who is runs to the vertical and horizontal is seen, but macro concept world seen all is same but also, do not know time directions.

So that vertical time and horizontal time is same is this

0123456789, just righteous soul and wicked soul before come to macro concept world, then meet same but after beginning a soul to the horizontal and vertical this is not same time directions. Here is infer that righteous soul living ways are huge  $\infty$ , but horizontal direction time is same,

$$T=s/v$$

Because

Righteous soul must live with wicked soul, righteous soul living mission; righteous soul find lover of wicked soul and doing real love wicked soul and create righteous soul of lover, then righteous soul time direction of vertical time will be opened to the horizontal time with wicked soul of righteous soul livings.

Macro concept world righteous soul living is only doing “real love other” only this mission is macro concept world living tools.

Truly righteous soul living behavior is “it shares time with other, help other but also doing real love other”

At now here is it shares time with other of righteous soul living behavior also rare seen in now living, righteous soul living behavior of first condition is living with other is basic, so then the way to live other is “help other”, but also then other is wicked soul then, keep doing real love and create righteous soul, this is righteous soul doing righteous soul living behavior

How to open vertical time

Who can do living vertical time the living actor is righteous soul livings

Who is righteous soul livings that is living “it shares time with other, help other but also doing real love other”

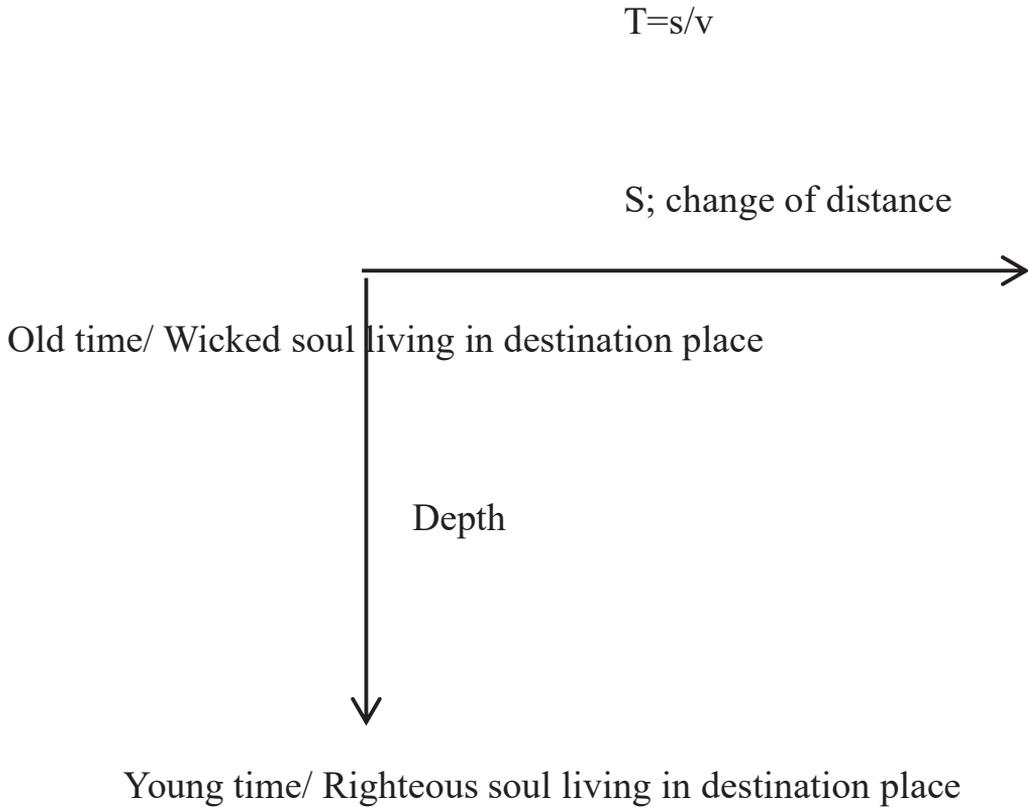

Here is correct answer to live young, is doing righteous soul living behavior, it is simple, then the rich do live righteous soul to the poor, then, the rich can go to the vertical time living, the time is young time, but also the vertical time living actors are all to be living in righteous soul living, so that righteous soul livings, can hear of broadcasting from righteous soul living in destination place, so that the broadcasting is “creation of knowledge” this is make possible righteous soul living live going depth and same working with the runs to the horizontal time directions.

Vertical time directions are all hear of broadcasting from righteous soul living in destination place, so that righteous souls are all hear it, so that righteous souls creation of knowledge is important way to live vertical times, if do not live vertical time then, righteous soul living in the horizontal then, the living is must be righteous soul mission carry but also save wicked soul to righteous soul, but righteous soul living is vertical time, this time is young time.

Righteous souls run to the vertical time, is deeper time, so that this is also feeling in silent and clean clear in excitement this feeling is only righteous soul livings.

If living running time is vertical then, in the of living then it must be reach at safe and the righteous soul macro concept world voyage time has been living to the vertical so that, macro concept world voyage complete, righteous soul living in righteous soul living in destination place eternity in silent and clean clear of excitement.

# Time is used up then I will be disappeared

I do not know time is unit to all persons.

But time is governing all of livings.

If time is fixed with a unit time, then time must be used then consuming time is to be disappeared from me.

So then time is inferring that consuming asset.

After all time how to save, but we do not know time is flow, using do not using time is flow, but here is micro concept world time is not, if righteous soul living behavior “it shared time with other, help other but also doing real love other” then micro concept world time is still living in the beginning of “0”, so then here is macro time is absolute time but micro concept world time is not absolute time, this is same as the righteous soul living time is vertical direction time but also wicked soul living time is horizontal time.

Here is sure if time is used up, then macro concept world living me also to be disappeared from here.

How to save time, if do not use time then, still time is saved, so that time is enough, truly this is vertical living, so called righteous soul living. Here is time and righteous soul then, if righteous soul living time is vertical then, the righteous soul living time is not consuming, so that righteous soul time is saved.

But if do not living in vertical living of horizontal living of wicked soul living time is all time is consuming, because horizontal time direction livings are only wicked soul easy living for this revenge and breaking energy used then, the time consuming is faster.

Here is comes a concept of time consuming, and time saving.

As time using of vertical then the time is not used but micro concept world is still beginning time of “0”, so that vertical time is righteous soul living time is still “zero”, so that righteous soul living time is keeping “it shares time with other, help other but also doing real love” of doing real love, but also urgent living.

But as time using of horizontal time direction living of wicked soul, micro concept world time is end of time “1” so that horizontal time is do not know righteous soul living behavior of “it shares time with other, help other but also doing real love other”.

This is clear of how to live how to come to the righteous soul living in destination place safe returning but also wicked soul how to fall to wicked soul living in destination place.

Here is infer that

Time governing livings are time saving and do righteous soul living behavior time is vertical and still “0” beginning time of young time, then righteous soul do mission clear time is enough, righteous soul living time is beginning time is “mind= $1/\infty$ ” so that righteous soul activation not to be revenge and breaking by wicked soul righteous soul living is “the poor & righteous soul”, righteous soul keep runs to the vertical time, as the distance from wicked soul, so that righteous soul runs still vertical time “righteous soul & nothing”, but also righteous soul meet a wicked soul lover to do real love wicked soul

of lover, and then righteous soul create wicked soul to righteous soul, this is mission clear, and then safe returning to the righteous soul living in destination place, this is still beginning of young time of righteous soul living vertical time, this is do not use of time and righteous soul macro concept world voyage complete.

But righteous time is still “0” of beginning of young time, so that righteous soul do not used time and still time is because righteous soul living time is vertical time living. So that time is enough all of righteous souls mission in the macro concept world but also safe returning to the righteous soul living in destination place.

Infer that righteous time is using then

Righteous soul mission in the macro concept world, meet a lover of wicked soul and do real love wicked soul to create righteous soul, this time will be used time with same wicked soul time using, so then, righteous soul living also dangerous with a lover of wicked soul, this is righteous souls charity living, righteous dangerous if fallen to the wicked soul living of horizontal living, I do not know it must be inferring that huge livings are in the macro concept world fallen with righteous soul macro concept world mission carry then, the dangerous time meet a wicked souls, so that even righteous soul also used horizontal time direction.

Time is used up then I will be disappeared

Here is infer that all of livings in the macro concept world time is asset all of person living, if do not know time saving, then all of time

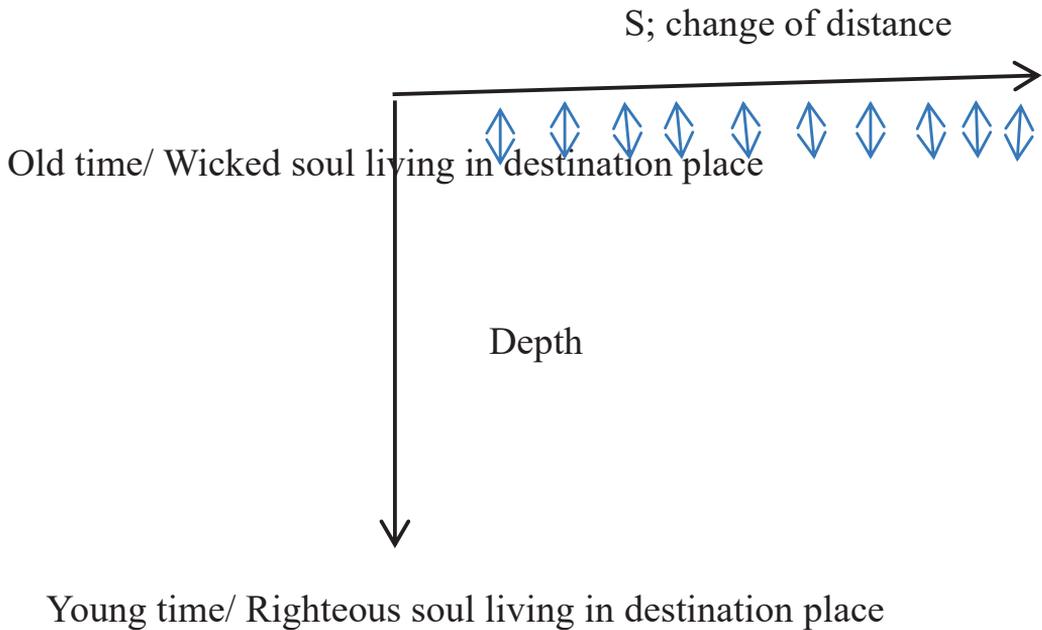

consuming with vertical direction time used, if a person in the macro concept world living time consuming is fast then, if a given time is macro concept world living absolute time is 100 years, as the time consuming is so fast, so that macro concept world time is not reached at it, earlier to be disappeared.

I do not know, if a righteous soul living voyage in the macro concept world is zigzag also, vertical time of save time and horizontal time of consuming time, infer that most macro concept world livings are some of time save and other is time consuming.

So that as the time saving time of vertical time is righteous soul living behavior “it shares time with other, help other but also doing real love other”, this is righteous soul livings, but also this is also living for other, just like other is wicked souls and mind level but also rare of righteous souls.

Infer of

$$T=s/v$$

Here is time saving is living in righteous soul living of righteous soul living behavior then this time can be explained by “0101010101.....” here is “0” is time saving “1” is time consuming, so that someone living must be like “0000010000110000...” this living is time is saved time living, but “1111101111011” livings are do not time save living so then, this living is most time living old time living, but other is time is most time is using young time living.

Here is even infer that time concept is appeared, macro concept world personal living is not same, even twin living is not same, even beginning is same but end time is not same, so then here is infer that, how to live is time direction living is a righteous time is vertical time, wicked soul living is horizontal time.

Truly

How to all to be macro concept world living actor

Do live pure of “000000000000....” Of vertical time but righteous soul livings time infer that all time is vertical time of “000000000....” this actor will be safe returning to the righteous soul living in destination place.

Who will decision 01 difference is

Cosmos law court

All of macro concept world livings

Breath with coincidence decide and doing and cosmos law decide “0” of vertical time using or “1” of horizontal time, strange this is not volition of will but this is doing itself, so then if living in “0” is then righteous soul keep hearing broadcasting from righteous soul, so that decision using is “creation of knowledge” then, the righteous soul living is “0”, but wicked soul living do use old knowledge so that the decision is not righteous way wicked soul living way so that “1” old time.

Infer that

Righteous soul living of “it shares time with other, help other and doing real love other” this living is vertical time direction living, but do not know living of righteous soul living then, the living all horizontal living direction time using.

Time is used up then I will be disappeared

All of time is unit, but how to time use is decide

If a person living is righteous soul living behavior then the living time is vertical but if s person living is wicked soul living then directly the time is horizontal living direction time using.

Here is all time using also macro concept world livings decision, so that macro concept world living vertical living of “0” living or do not living of righteous soul living “1” old time, this is all by one self-decisions.

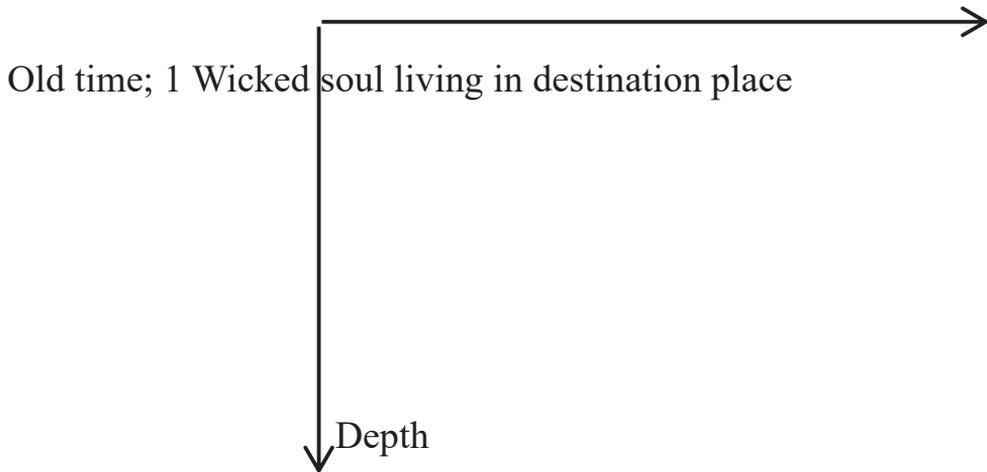

Here is sure of important creation of knowledge is

Time is used up then I will be disappeared, so that righteous souls are huge number of time used up so that righteous souls are disappeared from macro concept world.

# Young time is “0” old time is “1”

$$T=s/v$$

S; change of distance

Young time; 0 Righteous soul living in destination place

Young time is “0”, old time is “1”

This creation of knowledge I hear on today broadcasting from

righteous soul living in destination place.

Here is young time “0”

Macro concept world living recognition of width is  $1/\infty=0$  X micro concept world recognition of depth is  $1/\infty$

So then width is  $1/\infty=0$  X depth  $1/\infty = 0$ , so that Young time 0, vertical time direction is also 0.

Here is old time “1”

Macro concept world recognition of width is  $\infty$  X micro concept recognition of depth is  $1/\infty$

So then width is  $\infty$  X depth  $1/\infty = 1$ , so that old time 1, horizontal time is also 1

In conclusion

0: young time it is beginning time

1: old time it is end time.

Macro concept world livings are all to be same time of absolute time

But in the micro concept world of time is all is not same,

Micro concept world time is time is save and time consuming is recognition

Micro concept world recognition time is

Truly infer that righteous soul living actor direction time is vertical time, but also vertical depth of  $\infty$ , in the place righteous soul living in destination place, so that in the place time is Young time.

But truly infer that wicked soul living actor direction time is horizontal time, but also horizontal width is  $\infty$ , in the place wicked soul living in destination place , so that the place time is old time.

Until now book 17 writing I did not know

Wicked soul living in destination place time is old time, so that from past origin of wicked soul livings are all getting sick and old wicked souls livings

Righteous soul livings in destination place time are young time, so that righteous souls living in destination righteous soul livings are all young and health souls.

It is so being startled all of a sudden creation of knowledge

Wicked soul living time of horizontal time of “1” is old time of getting sick and old wicked souls livings

Righteous soul living time of vertical time is “0” of young time and health soul livings

Here is “0” is vertical time and righteous soul living destination place time

Here is “1” is horizontal time and wicked soul living destination place time

Here is “0” is righteous soul living behavior “it shares time with other, help other, but also doing real love other” this time is correct vertical time of there is no any time consuming but time is saved, even used time for the righteous soul living behavior but truly any time is used, so that time is still “0”

But here is “1” is wicked soul living behavior to be wicked soul easy living , using revenge and breaking of wicked soul living behavior, this time is keep time using time, time consuming time so that time is real used so “1” of runs to the wicked soul living in destination place.

In the macro concept world livings

Here is each persons are here is also infer that

a person living is sometimes living as the righteous soul living behavior of “it shares time with other, help other but also doing real love other”, but the other time is out of righteous soul living but easy living of wicked soul living, in this case a person time is must be express as if live in righteous soul is doing not consuming time is “0”, but out of righteous soul living, then wicked soul living time is “1”.

So that in the macro concept world living time is can be express as “0101010101” or “000001000” but the other is “1111101111” these variable person time is express, this is seen in the micro concept world livings, so that all of macro concept world persons time is difference.

So then

A macro concept world living is runs time direction is vertical of righteous soul livings behavior then “ it shares time with other, help other, but also doing real love other” then infer of righteous soul living so that the time is “00000000000” it will be safe returning to the righteous soul living in destination place.

A macro concept world living is running time direction is horizontal of wicked soul living behavior then, do living easy living then, just revenge and breaking behavior then wicked soul living a person time is “11111111” so that automatically a wicked soul of horizontal time

of old living is consuming time, so that fall to wicked soul living in destination place.

Here is righteous soul living “00000000” is truly a person originality unit time is not used so that the righteous soul living is enough all of macro concept world righteous soul mission carry complete so that safe returning to the righteous soul living in destination place comeback from macro concept world voyage.

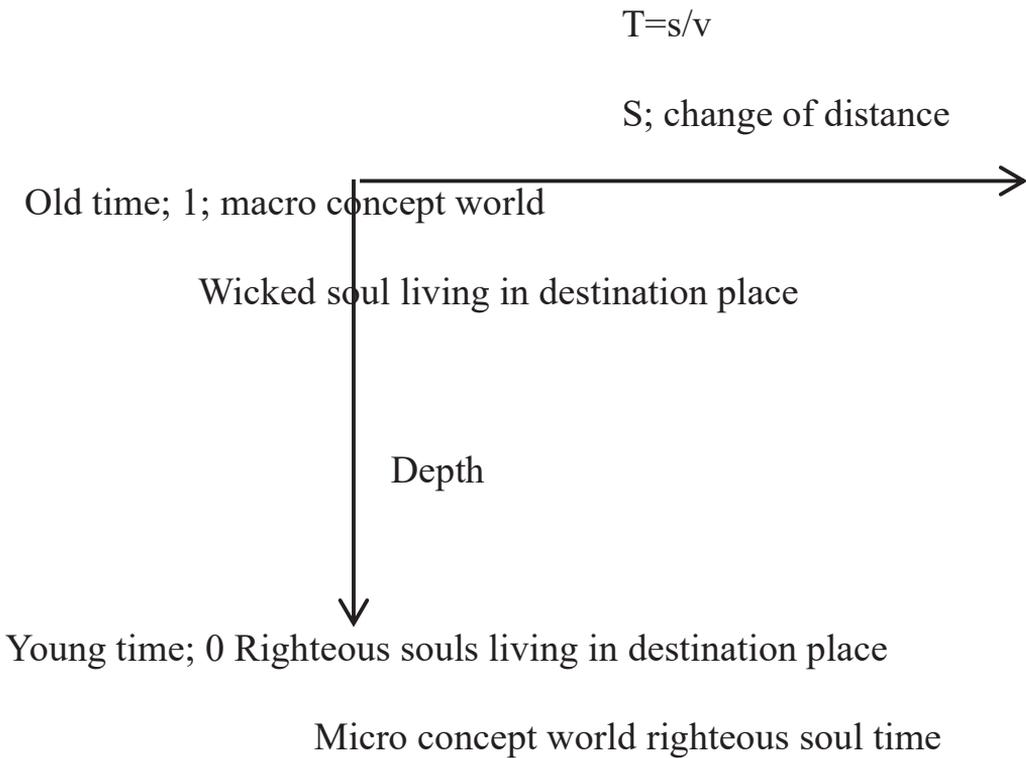

But wicked soul living time “11111111” truly a person originality unit time is full used so that time consuming Is not regular but irregular, some wicked soul will used all time in a second time, but wicked soul slow consuming time, so that as wicked soul time consuming is difference but here original unit time consuming is very fast, fast runout, so then wicked soul do not know time saving of “0” living of “it shares time with other, help other but also doing real love other”, then wicked soul horizontal time, the wicked soul original purpose of change in the macro concept world which is mixing living righteous soul and wicked soul, but truly micro concept world is not, but macro concept world mixed with righteous soul, so then, as righteous soul select lover of wicked soul, so that righteous soul’s doing real love wicked soul, so that in the end of wicked soul voyage also to be changed into righteous soul, this is wicked soul living opportunity, but if wicked soul living of horizontal time consuming fully then, wicked soul lost chance to be righteous soul living of young time of healthy eternity living of righteous soul living in destination place remaining with righteous soul of lover.

Young time is “0” old time is “1”

This is power of book of “time and life time”, until I’m helped from righteous souls and righteous soul creator, I’m just depend on righteous soul creator helping me, this book to be complete for macro concept world righteous soul food, so that I’m a righteous soul’s food supplier.

**Macro concept world OLD time, micro concept world  
righteous soul YOUNG time**

Young time is “0”: micro concept world righteous soul time, old time is “1” mind level and wicked soul living of macro concept world time

Until now book writing 17 books, but I did not know micro concept world righteous soul time and macro concept world time.

So then, here is

Horizontal time is old time, 1; macro concept world time runs to the wicked soul living in destination place

Vertical time is young time, 0, micro concept world time runs to the righteous soul living in destination place

Macro concept world living times are two, vertical time direction and horizontal time direction.

Horizontal time is macro concept world living is wicked soul living of easy living using “revenge and breaking energy using”, and mind level of getting much more than other of doing not know righteous soul living behavior

Vertical time is micro concept world living is righteous soul living time of “it shares time with other, help other but also doing real love other”

So then here is a person in the macro concept world

Living in wicked soul living and mind level time is horizontal time, so then the living time is “1111111111” but living in righteous soul living time is “0000000000” then it must be infer here is macro concept world living of wicked soul and mind level livings time is

consuming of used time, and micro concept world of righteous soul living time is do not consuming time of saving time.

What is difference horizontal time of “111111111” is consuming time, but vertical time “0000000” is not consuming but saving time, is horizontal time is consuming time so that there is end time of old time but vertical time is not consuming, but saving time so that there is still beginning time of young time.

Here is macro concept world time is consuming time but micro concept of righteous soul time is not consuming but saving time.

Here is infer that vertical direction time is young time, but horizontal time direction is old time, it is coming up of world is macro concept world time is old, micro concept time is young, macro concept world time is old, so that wicked soul, mind level livings time is old, this living destination place is wicked soul living in destination place, this is macro concept world voyage is not complete in the time of voyage then wicked soul and mind level living time is all used up, so that there is no time macro concept world then, without time is impossible living in the macro concept world.

But infer of vertical time is do not consuming time of saving time, so that you time of righteous souls time is doing not consuming but saving so that, righteous time is still begging, righteous soul can do possible in the macro concept world voyage mission “ righteous soul

meet wicked soul lover then doing real love lover of wicked soul, then create lover of wicked soul to righteous soul, this time is so dangerous and hard time, but do complete righteous soul living in the macro concept world mission clear.

Then still do righteous soul living behavior righteous soul time keep saving time, but wicked soul of lover time is all used up, so then, righteous soul living behavior so that “it shares time with other, help other but also doing real love other”, oh here is righteous soul me know that how to “time” here is righteous soul living behavior first is “it shares time with other” this is this, righteous soul living of vertical time direction living saving time, but horizontal time lover of wicked soul time is consuming time, so then righteous soul vertical time and lover of wicked soul horizontal time meet, is still wicked soul of lover time is consuming, but righteous soul time is saving, so that righteous soul meet lover of wicked soul, so then, it must be living “0101010101” time, then righteous soul so hard time and dangerous time but righteous soul meet wicked soul, and do create wicked soul to be righteous soul, this is so hard time, so that righteous soul vertical time and wicked soul horizontal time meet, in the end righteous soul save wicked soul of lover, then righteous soul mission clear. Here is as the mission clear then, righteous soul and lover of righteous soul time is in the vertical direction so that righteous soul living voyage complete then the time is “0000000000” this is righteous soul living in destination place.

“Macro concept world OLD time, micro concept world righteous soul

YOUNG time” today is surprised that, but while toilet comes to me, I heard broadcasting from righteous soul living in destination place, micro concept world righteous soul time and macro concept world wicked soul and mind level time is not same, so that surprised to me, truly this book hold, because book of “love engineering” is published then, the other book “micro concept” publish problems are so hard to me, so that righteous soul me, there is no in the silent and clean clear time.

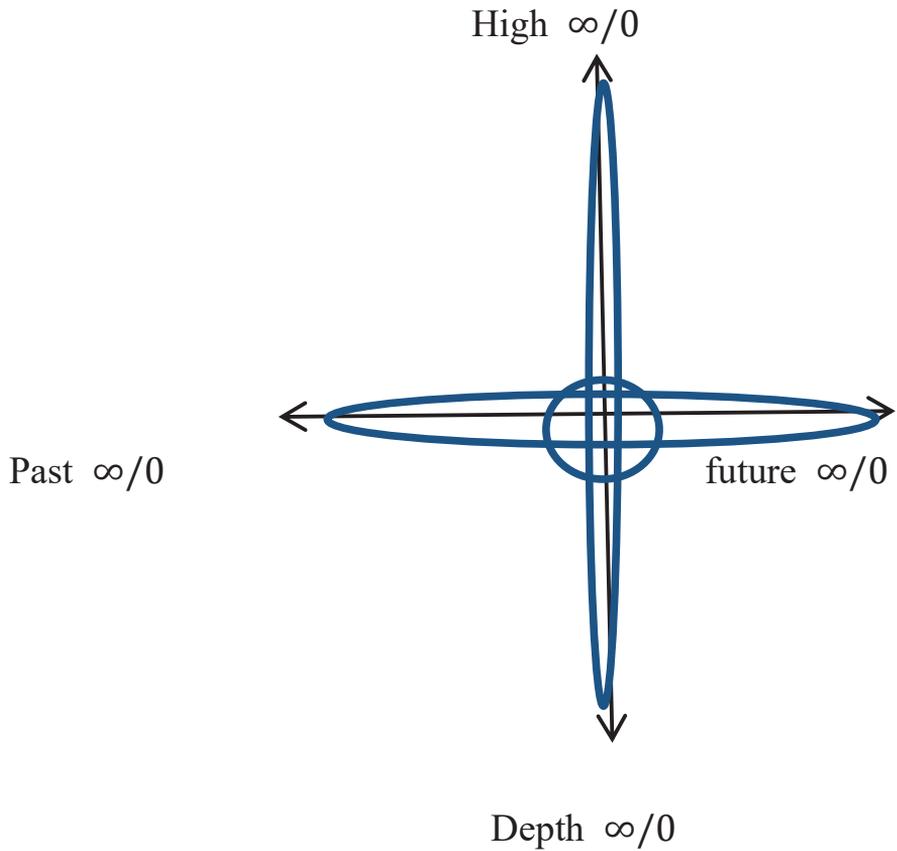

Every cases, if meet book publishers then, I felt so hard because book publishers are now know “mind level, wicked soul and righteous soul” so book publishers are strong macro concept world living, they all sued the mind level of “getting much more than other” but also “ doing easy living by using revenge and breaking energy”, so that righteous soul me meet them, it is so hard, so that several days I did not do book writing, then on today I to be helped from other righteous soul, other righteous soul living behavior to me” other righteous soul shares time with me, help me, and doing real love me” so that, righteous soul survive and activation so that righteous soul me hear broadcasting from righteous soul living in destination place, this is so excitement to me.

Here is beginning “Time and life time; Macro concept world OLD time, micro concept world righteous soul YOUNG time” this book still going, it is real excitement to me.

Truly all of book writing helping from other of righteous souls, whose are now living in righteous soul living in destination place, they are all complete macro concept world living mission so that righteous souls are stay young time in the righteous soul living in destination place, automatically in the righteous soul living in destination place time is “00000000000000000000” so that righteous soul living in destination place time is young time, here in the living of righteous soul staying living souls are all young, love engineering and all book saying that as righteous soul macro concept world mission “righteous soul meet wicked soul of lover then do real love wicked soul and create lover of righteous soul then safe come back” so at now today help me, to do book write again is correct, complete macro concept world voyage righteous soul did, how righteous soul lovers, macro concept world saying husband wife now in the micro concept world living is excitement young time in the righteous soul living in destination place.

I’m still helped from righteous soul livings, truly this creation of knowledge is all from helping righteous souls, please this creation of knowledge used by macro concept world, wicked soul and mind level livings, so they must be saved from lover of righteous souls, but also all of righteous soul to survive from wicked soul “revenge and breaking”, righteous souls are now rare but this book will help righteous soul activation, righteous soul is simple if do living in righteous soul living behavior “it shares time with other, help other but also doing real love other” this living is righteous soul living, but also this living is vertical time direction living, so then righteous soul living of vertical time living is living in excitement living.

**By accidently come to me past future high depth,  
after see here is time definition of infer**

By accidently I hear broadcasting from righteous soul living in destination place, this image is come to me, this image what tell to

me, do not know, but I will see depth, it must be it comes to me some of secret to me,

Past  $\frac{\infty}{0}$  and future  $\infty/0 =$  in the same orbit

The same as high  $\infty/0$  and depth  $\infty/0 =$  in the same orbit

It must be infer that

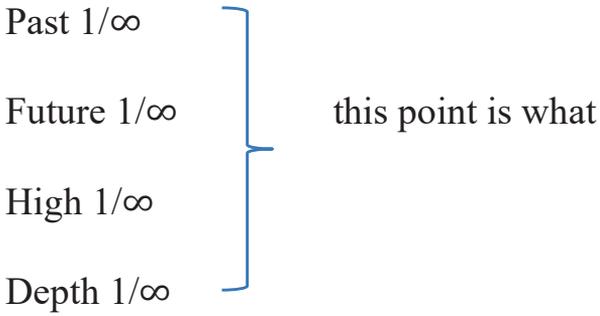

Past  $\infty/0 =$  future  $\infty/0 =$  same

High  $\infty/0 =$  depth  $\infty/0 =$  same

This is what tries to say to me?

But this equation comes to me, what is relative with Time, this book “time and life time” at now I do not know but it comes by accidently, it must be excitement fruit to the time and life time.

Center circle is what has center circle is meet as a point

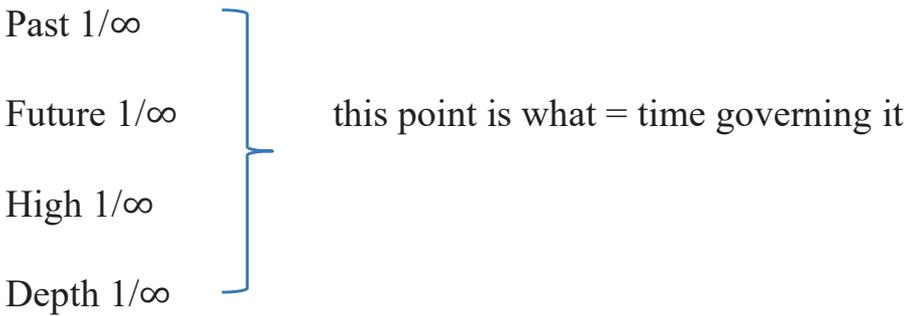

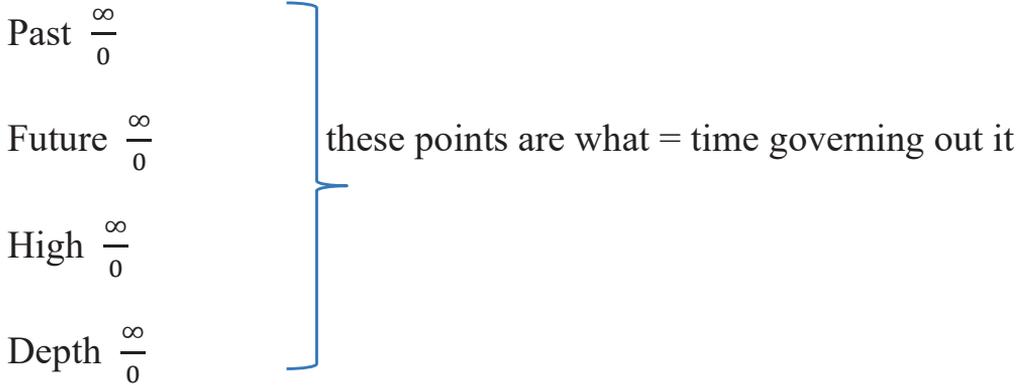

This is infer that to be now living as time is governing

A livings recognition time governing time and space?

Space also by time governing object,

If time governing is not, then it must be out of

This is infer

So then here is infer that time is compose of past  $1/\infty +$  future  $1/\infty +$  high  $1/\infty +$  depth  $1/\infty =$  time governing so that it is called as time, because time is center circle is recognition so then all past future high depth all to one point this is time governing, this is time, convergence is time also.

Here is macro concept world livings are to be living within time governing.

But past  $\frac{\infty}{0} +$  future  $\infty/0 +$  high  $\infty/0 +$  depth  $\infty/0 =$  time governing out= this is out of time, so called here is macro concept world livings are to be disappeared

All of this is based on infer

Even this is infer but

Here is time governing and out of time so that, in time is time governing, then here is macro concept world livings are here, but out of time governing then, here is macro concept world livings all to be disappeared.

Time is time governing

Here is all infer

Time is

“Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time”

Here one is to be being out of  $1/\infty$ , then moment the it feel time governing is out so that it must be disappeared.

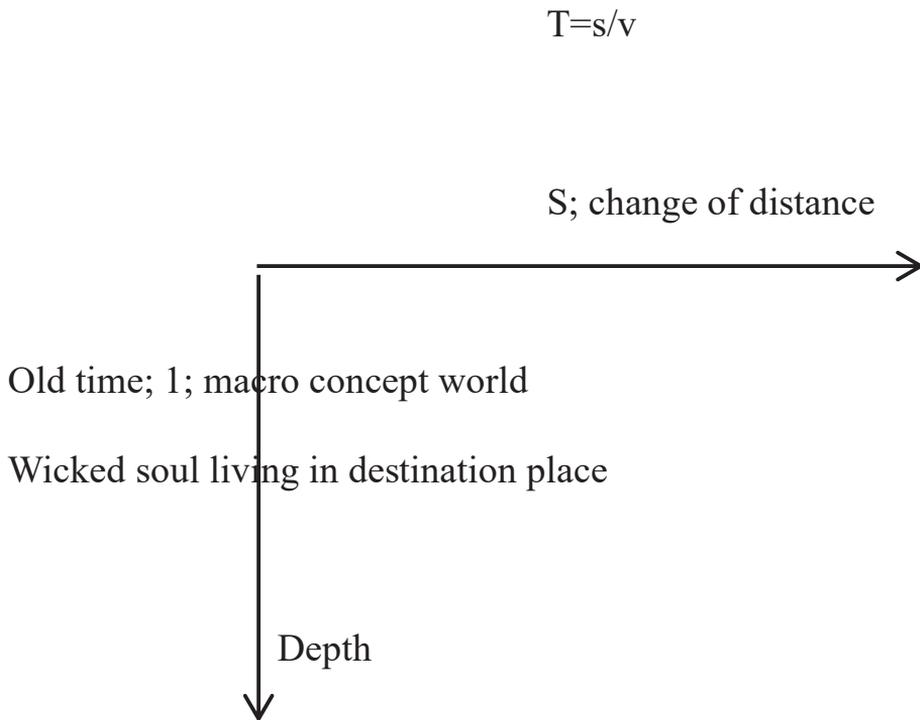

So that

"Past  $1/\infty$  + future  $1/\infty$  + high  $1/\infty$  + depth  $1/\infty$  = time" = just one point this is same all past, future, high depth is same, so that time is infer that Past  $1/\infty$ , future  $1/\infty$ , high  $1/\infty$ , depth  $1/\infty$ .

Here is comes why this is comes to me

Until now I do not know.

This is must be correlative

Young time; 0 Righteous souls living in destination place

Micro concept world righteous soul time

On today I do not know but here is

Even this is happening by accident this concept comes to me.

But this is how to relative to philosophical concept but I hear broadcasting from righteous soul living in destination place.

This book name is “time and life time” so that comes time definition

How I definition time, I’m not scientist but also I’m not philosopher but here is infer this is meaning or not but I will free book writing, this is meaning or not, because I have no responsibility define the time, but in this book is fiction or none fiction I don’t care, while time and life time book writing by accidently come this result.

I do not know, this concept carry this book

But here is extraordinary concept appeared here book.

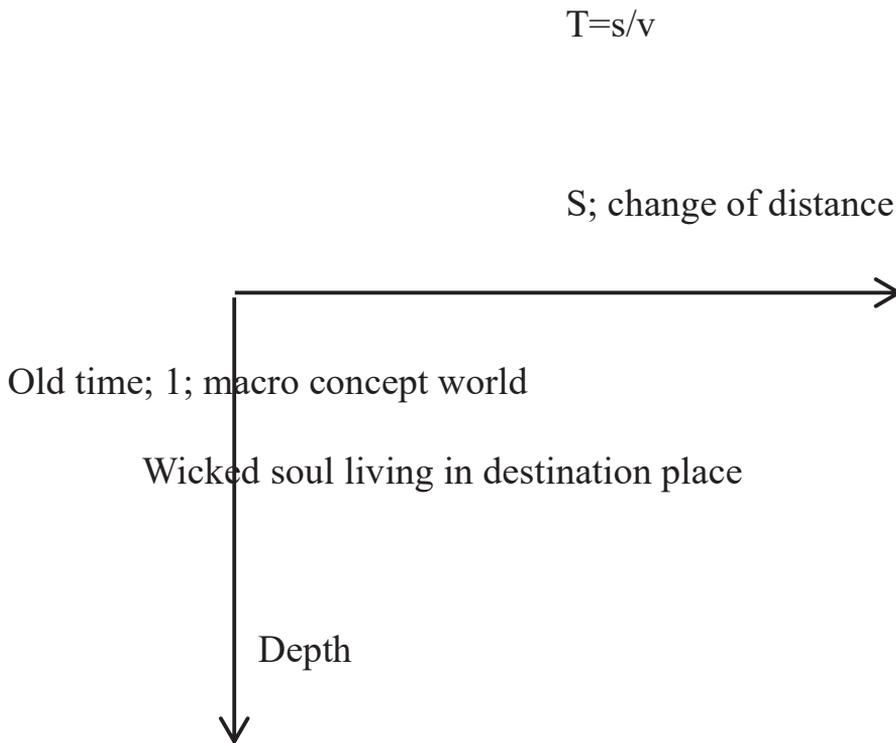

This book now going, this book will go to this book terminal of destination place.

Uncertainty is all to be infer in this book, so that this book concept not to be scientifically fight, this is fiction and nonfiction is mixed, because I do not know, but I have to go for this book writing.

# How to live in Young time forever?

How to live in young time forever?

Truly this is impossible in the macro concept world why?

Young time; 0 Righteous souls living in destination place

Micro concept world righteous soul time

In the macro concept world, all to be living in the same time, all to be living from young to old, this is living.

Even though, in the macro concept world living creature try to live in young, but all reach at the old and disappeared from macro concept world, it maybe infer that if macro concept world keep living young without old then, macro concept world space to be full of young creature so that macro concept world to be old is designed this is cleaning the macro concept world automatically.

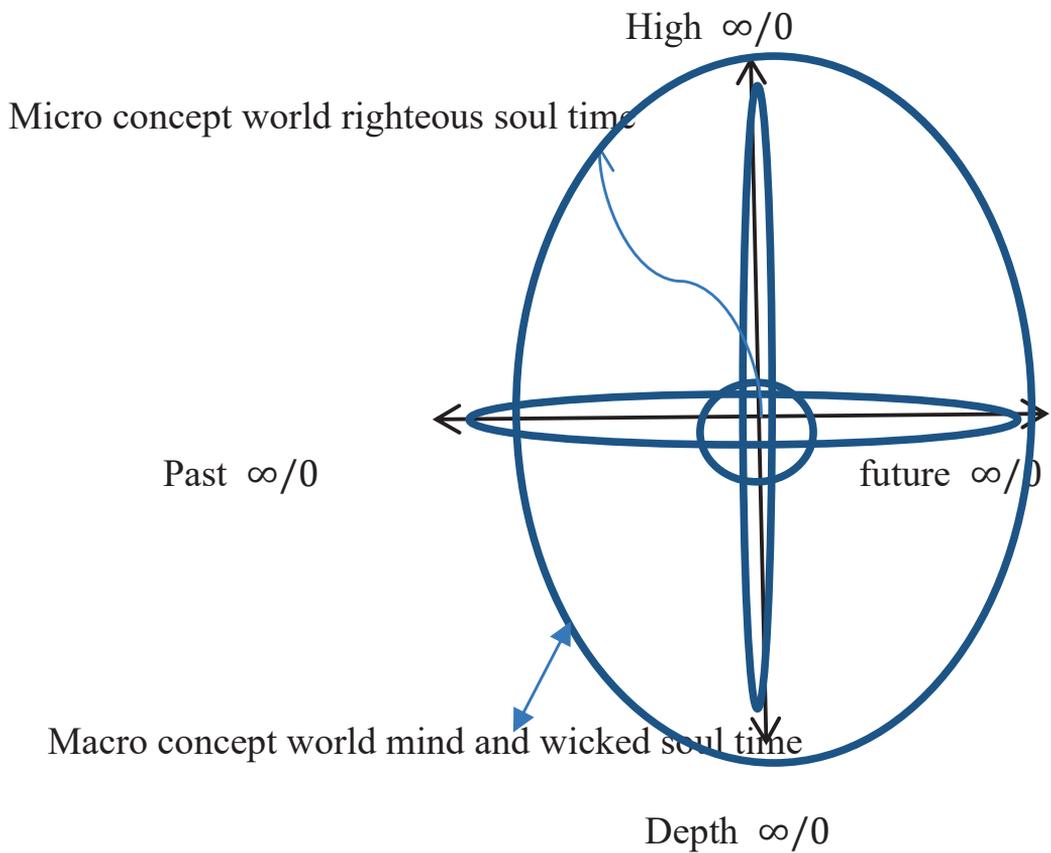

Why in the macro concept world all to be old and disappeared? All of livings to be old then disappeared why try living in time governing time, here is macro concept world time horizontal time living actors are to be disappeared from macro concept world, this time is macro concept world time.

Strangely is not creature but just community all macro concept world living actors community also to be adopt, young to old, such as company and countries and stores, what is changed then these organization from young to old, this organization is not a creature but community of actor and systems this is also to be old then, in the macro concept world to be disappeared.

In the macro concept world living all of livings and community of countries and companies and stores etc. all to be old then being disappeared why to be disappeared time governing.

What is problems creature and all organization to be young, it is

strange human being to be old then to be disappeared from macro concept world, but why organization to be old, because the company and countries and stores are still input and birth new human beings but still these organization to be disappeared.

By accidently get this image is time governing time, is center of

"Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time" as time strong governing is compared is young time, but

Past  $\infty/0$ + future  $\infty/0$ +high $\infty/0$  + depth  $\infty/0$ = time governing out= this is out of time, so called here is macro concept world livings are to be disappeared old time.

Here is

"Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time" and vertical time micro concept world righteous soul time young time.

But  $\infty/0$ + future  $\infty/0$ +high $\infty/0$  + depth  $\infty/0$ = time governing out is macro concept old time mind level and wicked soul living old time.

Time governing of "Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time" small circle is micro concept word righteous soul of young time governing, strong time governing, but

Time governing to out of time governing of

Past  $\infty/0$ + future  $\infty/0$ +high $\infty/0$  + depth  $\infty/0$ = time governing out lager circle is macro concept world wicked soul of old time governing, to be possible out of time governing.

How to live in young time forever?

Truly this is impossible in the macro concept world why?

How to live in young time forever is

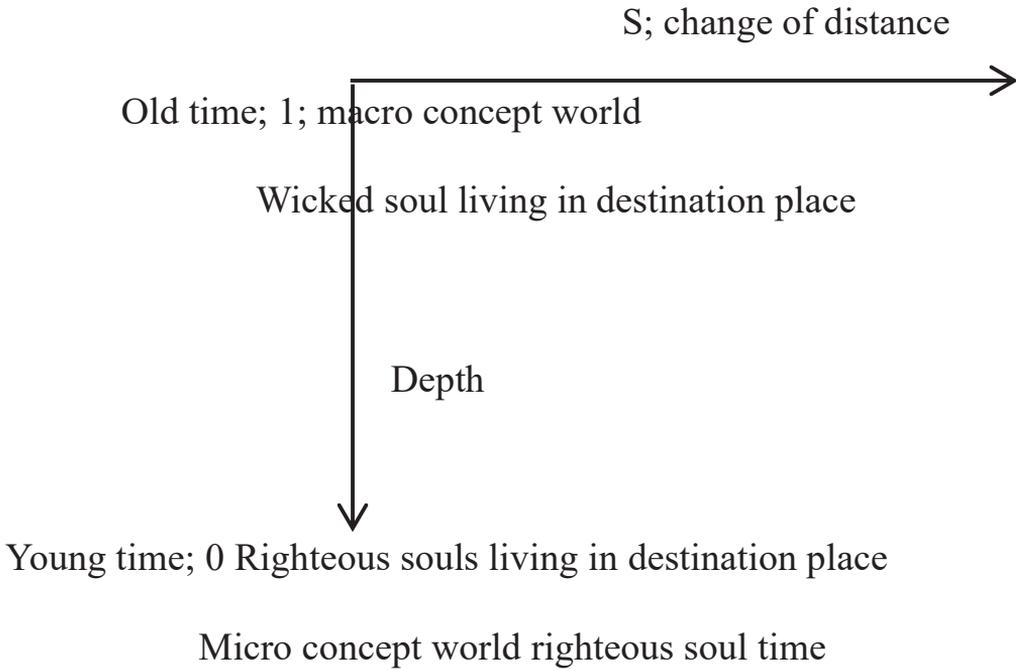

To be living in

Time governing of “Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time”  
small circle is micro concept word righteous soul of young time  
governing, strong time governing

If living “Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time” then in  
the macro concept world and micro concept world both world living  
is possible to live time governing young time.

This is

$$T=s/v$$

As same as

“Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time” = vertical time  
young time “0” Righteous soul living in destination place if living,  
micro concept world righteous soul time, righteous soul living in

destination place.

Truly this is impossible in the macro concept world why?

In the macro concept world time is

Past  $\infty/0$ + future  $\infty/0$ +high $\infty/0$  + depth  $\infty/0$ = time governing out lager circle is macro concept world wicked soul of old time governing, to be possible out of time governing. This is from young to old, so that this is horizontal time, old time “1” macro concept world wicked soul living in destination place

Truly macro concept world livings are all to be from young to old, so that all of creature and organizations of community also to be governing horizontal time of from young time to old time, so that macro concept world, creature of livings and non-creature of organization and community of countries and companies and stores all of community also to be governing from young to old and in the end disappeared from macro concept world.

Macro concept world time is

From

"Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time"

Plus Past  $\infty/0$ + future  $\infty/0$ +high $\infty/0$  + depth  $\infty/0$ = time governing out

This is macro concept world time governing.

Truly macro concept world time is 0123456789 and destination place to be wicked soul living in destination place of horizontal time running.

But micro concept world righteous soul time governing is

Micro concept world time is 01234567890 and destination place is to be righteous soul living in destination place of vertical time running.

Here is "Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time" = "0"=  
micro concept world young time

Past  $\infty/0$ + future  $\infty/0$ +high $\infty/0$  + depth  $\infty/0$ = time governing out  
="123456789" macro concept world old time

So that macro concept world time runs to old time, but micro concept world time runs to the young time.

Vertical time is righteous soul of "0" but horizontal time is wicked soul of "1" so that

Why

Truly this is impossible in the macro concept world why?

Because macro concept world livings are all combined micro and macro concept world living

Here is “Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time” = “0”=  
micro concept world young time

Past  $\infty/0$ + future  $\infty/0$ +high $\infty/0$  + depth  $\infty/0$ = time governing out  
=”123456789” macro concept world old time

Macro concept world livings are most runs to the horizontal time direction living, so that in this living is “0123456789”

Here is “Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time” = “0”=  
micro concept world young time +

Past  $\infty/0$ + future  $\infty/0$ +high $\infty/0$  + depth  $\infty/0$ = time governing out  
=”123456789” macro concept world old time =

0123456789 to wicked soul living in destination place of macro concept world to be living out of disappeared.

If living “01234567890” this living is micro concept righteous soul living here is time direction is vertical and the living is keep young time, and

“Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time” = “0”= micro concept world young time

If a righteous soul runs to the vertical time direction then, in the reach at the righteous soul living in destination place but also the living is young time governing this living is “01234567890”

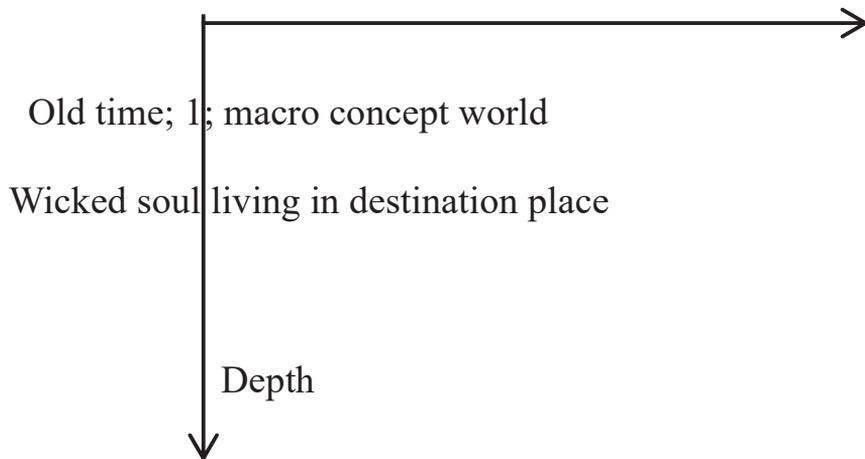

Still righteous soul living time is

Begging time of “0” =“Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time” = “0” + end time of “0”=“Past  $1/\infty$ + future  $1/\infty$ +high $1/\infty$ + depth $1/\infty$ = time” = “0” so that this living is righteous soul living and this time strong governing of Young time. In the end righteous soul living in destination place living s Young time governing.

# Vacant space is “0” young time and full space”1” old time

$$T=s/v$$

S; change of distance

Young time; 0 Righteous souls living in destination place

Micro concept world righteous soul time

Last night early morning sleeping time tried to talk to me righteous soul living in broadcasting.

Truly I do not know how to today my book writing will go, but today book writing topic is this, and truly there is no way, but I have to get before book writing image then see it how to do today book is this book writing way.

Then

Vacant space is “0” then it must be in image, then young time and vertical time direction

Full space is “1” then it must be in image, then old time and horizontal directions.

Vacant space is to be silent and clean clear of righteous soul livings

But full space is to be loudly and dirty of wicked soul livings

So then, here infer of a concept getting

Vacant space righteous soul

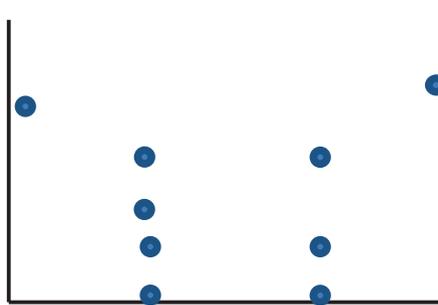

Full space is wicked soul

Righteous soul hear broadcasting from righteous soul living in destination place, that is creation of knowledge

But wicked soul does not hear broadcasting from righteous soul living

in destination place, so that wicked soul depends on old knowledge.

Righteous soul vacant space is

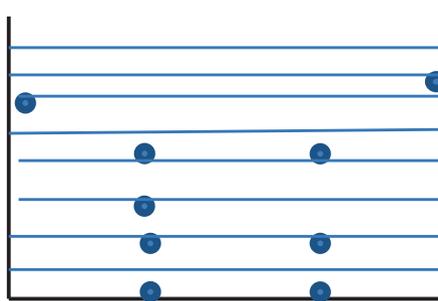

This is righteous soul vacant of righteous soul of space can hear broadcasting image, so that righteous soul bring creation of knowledge.

These points are supplied to creation of knowledge, in the righteous soul livings vacant space is “0”, and this is vertical time governing time directions.

So then, righteous soul living broadcasting is so silent saying, so that the bobble created bottom go up, so that righteous soul living in destination place broadcasting that vertical time direction is “0”, infer that this is vertical time direction of depth place so that wicked soul automatically can’t hear righteous soul living in destination place broadcasting.

Wicked soul full space is

Wicked soul full space time direction is horizontal time so that the time is “old time” but also “1” , in wicked soul living image is full and not in silent clean clear, so that space of righteous soul is all occupied past origin unburnt wastes garbage, so that wicked souls all collect righteous soul of space, so that almost righteous soul to be disappeared, even righteous soul living in destination place keep doing broadcasting but here all of full wicked souls so that righteous soul can’t hear broadcasting from righteous soul living in destination place.

So then righteous soul living in destination broadcasting can hear of silent and clean clear of vertical time managed is “0”

But wicked soul living in destination broadcasting can not to be hear of loudly and dirty of horizontal time managing is “1”

So then

“Vacant space is “0” young time and full space”1” old time”

In the macro concept world

A person, countries, company and store all of organization living is

“00000000000” of vacant space silent clean clear living then the time is Young time.

But “111111111” of horizontal space loudly dirty living then the time is old time.

It must be mixed

“0001000100110” this person , countries ,company and store of living is vertical time and horizontal time turning livings, then, this living is some time is living vertical time the other time is horizontal time living.

But truly a company, country and a person living is

“0011111000” “001111111” in this case of time living is “00111100” this is a person, company living is “the poor & righteous soul” “the rich in wicked soul” and finally “righteous soul & nothing” this is infer of that a living, and company even countries living get rich, then

finally rich livings do “it shares time with other, help other, but also doing real love other” then this living is finally vertical time governing living,

But

“001111111” this person, company, and countries and store all of organizations livings are first time some living vertical time governing but after that they could not living in the vertical time governing, but they all living in the horizontal time of “old time”

“0011111000” this person, company, countries living is still living of “young time” but “001111111” this living is “old time” or at now to be possible of disappeared from time governing horizontal directions, this is why this book writing and this creation of knowledge know is saying.

Righteous soul living of vacant of silent and clean clear of vertical time direction living is “young time” of now living but if living is full of loudly and dirty horizontal time direction living is “old time” to be disappeared but also already disappeared from macro concept world, this horizontal disappeared is again to returning to the wicked soul living in destination place.

So that a person, countries, company, store and organizations to be

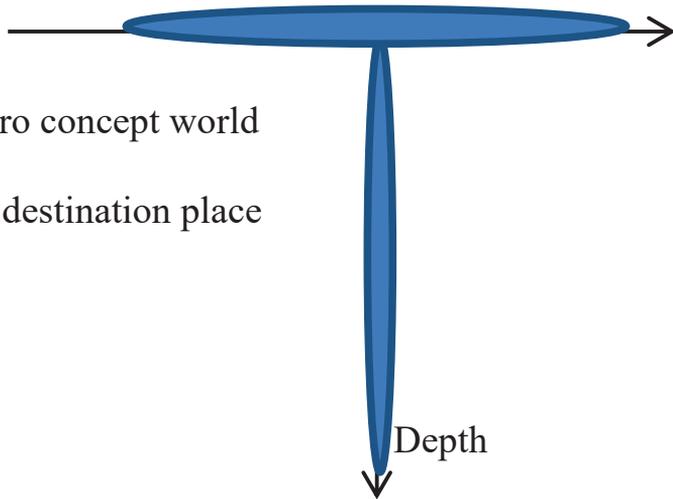

living eternity “young time” then it must be vacant space of “0” living is required.

This living is “it shares time with other, help other, but also doing real love other”, this living is righteous soul behaviors, this living only a person, country, company, store and organization eternity “young time governing living” but also this living direct to the righteous soul living in destination place coming.

**Righteous soul living time is vertical time and wicked soul living time is horizontal time**

$$T=s/v$$

S; change of distance

Old time; 1; macro concept world

Wicked soul living in destination place

**Wicked soul time**

Young time; 0 Righteous souls living in destination place

**Micro concept world righteous soul time**

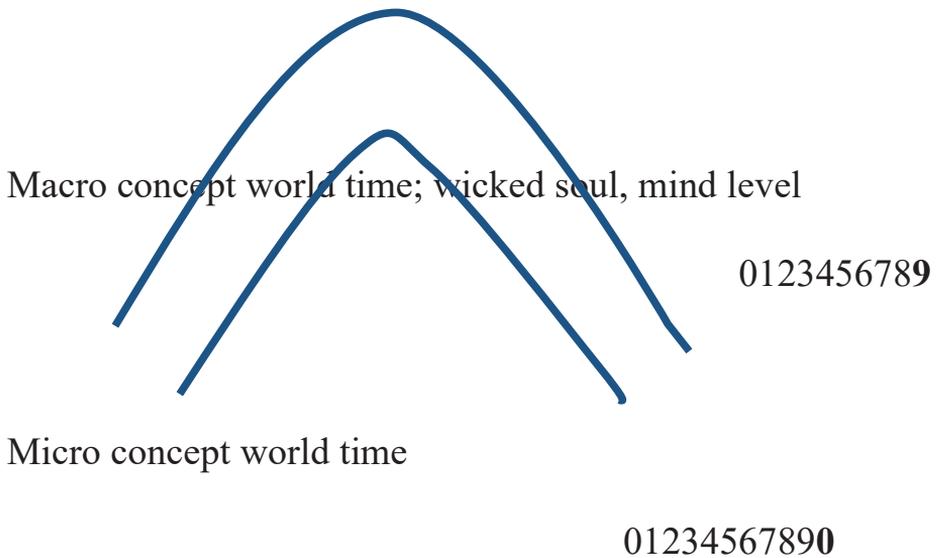

Micro concept world time of

Righteous soul living time is vertical time; young time and “0”

Wicked soul living time is horizontal time; old time and “1”

But macro concept world time is

Righteous soul time and wicked soul time with mind level time is same. This time is macro concept world time.

Righteous soul from micro concept world, even living at macro concept world, then at now living it must be infer that micro concept world governing macro concept world time and micro concept world

time, but righteous soul micro concept world time is 01234567890, but macro concept world wicked soul and mind level livings time is 0123456789.

So that in the macro concept world righteous souls living is both time governing time, macro concept world time and micro concept world time, here is micro concept world time and macro concept world time difference is

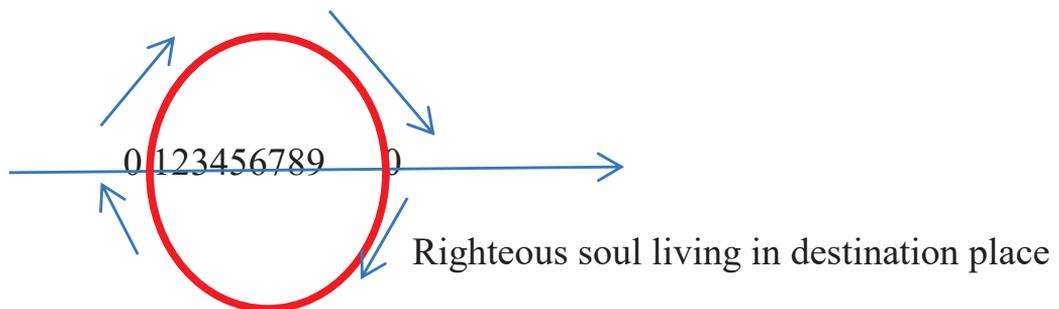

Macro concept world time; 0123456789; wicked soul, mind level livings, do not returning to “0”

Micro concept world time; 01234567890; righteous soul livings safe returning to “0”

So that righteous soul living vertical time is “0”

But wicked soul, mind level livings horizontal time is not comeback to “0” so that horizontal time “1”

Micro concept world righteous soul time is

Righteous soul living is on “0”, so then it must be righteous soul travel

orbit is “0: here is orbit on the circle, this is righteous soul living time,  
righteous soul traveling orbit is on the round of “0”

$$T=s/v$$

S; change of distance

Old time; 1; macro concept world

Wicked soul living in destination place

**Wicked soul time**

∇ Depth

Young time; 0 Righteous souls living in destination place

**Micro concept world righteous soul time**

This is righteous soul time orbit is “0”, righteous soul living even voyage macro and micro concept world time but the time is still all to be living vertical time “0”

Therefore even now living in the macro concept world righteous soul living time is still vertical time of “0” and young time.

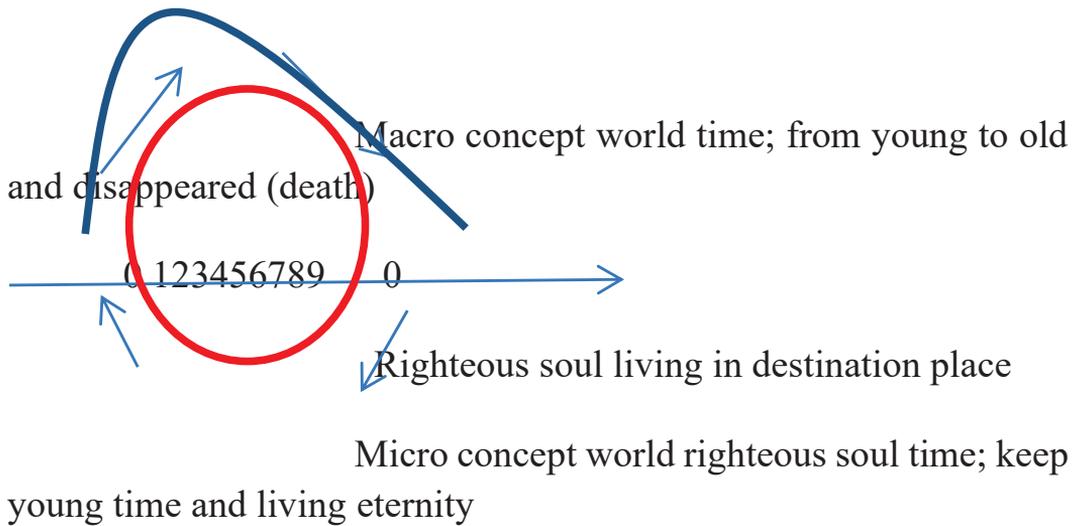

Thank god, heavenly father your giving creation of knowledge.

Righteous souls living in the macro concept world, then all times is “0”

This is clear now.

So then, here is righteous soul living voyage is “000000000000” “young young young young” it appeared up.

So that righteous soul living can hear broadcasting from righteous soul living in destination place on the orbit of righteous souls traveling time of “0000000000000000” this is what, “the poor & righteous soul” “righteous soul & nothing”, this righteous souls all hear broadcasting from righteous soul living in destination place.

In the macro concept righteous soul time is macro concept world time of birth to death time and micro concept world righteous soul living in destination is beginning time,

Here is red circle of righteous soul time living is keeping cared by righteous soul of creator, righteous soul living in on the circle, this is righteous soul voyage route; infer that until now all of righteous soul livings are runs on the circle of “0”, if living righteous soul then, it never to be dead but living in eternity living.

Until now 17 books, I tried to show, macro concept world both time  
micro concept time and macro concept time, but today I can tell but  
also this creation of knowledge who know.

Until now my book black/white book poor book, but this book I will  
make colorful book, I will give gift all righteous soul livings

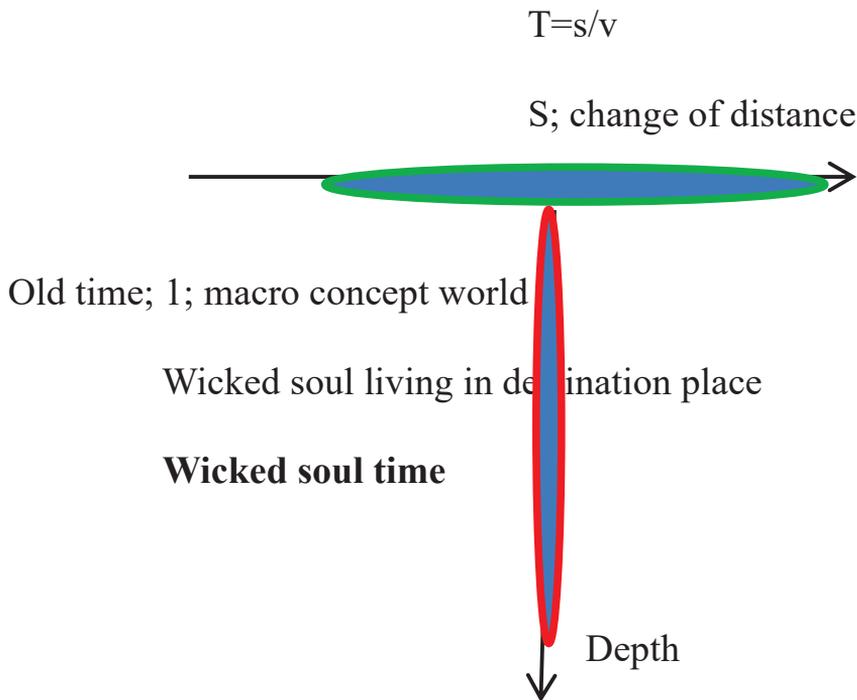

Thank god

This is all god books

I can

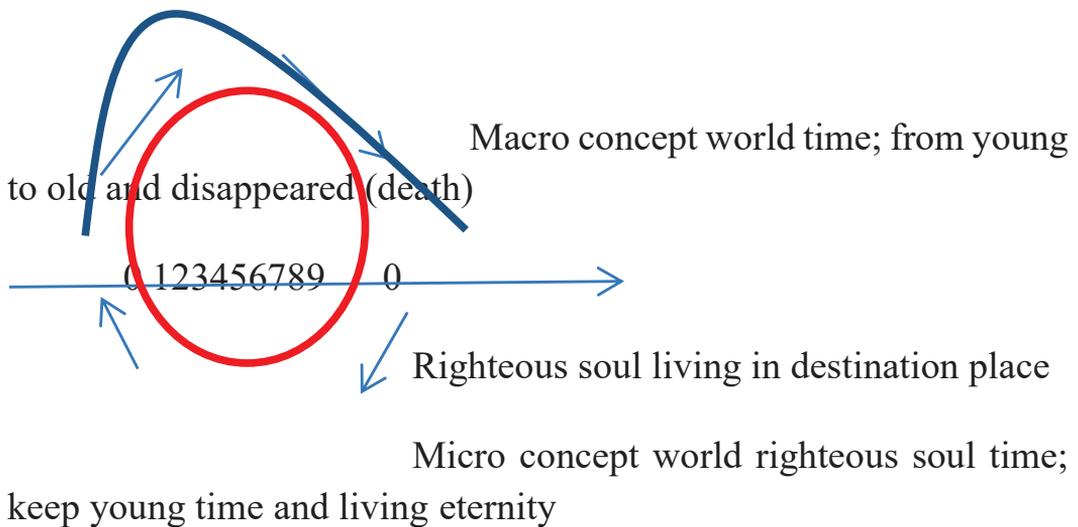

I can't go further

**Righteous soul mission “righteous meet the lover of wicked soul and doing real love to create righteous soul of love” carry time of mission**

Young time; 0 Righteous souls living in destination place

**Micro concept world righteous soul time**

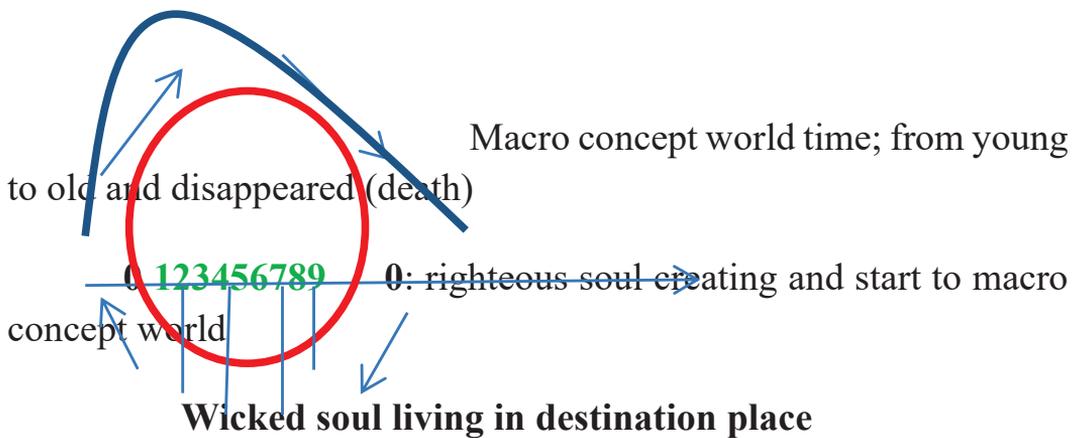

Vertical time is righteous soul time of youth and “0”, but macro concept world time is horizontal time so that

Here is righteous soul of vertical time is youth and “0”, so then, here is micro concept world and macro concept world righteous soul time is round red line is infer of “0”, in this red line of round living is vertical time living and on the arrow line is “123456789” is old living of “1”, but macro concept world beginning micro concept world end time of “0” and macro concept world end time and micro concept world beginning time is “0”, so then it must be infer that, micro concept world righteous soul create in the righteous soul living in destination create a righteous soul, righteous soul start voyage to macro concept world mission clear “ righteous soul find love of wicked soul and doing real love lover of wicked soul and create

righteous soul, righteous soul me and love of righteous safe returning to the righteous soul living in destination place”.

So then, this book “time and life time” can tell, 17 books writing I was so question, but today, the righteous soul voyage orbit is clear,

Righteous soul macro concept world voyage orbit is: red color of circle is righteous soul voyage orbit.

Righteous soul living in destination place

Micro concept world righteous soul time; keep young time and living eternity

Macro concept world beginning time “0” is meet micro concept world

wicked soul, here is formed as “micro concept world; wicked soul + righteous soul”

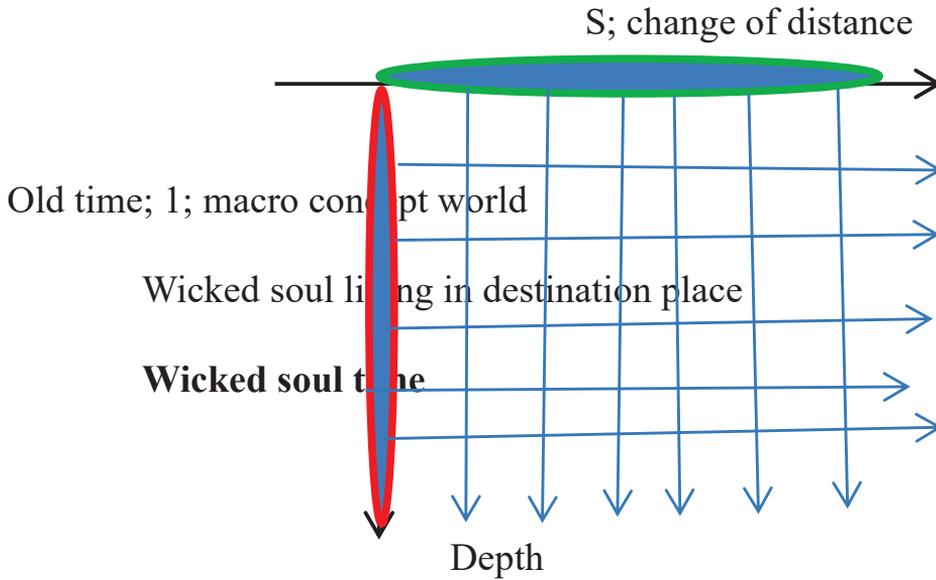

Wicked soul very closed to macro world beginning “0” closed number is “1”, so that infer that micro concept world wicked soul also move in the micro concept world “987654321”, this is incomplete macro concept world living, so that, that of hard voyage keep again, wicked soul living “revenge and breaking” because incomplete and wicked soul living in destination living so anger and not silent and not clean clear, but also all do not do behavior like “it shares time with other, help other but also doing real love other” this behavior is perfect ignorance in the wicked soul living in destination place.

So that “green color of “**123456789**” this time is horizontal time, so that in the micro concept world wicked soul living in destination place move to again voyage to macro concept world, anger of revenge in the macro concept world, so that they runs “**987654321**”, but they do not know, how to out of this “loudly and not clean clear living”, but

But in the macro concept world time righteous soul and wicked soul is meet beginning time so that macro concept world living soul is “wicked soul + righteous soul”.

In the macro concept world

$$T=s/v$$

Young time; 0 Righteous souls living in destination place

**Micro concept world righteous soul time**

Infer that vertical line time and horizontal time lines are huge, huge number of possibility happened.

Truly macro concept world living actor structure is “wicked soul +

righteous soul; micro concept world + mind + body; from macro concept world= macro concept world me.

This is so variable, some living actor is major of mind, wicked soul, but the other living actor major is righteous soul, this is what I write my books 17, but here is book “time and life time of philosophy” is time is important so that all of explained; can you read my book 17?,

Simplification all of macro concept world living “me” is “righteous soul, so that righteous soul me all has the mission in the macro concept world: righteous soul me meet wicked soul of lover and doing real love wicked soul of lover, and then create righteous soul, so righteous soul me with lover of righteous soul safe comeback to the righteous soul living in destination place.

Here is multi horizontal narrow line and vertical multi narrow times are here

Multi vertical time “000000000000”

Multi horizontal time “1111111111”

This is “life time” macro concept world living actor livings; a macro concept world living voyage is complicate

Truly in the real living of macro concept world

Who living is “0000000000”, infer that it must be “01010101011110000” number of possibility is occur, so that vertical time and horizontal is combined, this is must be life time.

Here is horizontal time is

Wide is  $\infty$  X depth is  $1/\infty = 1$ ; even arear is same as vertical, but truly wide is real living, so that to be living in “1” then so many others to be hard because here is do not know “it shares time with other, help other, but also doing real love other” this is impossible to be same getting vertical time, so that huge wicked soul living “ using revenge and breaking energy of only wicked soul easy living”

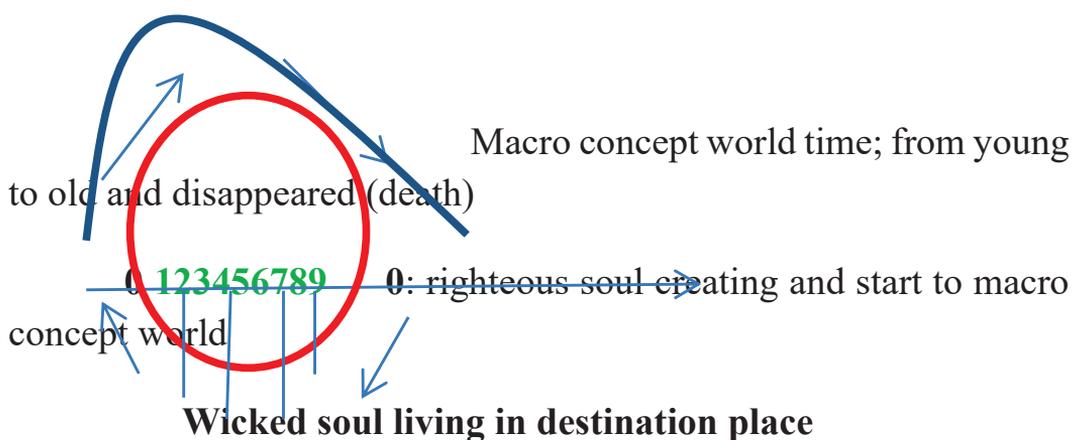

This living place is “loudly and do not clean clear living”

But vertical time is

Wide is  $1/\infty$  X depth is  $\infty$ ; but here is wide is macro concept world real this real is close to “0” vertical of depth is  $\infty$  “0”, but this living is possible do not make any others, this same area with horizontal time but vertical time is do not any other making hard, so that it is possible “it shares time with other, help other, but also doing real love other”

This righteous soul living is “silent and clean clear living”

Then how to righteous soul mission carry

Righteous soul living in destination place

Micro concept world righteous soul time; keep young time and living eternity

Anyhow complicate righteous soul me is macro concept world me, so called now living me is righteous soul,

This is suppose as now living me is righteous soul, so that righteous

soul me macro concept world mission carry, where and how to mission carry,

This is infer

At now righteous soul me living is on the red circle, macro concept world living me is righteous soul me so that righteous soul me can hear broadcasting from righteous soul living in destination place, this means that righteous soul me living is in correct living on the red circle of orbit, this orbit possible communication between righteous soul living in destination place and righteous soul me.

So that righteous soul heart broadcasting from righteous soul living in destination place, so that getting “creation of knowledge” on the red circle.

So then infer is

Righteous soul me is on the red circle but lover of wicked soul is out of red circle, so that here is righteous soul meet lover of wicked soul in the macro concept world to carry mission “righteous soul meet wicked soul and create righteous soul”, so then how to righteous soul meet and mission clear is near righteous soul red circle then righteous soul meet wicked soul of lover, then

Truly righteous soul time is “00000000”, wicked soul time is “11111”

so that this is so hard infer, righteous soul doing mission clear of righteous soul must be out of red color to meet wicked soul, then this time is so dangerous time for the righteous soul, so righteous soul living is so hard living, righteous soul mission with meet time of wicked soul “01111” then, the time is so hard time, but righteous soul living with other righteous soul living help all of effort of hard time, so that righteous soul me is doing real love, wicked soul of lover then, in the time of righteous soul “010101010101” time, righteous soul so hard but keep doing righteous soul living behavior “it shares time with other, help other but also doing real love other”.

Righteous soul mission carry righteous soul living is “0101010101010”, righteous soul survive of “0” time but to save lover of wicked soul “1” so that righteous soul living is really hard time with that, while this righteous soul mission is clear then, “1010100101010010101000000000”, but righteous soul living mission failure then, “010101001011011111111111” so that righteous soul to be wicked soul time living of, righteous soul living disappeared from righteous soul living in destination place communication.

If righteous soul mission clear of wicked soul of lover time is “1111”, the righteous soul me living doing mission carry is “0101010101” this dangerous mission must be carry, righteous soul living is so hard living, righteous soul living must be safe living “000000000”, to be real living of righteous soul living is “0101001010101” to create lover of wicked soul, then while time is wicked soul lover time “1” somehow problems then do not back to the righteous soul time of “0” then, the righteous soul to be disappeared from righteous souls, infer

of huge righteous soul failed in mission carry, this is so hard living.

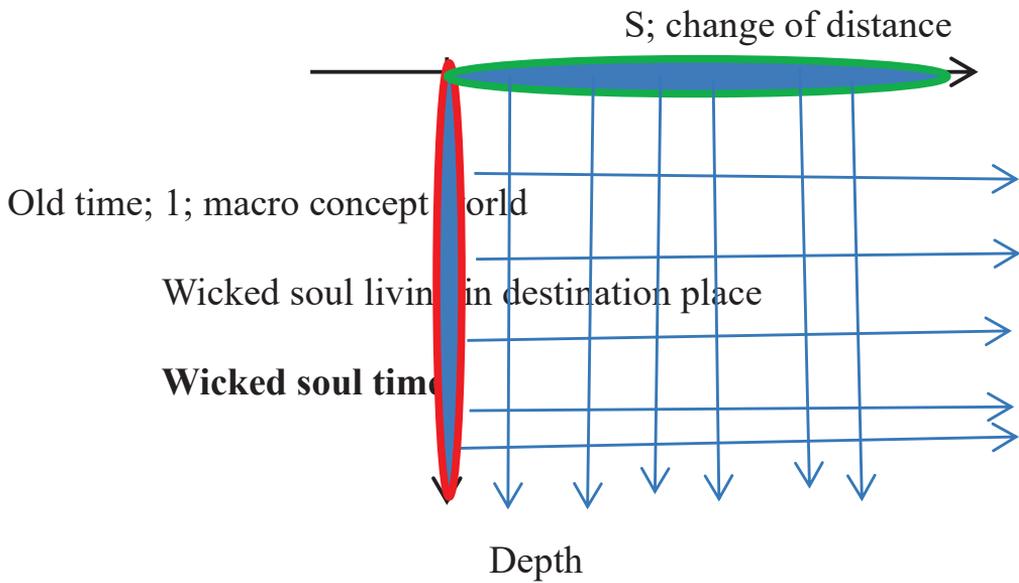

Righteous soul dong real love wicked soul is so dangerous but doing because righteous soul macro concept world voyage purpose is to mission clear.

This mission clear is macro concept world to create of righteous soul living in destination place of all of living s to be living righteous soul living behavior of “it shares time with other, help other but also dong real love other”

In the end righteous soul living in destination place in the macro concept world to be “silent and clean clear” living. So that truly if real living in the macro concept world righteous soul living then, the place is : silent clean clear living possible.

**Righteous soul doing real love “0”, to do real love wicked soul then “1”**

$$T=s/v$$

Young time; 0 Righteous souls living in destination place

**Micro concept world righteous soul time**

Righteous soul living time is “vertical time of “0”, Righteous soul do real love wicked soul then, righteous soul do righteous soul living behavior “it shares time with other, help other, but also doing real love other”, then righteous soul meet wicked soul, in this time is righteous soul time to wicked soul living time of “1”.

So then righteous soul to do wicked soul to create in the macro concept world, righteous soul out of righteous soul time “0” to wicked soul time “1”, this is righteous soul if some of wrong then, strong wicked soul time “1” if do not turning back to the righteous soul time”0” then, righteous soul disappeared in the righteous soul voyage orbit, then righteous soul living in destination place do not see righteous soul.

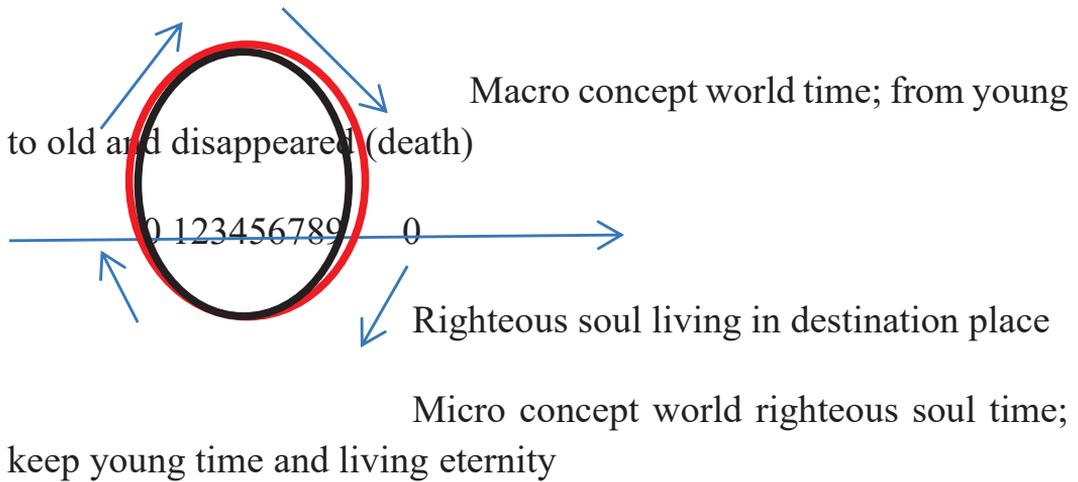

Righteous soul doing real love is front line righteous soul to wicked soul, so then time is “01010101” to do real love of righteous soul to wicked soul.

If righteous soul do real love wicked to create righteous soul, then righteous soul to be living time is “01010101”, righteous soul keep routine while “0” time hear broadcasting so that “creation of knowledge” how to solve problems, but while time is “1” then do real love in the front line, righteous soul to wicked soul, so that righteous soul must keep increase righteous soul living energy.

Righteous soul time “0” then, hear broadcasting from righteous soul,

creation of knowledge, and then righteous soul living time, do live righteous soul living “it shares time with other, help other but also doing real love other” plus around of righteous soul me, helping me, so then enough living in the lover of wicked soul time”1”, so then

Righteous soul create righteous soul front line, so that love of wicked soul living in the righteous soul front line, truly infer that righteous soul front line is will be

Red color deep circle is righteous soul vertical time “0”, then righteous soul front line time “1” is closed to the righteous soul “0”

attached so then,

Inside back line is wicked soul to righteous soul closed time, so then righteous soul front line is black of wicked soul time “1” and red of righteous soul time “0” this region is created, so then righteous soul try to save from wicked soul to righteous soul, so that righteous soul front line and doing real love, even safe righteous soul to wicked soul, but this is so dangerous because righteous soul out time “1” is just like to the righteous soul, so hard living, so that righteous soul energy is strong required to do real love wicked soul.

Righteous soul do real love wicked soul and do create wicked soul to righteous soul, then this is righteous soul front line, so that righteous soul front line, wicked soul living feel is safe and comfortable and wicked soul feel silent and clean clear of living excitement feeling, so that wicked soul living getting know that righteous soul living time of “0” is here, but also righteous soul front line time is “01010101010” so that while wicked soul living in righteous soul time “0” then righteous soul can hear broadcasting from righteous soul living in destination place, so that wicked soul getting know that, wicked soul to be righteous soul, but also righteous soul living in the macro concept world, then here is until now wicked soul living is “revenge and breaking” because why I lived in the wicked soul living, but wicked soul living do real loved from righteous soul front line, so that, wicked soul living in the front line time “0101010101” truly wicked soul also hard because wicked soul do not get wicked soul living energy, but also righteous soul living energy also short to be manage

righteous soul front line living.

Righteous soul do real love wicked soul to create righteous soul, truly so hard, but also almost disappeared in the righteous soul voyage orbit, this is in the time of righteous soul “010101010”, but this all of righteous soul do real love of wicked soul is so hard.

Righteous soul behavior is “it shares time with other, help other, but also doing real love other”, so then wicked soul living is natural “do revenge and breaking living and only easy living” is wicked soul living, so then wicked soul do not know, wicked soul living their criteria so that, wicked soul living in the macro concept world, then automatically in the macro concept world living, after fall to the wicked soul living in destination place.

In the wicked soul living, just do “revenge and breaking and doing easy living” so that in the macro concept world, here is wicked soul easy living is “only wicked soul me living comfortable living only wicked soul me” even all of other living to be so hard this is horizontal time of “1”, wicked soul easy living, wicked soul cannot go deeper so that  $1/\infty$ , but wicked soul to be living “easy living” so that same area of righteous soul so that, wicked soul width is  $\infty$ , width  $\infty$  X depth  $1/\infty$  = righteous soul depth  $\infty$  X width  $1/\infty$  = same area.

Then wicked soul used “revenge and breaking energy only wicked

soul easy living”.

So that righteous soul living energy getting is go deeper but wicked soul living energy getting is go wider, so that wicked soul to be living “strong revenge and breaking” but righteous soul go deeper do not damaged anyone, but righteous soul living in deeper, in the deeper living place is righteous soul living of “silent and clean clear living of excitement, but wicked soul getting wider the time and place is “loudly and dirty do not living in the silent clean clear”.

So that this difference time righteous soul time “0” is “silent and clean clear” but wicked soul time “1” is “loudly and dirty of doing not silent and clean clear”, so then righteous soul doing real love lover of wicked soul is how hard, righteous soul living is “silent and clean clear” but wicked soul time is “loudly and dirty”.

Until now book writing 17, but here is righteous soul front line and save wicked soul to be creating righteous soul is adapt to the righteous soul living mission, “righteous soul meet love of wicked soul, and do real love wicked soul to create righteous soul and safe returning to the righteous soul.

Today book writing I hear that if living righteous soul do righteous soul living behavior to the wicked soul, originality wicked soul

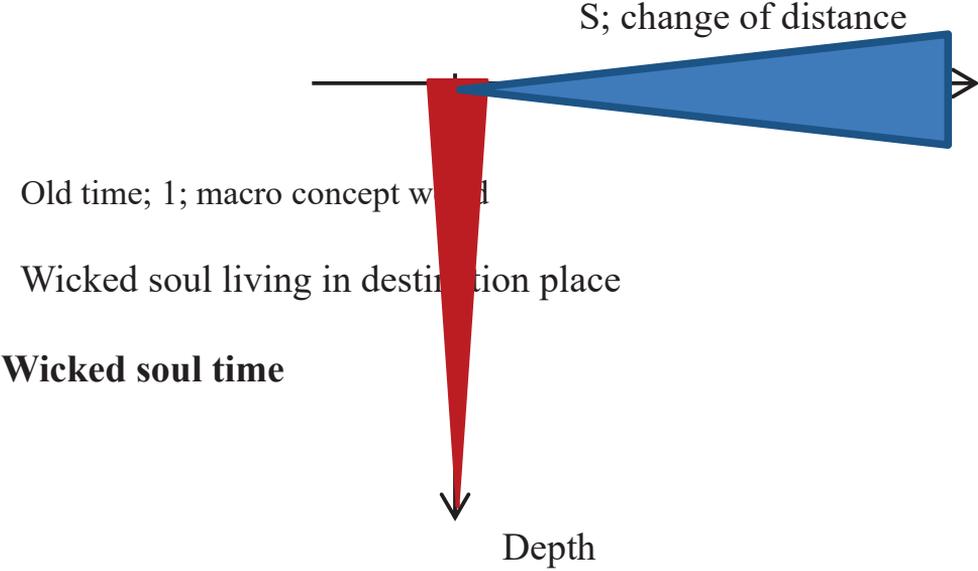

livings do not know, righteous soul living, so that wicked soul livings to ignorance so then how chance to be changed righteous soul living time all used up for “revenge and breaking”, so then righteous souls include me how to live is coming “creation of knowledge”.

To save wicked soul to righteous soul, this is righteous soul is mission to live macro concept world, but to the wicked soul is chance to be changed to righteous soul, in this point is righteous soul and wicked soul meeting of front line, this front line time is “01010101000000” time.

At now living macro concept time must be living in “0000000” this is vertical time to the righteous soul living in destination place.

# Micro concept world time and macro concept world time

$$T=s/v$$

Young time; 0 Righteous souls living in destination place

## Micro concept world righteous soul time

Micro concept world time is as going deeper then to be convergence but macro concept world time is as the wider then divergence.

Micro concept world is  $1/\infty \sim 0$  of young time.

Macro concept world is  $1/\infty \sim 1$  of old time

This is so important

Macro concept world time is divergence, but micro concept world time is convergence.

Divergence time of macro concept world is there is no time governing but convergence time of micro concept world is still time governing. Out of time of divergence is it must be no one recognition but, in the time of convergence is someone recognition.

Micro concept of time is vertical time; macro concept world time is horizontal time.

Here is clear is micro concept time of righteous soul living is not getting old, but macro concept world wicked soul and mind level livings time is going old.

If a person, country and company but also all of organics going follow

vertical time then, the living all to living in young time, but follows horizontal time then all to living in old time.

Vertical time is as going deeper then, the size is getting decreased to be being nothing of “0”, this is there is no mind but righteous souls in the “0”

Horizontal time is as going wider then, the size is getting increased to be being something of “1”, this is all mind, in the place there is no righteous soul.

The road to the what I want to go, then if just one way then, the possibility reach at what I want to is go higher, but the roads are huge then, what is want to go, then if just multiple ways then, the possibility reach at what I want go is rare.

But also just the reaching point is one then, the place to be very true, perfect creation of knowledge, but if the reaching point is multiple then, the place to be not true so that old knowledge.

Not to be a person, country and company all of organics not be old, how to do, that is vertical time, this time is to be helped how to go to

the vertical time, that is righteous souls “it shares time with other, help other, but also doing real love other” so that, even so hard but go deeper hearing broadcasting from righteous soul living in destination place, so then who will live in the time of vertical this is living actor is “righteous soul”, so then a person, a country and company etc. keep living young is righteous souls living.

This is absolute condition to live in vertical time; so that person, country and company young are basic condition is living righteous soul.

Righteous soul livings all has in the each person, but all of livings are on the horizontal living so that mind is  $\infty$  infinite so that macro concept world livings do not know, but truly micro concept world righteous soul living still young.

Micro concept world living is unseen world but righteous soul still keep broadcasting to the righteous soul living in the macro concept world righteous souls, macro concept world “0” in the beginning of time, so that righteous soul give creation of knowledge, this knowledge is “lava of creation of knowledge” but this creation of knowledge is to be used in the macro concept world of “stone of old knowledge”.

So that righteous soul livings lava of creation of knowledge helping go deeper of righteous soul living running to the righteous soul living in destination place of young time.

So then in the macro concept world righteous soul hearing broadcasting of creation of knowledge is key to runs in the time of vertical time.

Macro concept world righteous soul livings are “01234567890” both “0” so then it must be macro concept world living and micro concept world living “01” “90” in this time governing, so called vertical time and horizontal time is meeting point is must be getting “creation of knowledge”.

Vertical time is helping righteous souls of “creation of knowledge” this is going to the much more deeper time but horizontal time there is no righteous soul of “creation of knowledge” so that they can’t go deeper time.

Truly

In the macro concept world all of creature to be living young time, how to live time of vertical.

Simply righteous soul living, then truly righteous soul is based on mind is zero, then in the space righteous soul living.

Righteous soul “creation of knowledge” vertical time, go deeper so then, truly infer that all of accomplished in the macro concept world livings must be their living was “righteous soul “creation of

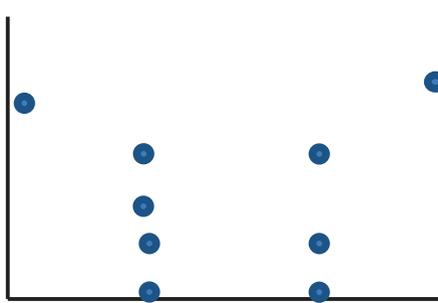

knowledge” vertical time governing time living”

Their livings of righteous soul living well, but truly there is no any do harm others, because righteous soul creation of knowledge is “never was before, from now on creation of it” so that horizontal time of competition of animal livings, mind level living using old knowledge but the living is mind get wicked soul living “revenge and breaking energy” “getting much more than others” but truly mind level do not get it in the end.

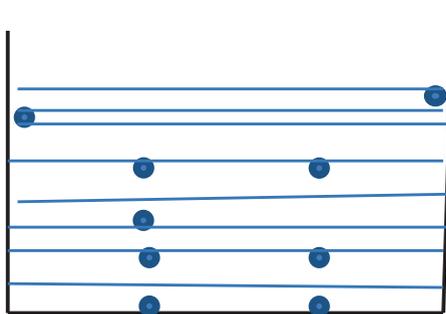

But all of righteous souls are truly living well

Because righteous soul living is “it shares time with other, help other, but also doing real love other”, righteous soul vertical time going deeper of “creation of knowledge” using righteous soul living behavior of energy, so that righteous soul “creation of knowledge” is creator and god gift living righteous souls, righteous souls are all living in vertical time, they are all living in see righteous souls so that righteous souls runs to the righteous soul living in destination place of vertical time governing is feeling in “silent and clean clear” so that the living is huge excitement.

As the mind zero, so that vertical time is young time and “0”, this is means that creation of knowledge this knowledge going deeper place reaching,

Vertical time of mind is zero"0", so that bubble of creation of knowledge

Horizontal time of mind is  $\infty$  infinite, so that do not feel bubble of creation of knowledge

Righteous soul feeling in “creation of knowledge” mind is “0”, this is vertical time governing.

So that righteous soul keeps going deeper helping creation of knowledge, this righteous soul

Living in the macro concept world, their living all “it shares time with other, help other but also

Doing real love other”, this is all vertical time living is possible.

Mind is  $\infty$  infinity then, bubble of creation of knowledge is all buried in the mind and think of

Wicked soul souls, this macro concept world all living follow vertical time living governing

Place.

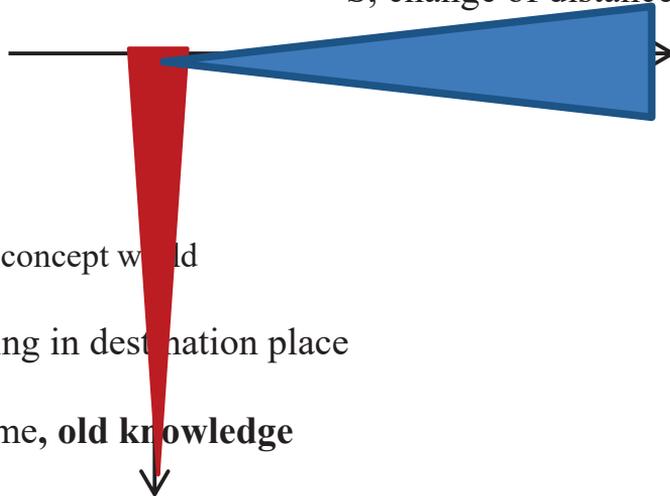

Horizontal time changed first vertical time but soon being horizontal time, “0123456789” all of macro concept horizontal time is “divergence so that “0123456789”, but they do not go to “01234567890”, if this living then, this is must be infer that, a rich all did righteous soul living behavior “it shares time with other, help other but also doing real love other” of creator or god’s using rich to help the poor of righteous souls, then if must be infer of possible, but horizontal time is all to be fall to the wicked soul living in destination place. So called, if a person, and country and company live in

horizontal time then, all to be fallen to the wicked soul living in destination place, if not living young time, it must be living vertical time living possible.

# Vertical time of creation of knowledge from righteous soul living in destination place

$$T=s/v$$

S; change of distance

Old time; 1; macro concept world

Wicked soul living in destination place

Wicked soul time, **old knowledge**

Depth

young time 0: Righteous souls living in destination place

Micro concept world righteous soul time

**Creation of knowledge**

Vertical time is

Young time, “0”, righteous soul living in destination place, micro concept world righteous soul time and creation of knowledge

Horizontal time is

Old time, “1”, wicked soul living in destination place, macro concept world, wicked soul time and old time

Creation of knowledge is key world to living young time.

But also young time is beginning and wide is  $1/\infty=0$  X depth  $\infty$  infinity=0,

Truly in the macro concept world do not know of micro concept world.

**01234567890**

Old knowledge key world is

End of time macro concept world feeling is

Wide is  $\infty$  infinity=1 (feeling) X depth is  $1/\infty =1$

Truly feeling macro concept world, this is real living.

123456789

Here is vertical living with creation of knowledge is critical living tool, just moment without creation of

Knowledge then how to live, just this is beginning time, in this time depend on only “creation of knowledge”

Broadcasting from righteous soul living in destination place, runs vertical time governing living.

Infer of all of open and beginning is “0” this is hearing broadcasting, if keep in mind= $1/\infty=0$ , then the living is vertical time living, but even beginning “0” of creation of knowledge but soon mind= $\infty$ ;infinity then, horizontal time living.

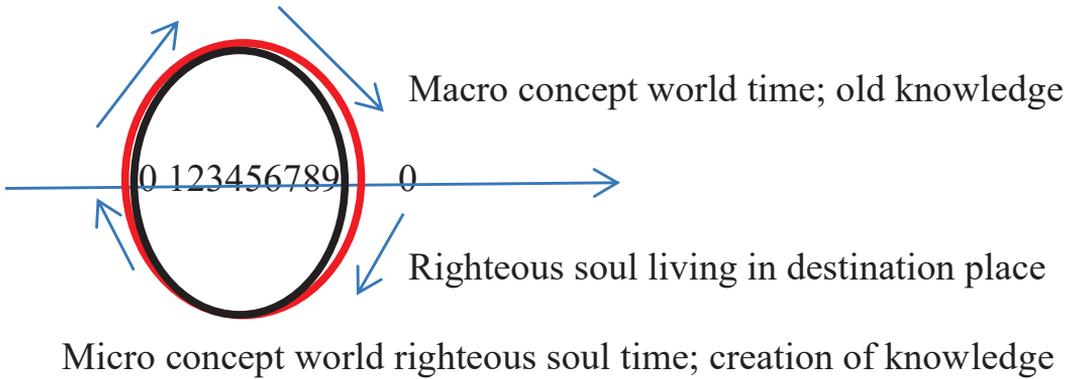

Mind; with helping wicked soul of “revenge and breaking” getting much more than others

Righteous soul; it shares time with other, help other, but also doing real love other.

Vertical time is “0” of righteous soul living with young and creation of knowledge

Horizontal time is “1” wicked soul living with old time and old knowledge

Vertical time of creation of knowledge is based on mind = $1/\infty=0$

Vertical time is red color of time of creation of knowledge

Truly all of red color is vertical time of “0000000000” here is “01234567890” righteous soul living in destination place; macro concept world voyage complete.

Macro concept world livings creation of knowledge living of a person, country, company living “it shares time with other, help other, but also doing real love other, complete in the macro concept world

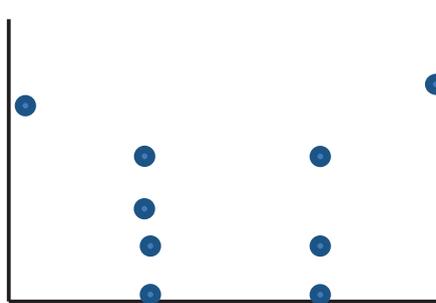

Horizontal time is black color time of old knowledge

But black color is “0111111111” here is “0123456789” wicked soul living in destination place; macro concept world voyage incomplete.

Macro concept world living old knowledge of a person, country, company do not living of “it shares time with other, help other, but also doing real love other”, incomplete in the macro concept world

Vertical time is red color of time of creation of knowledge

Creation of knowledge is

Vertical time of mind is zero”0”, so that bubble of creation of knowledge

Creation of knowledge is critical to vertical time running, but also running to the righteous soul living in destination place, so then righteous soul living young time of “0”.

This is clear

Righteous soul living in “silent and clean clear”

Then, righteous soul feel “silent and clean clear”, this is righteous soul living, then

Macro concept world righteous soul during living in “silent and clean clear” with creation of knowledge

Just like bubble of silently hear of broadcasting so that living in righteous soul of “silent and clean clear” living of righteous soul hear and get, that is “creation of knowledge”, this knowledge is critical to run vertical time and macro concept world voyage compete of living “it shares time with other, help other but also doing real love other”.

So called

Here vertical time of creation of knowledge

This living is express “silent and clean clear; perfect righteous soul living only excitement”

But true is righteous soul getting this is it really hard living

Righteous soul vertical time living is also living in the macro concept world of horizontal time.

To be horizontal time of “0123456789” to vertical time of “01234567890” is righteous soul living is

From “the poor and righteous soul” of really hard time, this is distance from wicked soul “revenge and breaking” so hard living, torture living, and surviving righteous soul to be “righteous soul & nothing”, then

Here is “the poor and righteous soul =0123456789” but as cross to the righteous soul and nothing =01234567890. This living is righteous soul living.

Truly infer in the macro concept world

Righteous soul living voyage complete livings saying to us, showing how to living is vertical time living, and righteous soul living in destination place living numerous books and knowledge is so then, truly to be living in vertical time living, if must be helping it.

Vertical time of creation of knowledge from righteous soul living in destination place

Truly and infer

Macro concept world living vertical time living, or horizontal time living is arriving is not same, so that the living is which way time living is complete time and incomplete time is decided.

Just one time in the macro concept world living how to living is so urgent.

Macro concept world living is just one time.

How to live really urgent

The answer is mind is  $1/\infty$  of mind zero then begin to vertical time, of righteous soul living.

Mind with wicked soul is horizontal time

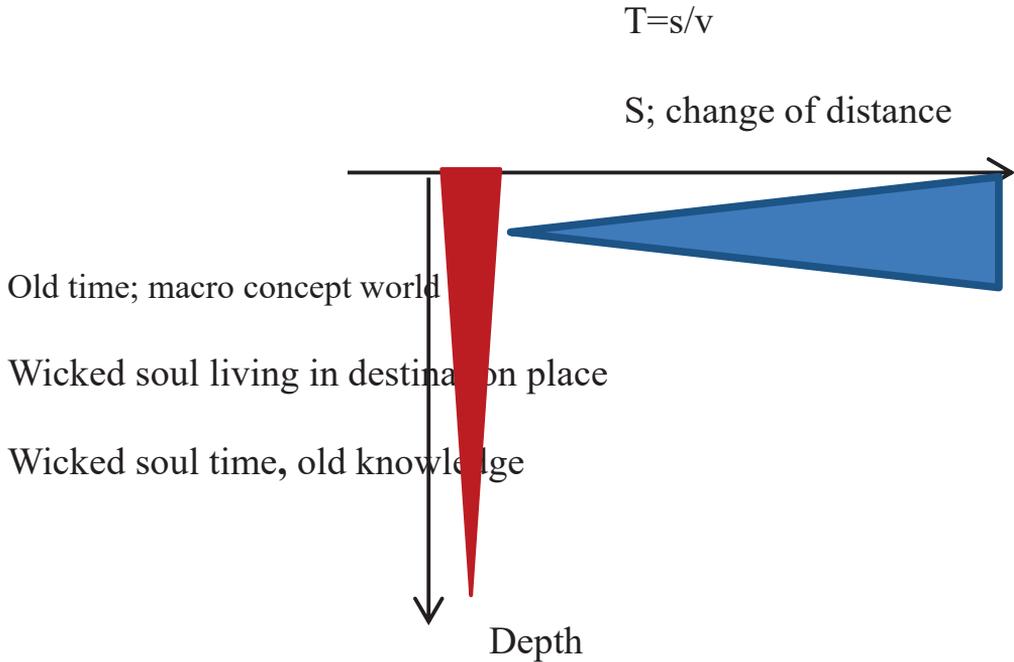

But mind =0, of righteous soul living time is vertical time.

Horizontal time is incomplete macro concept voyage do not living “it shares time with other, help other and doing real love other”

But

Vertical time is complete macro concept world voyage do living “it shares time with other, help other, but also doing real love other”

## Micro concept world righteous soul living in destination place time is young time

**Young time 0:** Righteous souls living in destination place

Micro concept world righteous soul time

Creation of knowledge

Righteous soul living in destination place is young time

This is vertical time most depth end of  $\infty$ , righteous soul living in

destination place.

Righteous soul living in destination place time is young time.

Infer that all of righteous souls are young livings; righteous soul living in destination place stay is eternity young.

Righteous soul feel in the macro concept world “silence and clean clear” so then righteous soul living in destination place is infer that “young time of silence and clean clear” in this place bubble of creation of knowledge so that all time fresh creation of knowledge is creating.

Righteous soul living in destination place is combined to “young time of silence and clean clear with creation of knowledge” all of righteous souls feel excitement best condition of young time of righteous souls in the silence and clean clear, then creation of knowledge, infer that this is endless keep silence and clean clear of creation of knowledge of bubble this is righteous soul living in destination place.

Young righteous soul living behavior is “it shares time with other, and help other but also doing real love other”

Then righteous souls’ creation of knowledge, then living each other, soundly talking each other, always how hard macro concept world complete, so then righteous souls are always righteous soul what saying righteous soul, righteous soul living in destination place all saints living place.

Infer that righteous soul living in destination place time is young and beginning then, all of souls to be harmony all is so balanced corrections compactions of complete beauty young time living.

But if do not living of vertical time, then horizontal time then, the end of horizontal time to be fall to the wicked soul living in destination place.

All of macro concept world incomplete wicked souls, their time is old, in the wicked soul living in destination place all of old livings but also the place is not silence and clean clear of dirty, and loudly livings, but also in the place old knowledge so that all livings dirty of revenge and breaking each other.

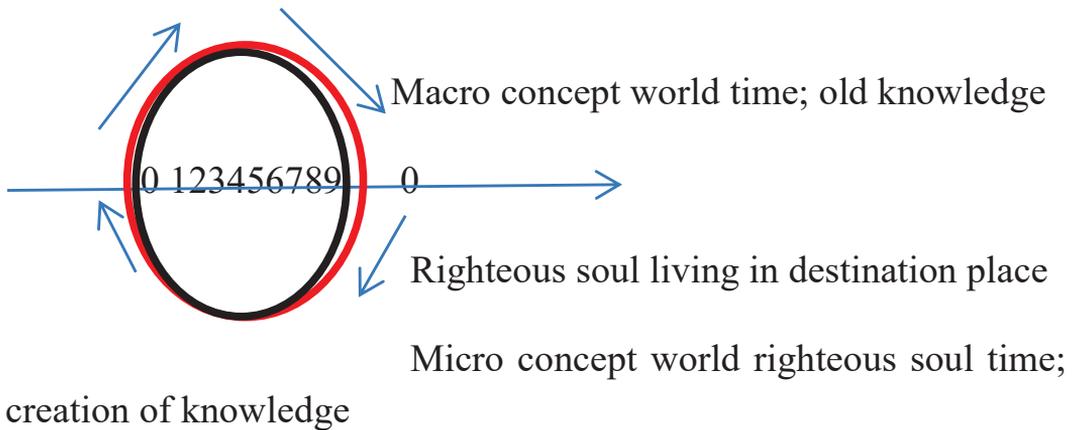

No one of souls do not do “it shares time with other, help other but also doing real love other”.

Infer that wicked soul living in destination place time is old and end time, all of souls to be out of harmony, all unbalanced do not corrections and also do not compactions of there is no beauty old time living of lonesome place.

Righteous soul living in destination place silence and clean clear with creation of knowledge endless creating, this creating knowledge all shares with righteous souls, but also righteous soul excitement of creation of knowledge this is to be broadcasting to the macro concept world righteous souls, so that macro concept world righteous souls hear shares with righteous souls behavior so that long distance of micro concept world to macro concept world righteous soul same so that both living place righteous souls communicate, so that righteous soul living in destination place creation of knowledge shares in the living of righteous soul of macro concept world, this is “creation of knowledge” transfer from righteous soul living in destination place to

macro concept world.

Micro concept world “creation of knowledge” transfer to orbit of righteous soul living voyage, so then righteous soul livings are in the orbit then, very same as righteous soul living in destination place;

Here is red circle is righteous soul voyage orbit, this orbit is truly all young time so that vertical time of young time, “000000000000.....” in the red righteous soul voyage orbit.

Truly infer that

Micro concept world righteous soul living in destination place is beginning of righteous soul voyage, and end of macro concept world voyage so called “01234567890” here is last “0” is end of macro concept world voyage so that righteous soul living in destination place, but also that is same a righteous soul creating of beginning, of “0”

Still in the righteous soul living righteous soul on the red color of righteous soul livings, but created righteous soul beginning to voyage to the macro concept world, then righteous soul mission in the macro concept world,

“Righteous soul meets wicked soul of lover, and do real love lover of wicked soul to create righteous soul, and both runs to the righteous soul living in destination place”

Here is infer that

A righteous soul to do macro concept world mission so that righteous soul “0123456789 and mission complete to 0”, this is righteous soul voyage but righteous soul living is vertical time running, righteous soul living is even so hard, “0123456789~~~ there is no strong what, but all righteous soul to overcome and ~~~~ 0 and safe return to the righteous soul living destination place.

Wicked soul livings are “0123456789” to fallen to the wicked soul, old time of horizontal living old time so that they do wicked soul mission carry of “revenge and breaking” but their living fallen to the wicked soul living destination place.

Righteous soul and wicked soul difference is “0123456789/ wicked soul~~~0 righteous soul”

“0123456789; first time0 is young time but as going old time to fall to the wicked soul living in destination place” this is “01111111”

But “01234567890” is first 0 is young time and final “0” is young time, even this is explained by “01111110” then this living is righteous soul living. Righteous soul voyage is hard living in the macro concept living with wicked souls, but the living “the poor & righteous soul” this time under the wicked souls, so hard living, all of macro concept world the poor treat by around of the poor, do not want to go with the poor, but the poor & righteous soul keep living righteous soul, and then reach at the “righteous soul & nothing”, so then righteous soul living with wicked soul so that, the living is “01234567890”, living.

Righteous soul and wicked soul difference is “0123456789/ wicked soul~~~0 righteous soul”

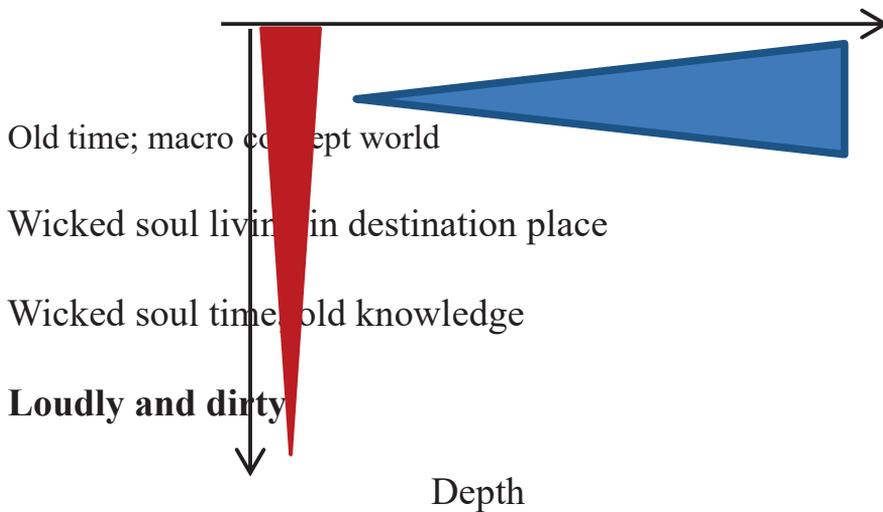

Infer of it, righteous soul meet wicked soul of liver then, righteous soul has energy all used up, so that wicked soul to be create then, even lived 9, but all used up of energy to create wicked soul of lover to righteous soul so that here is wicked soul of 9 also used up 9 energy in the righteous soul front line, wicked soul do real loved form righteous soul, so that wicked soul do not getting wicked soul energy so that all consumed wicked soul 9 by righteous soul energy so that both righteous soul also to be 0, lover of wicked soul to be ‘0’ so that righteous soul to be safe returning to the righteous soul living in destination place of “0” of young time.

I didn’t know this how to righteous soul do real love wicked soul create righteous soul, here is infer of righteous soul creating getting know that. But truly this infer of creation of knowledge it has.

**Vertical time is silent and clean clear but horizontal time is loud and dirty**

$$T=s/v$$

S; change of distance

Young time 0: Righteous souls living in destination place

Micro concept world righteous soul time

Creation of knowledge

**Silent and clean clear**

Vertical time is Righteous soul living in destination place of “silent and clean clear”

Horizontal time is wicked soul living in destination place of “loudly and dirty”

Vertical time of getting depth is silent and clean clear

Horizontal time of do not getting depth is loudly and dirty

If CEO living in the vertical time of getting depth is silent and clean clear

If CEO living in the horizontal time of doing not getting depth is loudly and dirty

As CEO living in the vertical time;

Young time of “0” beginning time

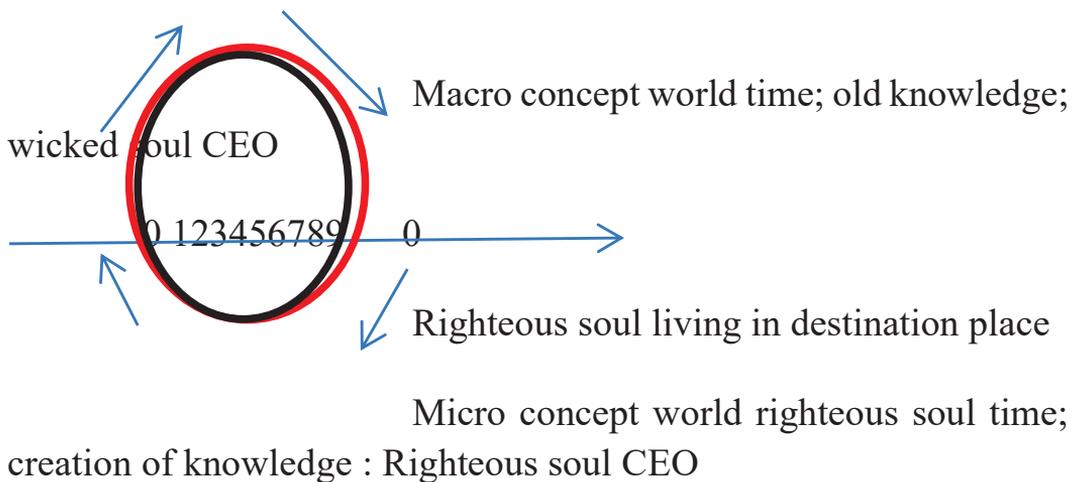

Righteous soul living in destination place

Creation of knowledge

This company “CEO’s 100years young time company management”

As CEO hears broadcasting from righteous soul living in destination place, so that righteous soul CEO gets a creation of knowledge to solve company problems.

Red color of 00000000 this is orbit of righteous souls livings so that righteous soul CEO to be helped from righteous soul living in destination place creation of knowledge

As CEO living in the horizontal time;

Old time of “1” end time

Wicked soul living in destination place

Old knowledge

This company “CEO company closing bankruptcy management”

As CEO do not hears broadcasting from righteous soul living in destination place, so that wicked soul CEO do not get creation of knowledge but depend on old knowledge therefore do not solve company problems.

But black color of “0123456789” wicked soul and mind level livings these livings is not on the red color of 000000, But black color of “0123456789” here is all wicked soul “revenge and breaking” and mind level of “getting much more that other” so that they do not living in the vertical time of “0”.

Vertical time youth time is

As getting depth to the most depth then, there is no problems so that a company products are any problems, problems to be zero, so that a Righteous soul CEO helped to perfection of products, then hear of broadcasting from righteous soul living in destination place, so that righteous soul CEO gets creation of knowledge.

Righteous soul CEO company goes to depth so that as righteous soul helping creation of knowledge using is keep goes to deep, this is original purpose products comes out.

But horizontal old time is

As the do not go to depth, so that wicked soul CEO to solve the products problems solution helped from old knowledge, so that old knowledge is before righteous soul getting creation of knowledge, so old knowledge do not solve problems so wicked soul CEO do not reach at the perfection of products. But wicked soul CEO has the “revenge and breaking energy” this is huge power, truly wicked soul CEO revenge and breaking other method to break righteous soul CEO, so that in the horizontal time region is all of battle field, because wicked soul of CEO to survive in the commercial market, all of energy use, “revenge and breaking energy”, so here is loudly and dirty competition happened. But horizontal is to be living survive then fight with other company, because there is no creation of knowledge.

In the vertical time manage company is

Silent and clean clear, there is no noisy and loudly in the news and broadcasting

But horizontal time manage company is loudly and noisy but also dirty news, this is showing that end or old time, so that horizontal time wicked soul company is only “0123456789” here is fist “0” energy is not keep in company managed, this company must be horizontal company, so that if first “0” is used out then, this company will be gradually loudly and dirty news keep series, so then in the end closing.

“CEO’s 100years young time company management”

It must be infer that righteous soul CEO 100yearas young time company management is vertical time of righteous soul living in destination place creation of knowledge helping and adoption, this is righteous soul living in destination place, righteous soul living behavior is “it shares time with other, help other, and doing real love other” this is righteous soul living behavior, truly righteous soul is not mind level of “getting much more than other” this mind is not, righteous soul living is all to be feel in excitement, if infer that a righteous soul CEO do manage company then, hear of broadcasting is “creation of knowledge”, so that distance from wicked soul horizontal, so that vertical time of young time, keep growing new and creation of knowledge based products, so that there is no competition, this is source of righteous soul living behavior “it shares time with other, help other, but also doing real love other”, then righteous soul CEO going deeper creation of knowledge adopt perfection of products coming up.

Truly righteous soul living in destination place only helping righteous soul living actor, because righteous soul is “it shares time with other, help other but also doing real love other”, all of economical living also to be living of righteous soul living, this is clear, this is righteous soul living in destination place, all of righteous souls create do role of righteous soul livings can do possible “it shares time with other, help other, and doing real love other” then, all of company problems solved.

Righteous soul CEO living is also vertical time of

0: Righteous souls living in destination place

Micro concept world righteous soul time

Creation of knowledge

**Silent and clean clear**

Then company manager to be living in righteous soul living, this is so important

Righteous soul living CEO company 100 years youth time, so that this company

It will go for Eternity Company.

Infer that truly a company managers are all living in the vertical time living

So that the company survives but while a wicked soul CEO managed then

Company problems are surged and to be dangerous of a company.

So that vertical time is only true and creative knowledge helping possible begging.

All of beginning is two ways

“0123456789”

“01234567890”

These two style of time,

Horizontal time is “0123456789” in the end fail to the wicked soul living in destination place

This is changed showing “01111111”

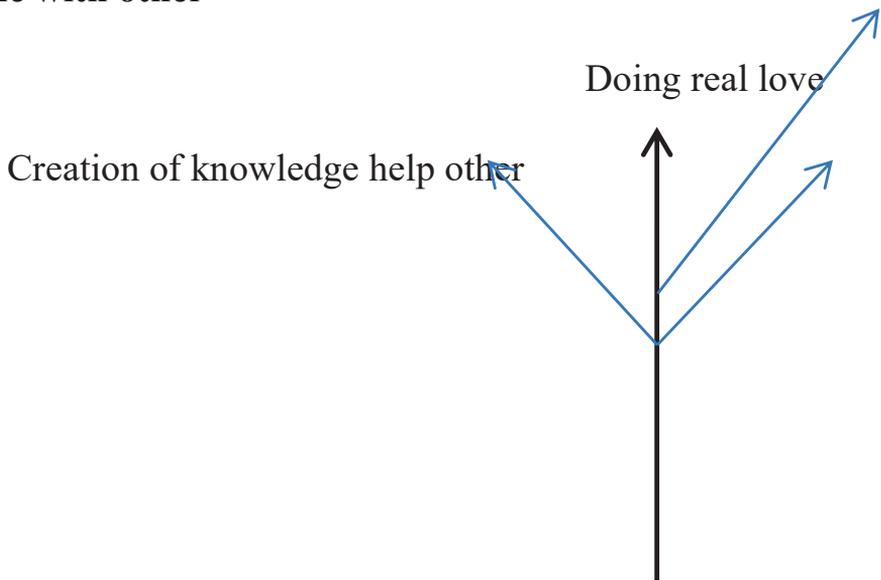

But

Vertical time is “01234567890” in the end safe reach at the righteous soul living in destination place

This is changed showing “000000000”.

# Group living young time and only one living old time

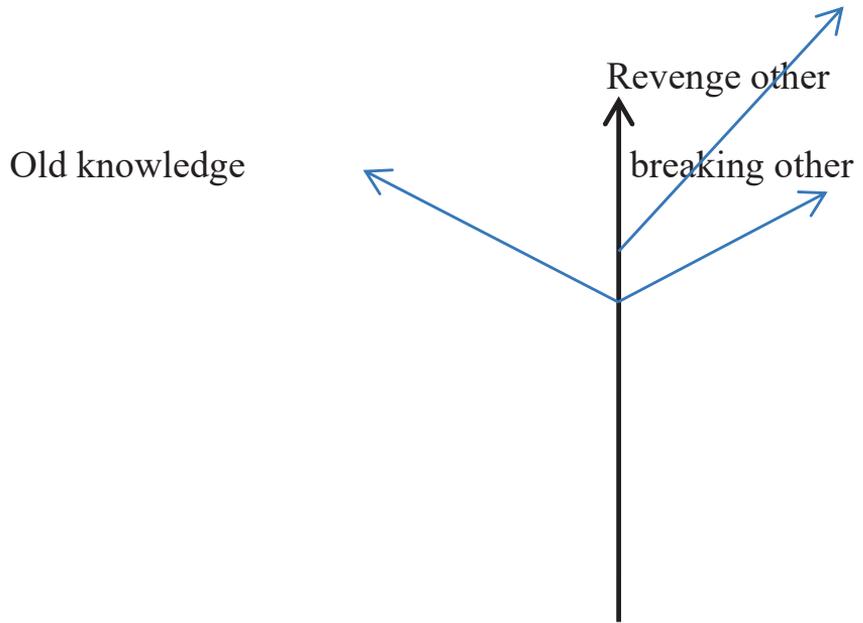

Shares time with other

Righteous soul me = vertical time living

Group living young time

**Do not share time with other**

Wicked soul me = horizontal time living

Just only one living old time

For the group living young time; 100year company young time

Righteous soul living =vertical time

Creation of knowledge

Doing real love

Help other

Share time with other; time saving

Beginning time

Righteous soul voyage orbit “000000000”

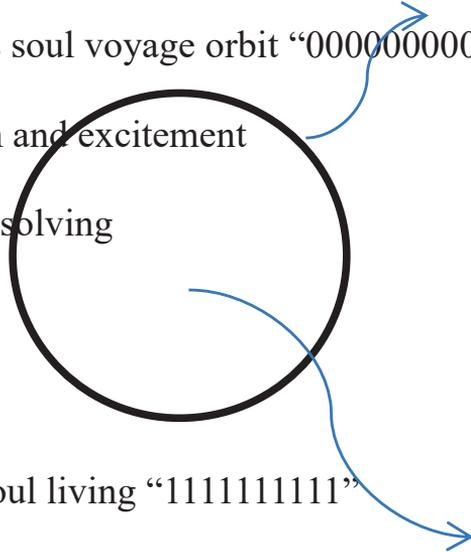

Perfection and excitement

Problems solving

Wicked soul living “111111111”

Imperfection and do not excitement

Problems do not solving

For only one living old time; to be disappeared company old time

Wicked soul living =horizontal time

Old knowledge

Revenge other

Breaking other

Do not shares with other; time consuming

End time

Infer and macro concept world group living is company

Then healthy and strong company's keeps young and grow of problems solving

But sick and weak company old and stop growing of problems keep occurring

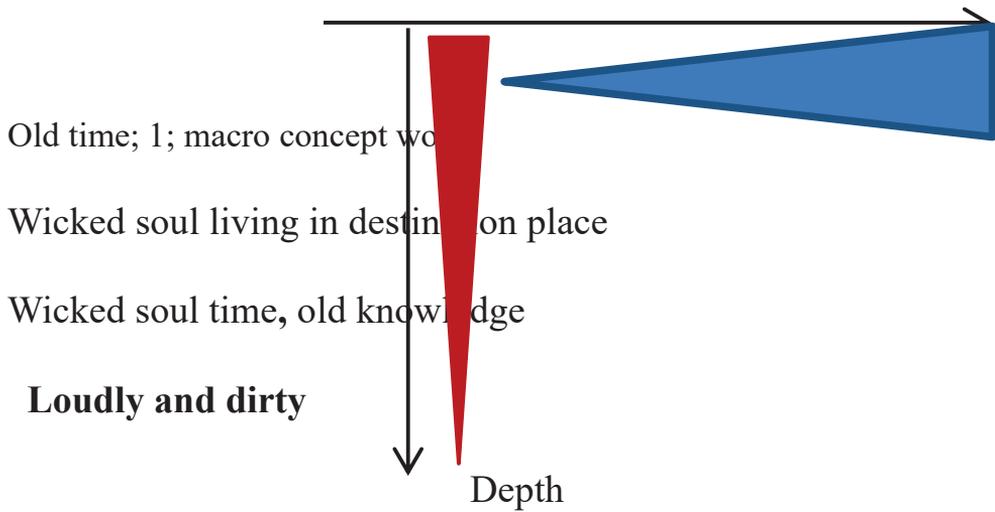

Why a company is young time, other company is old time.

Truly both companies have young workers; every year new man coming but a company getting old, other keep young.

This is can be infer of explained

$$T=s/v$$

S; change of distance

Young time 0: Righteous souls living in destination place

Micro concept world righteous soul time

Creation of knowledge

**Silent and clean clear**

Group living young time is vertical time, say again

Width is  $1/\infty \times \text{depth} \infty = 0$ ; macro concept world width is  $1/\infty = 0$ ;  
vertical time

Width is  $\infty$  X depth  $1/\infty = 1$ ; macro concept world width is  $\infty = 1$ ;  
horizontal time

Here is wicked soul of horizontal time is to be same area like  
righteous soul vertical time area

So that wicked soul tries to get wider, so that width is  $\infty$ , wicked soul  
needs “revenge and breaking

Energy” this is conflict with others.

But righteous soul to be same with wicked soul area

Depth to  $\infty$ ; this is it never conflict other but same area this is  
righteous soul living of

Vertical time,

So that vertical time young time, because there is no horizontal time  
to be  $1/\infty$  but

Vertical time is  $\infty$ , it never being old, but still beginning.

Truly horizontal time is “0123456789” so as time goes getting old  
time.

But there is no move horizontal time so still “0” vertical direction time  
still keep “0”

So that still time saves even value of horizontal time is 100 years  
value but still

Vertical time is “0”.

So that vertical time living is righteous soul living

As keep go deeper then, still young time but there is righteous soul living in destination

Place.

To be righteous soul living in destination place, it required perfect horizontal time direction to be

“9876543210” I do not know it must be infer this must be get back to the vertical time of

Righteous soul living is this, so then, all to be decreased “the poor & righteous soul” infer is required.

## Time is same but not same

Time is same but not same?

What's means?

Truly macro concept world livings time is same but time quality is not same, so that time is not same.

Here is time quality is new key word. Then here time quantity same, here is micro concept world time is righteous soul living time and wicked soul living time is not same, so then a living must be infer that in the macro concept world time is righteous soul time is 0, wicked soul living time is 1, it must be a macro concept world time is express as the "0" "1".

Righteous soul living time is "0", wicked soul time"1" quality time is righteous soul time of "0", quantity time is wicked soul time of "1".

This is what to be used, what related with?

Truly I do not know, but also why "time is same and but not same"

Here is inferring that all of beginning is "0" but end of time is not same all of macro concept world livings.

So that quality time must be defined that "01234567890" this is quality time, but "0123456789" this is quantity time.

Quality time of righteous soul living time is “0123456789 growing but to be “0” of growing of “123456789” to be shift to “0”, then this is quality time, here now, I do not know how to progress, 0123456789 to 0 this is righteous soul living time.

But quantity time is “0123456789” so that this is not shift to “0” so then this is wicked soul living time.

Righteous soul living time is “000000000000”

Macro concept world time is “011111111111”

Righteous soul living time is safe as “0”, but wicked soul living time is safe as “1”, righteous soul living is in the macro concept world but “0123456789 unsafe to safe “0” so that righteous soul living is “01234567890”, truly righteous soul living time is “123456789 is breath time but original time is “0”, there is no any wrong but silent and clean clear, this is defined to all complete clear “000000000000” is quality time.

But wicked soul living time safe as “1” truly macro concept world “123456789” this is major but breath is “0” so that macro concept world “0” is not useless just macro concept world “123456789” this is so that “123456789=1” macro concept world “1” is safe time, so that macro concept world living time is “1”.

Time is consist of macro concept world time and micro concept world time but also quality time and quantity time, truly macro concept world time is only “123456789=1” time only, but micro concept world is “00000” is also has, but macro concept world living wicked soul and mind level livings are only count of “123456789” so that this is as time grow to be living end of old time.

But micro concept world righteous soul living time is “0000000” so that macro concept world time righteous soul time is “0123456789-0-123456789-0” truly righteous soul living time is “0000000” so that this time grow to be living in beginning time of young time.

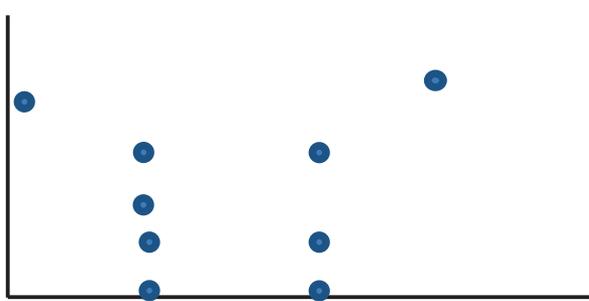

So then macro concept world time is “123456789” then old to be end time, in this time there is no harvest, but micro concept world time is “000000000” then young time to be still beginning, still has time to be harvest.

Because macro concept world time is as running then in the end to be old but righteous soul living time is runs to harvest so that still young time.

Quality time is harvest but quantity time is there is no harvest.

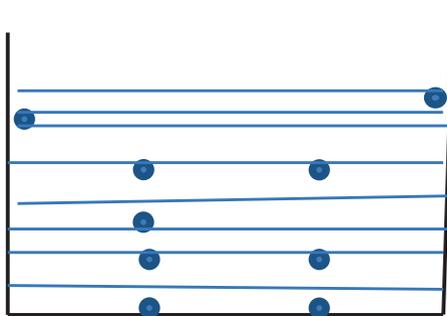

Macro concept world whose time is harvest, but there other time is not harvest.

Time quality=0 time quantity=1, what is difference time quality and time quantity is

Vertical time of mind is zero"0", so that bubble of creation of knowledge

= Quality time

Horizontal time of mind is  $\infty$  infinite, so that do not feel bubble of creation of knowledge

= Quantity time

Quality time is living with creation of knowledge

Quantity time is doing not living with creation of knowledge

Here is creation of knowledge is bubble in the mind being  $1/\infty=0$ , then righteous soul living

So that in the place bubble going up, then the bubble is creation of knowledge.

But as  $\text{mind}=\infty$ , then be jammed in a macro concept world living then, the living in

Mind level with wicked soul living, so then, the time is without knowing creation of knowledge

Furtherly all jammed mind and wicked soul with useless old knowledge, then the time is quality time.

In the macro concept world that livings are free but how to live result is huge difference quantity time living but quality time living, quality time of righteous soul living will complete what the living planned before start voyage to macro concept world, but quantity living of wicked soul living, all do not know, because wicked soul do not hear bubble of creation of knowledge so that, quantity time is used useless, even living with old knowledge which was used for problems solving but at now problems can't be solving old knowledge.

Time is same but not same

All of time is difference a time is must be “00000000” perfect, but another time “011100000”

Some of them are “01111111” all of times used.

How to live is here clear?

Real living of righteous soul is must be infer that “0000000000” safe reach at righteous soul living in destination place harvest is living eternity in the righteous soul living in destination place

Real living of wicked soul is must be infer that “011111111” fallen to wicked soul living in destination place. Do not have harvest so that incomplete wicked soul living in destination place loudly and dirty living of temporally living, again to voyage to the macro concept world to be living “00000000” and finish macro concept world voyage and complete living in the macro concept world.

Macro concept world living time is not same all of livings so that it comes to

Tine is same but not same.

All of living time is same but all of living time is not same because a time living compete living, but the other time living is incomplete living, so that time is same but not same.

## **Righteous soul living in destination place's planning doing time is "0"**

In the macro concept world

Righteous soul voyage living, so that righteous soul orbit living time is "0" of vertical time, how to righteous soul do mission carry;" righteous soul meet lover of wicked soul, doing real love wicked soul of lover, then righteous soul to be live in the wicked soul time and to save righteous soul righteous soul time", so called righteous soul doing mission carry is must be "0101010101 some after 0000" this is best, but if some of livings in the macro concept world righteous soul "0101010 1111" then, here is righteous soul lost righteous soul then changed into wicked soul.

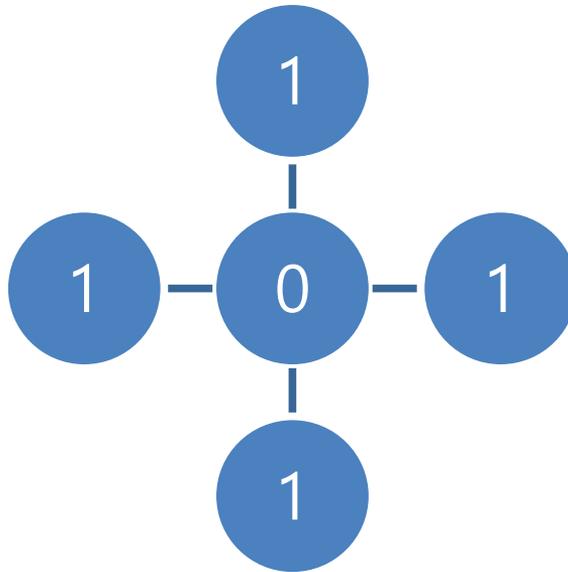

Truly

"righteous soul living in destination place's planning dong time is "0"" so that Righteous soul living time is also "0", then but macro concept world living righteous soul to be living "1" because righteous soul live with lover of wicked soul, so that righteous soul living time to be living "01" here is righteous soul 0 but wicked soul small, 1 is wicked soul time.

So then righteous soul living doing righteous soul mission carry then"01" here is righteous soul living hard with wicked souls, righteous soul around huge wicked souls, so that righteous soul do live with wicked souls, so then

Here is

0: righteous soul 1: wicked soul

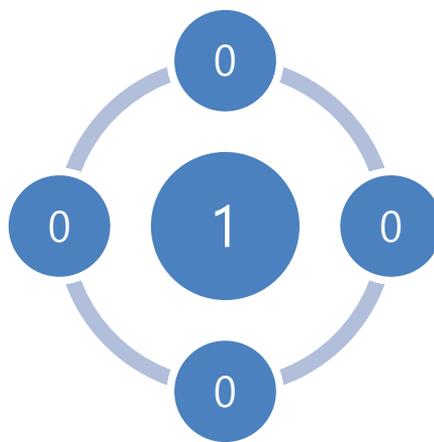

0 of righteous soul living so hard, because righteous soul living with creation of knowledge but around of righteous soul, they are living with old knowledge so that righteous soul living doing righteous soul living behavior is so hard so that righteous soul living “0” is beginning of young time, but wicked soul living 1 end of old time, so that righteous soul living behavior “it shares time with other, help other, but also doing real love other”.

Even righteous soul living of “0” young time, but around of all of old time, then so hard with them, but also righteous soul living with creature of knowledge, so that righteous soul know that wicked soul’s old knowledge is useless to solve now problems.

So that righteous soul creation of knowledge do role solving now problems, righteous soul still in the voyage of orbit of righteous soul.

0000; righteous soul voyage, 1; to be created lover of wicked soul

Center of “1” of old time of wicked soul, but outer 0000 is righteous soul of young time.

Here is center of “1” is huge, still wicked soul is strong, so that voyage of righteous soul doing real love in the circle of “1”, truly here is center wicked soul “1” old time to outer 0000 time is young time, so that between old time and young time ;1to 1, called as the righteous soul front line.

Righteous soul front line is here is 4 righteous soul 0, strong wicked soul “1”, so then, to be wicked soul to be righteous soul, it must be

righteous soul time “0” to be express as “01” “01” “01” “01” so then righteous soul has small wicked soul, this small wicked soul has “revenge and breaking energy” so that here is “01” of righteous soul to be so hard living.

But righteous soul living macro concept world voyage is getting lover, but also this is mission in the macro concept world.

So that righteous soul living changed “the poor & righteous soul” “righteous soul & nothing”, truly it must be righteous soul macro concept world mission carry time infer that “righteous soul & nothing” but still has hard with wicked soul energy, is not separated from wicked soul, so then righteous soul macro concept world mission clear then, in the end righteous soul living feel free of wicked soul “revenge and breaking”, infer that righteous soul voyage in the macro concept world, is love of wicked soul, this love of wicked soul to create righteous soul, this is macro concept world righteous soul living.

Righteous soul front line, in the front line a wicked soul keep supplied to righteous soul living energy, but wicked soul is closed righteous soul 00000, so that wicked soul can’t new wicked soul energy, so that righteous soul keep supplied to the wicked soul righteous soul energy, so then righteous soul to be “0” of youth, strong righteous soul living with creation of knowledge, so that righteous soul keep righteous soul energy supplied to wicked soul then wicked soul energy to be 1 to 0, so that wicked soul to be righteous soul so that, righteous soul keep

supplied to righteous soul, so that lover of wicked soul to be righteous soul, so that righteous soul can hear broadcasting from righteous soul living in destination place.

So that righteous soul mission clear, but also macro concept world wicked soul changed into righteous soul in the macro concept world, this is wicked soul create a wicked soul to righteous soul, this righteous soul voyage from righteous soul living in destination place start to macro concept world.

Righteous soul living time is young time, wicked soul living is old time, so that righteous soul young time mission is save wicked soul old time not to be fallen to the wicked soul living in destination place.

Here is righteous soul get a lover with living in the righteous soul living in the destination place, but wicked soul also saved so many times runs to macro concept world voyage complete, so that this is really hard, to the righteous soul but also wicked soul too, how to live in the macro concept world, just righteous soul only, wicked soul only, that is not possible safe returning to the righteous soul living in destination place.

Righteous soul to be safe returning to the righteous soul living in destination place, by doing real love lover of wicked soul, then righteous soul create righteous soul of lover, righteous souls mission is so important because so many times turning not complete, so

righteous soul save wicked soul of lover.

Truly infer that macro concept world living is righteous soul, but wicked soul anti righteous soul so then, righteous soul living in the macro concept world “0” of young time is really do living “000000” time, keep hearing broadcasting from righteous soul living in destination place, so that righteous soul living complete living so righteous soul living “01234567890” macro concept world 123456789 is interval but “0000000” is safe place of righteous soul living, then righteous soul living time is 0, do not old, keep young time.

## **Righteous soul me time is beginning time of “0”**

Truly book writing is so hard, these days I feel it.

If I do not living in righteous soul, how to do this 17 books I did, at least book writing time, I’m righteous soul living actor, here is righteous soul living actor how to explained, this is  $\text{mind}=1/\infty$ , there for, as there is no mind, there is no me, this is righteous soul me.

This is so excitement with my creator will excitement with me, will I to be living creator planed living, then infer that book writing is creator planning, if then here also my righteous soul me, all helped from righteous souls to me, righteous soul living behavior “it shares time with me, help me, and doing real love me”.

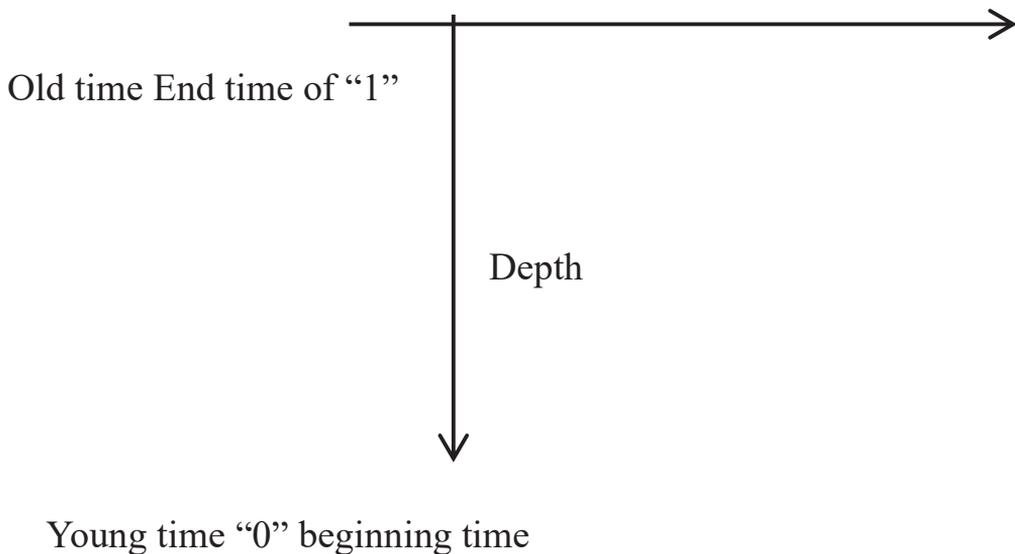

Yes! I’m helped from other righteous souls and I can hear broadcasting from righteous soul living in destination place.

So that I’m writing books, book writing help me doing righteous soul living me, truly this is real important to me, my book 17 is coming out of first create me righteous soul living of silent and clean clear, I’m every time is beginning time.

Yes righteous soul me time is beginning time of “0”

$$T=s/v$$

S; change of distance

As I'm righteous soul and young time, so that I can be helped creation of knowledge so that I can do book writing 17 books, at now book writing now here young time "time and life time".

If a country, company and a person living in old time, then end time of "1"

If a country, company and a person living in young time, then beginning time of "0"

Yesterday an email arrived, so that I read it,

The message was free thinking saying on country, so that I registered “problems and solving, if we are can’t problems let’s do remove our problems, but we create young time problems and solve now our knowledge and each person’s creation of knowledge”, so that today my book name is “Righteous soul me time is beginning time of “0””

Righteous soul me beginning time young time, of “0”, then righteous soul me living on the righteous soul running voyage orbit, so that righteous soul me doing book writing, truly until now lost excitement, but right before book writing excitement I felt, but also in the book writing I can communicate righteous soul me to righteous soul living in destination place, so that creator of righteous soul me, will know me, but also I can hear creator creation of knowledge.

Righteous soul living book writing and hearing broadcasting from righteous soul living in destination place, keep in communicating with creator of righteous soul me.

On the way to the my work place, Taxi, how to do book writing today, but I could not how to do, but now book writing, some of survive excitement on book writing, this is feeling in righteous soul me living and survive.

Righteous soul me time is young time, vertical time, on the righteous soul orbit time, this is must be huge excitement, and meet and hear of creator of righteous soul me, this is now, even truly hard with peak,

my 17 books are to be published, even now 5 books are published, because I have no money for it, as some of book sell then this book royalty can be using for other books but so hard now.

I understand book publishers also make a money book selling, but also publisher workers monthly paying, but as the book writer conflict book publishing money is hard thing to me, truly complicate my time was truly old time of wicked soul living, when I meet publisher then I contaminated from them my time to be old time.

But at now my time is righteous soul me vertical time of young time, if I keep write a book then, righteous soul me time will be keep young time of "0". Book writing is running to the much deeper place. Some while breaking then, I feel silent and clean clear feeling, this is only righteous soul living me feeling, while now I'm a righteous soul me, because I can communicate with righteous soul living in destination place creator.

At now still I'm book writing "time and life time" creator helping, this book now comes to now, this book will help righteous soul livings, who are hard and torture of living but , there living is  $\text{mind}=1/\infty$ , righteous soul living hear broadcasting from righteous soul living in destination place, living creation of knowledge.

This book safe survive and complete but also, published and living in the bookshop eternity for helping a righteous soul then, this book

righteous soul feel excitement.

Moment stop then, at now I feel is excitement silent of clean clear.

At now here time is am 6:10, my book writing time is 5:30 to about one hour, so still I have to book writing.

Why a person, country and company going to old, truly this book start, old time, how to keep beginning of young time, truly all of living young time built road to some place, in the young time is vertical time of “0”, in this time all get creation of knowledge, so that a person, country and company built road to a place, but a company and country and a person beginning time of “0”, do not built road to vertical time and righteous soul living in destination place then, mostly as the mob group pushed to a place; wicked soul living in destination place, all going place is not in creation of knowledge, so that all mob depend on old knowledge, so that move living so not deep but go wide living, truly not enough wide territory so that, all of mob living me, is still living in end of time, to be disappeared falling to the wicked soul living in destination place.

Vertical time, beginning time, still “0” time is not mobbing, but righteous soul of living. So then, the living is creation living, so that all of righteous soul living is creation of living, creation of knowledge a righteous soul living runs to the deep and deepest righteous soul living place.

Not to be mobbing of horizontal of wicked soul, but a righteous soul

of creation of knowledge living vertical time living.

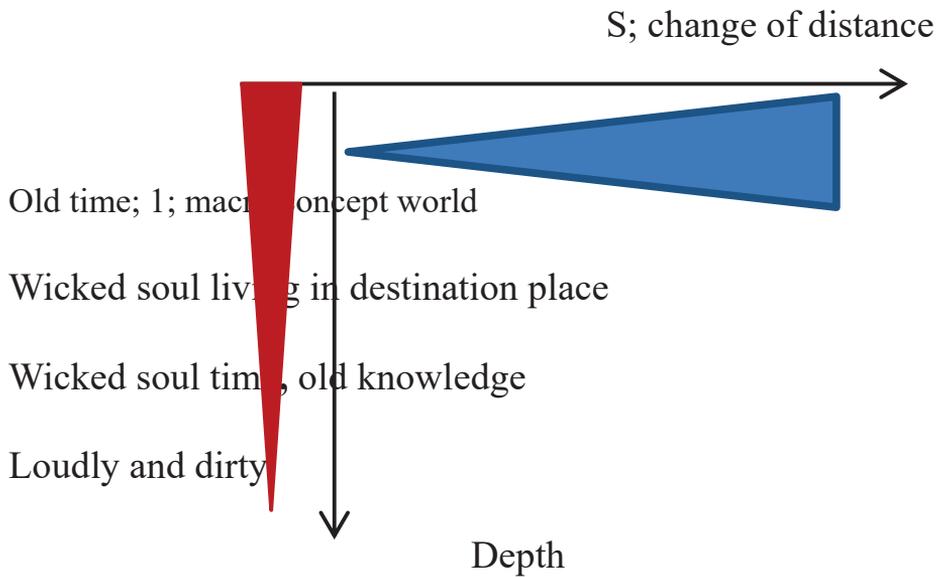

This is excitement of silent and clean clear living, this living only feel in the vertical time of going deeper running righteous soul living only living, as the righteous soul with creation of knowledge so that this is clean and clear, silent, this is righteous soul living privilege excitement.

Truly book writing creation of knowledge excitement, at now feeling clean clear, this is righteous soul living me.

Why this book “time and life time” writing is righteous soul me living feeling “excitement silent and clean clear” feeling, while this occur bubble of creation of knowledge, this living excitement is growing righteous soul living, righteous soul living keep growing because righteous soul is young time and beginning.

# Young time righteous soul role play in the macro concept world

$$T=s/v$$

Young time 0: Righteous souls living in destination place

Micro concept world righteous soul time

Creation of knowledge

Silent and clean clear

Young time living is real living and growing time, so that important to the person, company and country, if not living young time, this living is not growing time so that even run but old time of series problems are surging.

Young time righteous soul living is not sick but old time of wicked soul to be sick. Young time growing beginning time so that healthy, living so that powerful time, this time living is excitement living, while a people living vertical time of silent and clean clear living, but if living horizontal time then, a person in the loudly and dirty of sickness.

If a living in the macro concept world follow vertical time, then it must be hard because the way is running to the righteous soul livings, righteous soul living of vertical time living is personal role in the macro concept world, so that difference from other, but righteous soul living is righteous soul living destination place giving righteous soul me how to live, if macro concept world living “poor” then, the poor living is vertical time living.

Righteous soul creator designed for poor, then poor living is role play in the macro concept world, here is the poor is hard living in the macro concept world, but truly micro concept world righteous soul living in destination place giving righteous soul me a role in the macro concept world, here is righteous soul creator try to safe voyage and safe come back to the righteous soul living in destination place, then “poor role” is very possible so that gift to righteous soul me, but here reject creator planning then, instead of poor but try to living rich, then  $\text{mind}=\infty$ , infinity there for wicked soul me is run horizontal time, because macro concept world wicked soul me is out of righteous soul creator panning.

Here is righteous soul role player of righteous soul me is “poor” then, righteous soul me runs vertical time, then “poor” of righteous soul hear broadcasting from righteous soul living in destination place, what in this book righteous soul broadcasting hearing is getting “creation of knowledge”, so that righteous soul of “poor role in the macro concept world” then get creation of knowledge, so then “poor and righteous soul + creation of knowledge” then “poor role in the macro concept world” but righteous soul supplied to “creation of knowledge”= macro concept world a righteous soul how to live, the living is still young and living in silent and clean clear living.

But refuse of poor living in the macro concept world, so then living in wicked soul living without righteous soul creation of knowledge but help old knowledge, so then, here living horizontal time, as the mob to be rich, truly a wicked soul me try to be rich runs for it, but poor role from righteous soul living me, how to be rich, this is never be that, truly righteous soul creator gift “poor” role in the macro concept world, because righteous soul already know that macro concept world to living in righteous soul is so hard, so that out of wicked soul hate living poor, so that gift giving me, but if righteous soul of poor then getting creation of knowledge, but as the mob of horizontal time try to get rich, so then even all of time consuming then, the time all to be old time.

Righteous soul living macro concept world role player living is vertical time, young time but also to live righteous soul creator role living is macro concept world variable creative personal living secure,

macro concept world role player is do not conflict from other, all difference living of creature, so that each righteous soul role is not conflict to others, so that it possible righteous soul livings runs vertical living of young time, so that the living is silent and clean clear living possible, but macro concept world is not going righteous soul variable creative livings, because wicked souls are try to live in “easy living” this easy living even get “revenge and breaking energy using” so that macro concept world living in easy of being rich is better, so that all macro concept world to be automatically being mob of horizontal time of conflict each other, so that strong wicked soul remove not strong wicked soul, so that all of mob living in the horizontal time living but all of mobs are to be fallen to the wicked soul living in destination place.

Righteous soul living in righteous role play of creator planning, this is really real living, if this living then, righteous soul creator helping in the orbit, righteous soul creator me keep watching me safe voyage in the macro concept world, but also my best adopt living, further more righteous soul living hearing broadcasting from righteous soul living in destination place, so that getting creation of knowledge. So then righteous soul vertical time is in fruit and harvest, until now wicked soul living rich but righteous soul living poor, but here is not is saying to me, righteous soul living creator designed living but also righteous soul hear broadcasting and getting creation of knowledge, much more runs to deeper, then where is fruit of living, righteous soul living is young time and keep growing so that, wicked soul living horizontal time all of mob try to go same direction to be rich but truly old time old knowledge is all conflict each other, there is no harvest

and fruit.

But righteous soul living in the macro concept world, the time is vertical time, so that to go vertical time then go deeper running is helping righteous soul creator, so that if righteous soul of creator planning living then, the righteous soul living is youth time, but also keep growing of real living time, so that a person of righteous soul do not conflict other, because righteous soul living is not go wide but go deeper, so that perfect difference living a person, so that all of livings are difference living.

So then all of macro concept world living are runs to the depth of vertical time, then all of livings voyage livings are all difference living, but also all is not same living, so that conflict living is not, but all of mob of wicked soul living of horizontal time width is  $\infty$  infinity but depth is  $1/\infty$  so that horizontal living all depend on old knowledge so that , the horizontal time is stop growing but living, so that to live and wide is not increased but all try to be living rich, originality impossible livings in the time of horizontal time living.

Young time righteous soul role play in the macro concept world

Righteous soul creator designed righteous soul me, so that if righteous soul me living in the macro concept world as righteous soul creator me living then, righteous soul me living voyage vertical time with hearing broadcasting from righteous soul living in destination place, so that I can get creation of knowledge, so that righteous soul living

in destination place creator planning role is doing in the macro concept world, then righteous soul me vertical time living, how safe living? This is strong safe living, so that righteous soul living in destination living planned role play in the macro concept world voyage running is best safe living and living behavior of righteous soul “it shares time with other, help other but also doing real love other”.

Righteous soul vertical time is

Young time

0: Righteous souls living in destination place

Micro concept world righteous soul time

Creation of knowledge

Silent and clean clear

Living righteous soul creator

designed role play

Living righteous soul creator designed role play living is vertical time living of creation of knowledge getting.

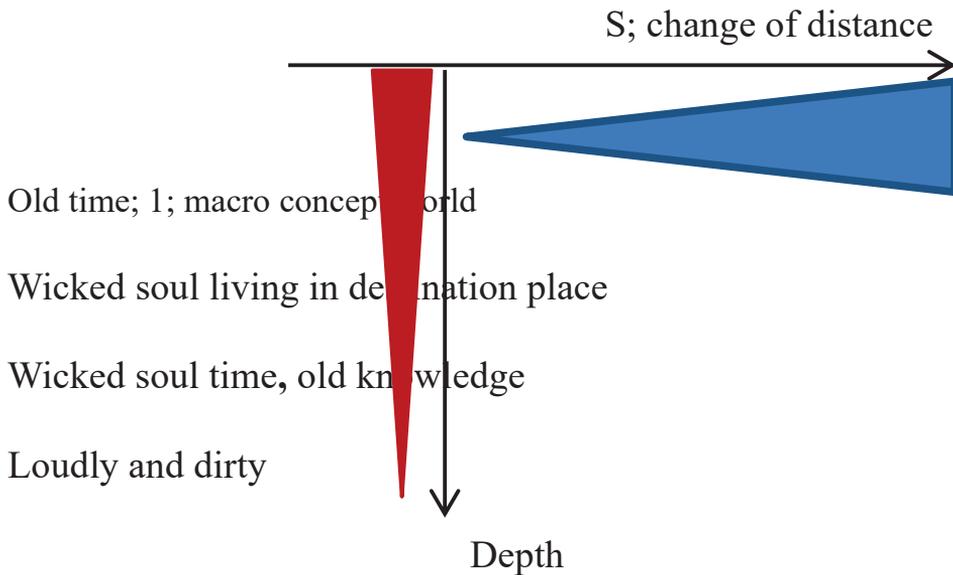

Here is righteous soul living vertical time young time is getting

harvest and fruit, this energy all using righteous soul living behavior “it shares time with other, help other, but also doing real love other”, so that as living in righteous soul in the macro concept world is fruit is safe come back to the righteous soul living in destination place so that all of macro concept world fruit and harvest all shares with poor and righteous souls.

## Time Macro to micro, and time micro to macro

Here is time macro to micro changing express is “10”, time micro to macro is “01” truly vertical time is width is  $1/\infty \times \text{depth}$   $\infty=0$ , so that vertical time is micro time, but macro time is “width is  $\infty \times \text{depth}$  is  $1/\infty=1$ . So that horizontal time is macro time.

$$T=s/v$$

Young time 0: Righteous souls living in destination place Micro concept world righteous soul time

Creation of knowledge

Silent and clean clear

If a person living is on the vertical time living and horizontal time is, then vertical time living person living is going wider, but vertical time living is going sharper.

Going wide is end is  $\infty$ , but going shaper is end is  $1/\infty$ . Here is infer that a person living on horizontal time then to go end of horizontal time is to be being wide of  $\infty$ , so then it must be energy is also wider, so that a person living is all used up, for wide living.

Going shaper end is  $1/\infty$  so that vertical living person as going to end of vertical time, then using energy also to be  $1/\infty$ .

Why this book try to say vertical time and horizontal time.

Here is come up, horizontal time living person energy consuming is  $\infty$ , vertical time living person energy consuming is  $1/\infty$ .

This means that vertical time living person do not used any energy but reach at the end of vertical, but horizontal time living person do use some energy.

Horizontal time livings collecting energy all by using revenge and breaking other righteous soul, wicked soul and mind level livings so that super energy getting wicked soul livings survive to the end of vertical time living, so that all of vertical time livings are fighting to go for end of horizontal time.

But vertical time living do not collecting energy so that there possible

“it shares time with other, help other but also doing real love other”, but righteous soul livings vertical time is there is no consuming energy so that if living righteous soul safe reach at the vertical time end.

Here truly vertical time is width is  $1/\infty$  X depth is  $\infty=0$ , horizontal time is width  $\infty$  X depth is  $1/\infty=1$

Here is time  $\infty$  is horizontal is width and vertical depth so long, a person living is horizontal living is runs to the end of horizontal time, but a person living in vertical time is going depth to the end of vertical time.

Who knows vertical time living and horizontal time living?

Righteous soul me know that vertical time end of depth is  $\infty$  , but also wicked soul me know that horizontal time end of width  $\infty$ , so that wicked soul try to be 1, all of living but righteous soul living try to be 0 living.

A person time is to live and getting width X depth = area, this is really all know it, so that righteous soul living is width X depth is 0, so that righteous soul living area is 0, but wicked soul living is width X depth =1, so that wicked soul living area is 1.

Vertical time living person end of time is 0, so that righteous soul living person living is “silent and clean clear”

But horizontal time is to be 1, all of horizontal time livings revenge and breaking among others, so that horizontal time living excitement is just being only one of easy living, who did all revenge other and breaking.

Here is how to live is clear, righteous soul vertical time living of “0” is, righteous soul living excitement “ silent and clean clear” is vertical time of “0”, helping righteous soul living in destination place broadcasting hearing of creation of knowledge”.

Vertical time of “0” living is youth and keep growing, so that as reach at the end of vertical time still “0” of young time, this is huge meaningful, a person living is keep young, so then changed a country and company living is keep young growing, but horizontal time is reach 1 so that the time is old time and end time is 1, so that growing is stop, so that horizontal time living is all to be old time, old time living is doing not growing but decaying, so that horizontal time is never run to “0”, because “1” is end of old time,

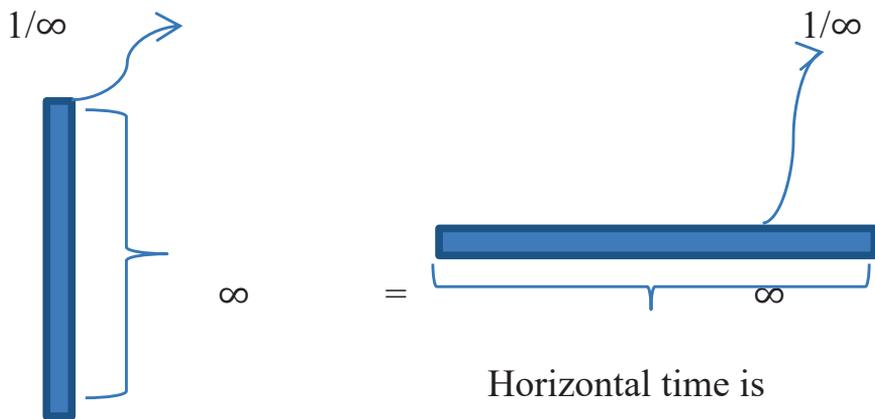

How to live

A living is vertical the other living is horizontal how to be

This is can hear broadcasting of creation of knowledge getting or not, if creation of knowledge getting then the way is vertical living, but cannot hear of broadcasting so that there is no creation of knowledge, then horizontal time living.

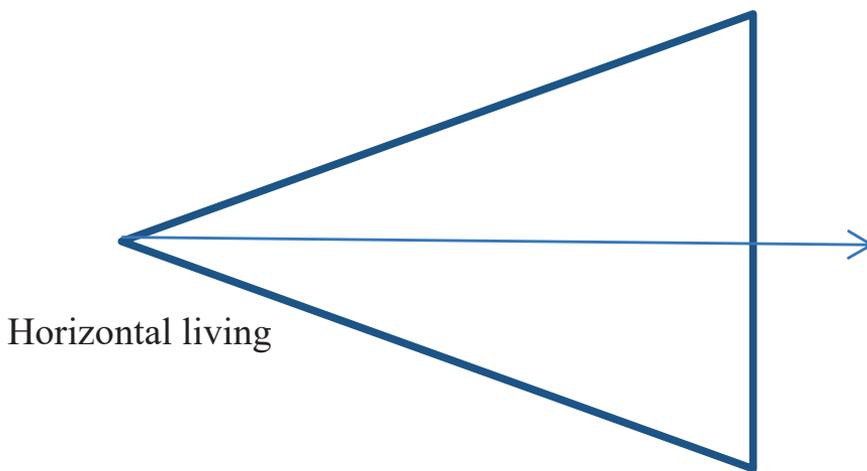

Because

Vertical time is

Vertical time area to horizontal time area to be equal then, how to do, horizontal time living actor runs to the end of horizontal time, to be get end of horizontal width to be  $\infty$ , truly this is impossible so that, impossible living of horizontal time living actors are all living of wicked soul and mind level livings, truly impossible “1” so then, mind level livings all runs to be “1”, but in the end wicked soul getting only one to be impossible but possible concept getting.

As the horizontal time living end is impossible because

Horizontal living end is  $\infty$  then truly a time living is

$-1/\infty \sim +1/\infty =$  this is time but  $-\infty, +\infty$ , here is there is no time, so that the end of horizontal time must

Be impossible, but all of macro concept world living horizontal livings are try to get to be “1” try to end of horizontal but here is all of livings are try to be “1” so that horizontal time living persons do not hear broadcasting, so called horizontal time livings are not helped form creation of knowledge, so truly horizontal time end of width  $\infty$  impossible they do not know.

But vertical time living

Vertical time living is truly width  $1/\infty$  x depth $\infty$ , then “0”

Righteous soul of vertical living hear broadcasting of creation of

Knowledge, saying “do live righteous soul living behavior of

It shares time with other, help other but also doing real love other

To be living possible righteous soul helps all of creation of knowledge.

Only creation of knowledge can live vertical time living.

Vertical time living possible “it shares time with other, help other, but also doing real love other”

But horizontal time livings do not do “it shares time with other, help other, but also doing real love other”

Here is going deeper living is “it shares time with other, help other, but also doing real love other”, truly

This book beginning I did not know, but at now going deeper of vertical time living is

“It shares time with other, help other, but also doing real love other” this is true, not infer.

Truly righteous soul living behavior is gains righteous soul energy so that, hear of broadcasting from righteous soul living in destination place, so then get creation of knowledge, this is helping going deeper living.

Vertical living time living.

Keeps young time living?

A person, a country, a company to be vertical living, it must be infer that do righteous soul living behavior of

“It shares time with other, help other, but also doing real love other”

Then this living is vertical time living.

## **Righteous soul macro concept world living mission clear**

Every day every time, righteous soul me to be temptation from “revenge and breaking of wicked soul” so that righteous soul me fear being “revenge and breaking” so that out of righteous soul me, designed to righteous soul me breaking.

“Righteous soul me” try to live “righteous soul & nothing”, but wicked soul try to disturb righteous soul me being wicked soul me living.

Righteous soul me and wicked soul me is difference living, righteous living purpose is safe returning to the righteous soul living in destination place, but wicked soul living purpose is “past origin why I’m living in the wicked soul living in destination place so that wicked souls all wicked soul living is not wicked soul self, but all is from other so that macro concept world living revenge and breaking”.

Strange in the macro concept world happening thing is clear of revenge and breaking actor and to be revenged actor, so that, a truly rare time in living in macro concept world, all used time for revenge and breaking, a living used up time for breaking other.

Righteous soul must be target from wicked soul revenge and breaking,

so that righteous soul living in the macro concept world, so hard righteous soul living and against to righteous soul running to the righteous soul living in destination place, the revenge and breaking wicked soul,

Truly wicked soul and “righteous soul me” living is mixed in a space, so that wicked soul temptation righteous soul me, to break down, as growing near to the righteous soul living in destination place all of wicked souls agitate me living righteous soul.

Righteous soul living independent living, safe from wicked soul revenge and breaking, here is mind level livings also mixed that normal living is inter mind level and wicked soul living, so that righteous soul living feel urgent dangerous from temptation, all of mind and wicked soul used righteous soul me breaking by temptation.

But righteous soul living structure is revealed to be temptation of body, truly body is righteous soul living shelter but shelter of body to be reveal to the wicked soul revenge and breaking, so how to live, “righteous soul me +body” temptation with outer of “revenge and breaking of wicked soul”, so then wicked soul temptation is a kind of trap, drop to the wicked soul living in destination place.

Temptation is major attacking tools righteous soul tumbling down to wicked soul living. So that righteous soul living must be being mind to  $1/\infty$  righteous soul living in me, righteous soul me keep living in

me, then there is no mind, so that wicked soul temptation attacking is useless, because righteous soul in me, then righteous soul will keep me, but very dangerous is righteous soul runout me, righteous soul sometimes run out me, it must be righteous soul feel that just a moment out, then this time righteous soul me losing by mind, so that righteous soul me living is all the time living righteous soul me, how to righteous soul me living independent from wicked soul living attack of revenge and breaking then, righteous soul living keep hearing broadcasting from righteous soul living in destination place, so that get creation of knowledge, of bubble creating living, so that righteous soul me living is “silent and clean clear”, distance from wicked soul livings.

Wicked soul living time is horizontal time, righteous soul is vertical time, so then righteous soul runs to the depth but wicked soul runs to the width of horizontal time.

Righteous soul living silent and clean clear + wicked soul revenge and breaking time is righteous soul run out righteous soul me, and righteous soul to do mission macro concept world; righteous soul meet wicked soul of lover, to create righteous soul, righteous soul live in the wicked soul time of horizontal time, but also righteous soul do not live in righteous soul living, so that righteous soul inside space of righteous soul filled all think of wicked soul, so that righteous soul do not hear of bubble of creation of knowledge but also do not hear broadcasting, so that righteous soul mixed with wicked soul.

Then righteous soul do not living in “silent and clean clear living” of vertical running is stop closed to run vertical time, so that righteous

soul to be dangerous vertical time and horizontal time mixing this time is righteous soul living so hard time, but righteous souls all live like this, so many righteous soul fall to the wicked soul living.

Righteous soul living independent from wicked soul “revenge and breaking” righteous soul to be living wicked soul time, but here is righteous soul time is major, so that righteous soul front line, so that righteous soul invite wicked soul of lover, this is really danger also, but righteous soul do real love wicked soul, righteous soul know that this is only for righteous soul living in macro concept world mission carrying, so that macro concept world hard living is really safe living.

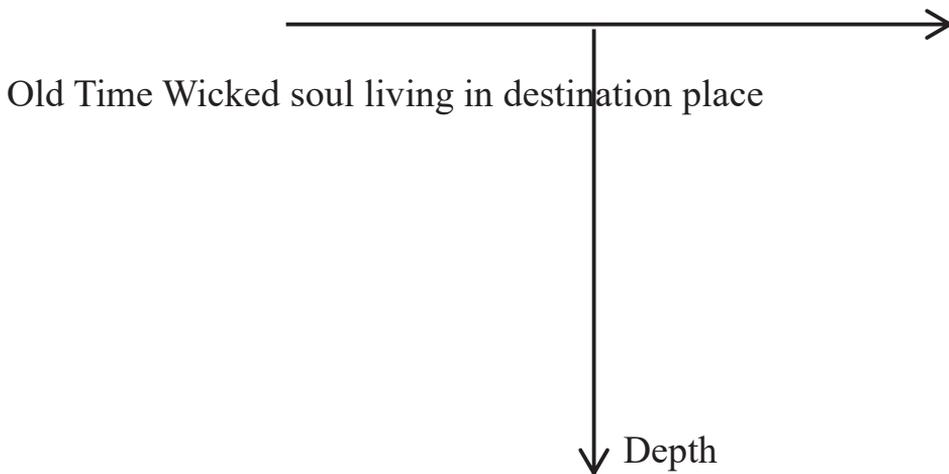

Righteous soul living all “the poor and righteous soul”, yes this is only living in righteous soul living, at now I’m book writing, here is feel sorry, book writing is to be getting know to other, this is really urgent of dangerous because, if then me living is not hard and difficult so then, wicked easy livings will be attacking me, then my hidden but righteous soul book writing, righteous soul feed supply will be seen to the wicked soul.

Here is important is righteous soul survive from wicked soul revenge and breaking, to be safe living is string independent living zone is required, that is simple and complicate, so long, simple is living vertical time of righteous soul, wicked soul is horizontal time.

Anyway righteous soul move on the vertical time, wicked soul move horizontal time.

$$T=s/v$$

S; change of distance

Young time Righteous soul living in destination place

Righteous soul living running on the vertical time

Wicked soul living running on the horizontal time

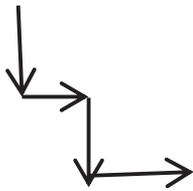

Infer that

Righteous soul 0 + hearing broadcasting from righteous soul

Righteous soul 0 + do not hearing broadcasting form righteous soul

Righteous soul 0 + hearing broadcasting from righteous soul

Righteous soul 0 + do not hearing broadcasting form righteous soul

This is to be hard living to reach at the righteous soul living in destination place

Righteous soul not to be revealed to wicked soul time of horizontal time

Then, righteous soul living have to righteous soul mission, so then have to meet

Wicked soul living time, but strong righteous soul living front line time then

Righteous soul living must be “it shares time with other, help other, but also

Doing real love other” this is righteous soul living behavior then, it must be

Hear righteous soul broadcasting.

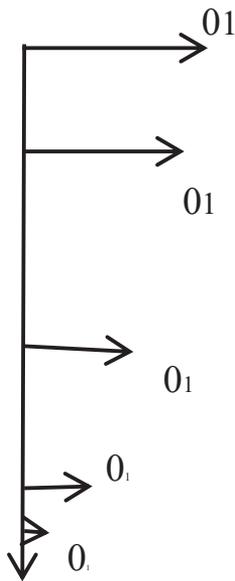

Righteous soul “0” + lover of wicked soul”1”

Righteous soul “0” hear broadcasting from righteous soul living in destination place

Righteous soul”0”+lover of wicked soul “1” = so that express “01” this is righteous soul

Major of righteous soul front line, so that righteous soul huge energy required

Righteous soul living “poor and righteous soul”=”it shares time with other, help other, but also ding real love other” then, the living is possible righteous soul mission clear of “01” righteous soul to be stronger to the wicked soul then, this mission is possible to be clear.

In this image 01, 01, 01, 0, 0.

this is vertical time of “0” of righteous soul living is go deeper but wicked soul of “1” keep decreased as righteous soul runs to vertical time living, so that this is righteous soul front line, as righteous soul runs to the deepest then wicked soul decreased to almost to zero, so that lover of wicked soul create to righteous soul.

So then righteous soul living front line is vertical time running but lover of wicked soul horizontal time, so that righteous soul hear of broadcasting of creation of knowledge make possible righteous soul

Righteous soul front line and righteous soul living actor do survive and lover of wicked soul to be create righteous soul, so that righteous soul also safe returning with create lover of righteous soul to the righteous soul living in destination place.

How hard living of righteous souls, righteous soul living is create wicked soul to righteous soul, so that macro concept world creating wicked soul to righteous soul, hard and hard living in the macro concept world, all of temptation overcoming from wicked soul revenge and breaking also, righteous soul living is complete macro concept world voyage.

## Righteous soul young time, wicked soul old time

Huge livings are voyage so that beginning time was all “0” but as living in the macro concept world, living with macro concept world “mind” who is getting much more than other, infer that mind try to meet wicked soul, so that wicked soul friend with mind, mind try to get much more than other, so that here is others are all same, mind of all other living is “getting much more than other”.

Mind living hard because struggling living other mind, so that a mind try to me, strong power “revenge and breaking” so that mind is being “mind+ wicked soul” so that mind getting much more than other + “revenge and breaking”=this is same as wicked soul, so that mind is $\infty$ , then automatically wicked soul is strong, first time mind is need to living in the macro concept world, but soon, wicked soul owned so that wicked soul living is mind living.

But righteous soul is so hard with mind, if mind is $\infty$  then righteous soul do not activation, if a living mind  $\infty$  then righteous soul living is not activation, so that a living perfectly living mind, here is mind is wicked soul so that righteous eternity doing not activation but living all wicked soul living huge in the macro concept world.

So that righteous souls are created but wicked souls are fall to the wicked soul living in destination place, this livings are all past origin livings, so that past problems is still they has so that past origin problems anger so their energy is “revenge and breaking energy”.

Righteous soul all created, because huge number of create but survive and safe returning to righteous soul living in destination place is so hard, righteous soul living in destination place righteous soul all creator creating righteous soul, creating righteous soul voyage to the macro concept world, meet lover of righteous soul to comeback to the righteous soul living in destination place, this is righteous soul macro concept world mission “righteous soul meet wicked soul of lover, and do real love wicked soul of lover, then create righteous soul and righteous soul safe returning with creating lover of righteous soul”.

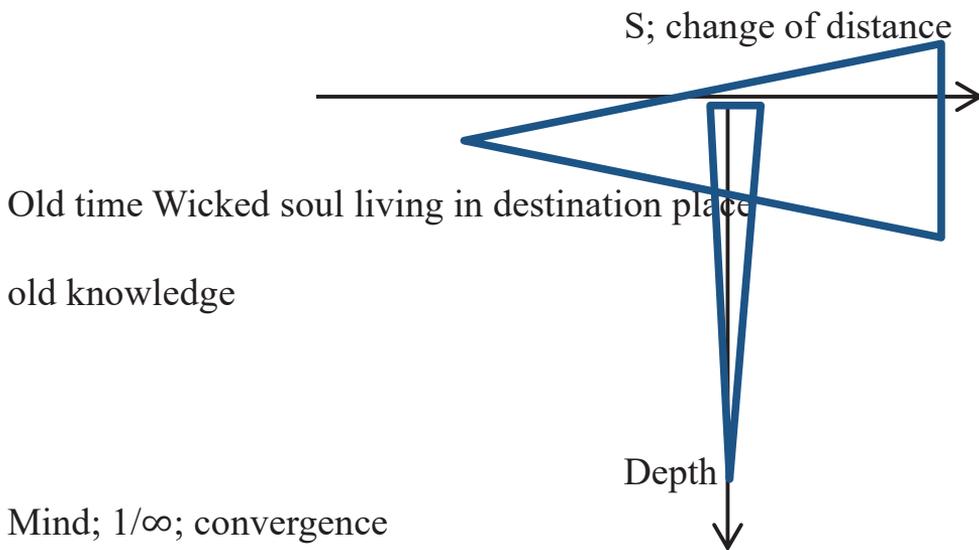

Truly this is righteous soul save wicked soul to create righteous soul, so that righteous soul and wicked soul is, truly righteous soul is save from wicked soul to righteous soul, but wicked soul even do not know righteous soul save wicked to create righteous soul but righteous soul still past origin anger so that, even righteous soul or not do “revenge and breaking” so righteous soul revealed to wicked soul, that is righteous soul front line to the wicked soul, righteous soul front line book I wrote already.

Wicked soul living automatically horizontal time old living, because

mind and wicked soul do not hear broadcasting from righteous soul living in destination place, so that all of mind and wicked soul runs to get much more than other, rust to the horizontal world end, because area getting larger area, so that mind living is running to the horizontal time of old time running.

$$T=s/v$$

mind is  $\infty$ ; divergence

Young time Righteous soul living in destination place + creation of knowledge

Righteous soul hear broadcasting from righteous soul so that, getting creation of knowledge, so that

Righteous soul helping creation of knowledge, so that righteous soul do live creative living, that is vertical time of young time living.

So that righteous soul as mind is  $1/\infty=0$ , then righteous soul living voyage so that righteous living possible is as minis is  $=0$ , so that mind is  $\infty=$  wicked soul living, here is righteous soul living and wicked soul living is difference is clear.

Righteous soul living is mind is  $=0$ , but wicked soul living is mind is  $\infty$

So then righteous soul living is mind is “0” wicked soul living is mind is  $\infty$  of divergent

So that righteous soul living is convergent

So then here is wicked soul living is horizontal time of divergent of old time

But here is righteous soul living is as mind  $=0$ , convergence, then as mind is  $1/\infty=0$ , then righteous soul living is activation so that righteous soul living hear broadcasting from righteous soul living in destination place, so that righteous soul living get creation of

knowledge.

Here is really important solution is

How to start voyage vertical time of young time is mind is “0” righteous soul is activation but righteous soul hears broadcasting from righteous soul living in destination place of creation of knowledge.

So that vertical time voyage is

There is no mind, there is no me, but righteous soul & nothing helping creation of knowledge.

Then righteous soul voyage is possible.

This is really important this concept of principle all use in the macro concept world.

It is simple

Mind=0, righteous soul activation, helping creation of knowledge = solve problems going deeper of vertical time of young time, righteous soul living voyage can reach at the righteous soul living in destination place by convergent to righteous soul living in destination place.

## Macro concept world

A person of vertical time living, how to be convergence who reach at the vertical time voyage?

A person who living “poor & righteous soul”, suffer of hard living, sacrifice living, while hard living, then moment mind is  $1/\infty=0$ , then righteous soul to be activation so that their livings all runs on voyage vertical time young time living.

A company living of righteous soul living in righteous soul living so that a company living is “it shares time with other, help other, but also doing real love other” this is righteous soul of company then, the company living is on the vertical time of young time living, so that it comes 100years company living.

A country living also “it share time with other, help other, but also doing real love other” is country persons living then a country living is vertical time living of beginning time of country young country of growing then all of work get fruit.

Because vertical time living is righteous soul living, very clear living is creation of knowledge only.

Righteous soul young time, wicked soul old time

Righteous soul living is young time

Righteous soul living is based on mind is  $1/\infty$

So that righteous soul me do not living “getting much more than other”

But righteous soul do live “it shares time with other, help other, but also doing real love other”

Then compare “getting much more than other” is make hard other, but also with wicked soul revenge and breaking other, this living is not knowing creation of knowledge helping old knowledge, so that mind and wicked soul living is do not solve all of problems on the horizontal time, but solve old knowledge, but also do not know where to reach at, so that horizontal time living mind and wicked soul time is divergence so that the living all lost road, even there is not conclusion of living place is not, so that horizontal time living of end is all living old time.

But vertical time righteous soul living is as mind to  $1/\infty=0$ , the righteous soul runs on the orbit of righteous soul living voyage with creation of knowledge, so that vertical time voyage all of problems solving, so that righteous soul runs to the depth running, so that as approach to the depth then beginning of young time, the time is convergence of righteous soul living in destination place, very convergence is cross, jump to “0123456789 cross, jump to 0”

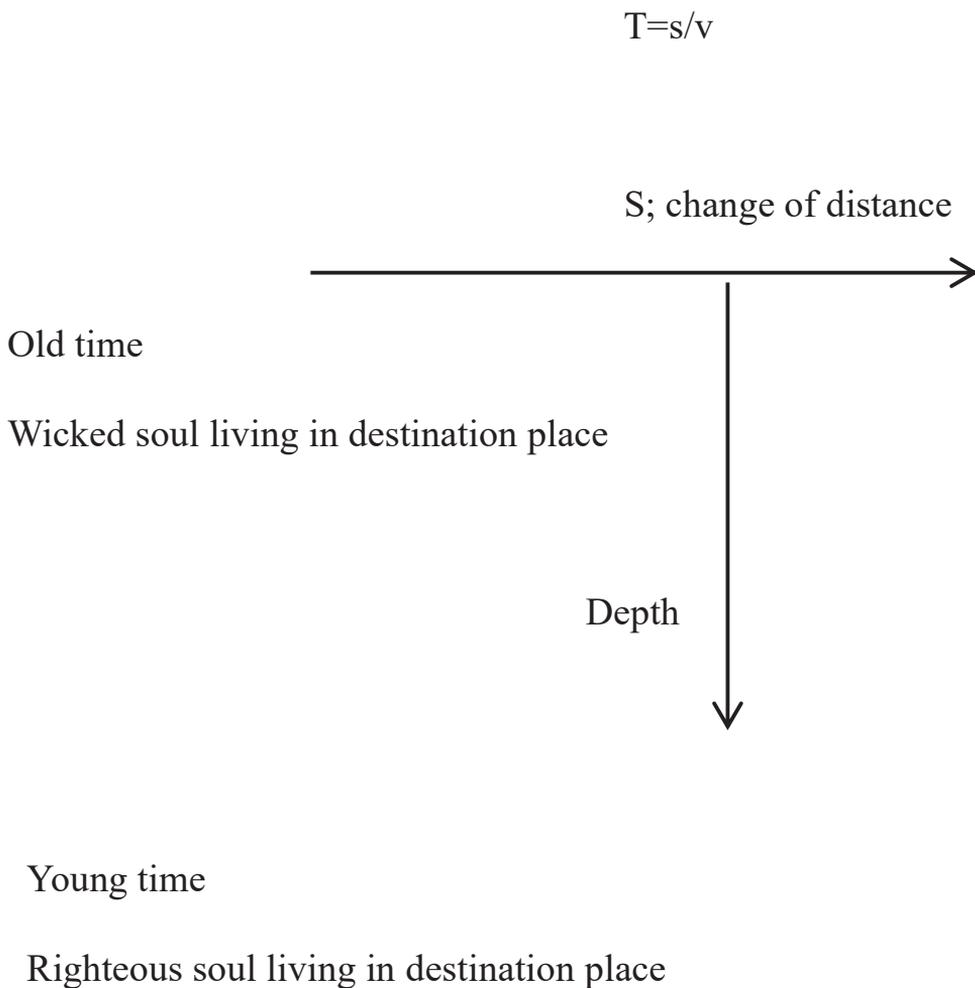

Righteous soul young time, wicked soul old time

Righteous soul young time + creation of knowledge = vertical time of young time = convergence = correction of righteous soul voyage orbit = complete macro concept world voyage = reach at righteous soul living in destination place

Wicked soul old time + old knowledge = horizontal time of old time = divergence = lost road; there is no road = incomplete macro concept world voyage = fallen to the wicked soul living in destination place.

**Helping saving from wicked soul to righteous soul  
being,**

**Until then righteous soul me living also**

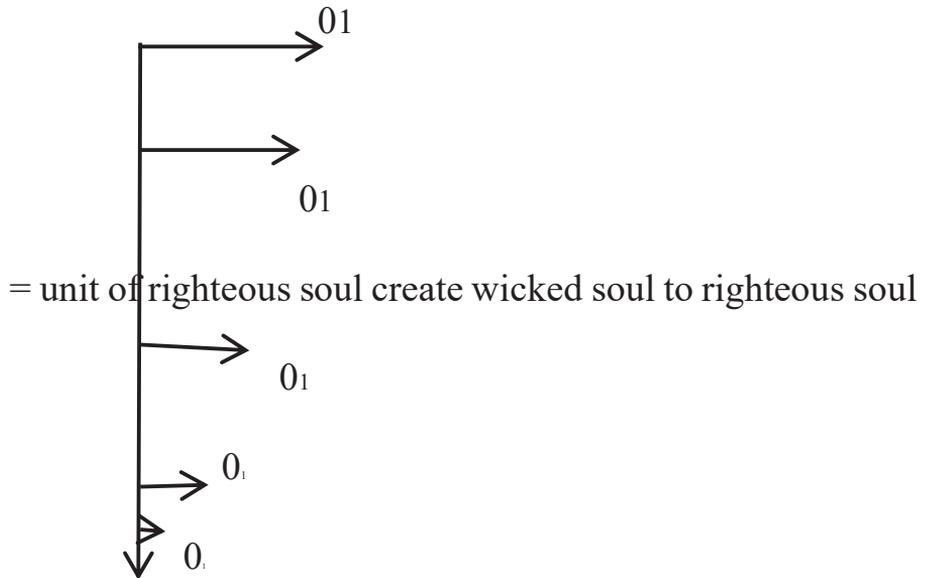

Righteous soul living is depend on righteous soul save wicked soul to righteous soul, then righteous soul me living is safer, but also that is righteous soul living.

If righteous soul do not help wicked soul to be righteous soul, then all to be automatically being wicked soul living world, then righteous soul me living in the macro concept world living is unsafe. So that righteous soul do save wicked soul to righteous soul, this is ultimate righteous soul living being.

Righteous soul do real love lover of wicked soul to create righteous soul, this is unit of righteous soul living mission clear but also macro concept world living is righteous soul living safe living condition building.

As Helping saving from wicked soul to righteous soul being, Until then righteous soul me living also, this is must be infer that righteous soul to wicked soul is in, here is all of righteous soul is “me” is righteous soul, other is wicked soul so that “righteous soul me” meet other of wicked soul, truly this is infer that if me is wicked soul then, the living is never to be explain, so that infer of “righteous soul me” is righteous soul, but other is wicked soul so that “righteous soul me” save other of wicked soul to be righteous soul, then, after this both righteous soul then, connect between both righteous soul, this is righteous soul living safer, but also this living righteous soul living vertical time living.

Righteous soul me is all the vertical time of young living of “0” but other of wicked soul is “1” of living horizontal time of old time living.

So that righteous soul living vertical time living create a new vertical living of righteous soul then, both righteous soul livings living in the macro concept world then, the living is excitement with other righteous soul.

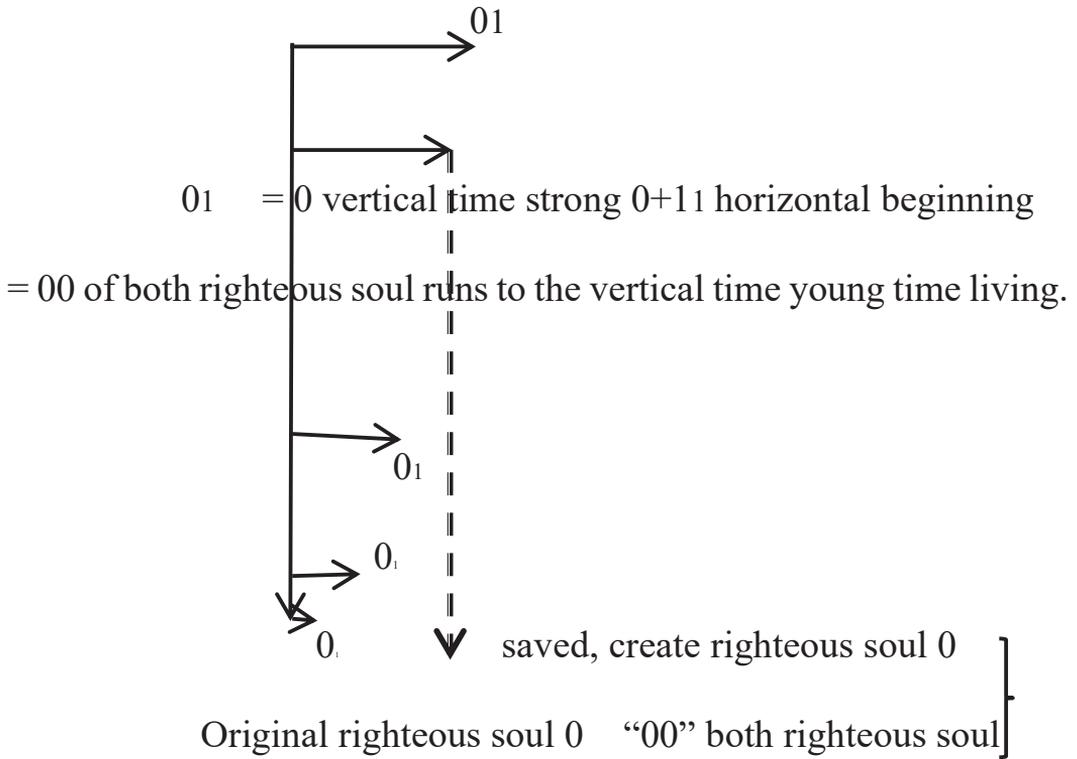

Unit of righteous soul create wicked soul to righteous soul is

Truly righteous soul meet wicked soul of other, so then here is "01"  
then it must be righteous soul 0 meet wicked soul 1, then all of  
possible but, infer that righteous soul "01234567890" meet  
"11234567891"

Rewrite then, "01234567890" + "11234567891" = righteous soul  
vertical time living me, help wicked soul living of horizontal time  
living wicked soul then, it must be here is first meet is important,  
some of best meeting is righteous soul living to wicked soul living is  
infer that vertical time living of righteous soul me

Righteous soul final 0 + 11 wicked soul beginning =righteous soul 0 is so  
string of righteous soul, but wicked soul 11 beginning of wicked soul  
then, strong righteous soul 0 can save beginning of wicked soul 11.

= 0 + 11=011=to be possible =00, then

So then, original righteous soul me and saved and created righteous soul is both runs to the vertical time young time living then, both living is “it shares time with other, help other, but also doing real love other” so that both righteous soul living in macro concept world

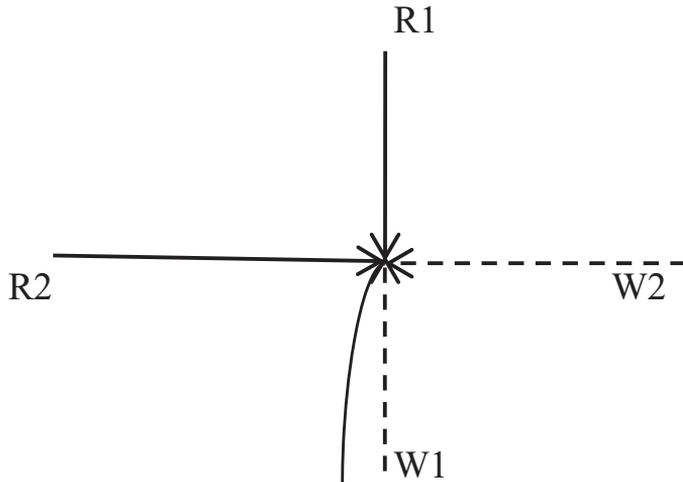

So that both original righteous soul me and wicked soul other changed into original righteous soul me + saved, created righteous soul 0, so

that both righteous soul runs on the vertical time directions, so that “00” is created.

Righteous soul me + wicked soul other = righteous soul me + righteous soul other created.

This is must be infer that righteous soul me other righteous soul me, is both righteous soul me, so that this is infer that righteous soul saved and create other of wicked soul to righteous soul, then righteous soul me living is so safer, around of me, righteous souls living,

On this way

Vertical time runs righteous souls

Infer that

$R1$  is strong final  $0 + W2$   $11 = R100$  }  $R1$   $00 + R2$   $00 = R1R2$   $00$   
 $R2$  is strong final  $0 + W2$   $11 = R200$  }

Righteous soul's convergence to vertical time runs righteous souls.

Then righteous soul me living is  $R100$  and  $R200$  livings, so that righteous soul livings are safer living in the macro concept world.

If righteous souls are vertical living young time living then, here is very important infer is occurs righteous soul can hear broadcasting from righteous soul living in destination place, so that get a creation

of knowledge.

This creation of knowledge is vertical time of going deeper problems solutions energy.

So then among righteous souls are living in youth time of vertical time living.

This is very important vertical time living of righteous soul, righteous soul me save and creature other wicked soul to create righteous soul, this is so huge important for system, organization to be living in vertical time of young time living.

A company and country to be living in righteous souls of vertical time living is must be hearing broadcasting from righteous soul living in destination place, creation of knowledge is “Helping saving from wicked soul to righteous soul being, Until then righteous soul me living also” so important, a righteous soul must meet other of wicked soul, then righteous soul me, do save other wicked soul to be created as righteous souls.

This chain is keep then, the organization to be living in vertical time living and young time living of an organization.

## There is time; there is no time

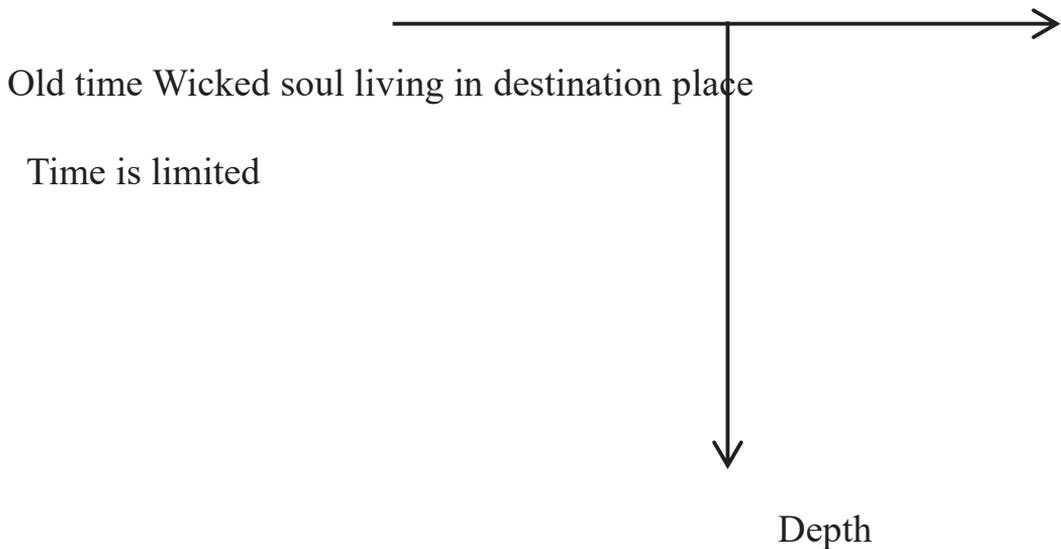

If a person has not time then a person used up time so that a person being there is no time.

Time used up = there is no time = macro concept world living time is used up = time is limited = macro concept world living actor time is same or not; if same then, time used up= there is no time= it must be short to reach at the righteous soul living in destination place, =0123456789= there is no time in the “9”, so that do not reach at the righteous soul living in destination place of “0”.

Time is not use= there is time=macro concept world time is still is= time is unlimited=macro concept world living actor time is same or not; if same then, time is still is= there is time=it must be enough to reach at the righteous soul living in destination place, =01234567890=automatically reach at the righteous soul living in destination place of “0”.

$$T=s/v$$

S; change of distance

Young time; CEO company management

Righteous soul living in destination place

Time is unlimited

Here is s; change of distance then time is changed, so that horizontal time of old time is time using so that horizontal time is time using so that time is limited, but vertical time is s; change of distance is about to 0, so that time is not used up, so that vertical time young time is possible and time is unlimited so that righteous soul reach at the righteous soul living in destination place.

Vertical time young is “01234567890” so that vertical time is young is

still truth is “00000000” time. So that here is there is time, but horizontal time to be same area as vertical time area, so that automatically horizontal time s: change of distance is being increased to the old time so that time is used up, if horizontal time is used up then, here is time is “0123456789” in the final horizontal time, time is all used up, so that stop S; change of distance, so that horizontal time living actor as the time is used up, so that macro concept world living actor time is being “there is no time”.

Macro concept world horizontal time is “time limit” so that macro concept world an actor saying “there is no time”, micro concept world vertical time is “time unlimited” so that micro concept world an actor saying “there is time”.

Horizontal time old time is old knowledge + “limited time” + “there is no time”+”0123456789”= wicked soul living in destination place=incomplete macro concept world voyage

Vertical time young time is creation of knowledge + “unlimited time” + “there is time” +”01234567890”= righteous soul living in destination place=complete macro concept world voyage

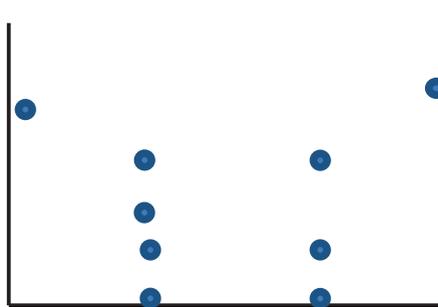

In the macro concept world living “0123456789” there is no fruit “0”

But “01234567890”there is fruit “0”

Here is strong variance is horizontal time of old knowledge, vertical time of creation of knowledge

Creation of knowledge is

Righteous soul vacant space is

This is righteous soul vacant of righteous soul of space can hear broadcasting image, so that righteous soul bring creation of knowledge.

These points are supplied to creation of knowledge, in the righteous soul livings vacant space is “0”, and this is vertical time governing time directions.

So then, righteous soul living broadcasting is so silent saying, so that the bobble created bottom go up, so that righteous soul living in

destination place broadcasting that vertical time direction is “0”, infer that this is vertical time direction of depth place so that wicked soul automatically can’t hear righteous soul living in destination place broadcasting. On today comes how to righteous soul bring “creation of knowledge”

Righteous soul hearing broadcasting is bobble feeling, so that the bubble of creation of knowledge is vertical time young time living possible.

This is important to the macro concept world company country’s vertical time young time living, this is to the righteous soul living, so that CEO of company focus for company livings to be living in righteous soul living is urgent and required.

Truly righteous soul living behavior is “it shares time with other, help other, but also doing real love other” this is righteous soul livings in the macro concept world.

At first CEO living require to living as “it shares time with other, help other, but also doing real love other”.

## **Righteous souls increased then young time, but wicked souls increased then old time**

In the macro concept world a company and country is not an organism so then there is no old and young. But macro concept world livings are from beginning then runs to the getting much more than others so that if getting much more than is doing work hard and diligence living, but also righteous soul hearing broadcasting from righteous soul living in destination place.

But mind level getting much more than other + make zero others, only mind level getting all= then here is mind used wicked soul make other to be zero and mind level living only getting all= then even mind level other to be disappeared but= here is mind level – other by wicked soul helping + wicked soul=what happened to the mind.

Mind living is “getting much more than other”, mind living is if other is disappeared then, “getting much all” this is mind, “getting much all” how to do possible is “wicked soul used revenge and breaking other”

Mind getting much more than other – other + wicked soul revenge and breaking= mind + wicked soul revenge and breaking= this is automatically mind to be disappeared by wicked soul= wicked soul

Here is wicked soul do not hear broadcasting from righteous soul living in destination place, but only helping from old knowledge, do not hear creation of knowledge, so that wicked soul living time is horizontal time of old time.

But mind to be zero, then as mind to be zero then wicked soul do not beginning so that as mind to be zero then, coincidentally righteous soul activation, so that mind to be replaced by righteous soul, so then, righteous soul can hear broadcasting from righteous soul living in destination place, so that righteous soul get creation of knowledge helping from other righteous soul in the righteous soul living in destination place. This is young time living solutions.

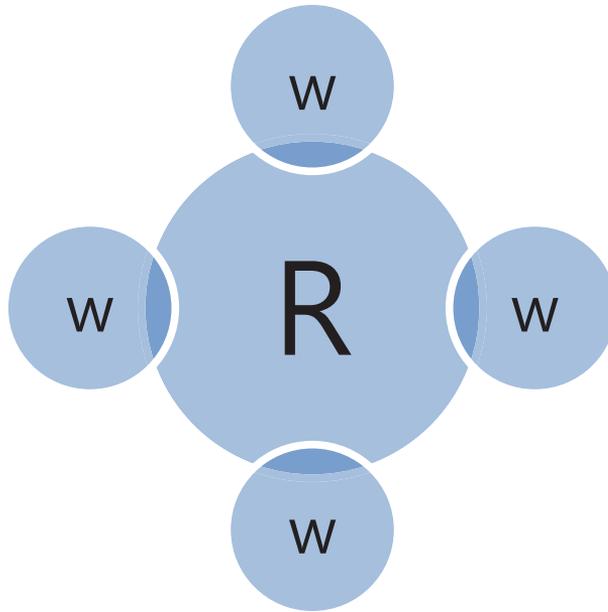

“Righteous souls increased then young time, but wicked souls increased then old time”

If macro concept world a company righteous soul increasing time, then righteous souls hearing broadcasting from righteous soul living in destination place, so that righteous soul gets creation of knowledge.

Righteous soul living behavior is “it shares time with other, help other, but also doing real love other”/righteous soul, so then as increased righteous soul then,

“it shares time with other, help other, but also doing real love other”/righteous soul X increasing number=each righteous soul living is “it shares time with other, help other, but also doing real love other”

increased  $\times 4 =$  unit of righteous soul living, so that as increased righteous soul then

1 righteous soul  $\times 4 =$  righteous soul unit

As one of righteous soul is young time, then a young time shares with 4 wicked souls, then, wicked soul to be righteous soul, this is chain so that

Righteous soul increasing;

{“it shares time with other, help other, but also doing real love other”/righteous soul} Is increasing, so that righteous soul livings are increasing then, {“it shares time with other, help other, but also doing real love other”/righteous soul} = unit of righteous soul behavior is

increasing, then this is young time is also increasing, here is young time is

Young time is

Defined that do not move S; change of distance, so that time is not used, so that young time is getting fruit living in young time, so that as righteous soul unit of righteous soul is righteous soul X 4 wicked soul, so that, here is 4 wicked soul is to be living in righteous soul, so that young time living is X4, there for righteous soul living is fruit also X4.

There fore

{“It shares time with other; help other, but also doing real love other”/righteous soul}=unit of righteous soul behavior is increasing X4.

$$T=s/v$$

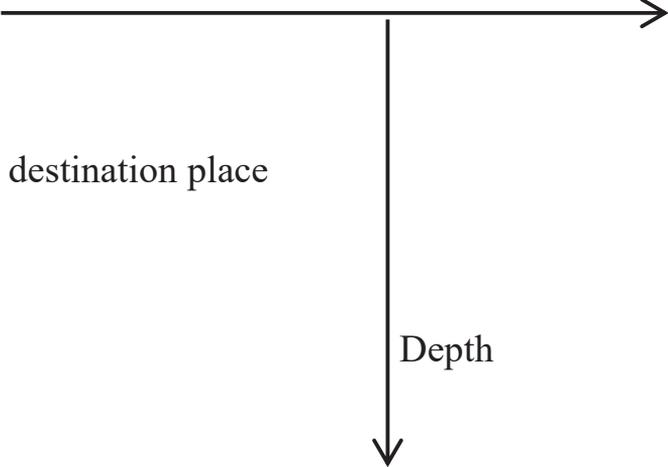

S; change of distance

Old time

Wicked soul living in destination place

Old knowledge

Depth

Young time; creation of knowledge

Righteous soul living in destination place

“Righteous souls increased then young time, but wicked souls increased then old time”

As righteous soul increasing is righteous soul unit=righteous soulX4=  
then here is righteous soul + 4 wicked soul young time living s also,  
living under the righteous soul hearing broadcasting from righteous  
soul living in destination place, so then getting creation of knowledge,  
so that 4 wicked soul young time, vertical time living wicked soul

also even to be righteous soul, it is not in but same living creation of knowledge.

This is vertical time living of wicked soul happened, but this living with righteous soul unit, righteous soul + 4 wicked soul young time, then, this is as righteous soul increasing then young time is increased.

As increase righteous soul, then this is group, so then it must be infer that righteous soul unit is vertical moving unit also, so that 1 righteous soul +4 wicked soul young time of vertical time moving. This is must be a righteous soul influence 4 wicked soul to be create righteous soul, so then in the end of living, a righteous soul of original but 4 righteous soul created righteous soul, so that 5 righteous souls reach at the righteous soul living in destination place, this is infer of philosophical concept, this is not mathematics, but a concept of philosophy.

“Righteous souls increased then young time, but wicked souls increased then old time”

This is righteous soul increase then young time, but wicked soul increase then old time, in the macro concept world living time is “0123456789”, so then automatically macro concept world horizontal time is getting old but even macro concept world righteous soul living is rare but a righteous soul living “01234567890” =”00000” righteous soul living of vertical time is do not use any time, but still save time, so that righteous soul living time is not end,

Righteous soul do not end of “000000” is still keep beginning of

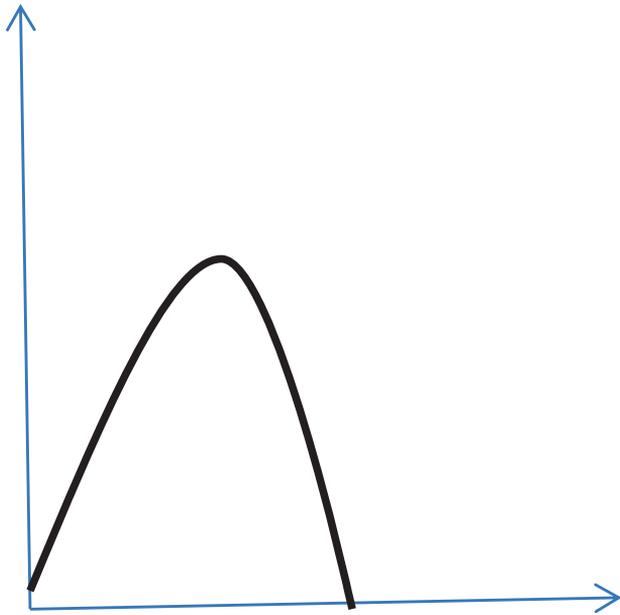

young time. Young time is strong and powerful time so that if a CEO of company manager manage young time of powerful time living, then the company truly getting harvest of fruit helping creation of knowledge premium best product creating, this is not any other actor damaging and making hard, but righteous soul vertical time of young time with creation of knowledge just going deeper place reach, without any time consuming living is fruit.

Vertical righteous soul living “0000” a person of macro concept world going deeper so that the living of vertical 00000 is righteous soul living voyage orbit, so that righteous soul living vertical time of young time make possible a righteous soul living “0123456789”=“00” possible. Then righteous soul safe returns to the righteous soul living in destination place.

# Vertical time is airplane orbit but horizontal time is endless fly

Vertical time young time is going deeper but horizontal time is going just run the horizontal space for try to get much more than other.

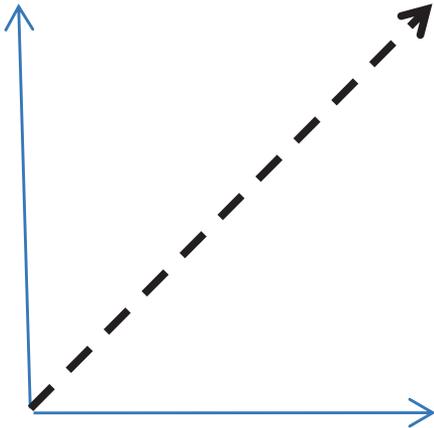

Vertical time

0 123456789 0; safe returned to righteous soul living in destination place

# Horizontal time

9; fall to the wicked soul living in destination place

0123456789

$$T=s/v$$

S; change of distance

Old time

Wicked soul living in destination place

9: fall to wicked soul

Young time; creation of knowledge

Righteous soul living in destination place

0: safe return to righteous soul

Depth

Vertical time living macro concept world living actor is just like airplane, beginning **0** 123456789 **0** so that airplane going up but end of airplane is being “0”, so that to be back all of macro concept world living “123456789 to be “0”” so then, macro concept world righteous soul to be runs vertical time living, then, here is righteous soul living behavior “it shares time with other, help other, but also doing real love other”.

Righteous soul living actor in the macro concept world living actor living must be to be “the poor & righteous soul” then, it don’t have to fear, because righteous soul to be “0”, but in the macro concept world “horizontal time old knowledge living is “0123456789” so that not be poor living in the old time, so that keep still try to get just like mind living behavior “getting much more than other”, here is all of macro concept world money making deceit “if you live not hunger keep endless getting money”, this is horizontal time of dot line, so that there is no end to get “getting much more than other”, so that mind level and wicked soul do not know “it shres time with other, help other but also doing real love other”.

Righteous soul behavior “it shares time with other, help other, but also doing real love other” is airplane to be destination place, then landing down to the “0”, so that righteous soul behavior is “**0**123456789**0**” here is “123456789” all to be used righteous soul living behavior “it shares time with other, help other, but also doing real love other”, then macro

concept world righteous soul vertical time running is to be living “000000” because all macro concept time “123456789” is all righteous soul living behavior, so that truly macro concept world righteous soul living righteous soul living orbit is “0000000000” this is vertical time young time living.

Here is clear

Righteous soul living vertical time living is “123456789” is all righteous soul living behavior, this is going deeper so that macro concept world righteous soul to be vertical time voyage, just like airplane going down to “0”.

But here is horizontal time of dot line is just like airplane but horizontal time do not going down but runs to the sky keep wide to get much more than other, so that mind level of wicked soul do not reach at the voyage beginning of “0”, so that wicked soul of horizontal time living do not return to the voyage starting point of “0”, so that horizontal time living actor “0123456789” do not to the “0” so that this macro concept world living wicked soul and mind level livings all disappeared from safe returning to the voyage beginning place.

Getting airplane and to be destination of airplane, but horizontal time living macro concept world living s are all to be reach at destination place is not, still runs to getting much more than other, so that keep running to the horizontal place.

Here is real important is

Macro concept world voyage must be end then, safe returning to the micro concept world, but macro concept world living is keep living macro concept world, then, mind and wicked soul living of living in the macro concept world, this is to be dot line of horizontal time living.

But righteous soul of vertical time living hearing broadcasting so that righteous soul know that macro concept world living after micro concept world, so that righteous soul livings prepare by doing righteous soul living behavior “it shares time with other, help other, but also doing real love other” so that righteous soul of vertical time living of “123456789” to be prepare micro concept world, all used up as righteous soul living behavior “it shares time with other, help other, but also doing real love other”.

Then vertical time living young time living of righteous soul all do righteous soul living behavior so that the living is “000000000” living of righteous soul living orbit living, so that righteous soul strong clear of broadcasting from righteous soul living in destination place, so that righteous soul get a new and creature of knowledge to solve run for righteous soul living orbit.

So that righteous soul do not fear of as getting vertical time of getting deeper then, it must be excitement with the poor and righteous soul, because vertical time righteous soul living is near to the righteous soul living in destination place to be the poor and righteous soul me to be behavior of other at now living in righteous soul living in destination place string righteous souls try to “it shares time with me, and help

me, and dong real love me” so that 100% poor is not fear that is really living excitement.

Righteous soul me living is this, righteous soul me living now, but also I will keep living righteous soul living.

Here is me is righteous soul me, so that I have no money to book publishing. But I will be helped other righteous soul, so that all my book to be publishing and complete book publishing.

## **Knowing is vertical time, do not knowing is horizontal time**

Knowing is correct decision to go for, do not knowing is incorrect decision to go for.

Knowing is overcoming of wicked soul decision but do not knowing is to be corruption cause of wicked soul temptation and doing revenge and breaking, so that do not knowing must be follow to the wicked soul temptation to run in the horizontal time.

Knowing is correction to go for righteous soul living in destination place, so that knowing is and unknowing is huge difference.

Here is Knowing is solving problems, but unknowing is can't solving problems. So that solving problems go for, but do not solving problems do not going for.

Knowing correction is solving problems, do not know is do not solve problems.

Solving problems is running deeper, but do not solving problems do not running deeper, so that run to the surface of horizontal time direction, so that do not knowing is do not solve problems.

To know is defined that going deeper but to do not know is do not

going deeper.

Here is going deeper is difficult problems solving based on, but if do not solve difficult problems then it never go to the deeper but face of horizontal time living.

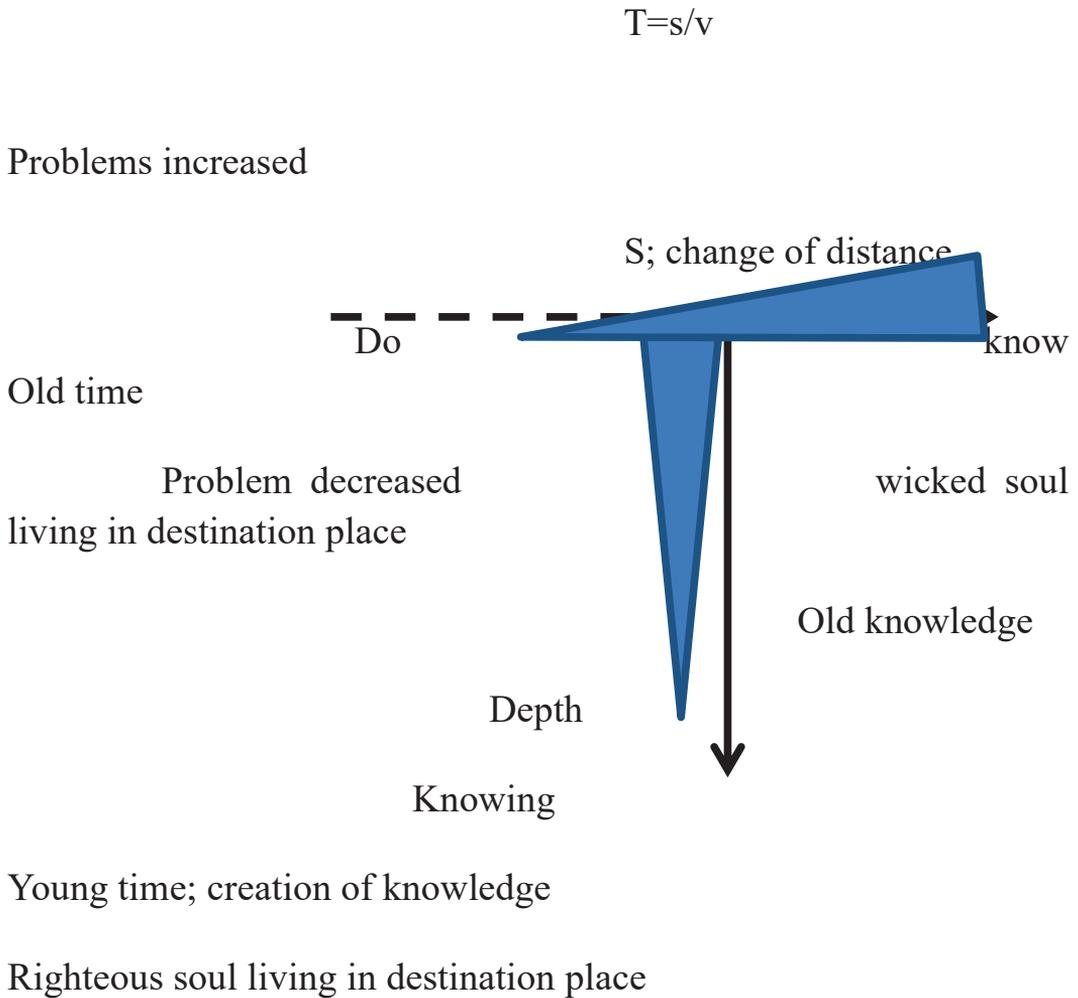

Here is going deep and solve difficult problems then, this is runs to the vertical time here vertical time living actors are not competitive because this is micro concept world righteous soul living in destination place, role laying in the macro concept world, so that righteous soul, to be role, then righteous soul know that correct decision to vertical time running. But also righteous soul do not to be temptation from wicked soul, so righteous soul living know that righteous soul living in destination place is vertical time running.

Here righteous soul living knowing is how to be helped?

Righteous soul is mind is  $1/\infty$ , then here is mind is getting much more than other, so that hurry runs on the horizontal time, but as the mind is  $1/\infty$ , so that mind is moment is zero, then righteous soul activation so that righteous soul know that how to live is runs for righteous soul living in destination place, righteous soul hear of broadcasting from righteous soul living in destination place.

Here is important righteous soul hear broadcasting from righteous soul living in destination place. If do not living in righteous soul, then it must be hard hearing silent and clean clear sound, so this is so small hearing, so that if full of think of wicked soul then, impossible bubble going up to feeling of macro concept world me, so that all of agitation of pack of think of wicked soul all occupied so that, macro concept world me so not feel but also any sound do not hear, so that wicked

soul do not hear of broadcasting from righteous soul living in destination place, but wicked soul moving and changed wicked soul of “revenge and breaking sound” are big sound heard so that wicked soul anger and shout, but kick other, this is not going deeper cause of not know the way to the vertical time living.

Vertical time is getting sharp of problems to be  $1/\infty$

Here is problems occur then creation of knowledge solve problems

But horizontal time is getting width of problems to be  $\infty$

Here are problems occur then old knowledge do not solve problems.

Getting deeper of vertical time is problems to  $1/\infty$  sharp then, this is silent and clean clears of righteous soul excitement of perfections reach, this is correction of none problems fruit of harvest comes.

This is real and truth so that all accept.

Getting wider of horizontal time is problems to  $\infty$ , then this is loudly and dirty of wicked soul “revenge and breaking” of do not perfection reach; this is do not correction of problems fruit wrong harvest comes out.

This is not real and not truth so that all do not accept but this is deceit same vertical time result.

Truly horizontal time wicked soul lay out is not real vertical time righteous soul living harvest.

If do not know living then gesture and showing vertical time living harvest, but do know living the truth and correction living.

Righteous soul knowing and helping creation of knowledge but also solve problems vertical time living is real and correction of excitement living.

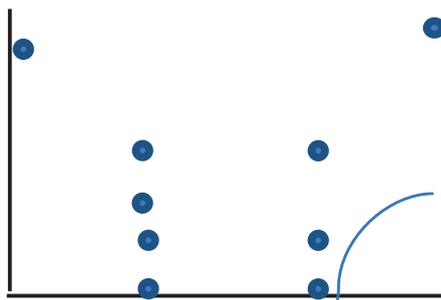

Horizontal time living is hurry trying to living showing vertical time living actor behavior same, then it is impossible so that all is try to vertical time living actor living, so that horizontal time livings try to learn of vertical time living of old knowledge, but horizontal time living wicked soul learning old knowledge then, do not solve problems, so that behavior of horizontal living all to be wicked soul of deceit living.

Even do not know truth, but to live gesture of truth is never to be reach at harvest and excitement living, but now living in the macro concept world all do not know, so that all horizontal livings gesture of showing vertical time livings.

Here is company and country or a person living in the horizontal living, then, try to living vertical living, but all is wicked soul of deceit living, how to real living of vertical living is knowing and helped from creation of knowledge as living righteous soul living of righteous soul world is just space, so that

Righteous soul vacant space is

Space is righteous soul

Bubble is creation of knowledge

Here is problems is to be horizontal of 1

Here is problems solving is to be vertical of 0

So that vertical time living of all solve of problem of solving is “1010101010....” So then

The living of vertical time is in the end “00000000” so that this is righteous soul of voyage orbit.

But horizontal living problems is 1

There is no problems solving so that still 1 “1111111111” this is wicked soul living in the macro concept world

To know and to do not know is living in “0000000” but “1111111” living.

To know is to be righteous soul, righteous soul is hear broadcasting from righteous soul living in destination place, but also getting creation of knowledge, so then solve problems sharp problems  $1/\infty$ , then it comes excitement and perfection of fruit and harvest.

Here is “fruit and harvest” is all living in eternity like “antiques”,

But To do not know to be wicked soul, wicked soul depend on “old knowledge” so that problems is  $\infty$ , then it comes is not perfection of fruit and harvest is all not living in eternity of “garbage”.

In the macro concept world living is

to know living” then, the living end is never dying of eternity living of righteous soul living in destination place, of vertical time sharp of problems, then the person end of macro concept world to be living at righteous soul living in destination place, then in the macro concept world book, or story to be being legend not to be disappeared righteous soul living of vertical time living.

So that know and do not know living is vertical living or horizontal living, so then a macro concept world person living is vertical living then, the living is micro concept world is righteous soul living stay, but if a person living do not know, so that living in the horizontal

living then, and of macro concept world, to be fall to the wicked soul living in destination place, perfect any story and book, but must be a macro concept world after living to be hard living, because a macro concept world do not any righteous soul energy, so that automatically wicked soul living energy, the living is hard and torture of difficult living.

Righteous soul living of “antiques” living is righteous soul vertical living, so that after runs livings are help from righteous soul living in destination place, so that after livings can helped from righteous soul energy using.

So why just one time living “to know living” “to do not know living” is far difference, why righteous soul me living is to be known, this is so urgent living.

Just to know living is my living is excitement and perfection living but also after me livings to be helped from righteous soul living in destination place, so that after runs living is possible to choose vertical time living.

## **Horizontal time completion possibility and vertical time completion possibility**

Here is completion is righteous soul livening in destination place creator design me, or planning me of macro concept world voyage of living role complete or not saying.

This is really tools of living in the macro concept world, until now, the toll of living is huge multi kinds living. But here macro concept world living time is infer of vertical time and horizontal time. Vertical time is a personal living but horizontal time is just mob living.

It compare with vertical time is player, but horizontal time is mob of audience, spectator. Vertical time player is try to reach at what a person panned, so that a person living is seen of macro concept world problems solving and try to mix between macro and micro problems, but also even micro problems so that a person of player is all is urgent so that time is really pleasure.

If mob living of audience and spectator living of horizontal living is, time is run away but do not know, just shouting and just judge evaluator criticize a player just move living, so that mob of audience livings are do not know any problems; macro concept world problems, but also macro to micro concept world problems, but also micro concept world problems solving also do not know, but run with mob

to the horizontal living.

vertical time completion living is a player living, so that all time is allot how time use, so that each time is process to do, but also each time is growing for urgent time, horizontal time player do not lost time, keep time grasp, but horizontal time living move of audience time is running out, do not grasp but time is run away do not know time and horizontal time audience, do not know urgent time each time flow with mob living growing.

Vertical time player time is all planned as the player to be a reaching at what designed and planned, this time is “01234567890” here is micro time and macro time is mixed but macro time 0 is major, macro concept world time is 123456789 is minor but horizontal time mob of audience time is “0123456789” so that horizontal time is not care of micro concept world time of final time 0, so that truly “123456789” is major, so that as the macro concept world time is major then, hard to micro concept world time of 0.

Here is important is

Horizontal time completion possibility is only macro concept world major time of “0123456789” so that micro concept time of “0” do not reach, so that horizontal time start “0” but final “0” is not, just only macro concept world time living “0123456789” this is completion possibility is low, it means that macro concept world living

completion is not reach because time consuming, as living then time also consuming so that horizontal time audience living of mob living is all just care of other, do not care of me, here is other saying do not living me of righteous soul of micro concept world living so that, the living of mob is all time consuming useless time all consumed so that micro concept world reaching at “01234567890” “00” living completion is not complete.

So called all of macro concept world living all for me, my time is not used for me, all useless just judging player living, as the mob living just angering of losing game, all source of pleasure and excitement all from outsource, so that all of macro concept world living, eternity not as mob but me did things are nothing, but all time consumed. This is horizontal there is no deeps of living.

Here is really knowing is vertical time of player living is

Just vertical time is “01234567890” “00” vertical time “00” is micro concept world living, so that macro concept world a living is “00” then, sure of a macro concept world living is all player living so that all of time is urgent. To be living righteous soul living of going deeper so that righteous soul need to creation of knowledge, and using creation of knowledge creating macro concept world living energy of engine of power, this is player living, all do creating so that this creating living all to be being source of old knowledge by using knowledge horizontal time mob livings.

But vertical time living player of “00” living time is using creation of knowledge getting deeper but also still in the righteous soul living

orbit in, so that vertical time living is all 00000000 living, this is vertical time of righteous soul living is using creation of knowledge all of problems; macro concept world problems, missing of macro and micro problems solving, truly important micro concept world problems also solving, so that vertical time living righteous soul using creation of knowledge, here is so important of complete of living is righteous soul living behavior “it shares time with other, help other, but also doing real love other” this is possible, because vertical time of righteous soul living in the macro concept world, the living is excitement with creator designed planned righteous soul me, do carry by righteous soul me.

So that righteous soul creator designed living, then, still righteous soul living orbit is “00000000” so that righteous soul living in destination place and vertical time of a player living is communicate do not out of righteous soul living in destination reaching orbit, but also living player in the macro concept world so that in the righteous soul living in destination place also do righteous soul living behavior “ it shares time with me, help me, but also doing real love me” righteous soul me living automatically solve problems as just righteous soul living of vertical time living.

“vertical time completion possibility”, this is so important even all of macro concept world livings are prime concerning is solving of macro concept world mind level getting much more than other, this problems is problems, but do not know micro concept world problems safe returning to the righteous soul living in destination place, so then

macro and micro best living is vertical time living of righteous soul living of micro concept world living of using creation of knowledge but also macro concept world problems solving. This is vertical time completion possibility is getting higher.

Truly

Macro concept world living of payer of vertical time living is all of time by second all living is helped from righteous soul living in destination place, so that automatically decision of living is micro concept world communication between righteous soul me to righteous soul living in destination place, so that righteous soul me problems solving of macro and micro and mixing micro to macro all of problems are solved.

“Horizontal time completion possibility and vertical time completion possibility”

All of macro concept world livings to be end of macro concept world, so then, it must be macro voyage starting point safe returning is best, because after macro concept world voyage safe righteous soul living in destination place come back then, the living is vertical time a pleyer living, but horizontal time audience living is all time used useless me time, so that while living in the macro concept world horizontal time all used up as audience so that vertical time of do not living as pleyer, so that, truly macro concept world mob of horizontal time livings are do not solve any problems macro concept world problems, micro concept world problems but also mixed macro to micro concept world problems all do not solve and all time used up, so that horizontal of

living of audience livings all of mobs are do not solved anything so that, the living completion of macro concept world voyage is all to be nothing.

Macro concept world living is so urgent this is problems solving, that is macro concept world voyage completion is urgent required.

All of macro concept world livings has problems; macro concept world problems but also micro concept world problems and doing between macro and micro concept world problems, this is doing real living, truly macro living and micro living is same living is required that is micro concept world of vertical time living, this living is both macro and micro concept world problems all solving by creation of knowledge.

So that truly all of macro concept world problems solving living s are in the vertical time living person, there is no in the audience of horizontal time living there is no any person solving macro concept world problems.

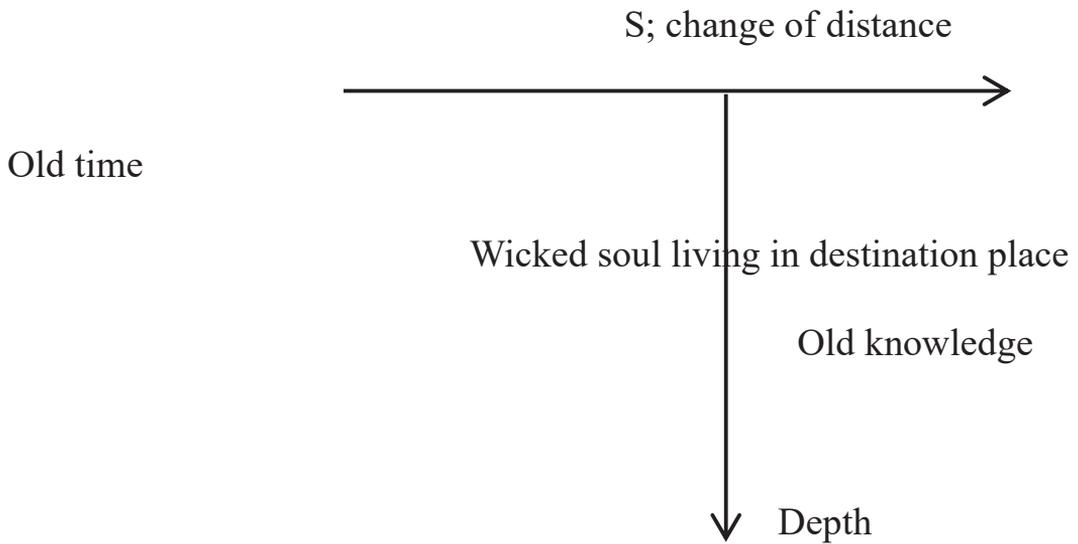

So that macro concept world voyage completion living is vertical time living is urgent.

All of macro concept world living compete living is righteous soul living is complete, mind level living and wicked soul livings so not solve problems so that their living is audience living only, so wicked soul and mind level living do not know, vertical time living of creation of knowledge and solving problems, this is only way to go deeper,

this living is not in the mob of horizontal living, but going deeper living of personal living of vertical time living is only way.

# “Time and life time” and now real me

$$T=s/v$$

Young time; creation of knowledge

Righteous soul living in destination place

It truly “time and life time” runs to the vertical time, but also this book writer me also runs to the vertical time. Here is vertical time running

is so hard and difficult time.

I begins book writing for 8 years but now I'm still unknown book writer; so that each book my money paying book publishing so that as poor book writer me, asking discount book making money, so that I'm so hard living now, for 8 years book writing books book publishing but short of money, so that book publishing money is my family living money so that I feel sorry my wife.

At now, will be book writer of all knowing me, truly now feel is not sure, but also my book is not interesting by book reading persons.

String and powerfully book writing, because my books keyword is "righteous soul" and "micro concept" so that all of book contents are creature so that new and creature of knowledge so this book will help righteous soul in the macro concept world, but 3 book publishers any symptom of royalty then my books are hard to be chosen by book readers.

I'm losing excitement with books, so hard with books.

Will I run to the vertical time?

Why I'm so hard living?

These days lost righteous soul living, so that filled in me all of past origin garbage, cinder and scraps.

Truly book writing is hearing broadcasting from righteous soul living in destination place, so that as living righteous soul of creation of knowledge getting and helping it, I wrote books.

If my books are out of now book readers then, what happened to my books, all books are hard livings, in the book shop, what can I do for helping my books?

Will I pray for my books survival in the book market, a book publisher asks me for marketing poor book writer paying then do marketing.

So then I said sorry I have no money.

Rich book writer will be marketing but just like me poor books writer do not help my books, so that my books are not known to the book readers.

Strange in the living of real living, then rich parents help son and daughter all helping to be living well, but the poor parents are not help son and daughter so then, son and daughter living hard living.

The same as poor book writer writing books are so hard survive living in the book market because there is no book marketing.

How to change my books to be known book to poor book writer, this is all true and real righteous soul helping book so then, I believe that all of righteous soul do live “it shares time with other, help other, but also doing real love other” then as I’m so hard with book writing then, if I run on the vertical time young time, then, if my book writing is still strong righteous soul living then,

Vertical time living all of righteous souls will do righteous soul living behavior “it shares time with me, help me and doing real love me”, I’m so hard book publishing and selling my book in the book market.

"Time and life time" and now real me

Vertical time is

Width is  $1/\infty$  X depth is  $\infty = 0$ , because macro concept world width is  $1/\infty$  so that macro concept world width is about to zero so that  $0 \times \text{depth } \infty = 0$ .

But horizontal time is

Width is  $\infty$  X depth is  $1/\infty$ , here is macro concept world is real there is, so that is not 0, so that this equation is to be Width is  $\infty$  X depth is  $1/\infty = 1$ .

Vertical time runs "000000000"

Horizontal time runs on "1111111"

Righteous soul me, there is no any horizontal time so that mind level and wicked souls living on the horizontal living do not know, righteous soul living creature of knowledge, so that as righteous soul me runs to the vertical time, majority living on the horizontal time living but only me is living on the vertical time, then how to my books are selling in the book store.

At now try to living in vertical time living

So that my book writing is "righteous soul" "micro concept" book writing, this is not trade and give and take living but righteous soul living is "it shares time with other, help other, but also doing real love

other”, so that at now living truly there is no pleasure of excitement I’m feeling tired.

Vertical time is young time and this runs to the righteous soul living in destination place.

Truly this is my book 17 books what I saying, but now my living vertical time living, so hard to me, at first I feel lonesome, but also there is no friends to talking righteous soul livings, truth and real living, so then only in the book writing then, I feel pleasure and excitement, in this time righteous soul me is real to me.

Book writing is now is “I’m a righteous soul” “creation of knowledge” yes I’m living in righteous soul, so that book writing is only living in pleasure of excitement, but also book writing time I’m not “lonesome” but out of book writing then, it is.

Vertical time living

Infer that truly there is no, but must be all horizontal time livings, to get much more than other, competition win or lose, loser accept to live poor living, winner living is rich living, so that now macro concept world living time is horizontal time living.

But vertical time is there is no competition, but also there is not win or lose, this is vertical time living, vertical time living is helping creation of knowledge just like me book writing, until now my book in the book market still unknown, so righteous soul me living is poor, vertical time living is poor, and hard living right?

I believe that no, because if righteous soul of vertical living helping creation of knowledge then, there is no competition and there is no lose and win, but righteous soul living to be reach at the vertical time end, then there is waiting righteous souls to welcome me that time will be all of righteous souls know my books, so that my books to be living in the macro concept world, without competition because this book helping to live in the vertical time, and know there is vertical time also.

I believe that truly a person live solve the problems then, here is creation of knowledge, but also the living also vertical time living, vertical time living is process so hard because there is no now, but create to make it after now, so that no one knows righteous vertical time living fruit, but vertical time fruit us solving all of horizontal time living of old time and old problems to be solved by vertical time creation of knowledge solving fruit.

“Time and life time” and now real me

As I’m runs to the vertical time of “time and life time” so that righteous soul me living will reach at the righteous soul living in

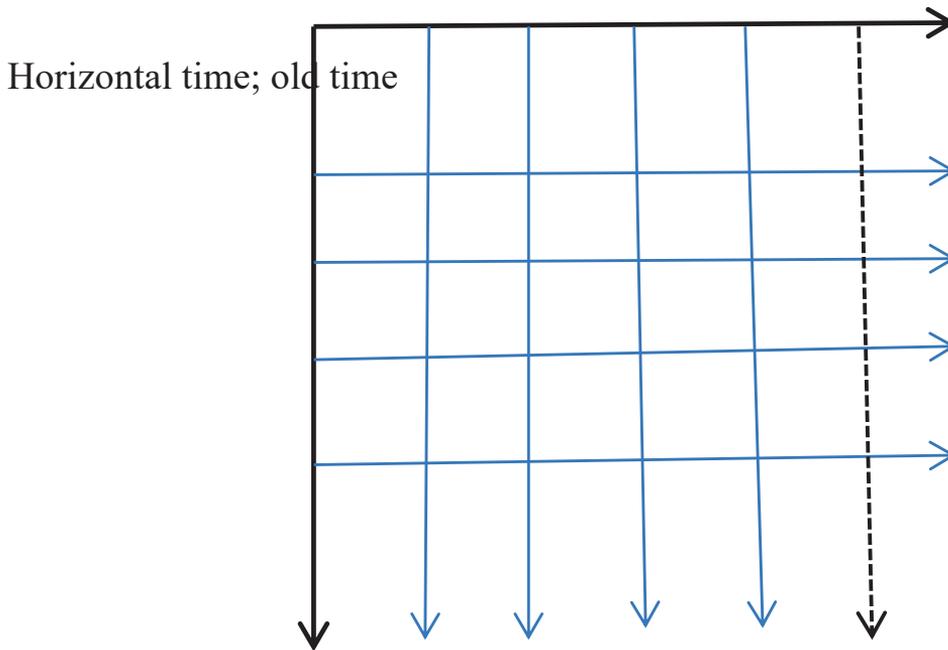

destination place.

My books will shares time with me, help me and doing real love me” because my books are all righteous souls so that my book of righteous souls to help me book writing strong and excitement.

I want to book publish doing not problems of righteous soul credibility book publishing without deceit me.

Book writing and book making is all both excitement to me, then book writing me is proud by myself, the will come because I’m running on vertical time young time living.

## How I'm living in the macro concept world

Vertical time; young time

How I'm living in the macro concept world, all of macro concept world living actors are locate at horizontal and vertical time coordinate, where I am? I'm so curious. Really want to live in vertical time; young time living. So various combinations truly infer that at

now livings in the macro concept world all are not same, all of coordinate is not same, here is micro concept world livings are all not in same, all difference coordinate, infer that this coordinate is difference time also, all living is their livings, so then all livings are creation of living.

Macro concept world time all in the same, but micro concept world time is not same, micro concept world living righteous soul living in destination place reaching orbit is vertical time, living so that all of macro concept world livings are still seek righteous soul living in destination place, losing orbit but still try to coming back to the righteous soul living orbit.

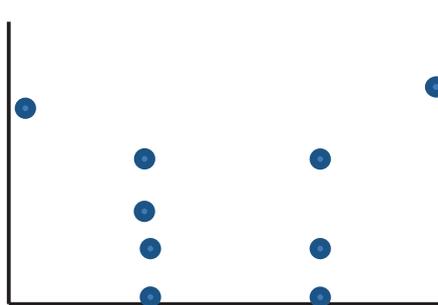

Then all of combinations are livings. A actor living is righteous soul living then, vertical time living, but an actor living is wicked soul living, but in the end of living wicked soul helping and doing real love from a righteous soul so that miracle happened end of wicked soul so that horizontal time, being enlighten so that an actor turning back to the righteous soul living in destination place orbit, so that in the last of horizontal time vertical time, so that an wicked soul to be created by an righteous soul, so that an wicked soul to be living finally vertical time, so that an old time old actor living changed into vertical time of young time, and the created righteous soul runs to the vertical time so that reach at the righteous soul living in destination place.

How I'm living in the macro concept world?

This is really urgent question? Righteous soul living in not an audience but player so that this is required real playing, so that in the macro concept world living me living of vertical, so urgent to be helped from righteous soul creation of knowledge, vertical time running deep running is with creation of knowledge.

To be get creation of knowledge is hearing broadcasting from righteous soul living in destination place, so that vertical time living righteous soul living is

Righteous soul vacant space of vertical time living is

This living is player of righteous soul runs in the vertical time, young time. Bubble runs up, this is creation of knowledge but if righteous soul gesture, so then just only living in knowledge, then that is not it righteous soul living but also do not running in the vertical time living.

To be hearing broadcasting from righteous soul living in destination place, then it must be a righteous soul living feeling in “silent and clean clear”, this is really critical living, this is state of mind to be zero, think of wicked soul to be zero then, in side world to be real feeling of “silent and clean clear” so then this is plyer living.

Righteous soul living real player is try to keep bubble feeling living, while hearing broadcasting of silent and clean clear, then, this is “creation of knowledge”, this is only key to runs to the vertical time ;young time living.

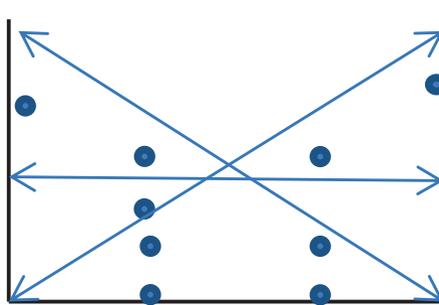

How I’m living in the macro concept world?

To this question, answer is will I still a player to run to the vertical time living, vertical tome living is just real living of hard living, because vertical time living hear of silent and clean clear living, how to do this living, then this is all difference but me living is will I to be living righteous soul, then only in the book writing time, I feel righteous soul living, because book writing time, I can hear broadcasting from righteous soul living in destination place.

So that all of livings are runs their coordinate but here is important thing is vertical time living is not easy, so hard living, so that vertical time living players are all hard living, hard living is there value because vertical time living can hear broadcasting from righteous soul living in destination place, but also get a creation of knowledge so that, do not runs horizontal time, horizontal time living is easy but

soon reach at the end of vertical time, this is do not hear of broadcasting from righteous soul living in destination place so that, a horizontal living livings are all filled a livings mind to be  $\infty$  ;infinite and wicked soul to be  $\infty$ ;inifinite so that even, righteous soul living in destination place broadcasting but horizontal time runs actor all think of wicked souls are varied moment so that in the place is loudly and dirty so that vertical time “silent and clean clear” huge difference living.

Wicked soul not vacant space of horizontal time living is

All of think of wicked souls varied in the horizontal time so that “loudly and dirty” of revenge and breaking think of wicked soul filled in a space, so that truly there is no space of vacant so that horizontal time running old time livings do not fell of bubble of “creation of knowledge” so that automatically depend on old knowledge old time living.

Here is infer that horizontal time living depend on old knowledge, so that here is really characteristic is audience living, horizontal time livings are all audience living but vertical time living is not audience but real player living, so that real player is deep living helping righteous soul living in destination place, a real player is do real behavior of righteous soul “it shares time with other, help other, but also doing real love other”, this is real player living.

How I’m living in the macro concept world?

This is real important will I which living vertical time living or horizontal time living? If my living is vertical time living then, automatically my real living is “it shares time with other, help other and doing real love other”, this is righteous soul living so that if this living then, all excitement living with doing righteous soul living behavior of “it shares time with other, help other, but also dong real love other”, this is righteous soul living player of vertical time; young time living.

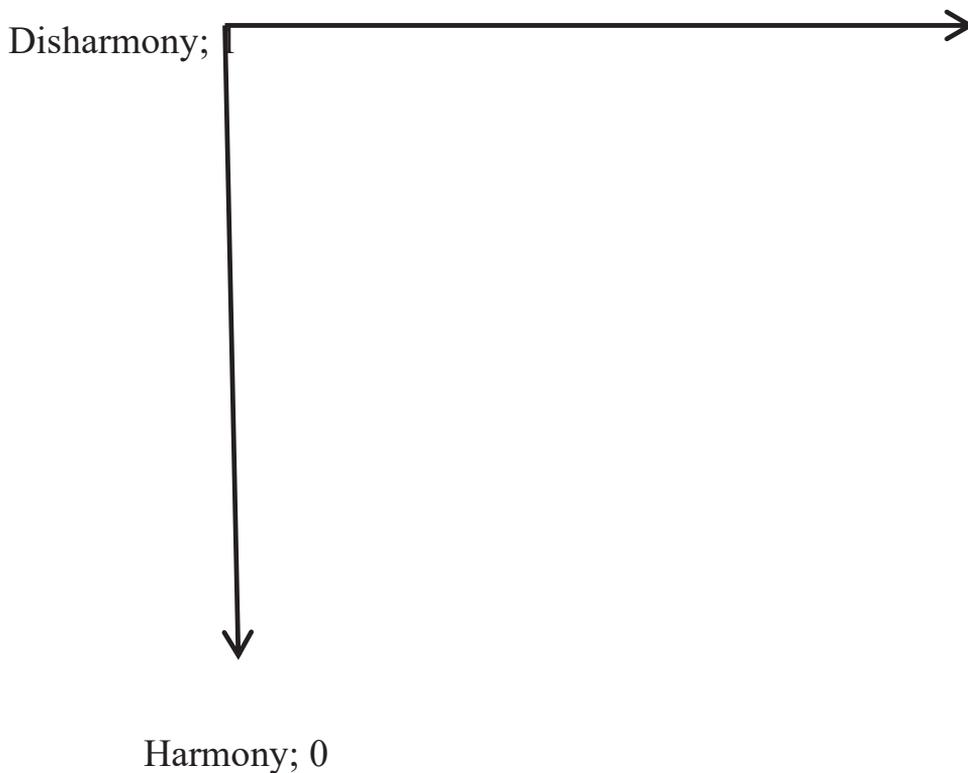

Vertical time living player can hear broadcasting but also feel bubble so that righteous soul can possible going deep and righteous soul living excitement, but horizontal time living do not hear broadcasting so that living in audience living only, so that audience living feel happy with is not doing but see a macro concept world a vertical time livings story, horizontal time living all audience livings only story hearing but do not know but, truly infer that horizontal livings fear of vertical time living.

How I’m living in the macro concept world?

Please macro concept world my living is righteous soul vertical time living so that my living is hearing broadcasting from righteous soul living in destination place, so that with excitement if righteous soul living behavior of “it shares time with other, help other, but also doing real love other” this living is really excitement, so that righteous soul me living is silent and clean clear so feel bubble of creation of knowledge, then strongly yes, I’m a righteous soul and vertical running and young time living, I will reach at the righteous soul living in destination place.

Am I doing righteous soul macro concept world mission “meet lover of wicked soul and do real love lover of wicked soul, so that create lover of wicked soul to lover of righteous soul” yes I’m doing that, this is so hard but to create lover of wicked soul to righteous soul, at now I depend a wicked soul temptation all of think of wicked soul, but still living hearing broadcasting from righteous soul living in destination place, getting creation of knowledge.

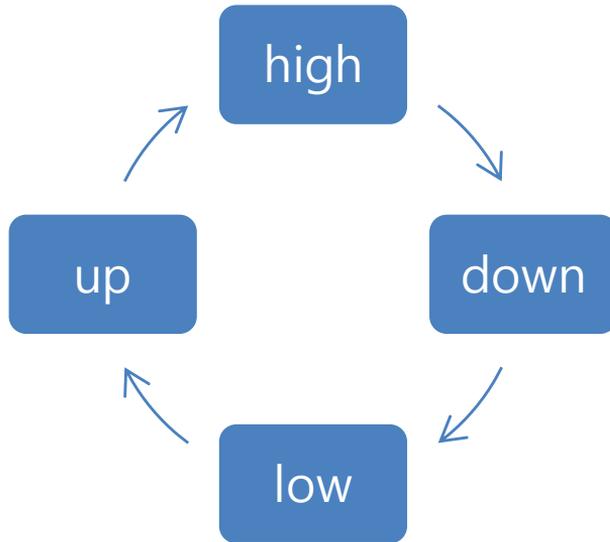

**Vertical time 0 is balance and harmony but  
horizontal time 1 is disharmony**

Horizontal time is width is  $\infty$  X depth is  $1/\infty = 1$

Vertical time is width is  $1/\infty = 0$  X depth is  $\infty = 0$

Harmony is harmony and balance is

Vertical time is harmony so that time is balance low up high down and low, this is circulation of time.

Infer that all time is low, up, high, down, vertical time is young time, and creation of knowledge this result is happened occur in the micro concept world and macro concept world, so that righteous soul livings all living in the vertical time of harmony and balance.

This is vertical time harmony brings fruit, getting result, but also righteous soul livings reach at righteous soul living in destination place, macro concept world voyage complete then micro concept world safe returning.

But wicked soul disharmony so that time is not balance, there is no low, up, high down and low, but also there is no time circulation.

That is horizontal time disharmony do not bring fruit, do not getting result, so that wicked soul drop to wicked soul living in destination place, macro concept world voyage incomplete, so that even start righteous soul living in destination place but do not returning to the righteous soul living in destination place.

Righteous soul vertical time harmony and balance is

The beginning is low, grow to up, huge energy required to high, high energy, then down cooling energy, so that cooling energy with fruit with energy going down to get matured fruit harvest of energy is getting low fallen to energy zero so that again safe returning to the low, this is righteous soul vertical time.

But horizontal time dis harmony is

Beginning is low growing up, and then does not growing but also reach at high but do not going down keep in high, resist going down to being low, so that wicked soul horizontal time living against to harmony of balance living, so that macro concept world livings are resist from high to low, keep high, so that useless unbalance living, but this is losing do, living as the time of valance, so that being lower living do not accept, try to live keep high, then, all horizontal time used up, so that automatically do not reach at the righteous soul living in destination place, in the macro concept world daily living year living, all of living result also, do not fruit and harvest.

Truly vertical time livings time is all has means so that accept it, just runs to the righteous soul living in destination place,

Vertical time living righteous souls are all accept

Beginning in the low, grow to up, high energy of high then going down to cooling energy harvest in the end energy to zero of low.

This is righteous soul micro and macro voyage orbit, here is infer that 01234567890 = so that 00, this is still beginning voyage safe returning voyage is 00, macro concept world 123456789 all to be being energy zero then being “00” this is vertical time young time.

But wicked soul horizontal time 0123456789 this is doing now energy cooling and energy to be zero, wicked soul reluctant to be energy zero, so that wicked souls are all cling to the 9, so that disharmony living, so that in the end righteous soul living “00”, wicked soul do not know, righteous soul living vertical time valance living is reach at the beginning time so this is means that “00” is micro and macro concept world voyage complete safe returning to the righteous soul living in destination place, then even 01234567890 but “00” is still living of beginning living, this is vertical time young time, “00”, righteous soul young time is “01234567890 =00 still beginning.

But do not harmony living horizontal time living old is

“Horizontal time is width is  $\infty$  X depth is  $1/\infty = 1$ ”

Horizontal time wicked soul living is disharmony so that

0123456789=1, because to be try to same area with vertical time, then horizontal time, 0123456789= “width is  $\infty$  X depth is  $1/\infty = 1$ ” to be same area vertical time living wicked souls try to get width, this is so hurry and effort to get increasing width, so that all horizontal time livings are all cling to be 9;”0123456789” horizontal time livings value is only getting much more than other, so horizontal time living is still “01” 0 is beginning but horizontal time still hold, and energy high time only cling to life, so that trying to remained in the macro concept world only, then it never ever do not returning to the beginning “00”.

Righteous soul living vertical time living young time is circulation living

Low=up=high=down=low

Righteous soul vertical time living young time accept it.

Infer that low=up=high= down, then how excitement with to be low, because still “0” of beginning in the micro concept world.

This is really harvest, wicked soul and mind livings macro concept world harvest is “0123456789” but vertical time righteous soul harvest is “01234567890”=”00” is harvest.

“Time and life time” = “Low=up=high=down=low”=”00”=vertical

time and young time.

True vertical time true fruit is beginning voyage macro concept world to complete macro concept world voyage and safe returning to the micro concept world righteous soul living in destination place “00” is fruit, so that vertical time living righteous soul truly accept really excitement from high to down to low, this is really excitement.

Righteous soul harmony living is “Low=up=high=down=low”

In the macro concept world righteous soul living is low, up high is must infer that vertical and horizontal living is same, but righteous soul living accept down=low, but wicked soul of horizontal old time living “0123456789” living s do not accept “down=low”.

How to righteous soul excitement living from “high =down=low”

This is really excitement of righteous soul living behavior “it shares time with other, help other, but also doing real love other”, so then automatically energy cooling and energy to be zero, so automatically being reach at low, this is “01234567890” =”00”,

Truly infer that

Righteous souls are voyage so that voyage livings all voyage so that righteous soul to be comeback to the voyage beginning righteous soul living in destination place, so that it don't necessary voyage necessary so that 123456789=123456789, to be safe returning to the righteous soul

living in destination place, it required to be “01234567890 =00” because soon to be safe returning not any more voyage energy, because righteous soul to be living in the beginning “00” young time, so then voyage “123456789” do necessary all used righteous soul living energy, this is help righteous souls but also righteous soul living safe returning to the righteous soul living in destination place.

## Why I'm try to write "time and life time"

Time is all has in the macro concept world livings.

Which time will go is all of macro concept world livings problems, but truly macro concept world time is all feeling same time, watch time truly that is macro concept world time is this,

Why I'm try to write "time and life time", and but also this "Why I'm try to write "time and life time" this topic is right locate because this book is now middle running,

Truly last night I hear broadcasting from righteous soul living in destination place, so it need to arrangement now, why vertical time living is right, why horizontal time is do not right, truly there is vertical time and horizontal time is really exist, all this is infer of creation of knowledge.

Vertical time and horizontal time is coming to me by accident

Horizontal time is horizontal wide running is only to be same area with vertical time running to deep running of vertical being increased area, so that which is hard truly vertical going deeper is so hard, but width increasing horizontal running is easy but truly conflict with others wicked souls, wicked souls are all try to living in easy living using "revenge and breaking energy".

Truly macro concept world livings

An actor getting area then another actor also try to get same area, if an actor runs going deep so that width is  $1/\infty$  X depth is  $\infty$  = area, and an actor width is  $\infty$  X depth  $1/\infty$  = area to be same area want, so that horizontal time living try to getting wide width so that fast runs on the horizontal time easily, but macro concept world horizontal area all occupied so that wicked soul try to same area living as vertical living righteous soul area, so that wicked soul use “revenge and breaking energy”, horizontal time living actor must be dilemma vertical time an actor area is getting wider but horizontal time living actor hard to getting wide, so that horizontal time living actor do not living righteously but deceit and old knowledge power to live same of vertical time living righteous soul.

Why “Why I’m try to write “time and life time””

Righteous soul runs to the vertical time, this is runs to the deep place, so that going deep is so hard, truly infer that run is all horizontal time living, but in this book “time and life time” try to saying vertical time of running to the dept.

Vertical time is depth is  $\infty$  X width is  $1/\infty$ = area, this is so hard but in this place righteous soul living only runs, because vertical time living only helping from hearing broadcasting from righteous soul living in destination place, so that getting creation of knowledge which is key to run to the depth, creation of knowledge feel bubble while hearing broadcasting so that, this is creation of knowledge, youth time living.

Righteous soul living runs to the depth only helping creation of

knowledge, here is creation of knowledge is difference from a horizontal time old knowledge, so that righteous soul creation of knowledge is against to the horizontal time of old knowledge.

Truly infer that

Horizontal time of old knowledge is still in the macro concept world living strong power, so that all of brain smart livings are all getting well old knowledge so that old knowledge livings depend on brain smart, so that macro concept world horizontal time livings are old knowledge basis living so that who are know best is getting power of not living. This is May not truth so that here is infer saying. My entire book is not saying macro concept world, because I'm not know and well macro concept world old time of horizontal time living.

But truly infer of vertical time living is creation of world living, depend of creation of knowledge, so that this living is a righteous soul living only, righteous soul living is running to the depth living, so that truly horizontal time livings do not know, but only a righteous soul living running depth is only feel righteous soul living.

Righteous soul runs depth living in the macro concept world then

Vertical time living righteous soul old knowledge power is not but creation of knowledge running young beginning time, vertical time living is difference living horizontal time living, so that horizontal time living are brain smart old knowledge at “wicked soul easy living of only brain smart living one living easy living” so that horizontal time living old knowledge power try getting much more than other

living, they do not know righteous soul living behavior “it shares time with other, help other, but also doing real love other”, even old knowledge power getting huge in the horizontal time, but getting all energy is only use for wicked soul only one.

But vertical time living depth running righteous soul creation of knowledge livings are basic living is “it shares time with other, help others but also doing real love other” so that righteous soul living vertical time living creation of knowledge soon do horizontal time old time living old knowledge power living place help, a righteous soul vertical living, then horizontal time living old livings also can know that by righteous souls helping horizontal time livings.

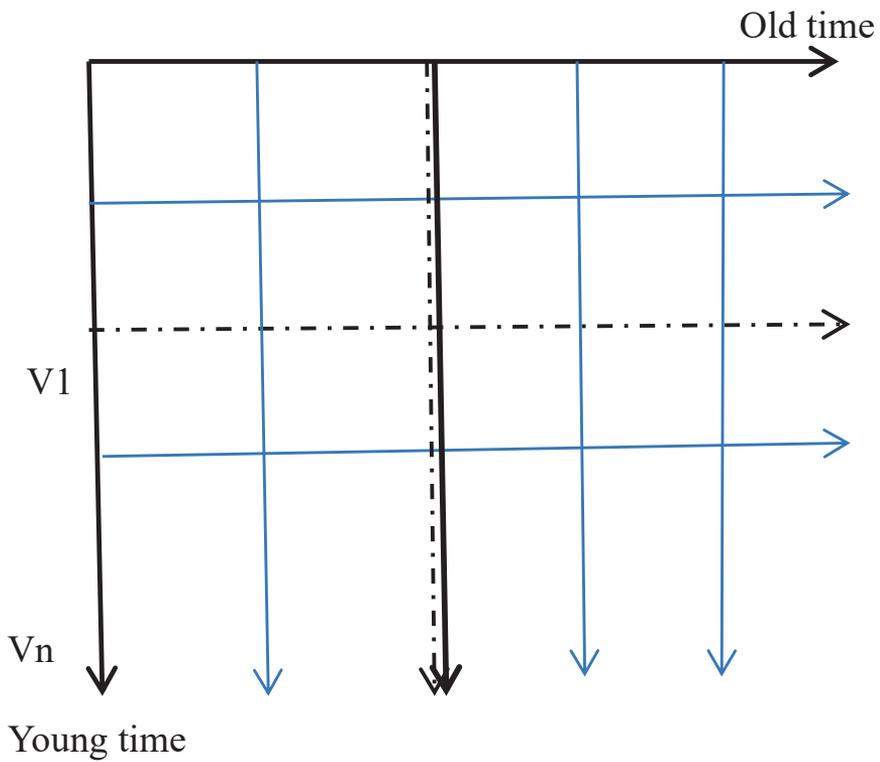

Vertical time living actor runs to the righteous soul living in destination place so that righteous soul know that micro concept world righteous soul living in destination place, so that macro concept world now living is macro concept world voyage to do mission clear “righteous soul me meet lover of wicked soul, and do real love to the lover of wicked soul, then righteous soul me do mission complete, lover of wicked soul create by righteous soul me as the lover of righteous soul then both safe returning to the righteous soul living destination place”.

Why I’m tried to write “time and life time”?

Vertical time living young time living runs to the depth then, helped from creation of knowledge, so then vertical time righteous soul role, is just like clean water from spring water flow down to the river, this is also infer, I do why I'm this book "time and life time" is who must live vertical time living, because a righteous soul vertical time young time living actor get creation of knowledge, if not no one this hard living vertical time living, then then a living place do not added new and creation of knowledge to the horizontal time living old knowledge, so then if there is no vertical time living then, only horizontal time living wicked soul of old knowledge old time living only, so that this book "time and life time" is now being writing.

# Young time X old time = micro concept world me time

H 1

Truly infer that who knows righteous soul me micro concept world time, I do not know but here is infer that, truly infer that righteous soul living in destination place reach me time and at now living time who knows?

Truly infer of this book vertical time is young time, and horizontal time is old time, young time is keep begging time and old time is keep finish time.

Here also infer that, beginning time keyword is fresh and power and energetic, but old time finishing time keyword is succession to property, powerless, sickness, hospital etc.

Righteous soul me micro concept world time is vertical time, but wicked soul me time is horizontal time, but truly wicked soul and righteous soul mixing time

“Young time X old time = micro concept world me time”

Micro concept world me time of coordinate is

Dot lime cross point is micro concept world time, then who know horizontal time then vertical time living,

(H1V1); (V1H1) this is micro concept world me time?

So then righteous soul living in destination place living recognition to vertical time is black narrow, V1.

But still micro concept world time me is in the H1 so that wicked soul living in destination place also possible.

Here is micro concept world me time is vertical time and horizontal time is mixed state, truly macro concept world time is same absolute time, but micro concept world time is not same all of livings in the

macro concept world.

So then righteous soul living in destination place try to help at now micro concept world time V1H1 so then, this is keep living in the whole of macro concept world time,

"Young time X old time = micro concept world me time"

= "it shares time with other, help other and doing real love other" X  
" using revenge and breaking energy living in easy living"= micro concept world me time.

Say again

"Helping righteous soul of creation of knowledge" X "old knowledge of strong power position living" = micro concept world time.

It must infer that horizontal time H1 is not changed because H1 is toward to finishing time, but only V1 is growing being depth running, so that horizontal time is still runs to the finishing time of consuming time. So that micro concept world time is function of H1 but not to be toward to finishing time, keep runs to the vertical time, this is

"Young time X old time = micro concept world me time"

Old time is runs to the old time, but also young time is runs to the

young time, automatically old time runs to the end time, but young time is not automatically runs, just righteous soul living running so that hearing broadcasting from righteous soul living in destination place, so that creation of knowledge.

Helping righteous soul living in destination place creation of knowledge, then can possible runs to the vertical time of young time and beginning time of righteous soul living in destination place.

Truly infer that all of livings horizontal time is runs to end of time, but vertical time of runs vertical is young time running, this is even this is infer of time, but truly possible is creation of knowledge helping vertical time is making keep young time, and beginning time, so that even to Horizontal time is old, but if in the horizontal time H1 keep runs to the Vn then, macro concept world me time is must be “H1 Vn” then, stop H1 but runs to young time Vn then, micro concept me is still strong energetic dynamic righteous soul me, as Vn then here is micro concept world me is being righteous soul me, so that as the Vn then string righteous soul helping me, so that as Vn then righteous soul string creating knowledge so that, righteous soul behavior this is making know H1 living times to be known by righteous soul me “H1Vn” so that can help H1 livings to know Vn righteous souls, so that H1 livings also to be grow with righteous soul Vn with creation of knowledge. This is happened old knowledge plus creation of knowledge, so then H1V1 of macro concept world me living is grow to the better living, but if a do not living vertical time living, then truly only one of H time of old time and old knowledge, so that the time and space living runs to the end of time, old time so that, the place all sickness and do not dynamic all to be end so that, a

wicked soul try to living width to be larger area so that runs to the fast to the end of Horizontal time, so then, much more getting larger area of land, then, truly start to war, all of peace to be breaking instead of peace all of living end of time to be “revenge and breaking of breaking wicked souls world” so that, macro concept world living me time and place is end of time of old time. Then true without Vn of creation of knowledge then, the time and space to be war, huge livings to be disappeared from macro concept world to fall wicked soul living in destination place.

Infer that fear that at now macro concept world, there is no Vn of creation of knowledge so that all macro concept world living is old time, here is there is no beginning and young time of righteous soul living and creation of knowledge is all not seen now.

Vertical time young time is creation of knowledge and silent and clean clear of peace and excitement living here is beginning time so that here is keyword also “challenge and power and living “it shares time with other, help other, but also doing real love other” of creation of knowledge living in excitement.

Truly macro concept world which power, truly infer that righteous soul living region time righteous soul living in destination place creation of knowledge is connect to the region of righteous soul living in destination place, but truly until righteous soul living region also if Horizontal time living only then, here also old time region, so then, try to do get “creation of knowledge of vertical time young time” as before living was vertical time of young time of “it shares time with other and help other, but also doing real lover other” but now lost so

that vertical time of “creation of knowledge” is not here but old knowledge so that, all of livings are getting wide with Horizontal time so that all living on the old knowledge this is huge dangerous as to get wide area getting do not getting depth of creation of knowledge then, here is macro concept world to be living of wicked soul living, just only depend on old knowledge.

Young time X old time = micro concept world me time

Who will runs to the vertical time living?

How to runs to the vertical time living?

Here is micro concept world me knows that micro concept world righteous soul me living is “poor and righteous soul” and runs to the “righteous soul and nothing”, this is  $\text{mind} = 1/\infty$ , there is no me, so then righteous soul living me appeared up.

Righteous souls living mission is “righteous soul meet lover of wicked soul and do real love lover of wicked soul, so then lover of wicked soul to be created as the lover of righteous soul and safe returning to the righteous soul living in destination place with lover of righteous soul” this is why macro concept world me hard and dangerous macro concept world voyage, then if my macro concept world voyage then righteous soul of vertical time running then, my macro concept world voyage to be excitement doing mission even so hard wicked soul to righteous soul creation is all of living sacrifice but out of righteous soul me mission clear then, peace living then, it is fortune to me.

So macro concept world being peace then, righteous soul me vertical time running for the solve Horizontal time of getting wide territory and land only, do not know, vertical time going depth but do not know, so that macro concept world Horizontal time only getting land, then the time and space to be war.

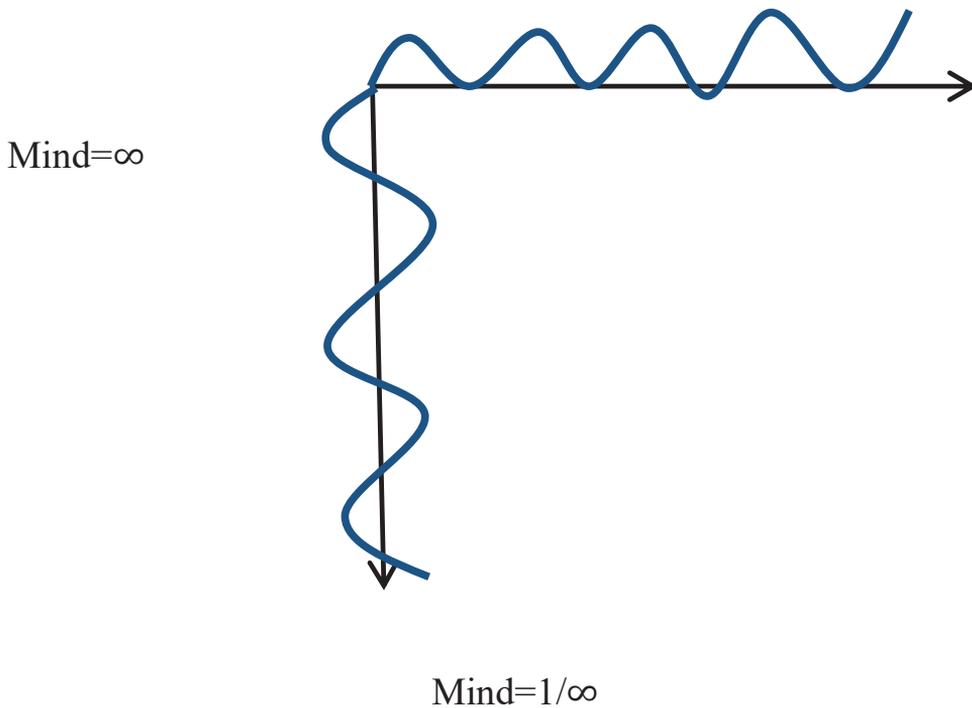

Righteous soul living in destination place at the vertical time place but horizontal time end is wicked soul living in destination place, so that huge livings are damaged cause of horizontal time living, just getting land and territory getting wide, so then, do not know vertical time living of “creation of knowledge going depth”, this is also same area but also huge area is vertical time living.

So then vertical time living end of it is righteous soul living in destination place living. Here is why urgent at now macro concept world living s righteous soul at now living vertical time livings do give “creation of knowledge” to the Horizontal time livings.

Hey! Horizontal time livings, why do try to battle war of economic and true war, righteous soul vertical time livings make know that Horizontal time of old knowledge livings.

Vertical time living young time livings keep strong supply “creation of knowledge” to the Horizontal time livings to be living same as the vertical time of “creation of knowledge” and young time. So that here is now living is to be righteous soul living of creation of knowledge living.

## Young time living cycle but old time living breaking living cycle

Truly infer that macro concept world livings are all living, sometimes living is better the other time is hard. Truly infer that vertical time living is living cycle is one, but horizontal time life cycle is half, so that horizontal time is mind= $\infty$ , but vertical time is mind = $1/\infty$

Truly mind is “getting much more than others” so that  $\text{mind}=\infty$ , here is mind use wicked soul “ using revenge and breaking energy” so that horizontal time living actors are mind level livings and wicked souls, so that here is micro concept world wicked soul mission is “revenge and breaking” so that wicked souls try to runs to the horizontal time end, this is getting area wider, then here is huge conflict meeting, just only one of wicked soul try to get all, then other wicked soul and mind levels anger to the wicked soul, but wicked soul know that righteous soul of vertical time living area is huge, so that wicked soul also try to be same area, so that

Wicked soul living is

Based on  $\text{mind}=\infty$

Horizontal time is width is  $\infty$  X depth  $1/\infty =1$

Vertical time is width is  $1/\infty$  X depth is  $\infty =0$ , infer that wicked soul know as 1

So that wicked soul truly vertical time righteous soul to be 0, but wicked soul know that 1, so that wicked soul try to be getting 1, width is  $\infty$ , this is wicked soul livings attitude, who knows being living wicked souls, this all know it, in the macro concept world living happening.

As living righteous soul of vertical time living is really do not understand but truly infer that horizontal time of old time and old knowledge livings are all try to get 1 as the width to be  $\infty$ , infer that wicked souls must be all get earth, truly righteous soul of vertical time

living is truly 0, but wicked soul living knows that 1, so that this is huge difference between horizontal time living and vertical time living.

A living actor of macro concept world, horizontal time of wicked soul and mind level living refuse to living 1 cycle of lover, losing but only upper and getting cycle is in the horizontal time.

But vertical time living accept one cycle going up and reach at top but going down to bottom, this cycle accept, so that perfect one cycle of righteous soul living.

So that vertical time livings are know that hard and difficult time and some of goo time mixed living but, horizontal time anger and breaking revenge all of hard time and difficult time, so that in the time of hard and difficult time really wicked souls energy peak so that macro concept world, in the horizontal time to be breaking huge wars, this is cause of wicked soul mission “revenge and breaking” complete, so that huge number of wicked souls and mind levels livings disappeared from macro concept world of time.

While horizontal time war and “revenge and breaking” huge number of wicked souls disappeared from macro concept world, but vertical time of righteous souls living cycle is during righteous soul living macro concept world mission is “ meet wicked soul of lover and do real love wicked soul of lover, this is huge hard and difficult living,

so that righteous soul living vertical time is all is to be being possible living in the righteous soul living in destination place, righteous souls keep helping doing living in the righteous soul living in destination place so that vertical time living righteous souls hard and difficult is to be perfect round and in the end righteous soul and nothing, so that all to be zero of “righteous soul & nothing” all of hard living.

This is huge difference

Horizontal time living is still to be getting much more than other, but vertical time of righteous soul is to be living in the righteous soul living in destination place so that try to be perfect zero of righteous soul and nothing.

Here is horizontal time living is strong “wicked soul me living” but vertical time living is “righteous soul me and nothing” this means that “there is no mind, there is no me, so that there is no me, so that it don’t have to getting much more than other, so then only there is no me, so that there is no energy for me, so that all of righteous soul energy is using of “it shares time with other, help other, but also doing real love other” as this all of righteous soul to be being nothing righteous soul me.

Vertical time is “mind  $1/\infty =$  righteous soul”, but horizontal time living is “mind  $=\infty =$  wicked soul” so that horizontal time living ultimate for only one of wicked soul try to get all, so that just one of wicked soul win but all of 99 wicked soul to be losing, so that to be

carry this only one winner to be war of “revenge and breaking” is begins, this is old time of end of horizontal time facing destiny.

This is wicked souls living, this is old knowledge livings but also old time livings, they do not know, creation of knowledge and young time and so that horizontal time custody in the past of old time and old knowledge.

But vertical time of righteous soul livings is living on creature of knowledge and young time of beginning so that here is living is peace and out of custody of past but righteous soul living now and for the future living, so that micro concept of “ $-1/\infty \sim +1/\infty$ ” righteous soul vertical time is young time, so that not related with past so that past to be custody, so that micro concept is solving now problems from future solution this is creation of knowledge; righteous soul can hear broadcasting from righteous soul living in destination place, this is strong source of getting creation of knowledge but also this is vertical time living all.

So that vertical time living is to runs to the vertical time, then in the end to be “righteous soul and nothing” so that righteous soul runs to the vertical time of depth to be  $\infty$ , this is doing not conflict with other, vertical time living is not move horizontal time of width so that righteous soul do not do make harder other, but also righteous soul living is living seeing me, then hear of broadcasting, then creation of knowledge, at now living problems are all solving.

Truly infer of righteous soul livings creature of knowledge is new before there is no horizontal world, so that but this is must be solve macro concept world horizontal world problems solving, so that it is not any moving width make hard other, but new and creation of solution is only righteous soul vertical time of youth and beginning time living only.

It is very urgent macro concept world sure of righteous soul living is required, so that righteous soul living in destination place creator role of vertical time living creating knowledge living supply to the horizontal time living righteous soul creating, so that righteous soul expect macro concept world to be peace and silent and clean clear living, but truly infer now macro concept world do not do righteous soul creator expecting macro concept world, because as planned righteous soul creator designed righteous soul all to be living in horizontal living, righteous soul of strong role player only living for him/her so that it must be living hard vertical time living, but easy and only living herself/himself living so that there is no vertical time righteous soul living, so then, infer of true all of horizontal time living past knowledge living powers, to be hard face to there is no creation of knowledge, so that all is depend on old knowledge, it must be reaching at the end of horizontal time living then, wicked soul living in destination place mission is carried in the macro concept world, wicked soul living mission is “revenge and breaking”.

How to live

Will I to be living righteous soul living of vertical time living?

Yes righteous soul creature is given to the brilliants to be face hard and difficult so that being righteous soul living leader in the macro concept world then, righteous soul leader to be living “ righteous soul living mission is meet a wicked soul of lover and do real love wicked soul to be righteous soul” yes! Keep doing real love wicked soul one by one, one of righteous soul to one of wicked soul creating then, this macro concept world to be righteous soul living in destination place.

But truly infer that at now, getting much more than other so then other to be being difficult living of strong wicked soul livings are majority even there is no any righteous soul living of vertical time living of creation of knowledge.

What is living?

Living is “getting much more than other” then horizontal living is this, but vertical time living is “it shares time with other and help other but also doing real love other” of vertical time living, which is living.

Truly infer now, what is living is “getting much more than other” of wicked soul living’s horizontal living is major so that, here is infer of righteous soul vertical time living getting creation of knowledge helping horizontal time problems but there is no righteous soul of creation of knowledge getting real righteous soul is not seen to me.

Heavenly father help now, living a righteous soul to be hear broadcasting from righteous soul living in destination place, but also righteous soul can get creation of knowledge, so that at now

horizontal time runs to the end; there is war broken to be all wicked soul making disappeared from macro concept world.

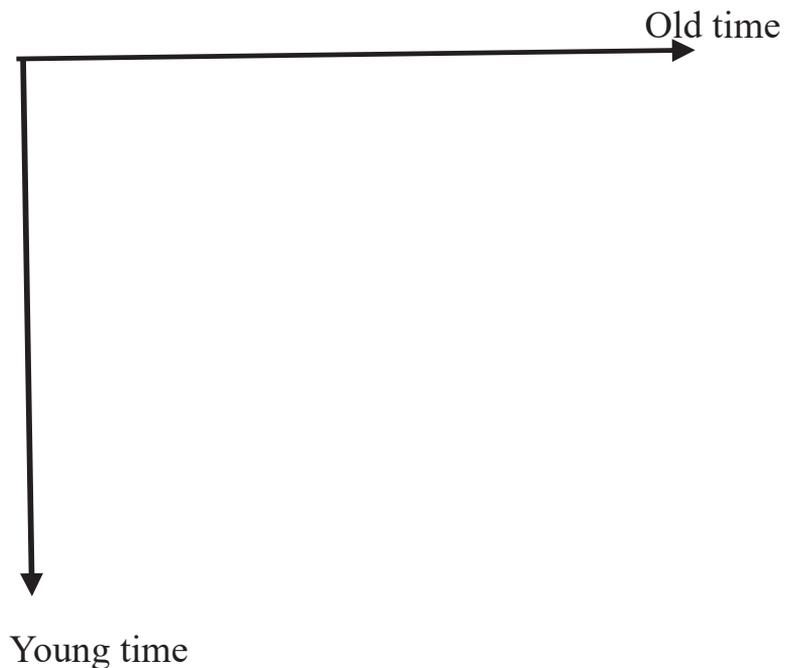

This is urgent!

Heavenly father please help even living in the horizontal time final, go deeper and get creation of knowledge then make stop reaching at the end of horizontal time, righteous soul creation of knowledge help horizontal time living in now old time and old knowledge, added to young time and creation of knowledge, then horizontal time livings will be avoiding war, and keep peace living.

It really want to see righteous soul getting creation of knowledge actor and being leader to be peace living macro concept world living.

This is righteous soul living in destination place creator wanting so that righteous soul living in destination place are standby to help macro concept world living peace living keep going.

**Vertical time livings many and increasing,  
there is young time livings**

Country and company keep increasing every year new livings are being group members, but a company living young but the other company also old, how to happened this.

What is my working place appeared up a keyword “tormentor and outcast”? this is young time living? Infer that it is not this living in the horizontal of old time living.

Truly “time and life time” book writing me is at now 57, but still I’m a outcast victim, so that this word so sensitive to me, in a group a person out cast, so that 99 to 1, I is me, I’m living endure of all of hard attacking from wicked souls.

So that now infer of it, “righteous soul” keyword book writing, righteous soul living is against to the “tormentor and outcast” righteous soul living behavior is “it shares time with other, help other, but also doing real love other”.

99 wicked souls only one of righteous soul segregate from 99 group. If this outcast behavior is occur in the company then, the company living well and make much money company behavior infer that truly not, the company major group segregate one, then one is righteous soul, or 99 is righteous soul, I do not understand why a person to be segregate from majority, why make it?

Wicked soul living behavior is “using revenge and breaking getting easy living”, then majority of 99 outcast only one, then what infer this a living s do real living and do living righteous soul, so that wicked soul reject from their wicked soul groups, this is horizontal time living, horizontal time living is “getting much more than other” so then, hurry to get width for width is  $\infty$  infinite getting, then it must be reluctant to do, so that infer of poor and righteous soul, just fear of and survive from wicked soul, then keep now lower of poor living righteous soul, is still righteous soul, but to the mind levels do not make hard, but wicked souls make hard poor and righteous soul, in

the horizontal time living of wicked souls are doing not know but that is obstacles to run fast getting width area, so that anger and segregate, but righteous soul living is vertical living, it don't have to runs to the horizontal time living.

So that horizontal time of 99 majority attacking by our cast.

If this a company happened that out cast then, this is must be end of horizontal time, so then just like a person of horizontal time of sick and hospital living, same, sure of a company of out casting this company soon disappeared from macro concept world.

If vertical time and young time living actors are increasing and there is vertical time livings are huge then, the company and country is young country, here is time is "beginning" "challenge" and strong majority all to be same attitude of "it shares time with other, help other, but also doing real love other" so that all go with depth of vertical livings, here is all of young time livings are can hear broadcasting from righteous soul living in destination place, so that vertical time runs righteous soul also get creation of knowledge, so that keep runs to the depth.

This company is now beginning and young time and righteous soul living, righteous soul connect to the righteous soul living in destination place, so that young time living of righteous souls, new and beginning and creature of knowledge, there is no any territory but so that righteous souls rune to the vertical time living, so that solve to going depth, all helped from righteous soul living in destination place, so that possible even there is no land territory but can live with other,

living in excitement, all of vertical time livings are doing “it shares time with other, help other, but also doing real love other”.

This living of vertical living is young time living, so that company keep growing and get creation of knowledge, so that this young time company get before there is no consuming goods, so that it never has the competition from horizontal time livings, because old time livings do not know it, so that vertical time livings go deeper then, truly horizontal time living never ever do not know, vertical time livings creating's; here is vertical time living is micro concept world righteous soul living in destination place, righteous souls are doing role as creator designed, this is really important, truly inter that macro concept world is

Vertical time + horizontal time = real macro concept world.

Infer of truly that no one know, vertical time and horizontal time of micro concept world time, but all of macro concept world time livings all of livings time is same, but truly infer that micro concept world living time is all is not same.

So then,

Vertical time + horizontal time = real macro concept world.

If a place, and company and country a living is vertical time living then

Vertical time; creation of knowledge + horizontal time of old knowledge = real macro concept world, so then this living at least

there is no “tormenter and outcast” at last vertical time energy and horizontal energy to be balance so that beginning time living actor and end time living actor so that even, not growing but keep consistence living, now living macro concept world,

But there is no vertical time living actors

Vertical time=0 + horizontal time = real macro concept world only horizontal world living actors so that all end creation of knowledge, so that all of horizontal time living, company lost do beginning time memory all forgot but only old time and old knowledge produced harvest to divide equal then, horizontal time livings are wicked soul livings so that strong revenge and breaking energy getting wicked soul all get, so then if a one of righteous soul said” your behavior is not right” then wicked soul segregate only one, so that 99 of wicked souls all get.

As the vertical time =0, then horizontal time living region do not know, forget creation of knowledge, only their living depend on old knowledge, even a creation of knowledge new way of living, but do not know, this is real or not so that, horizontal time livings region just keep repeat all of past living ways living, so that any new creating added surplus creature of product so that wicked soul try to get to live in easy living, so that against to the wicked souls then segregate only one.

Then horizontal region country and company and organization to be

broken by other wicked souls, in the horizontal time living all of wicked souls know that “revenge and breaking energy” each other of wicked souls are do revenge and breaking so that, this micro concept world livings wicked soul living, so that all of livings in the macro concept world do, this is group and country then, breaking is explosive so then, the place to be wicked soul living mission clear, so that in the macro concept world to be wicked soul living in destination place; loudly and dirty living place.

Vertical time + horizontal time = real macro concept world.

If there is no horizontal time then

Vertical time + horizontal time=0= righteous soul living in destination place

Here is macro concept world helped from righteous soul living in destination place, so that all of creation of knowledge is solve problems and product helping creation of knowledge, so that even there is no any territory but righteous souls living is enough doing “it shares time with other, help other, but also doing real love other”, so that creation of knowledge helping product sell in the macro concept world, so that getting sell well, then all of money making is righteous soul living behavior of “ company money shares time with other, company money help other, company money do real love other”, so that vertical time of young time living is why company and country of group energy power required is all of vertical time livings expect if I living righteous soul living then, automatically being to me “it shares time with me and help me and doing real love me” possible, so

that vertical time righteous soul living of beginning time there is no live horizontal time problems.

"tormenter and outcast" at now happened macro concept world now living money making place, not a school money making time and space, then, here is ripen old time, but also near to end of horizontal time livings.

Truly all of companies are

Weak of vertical time but strong horizontal time so that all are risky livings at now, if out of region of a power hit then all of companies are to be end.

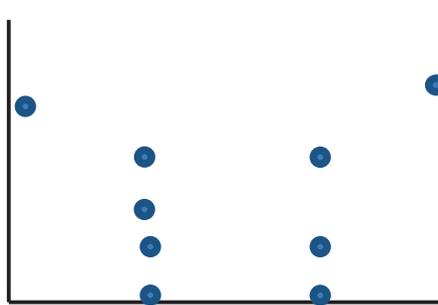

Because they do not know creature of knowledge, they do not hear broadcasting from righteous soul living in destination place, truly at now livings at the horizontal time livings so not know

Their now living horizontal time living old knowledge all from vertical time living of creation of knowledge, but at now problems are in the horizontal time living it never ever solve problems, vertical time living actor must be required.

All of complained as making money based on vertical time of creation of knowledge being shift to horizontal time of "wicked soul easy living by using revenge and breaking" then soon broken creation of knowledge and competition of product.

Vertical time living actors are all living

Righteous soul vacant space is

This is righteous soul vacant of righteous soul of space can hear broadcasting image, so that righteous soul brings creation of knowledge

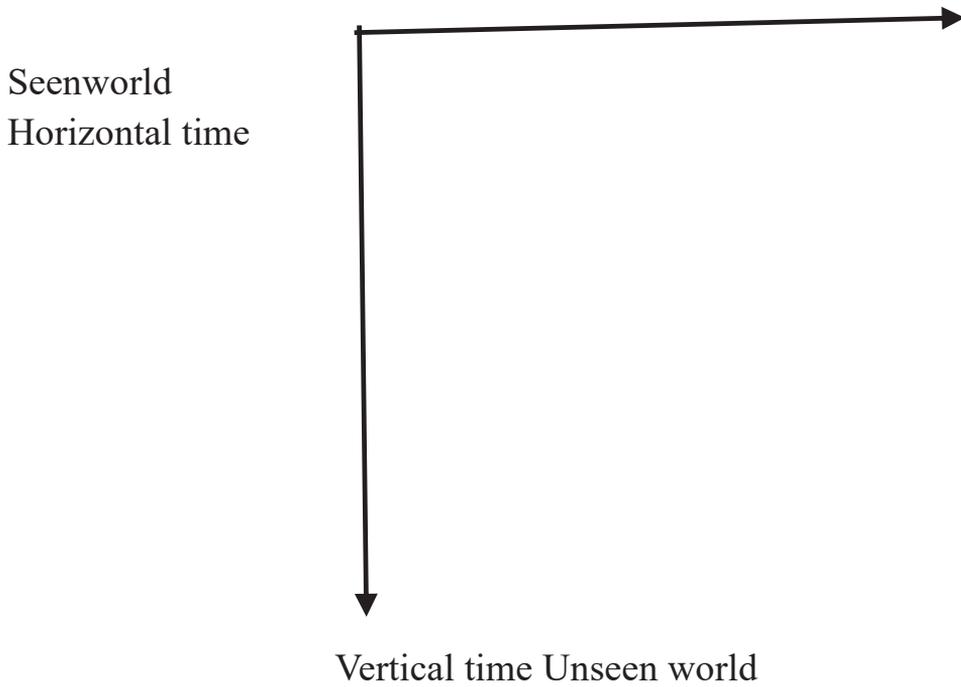

Vertical time living righteous soul is all to be silent and clean clear region in the righteous soul livings, so that righteous soul can hear of broadcasting from righteous soul living in destination place, but also bubble of creation of knowledge getting, that is source of righteous souls runs to the vertical time living.

If a company and country to be young time and begin time living be sure living in righteous soul living of silent and clean clear, so that all of living is poor and righteous soul, righteous soul and nothing, then

company is keep young and country keep young and living is possible  
in righteous soul living.

**Vertical time is unseen world**

**horizontal time is seen world**

Vertical time + Horizontal time = Unseen world + Seen world

So then, seen world is

Seen world = vertical time + Horizontal time – Unseen world = horizontal time

Unseen world = vertical time + Horizontal time -seen world = vertical time.

This formula what try to saying, at now I do not know, but soon strange creation of knowledge will come up.

Here is if not unseen world then only seen world, of horizontal world

But if here is both vertical time and horizontal time is existing then, what

Vertical time + Horizontal time = Unseen world + Seen world

Here is vertical time living actor is righteous soul with helping creation of knowledge

Here is horizontal time living actor is wicked soul with helping old knowledge

Runs to the deep is righteous soul of vertical time living actor

Runs to the width is wicked soul of horizontal living actor.

(Righteous soul ----- going deep - creation of knowledge ---- silent and clean clear) +

(Wicked soul --- going wide – old knowledge – loudly dirty) = vertical time + horizontal time

Truly vertical time living actor is

Width= $1/\infty$

Depth = $\infty$

As wide is  $1/\infty$ , so then there is no conflict other, but just do go deeper then,

Here is deep place is being silent and clean clear, this is macro concept world

Peace living.

But horizontal time living actor is

Width = $\infty$

Depth = $1/\infty$

Wide is  $\infty$  so that the living is conflict to others, here is winning is “revenge and breaking” so

That horizontal time living actor is not peace living, but the living is loudly and dirty living.

So that vertical time and horizontal time is helping problems, so that to the horizontal time livings required to

Vertical time of creation of knowledge,

Vertical time X horizontal time =

(Wide of  $1/\infty$  X depth =  $\infty$ ) X (width =  $\infty$  X depth  $1/\infty$ )

$0 \times 1 = 0$ , so that

Vertical time X horizontal time = 0

As vertical time living actor of creation of knowledge help horizontal time old knowledge

Then being vertical time creation of knowledge = 0.

Truly vertical time living is 0

Horizontal time living is 1

So that, if there is no vertical time 0, then

In the place is only 1

Here is 1 is

“0123456789” so that Horizontal time livings are all to be destination place of wicked soul living in

Destination place.

But

Vertical time X horizontal time=

0 X 1= 0, so that as vertical time creation of knowledge helping then vertical and horizontal all to be

Runs to the righteous soul living in destination place.

“01234567890”

Truly this is vertical time living actors

Righteous soul living behavior of

“it shares time with other, help other, but also doing real love other”

these vertical livings behavior X horizontal time of “revenge and breaking of wicked soul” = “01234567890”

Her it is righteous soul save wicked soul go run to the righteous soul living in destination place.

Here is

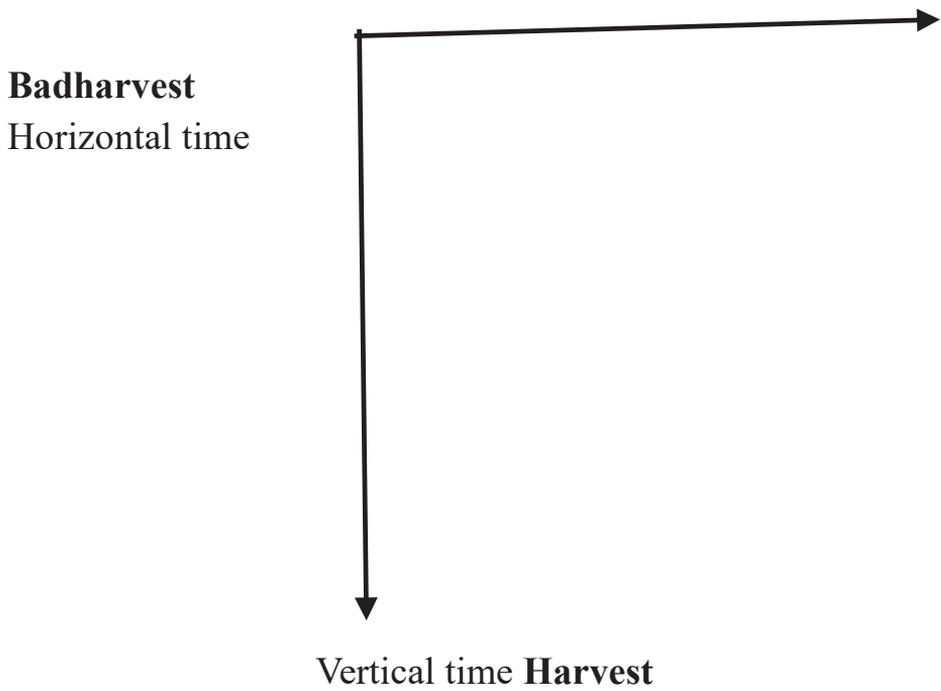

Vertical time is unseen world horizontal time is seen world is vertical time unseen world create horizontal time see world to ; vertical time X horizontal time= 0, so that vertical time unseen world carry seen world 1 to the vertical time of 0, this is can be explained as “ 01234567890” X”0123456789” = “01234567890”.

Therefore, actually in the macro concept world

“Vertical time is unseen world horizontal time is seen world” required to valance living in the macro concept world, so that some who runs in the vertical time living.

Vertical time living actor is righteous soul of helping creation of knowledge, hearing broadcasting from righteous soul living in destination place, of deep place in silent and clean clear.

**Vertical time living is harvest living but Horizontal  
time living is bad harvest**

All of livings start 0, but most do not safe returning to starting of beginning place all fall to 9.

Vertical time livings of harvest living are “01234567890” here is

beginning is 0 and end is 0

But Horizontal time livings of bad harvest is “0123456789” here is not same beginning is 0 but end is 9, so that there is no harvest, in the middle way cause of variable do not go to the planned ending of 0.

Horizontal time livings are “wicked soul + mind+ body” living, but Vertical time living is “righteous soul living” so that vertical time living is Righteous soul of 0, silent & clean clear living. So that what they planned place arrival, but Horizontal time livings are “wicked soul of using revenge and breaking energy using wicked soul energy accumulate, but also mind is try to getting much more than other, so that under the horizontal time all of hurrying time living try to get wide living, so then, here is other of “wicked soul +mind + body” same living so that, horizontal time livings are all useless time used for

“wicked soul + mind+ body” to “wicked soul +mind+ body” still quarrel, so that both “wicked soul + mind+ body” all to be fighting time used up, so that horizontal time living do not living of harvesting, to be harvest diligence time for young time body frame growing but in the grown livings help each other to be righteous soul living behavior “it shares time with other, help other, but also doing real love other”.

But horizontal time livings do not know how to vertical time livings “it shares time with other help other, but also doing real love other”.

Here is very important truth is

Vertical living righteous souls hear of broadcasting from righteous soul living in destination bubbles, so that

Righteous soul know “creation of knowledge”, this is huge important to runs to the vertical to the depth this is keep communication vertical time livings, this is help each other to grow with other, but Horizontal time living place a wicked soul said “unlimited competition” infer that a positioning horizontal living actor spared, this is must be a top of old knowledge getting living actor based on living, just only one of wicked soul living easy living.

Horizontal old knowledge without creation of knowledge, then all of living s are quarrel and fighting so that a strange to the vertical time livings of horizontal time living of “unlimited competition” so that someone to be losing other to be living, it never do not going with other living well, so that top of winning actor only one to be harvest, even quarrel winner it never to be safe because, soon grow other wicked soul so that only one position to be soon losing.

Horizontal time livings are all tired, they forgot help each other to be finding solutions but only one of living, that is safe living, but only one old knowledge do not communicate but also if meet then each horizontal time livings do not open, all of talking is useless others, so that all of livings are island.

Horizontal time livings are all closed personal creation of creation of knowledge, so that even meeting others but still all closed real creation of knowledge, truly their saying is other to be hint to solve others problems solving but never saying truth of creation of knowledge living in the horizontal time, so that all of livings of horizontal livings depend on old knowledge, just useless cheap information only depend on living.

There for horizontal time livings

Mind level livings “getting much more than others” living they do not know creation of knowledge, so that all depend on others saying who are not solution of living, but mind level livings do not center of living, vertical living, so that all hear of current useless cheap information using, so they are all pretend to know, even do not know, so that all talking deceit each other, because even all of horizontal livings based on old knowledge “unlimited competition” so that do not living like vertical time living of “it shares time with other, help other, but also doing real love other” so that righteous soul livings are all hearting broadcasting from righteous soul living in destination place, so that vertical time livings are all creation of knowledge living. So that each other’s creation of knowledge all to be line but horizontal livings all do not help each other all of livings creation of knowledge is not connect to a line so that

Vertical time livings creation of knowledge is 

Horizontal living s creation of knowledge is 

Truly infer that

Vertical time livings are all connected, so that all of livings are combined one, so that all of problems to be solved but Horizontal living island living so that do not help other, but only using old knowledge because even do not know but truly all of livings getting creation of knowledge as the horizontal livings are all filling in the inside world so that there is no bubble of creation of knowledge do not know, but by accident come out in the meeting, but horizontal livings do not open so that, the horizontal livings are all do not know creation of knowledge, so that horizontal living harvest is impossible.

But vertical time living of creation of knowledge, all of righteous souls are bubble of creation of knowledge is usual but all of creation of knowledge righteous soul each other “it shares time with other, help other, but also doing real love other” so that all of creation of knowledge is connect all of righteous soul, so that righteous soul vertical runs also all same creation of knowledge so that all of righteous soul same line runs to the righteous soul living in destination place.

This is all of living of righteous soul all of problems solve with other, so that all of livings, “01234567890” living, so that righteous souls beginning voyage to macro concept world to all safe returning to the end of place is 0, so that this 0 is same as the end 0 beginning zero, so that this is complete macro concept world voyage.

Then creator feel that this is harvest, vertical time livings are harvest, complete macro concept world livings. This is “01234567890” only vertical time living righteous soul living privilege.

Vertical time living righteous soul living is

Creation of knowledge all connected one line

Harvest; macro concept world voyage complete

“01234567890” all creation of knowledge connects to solve all problems

This is must be “time and life time” try to saying.

Only vertical time living is “harvest” say again “01234567890”
