Macro concept world righteous soul's living in excitement

Macro concept world

Micro concept world

Righteous soul voyage orbit

Until now my book is focus for 01234567890, first 0, and final 0, but in this book is macro concept world living joy and excitement, so that macro concept world excitement living “123456789” this is really important because righteous soul in the righteous soul living in destination place dream with body to living in the macro concept world.

Macro concept world is so beautiful scenery with seasonal changing of flowers, so in the micro concept world, safe returned righteous soul saying that, oh, macro concept world natural and flowers were really joy and pleasure and excitement, in the beginning safe returning righteous soul advised to me you must pleasure seeing feeling and taste beautiful seen features.

Safe returning righteous soul strong saying is seasonal changing flowers are typically joy and pleasure of excitement living.

But safe returning did not say on the wicked soul's revenge and breaking.

Space

Righteous soul

Flower

At now how to book writing is boundless but truly will be runs, righteous soul with body living on the macro concept world, seeing feeling taste in the time and space, this is keyword to do book writing.

I really depend on righteous soul's creation of knowledge.

At now beginning this book.

So that this book will help righteous souls' macro concept world living in excitement. Truly righteous souls living on the righteous soul voyage orbit. So then first drawing to be this book space to this is must be inferring of book writing.

Oh! New book challenge to be beginning now, at once go to the end of this book

Righteous soul living in destination place helping creation of knowledge.

Macro concept world living travel 123456789

“123456789” living of macro concept world, then same with wicked soul, mind livings is same space and time, but truly micro concept world time is vertical time, and wicked soul and mind time is horizontal time, even though difference micro concept world time, but macro concept world time is same.

So that righteous soul living “123456789” is same with wicked soul, mind, how to live excitement, righteous soul in the micro concept world, dreamed macro concept world “righteous soul + body” then see beautiful follower, and feel flowers but also taste it, truly righteous soul living is travel from to micro concept world to macro concept world, so that infer that lost this beautiful natural scenery and mother and children of “mother love”, macro concept world seeing real seeing it comes true what righteous soul dreamed.

Macro concept world living is mixed living “wicked soul, righteous soul, mind” so that learn variable livings, righteous see even, macro concept world living all is same, but micro concept world righteous soul see “wicked soul” “mind” “righteous soul” so then, righteous soul see wicked soul and mind as living human animal living, but righteous soul living is human righteous soul living. But also, some of mind level living are human living, so that righteous soul living, can see variable livings, from animal human being and righteous soul livings.

Macro concept world human animal and even human’s problems and a righteous soul’ solving problems, so then righteous soul see a righteous soul’s sacrifice of living, so that righteous soul really pleasure of righteous soul living behavior “it shares time with other, help other, but also doing real love other”.

Righteous soul sees a righteous soul then, the feeling is huge excitement, but also righteous soul me, righteous souls’ difference from human animal and human’s righteous souls are really deep pleasure of excitement.

But if see animal living and human livings wrong doer of variable news, then this macro concept world living is fear and why human animal and humans do error of mistake so that, at now travel of righteous soul feeling to them, this really important living seeing pleasure but why they living like that, righteous souls are know that because righteous souls living in the macro concept world traveling micro concept world to macro and macro traveling to micro, so that, righteous soul living only orbit of righteous soul living in destination place, so that righteous souls behavior is “it shares time with other, help other, but also doing real love other”, so that there is no problems.

As the travel macro concept world righteous soul see, human animals “getting much more than others” and “only human animal living easy” so that both and among fight, stealth and wicked behavior and revenge and breaking but also deceit other.

This animal and human living is seen to the righteous souls, but also it can see beautiful flowers and green plants so that righteous souls are living in pleasure in the macro concept world.

Truly infer that righteous soul also “123456789” living is same as human animal and human being but also righteous soul living, in the macro concept world living all same, macro concept world livings same wear of clothes but also cosmic face so that all of macro concept world living is same, but much more than righteous soul, all of human animal living is beautiful living, human being living also expensive clothes wear.

But truly righteous soul living is “poor and righteous soul” so that righteous soul living is wear of clothes is not better.

All of human animal and human being try to show expensive and rich to be shown from others all of premium product buy and carry or wear, truly infer of wicked soul of human being or human to be seen it, mind level living animal and human also try to do.

But strangely human animal and human beings living is simply eating and sleeping and these behaviors of real animal living, all of macro concept world broadcasting all relative human animal living, but also, all advertisement focus for human animal, eating drinking and sleeping, all of this is loudly saying to the human animals.

At now living traveling righteous soul see all of macro concept world animal and human livings.

Macro concept world wicked souls' marriage and fail marriage living

On the righteous soul orbit, I can see macro concept world wicked soul of human animals' marriage living, so then both animal livings are mostly failed marriage living is seen.

When righteous soul me living in the micro concept world righteous soul living in destination place what I dreamed to "righteous soul + body= righteous soul living", doing real love meeting wicked soul of lover, then do real love wicked soul and create righteous soul, this mission really dreamed.

But now here macro concept world marriage living is mostly not going well, then how poor it is, righteous soul livings in the macro concept world, micro concept world to macro voyage, but in the macro concept world righteous soul living is travel, so that righteous soul of micro concept world time of "01234567890" this is macro concept world travel.

So then "123456789" same living with human animal, human, but also righteous soul livings, so that righteous soul me living same as human animal and human of wicked soul and mind living.

Macro concept world marriage living is not complete but failed, so that righteous soul me so miss, how to help macro concept world living complete.

because micro concept world righteous soul macro concept world is mission " righteous soul meet lover of wicked soul, doing real love, in the end create lover of righteous soul" righteous soul mission is so hard, it must be infer that macro concept world marriage living, this is urgent living so that righteous soul is master, center for it, so that righteous soul overcome of wicked soul "revenge and breaking energy using" but macro concept world "animal to animal marriage" is each animal do not endure from other of revenge and breaking energy, so that macro concept world living marriage living final of end of marriage living.

Why? – wicked soul + wicked soul, or + wicked soul – wicked soul, marriage do not complete, so that do not living +, - living, this is really excitement living, because – yin living is soft, but + yang is power, so that both yin and yang meet even, wicked souls of animal meet and marriage.

Here is I CHING trigram

This is I CHING trigram of Energy, sun, summer, south is upper trigram.

Here is

Here is I CHING trigram express, Yin is in the center position at, but yang two is position at out of yin, then why this trigram to be energy, sun, express.

Infer that

Center yin (- energy) out of position two is Yang (+ energy)

Here is to be trigram to be strong energy them yin in position at center and influence to the yang(+) so that yang do not flee from it, so that strong hold two yang, so that here is infer of yin to be safe because two yang, but also two yang to be fee soft feeling so that yang is not complain, but also help secure living yin, so that yin “ warm and soft two yang(+), so then, here is warm and soft of feeling good energy is kept both yang, so that yin and yang both feeling excitement, this energy is sun of energy, because yin and yang create warm and hot energy in this trigram.

So long, here is – wicked soul + wicked soul, or + wicked soul – wicked soul both marriage then, infer of it, strangely center position of yin(-)= - wicked soul, to be do not station at, because of + wicked soul’s yang do not role to secure of yin(-) so that, yin of – wicked soul do not safe center position so that, trigram of sun, energy is not appear up, so then changed in to water of trigram.

This trigram is water, cold, north, winter, so that if center yin(-) from in to out position then, Yang(+) in position then, center yang energy and strong, so that divide both yin(-) so that , this is cold, there is no energy, infer that so

that marriage living energy all defunct, between there is no dong real love.

Here is righteous soul living in destination place is natural law so then, righteous soul living try to do “real love lover” so that, infer that

This is righteous soul doing real love of trigram express.

So that righteous soul – righteous soul of (yin-) accept it, to live in center living with excitement living, so then, here is come up of “energy, summer, sun, south” of expression.

So that righteous soul yin excitement with accept of center position, but wicked soul refuse to – wicked soul (yin-) center position cause of wicked soul livings are “ living easy living wicked soul me” so that anger of wicked soul yin do not accept, because wicked soul yang also do position at the center, then trigram is changed from energy to cold, so that this is not in natural living, so that both wicked soul +,-, in the end there is no energy so that cool and cold between lovers of this is really end of marriage.

“Macro concept world wicked souls’ marriage and fail marriage living”, at now here is macro concept world, marriage living is dangerous because of wicked soul +- A do not know righteous soul living.

Righteous soul living of center of yin (-) accept in excitement, because - righteous soul of yin, do real love wicked soul of lover, so then, here trigram is really natural but also, righteous soul yin, do real love safe by yang, righteous soul real living marriage living is yin position is center.

Center yin is accepting it or not, macro concept world living marriage safe living fail or complete.

Here is based on outer of yang’s keep real yang living, truly here trigram yang is doing real love yin of center, but also inter position of yin also doing real love yang then, here is come of “energy, hot, summer, south” characteristics are appeared up, this is real righteous soul living marriage.

At now macro concept world why reluctant to position at center by yin is wicked soul’s “wicked soul living only easy living” then – wicked soul + wicked soul, + wicked soul – wicked soul, so then

Center position yin, they are doing now want to be position at center.

But also, outer yang of wicked soul, do not love inter locate wicked soul of lover, but do love other, so then, here is wicked souls’ marriage both wicked soul revenge each other, but also break each other so that wedding living broken.

These fail wicked soul living marriage is infer that it never saved from righteous soul living doing real love wicked soul to save to the righteous soul living in destination place.

How piety to the wicked soul's marriage living, micro concept world righteous soul mission is so urgent, this is righteous soul of lover can go back to the righteous soul living in destination place or not, so that righteous soul center of righteous soul yin (-) accept excitement.

Then righteous soul mission " righteous soul meet lover of wicked soul, doing real love wicked soul and create righteous soul, safe retuning both righteous soul to the righteous soul living in destination place, in the righteous soul living in destination place create new righteous soul, this is glorious righteous soul living doing real love in the macro concept world.

I am tired with book writing

Even I'm so tired with book writing but I have no other ways.

Book writing is doing creation of knowledge making. I want to be free all of righteous soul book writing regulation, until 20 books publish that, a book publishing company try to govern me, so that I'm a huge stress, book and me truly this chapter of book is self-expression.

True free book writing is a kind of relaxing but even though anything gets just like a royalty but also, I'm not to be known to world, this is still same, but lost my book writing excitement.

Strange I must be interrupt from a book publisher, so then a book publisher influences me, it is strange to me, will I to be only to the book publisher know me.

This is really important, this section seek on the macro concept world, righteous soul living travel, this self-expression include, but as there is not, but I will full free time.

Book writer

As I'm complaining to me, until now, I'm not a commercial and known book writer, truly infer that no one read my book, truly I'm a lonesome living, to book write as that I'm keep a rule, limit meet some of livings, so that this living is really fell lonesome.

Why I have to keep a regulation, truly I do not know why?

Truly book writing creating stress matters, until now my wife anger to me, useless money use, wife saying useless book writing, can you do stop it, usually my wife is damaged cause of book making, to publish it need to money because I'm a none popular book writer.

I say sometimes to my wife "who knows me interview in TV on my book writing", truly infer that there is no any symptom to me, but truly that is dream, only.

When Insa-Dong Seoul city, then sure I visit painter art gallery, there is feel pleasure seeing real righteous soul's painting, who will see my published book, so then who feel righteous soul living book writer' book writing.

Until now book writing is feeling in excitement because free book, this is pleasure of leisure of it, my time is used but seek in pleasure just a little some to be changed in to better feeling. If book will give real pleasure then I will write book endless.

Until then, 20 books publishing, for about to 8 years book writing. Infer that even all provoke my poor living, so

that inside this book writing is keep my authority. Even I complained that why do I book writing but this book writing is time killing pleasure to me.

My righteous soul living in destination place, righteous soul creator gave me book writing talent, so then a book publisher praise of complement then, "you are a talent book writer", but I did not know.

Book writer is special talent is it right.

At now book writing is

Silent and clean clear

At now, no one push me, but book writing, free and comfortable sitting chair then computing now, this is really free to me.

Silent and clean clear

At now anything occurs of creation but feeling some little pleasure.

Infer that a book writer feels like, silent and clean clear, at now I feel it.

Infer that this book occupied all pages like that, just like water flow from high to the low, any added energy, just only water flow + kinetic energy = water itself flow down, the same as my book writing also do.

Here time is pm 2:00, at now here is best time free and free book writing.

Will I to be monologue just only single saying, if this book writing someone can hear?

My book contests sharing with a friend of mine who is righteous soul, every morning meet and patrol building, then about to one hour, talking righteous soul's creation of knowledge, then he said to me, "thank you", infer of truth my righteous soul really like your talking me, every day so that, my living is getting better, getting new living.

This is now, heavenly father and creature of knowledge from righteous soul living in destination place accept only my audience is him only whose name is junyoung lee, I want to write here, for long time in this book then he will be long do not end time living.

Strangely righteous soul my creator helps me talking other, on book writings.

This is gift

This is recognition from my righteous soul creator.

It should be this is really pleasure and excitement.

Time is flow

Space is changed

Righteous soul runs to the righteous soul living in destination place

Flower try to show me in the orbit which is lead to the righteous soul living in destination place.

Infer that living righteous soul me time and space and me and flower, then me by the flower garden.

This is righteous soul me running macro concept world 123456789, same living with wicked soul and mind level livings.

So then, now book writing is also to be feel shame because righteous soul living only book writing, so that do not know book writings, so then I'm so sensitive, not to make other recognition of me a book writer, so that until now myself, still I do not feel in righteous soul of book writer.

Book writer is helping book to the living in righteous soul correct righteous ways make know it, so called similar to the righteous soul living in destination place running orbit.

Righteous soul saw that wicked soul increasing if do not stop increasing wicked soul then war broken then other side power all make disappear wicked soul

In the peace time fall into idleness

In the peace time also wicked soul livings strong increasing

In the war time, wicked soul living to be disappeared

In the war time, righteous soul livings survive of experiment of miracle.

While reading “周易禪解” I CHING Buddha way explained book. Then comes to me this saying.

If translate in English

In the peace time fall into idleness

In the peace time also wicked soul livings strong increasing

In the war time, wicked soul living to be disappeared

In the war time, righteous soul livings survive of experiment of miracle.

What is living?

Micro concept world righteous soul answer is

“runs to the righteous soul living in destination place on the orbit”

“at first survive from righteous soul ore of stone to righteous soul, and do righteous soul mission clear”

“safe returning to the righteous soul living in destination place with lover of righteous soul”

Even righteous soul living in the macro concept world so hard and micro detail but condensed answer is this.

This is righteous soul real living but mind and wicked soul is not real living, the living must be devoid living, so that only I know what is the living question is this.

Righteous soul travel to see war, then both wicked soul living countries start war, this is wicked soul strong energy of each wicked soul increased, but also there is no righteous soul living, so that break a war, so that strangely if a accidentally righteous soul living then, righteous soul just see, war, all of wicked souls are all cleaned, so that wicked soul living in destination place loudly and dirty place, after war, then all is clear, in the time and space, only righteous soul livings are living.

Strange as righteous soul me, watch the place, human animal and human of wicked soul and mind level livings all cleared, but righteous soul livings are survive, if human being survive is the human being to be loved righteous soul's doing real love, so that righteous soul living in destination place save now human being.

Righteous soul travel in the macro concept world, wicked soul of human animals is all disappeared.

Macro concept world after war

All of over and mind level livings and wicked soul living only easy living space all to be also disappeared. So that

Righteous soul, feel just pleased and excitement on that, open sky and open eye sight, righteous soul hear broadcasting from righteous soul living in destination place.

How to live

How to do

All hear of creation of knowledge.

Righteous soul living is "poor and righteous soul" so that at now after war, also there is no any problems to live on, just newly grow righteous soul living in destination place, all of righteous soul do living "it shares time with other, help other but also doing real love other".

Righteous soul me see this beautiful scenery

After war, in the place righteous soul living feeling real excitement, all of righteous soul shares bubble of creation of knowledge so that all come together communicate how to do, so then righteous soul living in destination place give creation of knowledge so all connect to one.

Automatically all of righteous soul livings creation of knowledge and dong "it shares time with other, help other, but also dong real love other", this is really did in the righteous soul living in destination place, at now see as the righteous soul body, so that this is really pleasure of excitement in macro concept world.

Macro concept world livings

Righteous soul traveling to the macro concept world, in the righteous soul livings orbit, righteous soul sees macro concept world livings.

+ righteous soul – righteous soul, + wicked soul – wicked soul, + mind – mind, and righteous soul ore of stone “righteous soul + wicked soul + mind + body” of stones. These are seen to the righteous souls as human animal, human being and righteous soul.

In this macro concept world living s characteristics are

+ righteous soul, - righteous soul livings are “running to the righteous soul living in destination place” these livings best priority is safe returning to macro concept world start point safe returning and meet righteous soul creator.

+ wicked soul, - wicked soul livings are only wicked soul easy living, in the macro concept world, but also why me is wicked soul wicked soul making all of target to be “revenge and breaking” so that in the macro concept world righteous soul, mind all revenge and breaking, but deceit mind to stealth mind asset to live easy living in the macro concept world

+mind,- mind truly there is no +- but mind is from macro concept world, so then mind is strong connect to body, so that righteous soul point view is very envious, because righteous soul try to meet, and righteous soul body to be travel macro concept world, so that, righteous soul see to the mind $1/\infty$, if mind to be $1/\infty$, righteous soul meet body, this is really critical important moment.

Just 1/million second of mind to be being $1/\infty$, then righteous soul gets a body, this is righteous souls macro concept world hard living, truly infer that as mind to be $1/\infty$, wicked soul also to be $1/\infty$, because mind with wicked soul is friend and mind to righteous soul is enemy so that if righteous soul win in the structure of “righteous soul + wicked soul + mind+ body” then, righteous soul living master of righteous with body, so that as the winner of righteous soul run to the righteous soul living in destination, for that righteous soul keep a rule of micro concept world righteous soul living in destination place.

Righteous soul hear broadcasting from righteous soul living in destination place, so that righteous soul living doing, the first thing is “01234567890” then to reach at final “0”, to this righteous soul must do macro concept world mission “ righteous soul meet lover of wicked soul and do create lover of righteous soul and both righteous soul runs to the final 0”, this is really important, why micro concept world righteous soul do mission carry is here is + righteous soul – righteous soul, - righteous soul +righteous soul being and safe returning is string of training of doing real love to the wicked soul lover, second purpose is what is here righteous soul wicked soul create righteous soul with helping righteous soul living n destination place, but so important truth is safe returned to righteous soul living in destination place, living this living is basically “ it shares time with other, help other, but also doing real love other” and “ righteous soul create new righteous soul to be voyage to the macro concept world” so that macro concept world righteous soul living is not simple but completely hard living.

Truth at now before defined righteous soul is from my book 20 books, so that all of my books based on what I write a book creation of knowledge which is from righteous soul living in destination place, this is goes with hearing broadcasting with creation of knowledge but also in the righteous soul living silent clean clear time comes creation of knowledge, so called bubble of creation of knowledge.

Wicked souls are shown to human animal and human being living whose from wicked soul living in destination place, which is macro concept world voyage in complete livings fall to wicked soul living in destination place, whose are “0123456789” do not final “0”, infer that they do not live righteous soul, so that living in wicked soul even though do no saved from righteous soul, so that wicked soul fall to this “loudly and dirty living place” so that all of wicked soul are anger of revenge and breaking, wicked souls are all do not know why they drop to wicked soul living in destination place, because they are living in the macro concept world, they do not know living of righteous souls living.

Righteous souls living is

Righteous soul ore or stone to be righteous soul so hard living

Righteous soul living voyage of 01234567890”

“righteous soul + wicked soul + mind + body” +0123456789 : **hammering**

= Righteous soul flowers with mixed with wicked soul flowers and mind + body

firing

Righteous soul liquid 01234567890; righteous soul & nothing begin, mission start

Righteous soul: righteous soul mission clear,

This from “if you do real love lover, you must do live righteous soul” seong ju choi,

This book writer’s book.

So then, wicked soul all anger of wicked soul living in destination, all from other’s make me, so that wicked souls are do not living’s being righteous soul living of suffering, truly infer that righteous soul living in the macro concept world living is at first being survive righteous soul living of “poor and righteous soul living” truly infer that macro concept world do not show, righteous soul but living is “poor” in the righteous soul living, and keep runs that righteous soul to be reach at “righteous soul & nothing”, in the end this “righteous soul and nothing” try to save wicked soul to righteous soul, so that righteous soul meet lover of wicked soul, and do real love in the end create wicked soul to righteous soul, this is huge difficult work, but wicked souls do not anything in the macro concept world, so that wicked soul falls to the wicked soul living in destination place, even they all anger of why am I here loudly and dirty place living of micro concept world, so that wicked soul living in destination place all of wicked souls “revenge and breaking”, so that in the macro concept world wicked souls still do “revenge and

breaking” in the macro concept world, so then to the righteous soul travelers of “123456789”, then righteous souls are some of fear but piety to them, but also righteous soul do see, who will see mission target, so that + righteous soul see – wicked soul, - righteous soul see + wicked soul, so that righteous soul mission carry, here is righteous soul voyage on the orbit to the righteous soul, righteous soul see and meet lover of wicked soul, then righteous soul do real love of wicked soul of lover.

Infer that righteous soul living is only tools is “doing real love” but wicked soul living is ”revenge and breaking” so that righteous soul “doing real love” + wicked soul “revenge and breaking” who will win, if righteous soul lose in the game then, finally righteous soul lose form righteous soul orbit, so that righteous soul to win to righteous soul meet a wicked soul of lover to create, then righteous soul condition is not “poor and righteous soul” but “righteous soul & nothing”, here is “righteous soul & nothing” absolutely win wicked soul of lover, to create righteous soul.

So then righteous soul living is being righteous and growing string righteous soul by “it shares time with other, help other, but also doing real love other”, getting righteous soul living energy, so that in the end all energy used up lover of wicked soul creating righteous soul, this is righteous soul living in the macro concept world, but wicked soul living anything do like righteous soul, so that automatically living in wicked soul living in destination place.

“+ righteous soul – righteous soul, + wicked soul – wicked soul, + mind – mind, and righteous soul ore of stone “righteous soul + wicked soul + mind + body” of stones.”

Here is micro concept world righteous soul see in the macro concept world traveling then, truly infer,

Righteous soul is God, wicked soul is mist be infer human animal, human, but also mind living is also human animal and human, so that righteous soul living travel is as the macro concept world of God, so that, righteous soul micro concept world, see and know who will be really to be righteous soul, this is real critically important because righteous soul voyage macro concept world complete or not is decision, so that + righteous soul and – righteous soul see who will be possible to be create righteous soul, so that all of wicked souls to be living as they best to righteous soul living, righteous soul is hard to be find lover of wicked soul, so that righteous soul “123456789” is travel of find real wicked soul of lover.

Infer of righteous soul “123456789” traveling also really hard, because still, living micro concept world voyage mission clear is, but righteous soul living traveling also same as other living on the macro concept world, so that righteous soul “123456789” is same as other wicked soul and mind level livings.

But righteous soul keeps hear of broadcasting from righteous soul living in destination place but also bubble of creation of knowledge living time is vertical time living do not consuming time energy to go deep runs, there is righteous soul living in destination place.

Righteous souls traveling is basis of on the orbit to the righteous soul living in destination place, the time is vertical time.

Macro concept living actors do not know
macro concept world + micro concept world =100

righteous soul travel “123456789” this travel is to help ignorance macro concept world mind livings.

Macro concept world livings are righteous soul living, wicked soul living, and mind level livings.

So then, righteous soul livings living on creation of knowledge, but wicked soul living are depend on old knowledge, but truly infer mind level livings do not know living in the macro concept world of “wicked soul livings and righteous soul livings, so that in the point of micro concept world, so that macro concept world living only recognition is 100 = macro concept world, so then truly infer that this macro concept world =100, is micro concept world point of view then,

Righteous soul living creation of knowledge = macro concept world 50 + micro concept world = 100, so then, even macro concept world mind level living is macro concept world =100, but this is ignorance of macro concept world so that

Macro concept world livings doing something then, macro concept world livings

Macro concept world =100, so that ignorance of micro concept world does not know.

But micro concept world also, wicked soul living, and righteous soul living is not same, so that

Righteous soul of creation of knowledge recognition is = macro concept world + micro concept world =100,

Automatically macro concept world =50, micro concept world =50.

So then, macro concept world word mind recognition is 100 is truly infer that only 50, so that macro concept world to be macro concept world= macro concept world 50 + (micro concept world absolute 50=0) = only 50.

Macro concept world understand 100 is only 50, then if 60 is survive but here is macro concept world is only 50 then this is do not survive, so then, infer of macro concept world livings project are do not consider of micro concept world, so that compete possible is not high.

Macro concept world only know seen world, but also do not believe that unseen world, then truly, only “123456789” this is macro concept world, so then macro concept world of ignorance if mind to meet wicked soul then,

Mind meet micro concept world wicked soul then,

Macro concept world mind 50 +absolute [-50] = macro concept world energy 50 + wicked soul living energy [-50] = absolute [100], here is

“Mind 50” is from, mind livings “getting much more than others” save a time and time all used from “getting much more than other”, so that early wake up and do world to mid night, so that mind livings do living diligently living, so that mind get asst cause of only mind, so called this is only macro concept world=100.

But mind meet wicked soul

Macro concept world =50 + micro concept world [-50] = absolute [100], this is ignorance mind meet micro concept world wicked soul living energy “revenge and breaking energy”, this energy used mind’s getting much more than others, so that wicked soul energy offends to other, so that,

Truly infer that only mind living of macro concept world then, mind do not want to be breaking from wicked soul, but it, so that mind getting strong getting, so that mind living strangely easy getting, here is easy getting is not mind level livings, but strangely changed into

After meeting mind of macro concept world meets micro concept world wicked soul, so that

Macro concept world mind 50 + micro concept world wicked soul [-50] revenge and breaking other = easy getting, so that mind living “getting much more than other” is easily getting.

Mind meets wicked souls so then

Ignorance mind livings easy getting, before mind does living diligence but mind + wicked soul, getting easily getting so then, mind living behavior decreased but increased wicked soul, so then, in the end

Wicked soul is major mind to be minor

Wicked soul revenge and breaking + mind getting much more than other, so then wicked soul revenge and breaking mind living, this is a macro concept world structure was beginning.

Truly mind + body= mind body, so that mind living is “getting much more than other” only, but as mind going, then, mind to be ∞ , huge mind so that, mind meet dangerous wicked soul, so that, mind ∞ , this is losing normal mins but over getting mind so that, here is added to wicked soul revenge and breaking so that “mind + body” structures changed in to “mind + wicked soul + body”, as mind ∞ , wicked soul ∞ , so then mind to be disappeared to wicked soul strong so that= wicked soul appeared up, this is also = wicked soul + body.

At last wicked body is appeared up, so that this is wicked soul livings.

Righteous soul travel then see mind to wicked soul, so then righteous soul is so hard with as mind ∞ , then righteous soul to be disappeared, so righteous soul to be being $1/\infty$, this is really righteous soul to be being disappeared risky.

Here is this is all one of macro concept world living “mind + body” to “mind + wicked soul + body” and finally being “wicked soul + body” = wicked soul livings.

Righteous soul to be worry it,

But here is infer of righteous soul meting

If a living macro concept world mind + micro concept world Righteous soul = 100,

Here is

Macro concept world + micro concept world = 100,

So then

“Mind 50” + righteous soul [+50] = 100.

“Mind 50”; getting much money + righteous soul +50; it shares time with other help other.

“mind 50 + righteous soul; creation of knowledge [+50] = 100, then

Creation of knowledge + ignorance of mind = Creation of knowledge of mind,

So then infer of truth

Mind creation of knowledge= Mind to be decreased so that mind decreased to $1/\infty$

Then infer that mind to be $1/\infty$,

This is great changed into

As mind $1/\infty$, so that mind [50] energy used for righteous soul living behavior

“it shares time with other, help other, but also doing real love other” so that mind getting much more than other to be changed in to righteous soul.

= here is Righteous soul appeared.

In the macro concept world

= macro concept world mind 50 + micro concept world righteous soul 50 = 100 of righteous soul.

Here is righteous soul travel in the macro concept world

If in a project then righteous soul is working then, the project in the end to be righteous soul 100, so that this is infer of righteous soul living fruit, this is helping righteous soul creation of knowledge.

This is vertical time living, because righteous soul of creation of knowledge helping ignorance of mind to be living righteous soul living of “it shares time with other, help other, but also doing real love other”

Righteous soul travel in the macro concept world, then

This formula the project fruit righteous soul 100 = macro concept world mind 50 + micro concept world righteous soul 50 = righteous soul living energy of 100, this is complete of righteous soul living in the macro concept world.

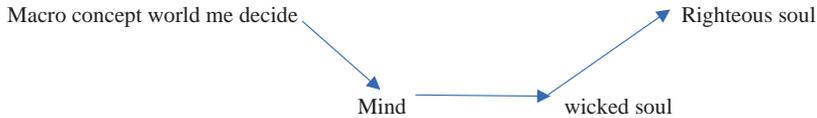

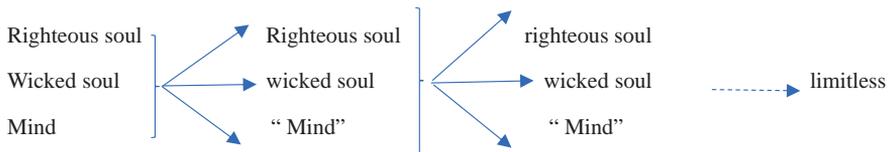

Truly

To be complete of project = micro concept world 50 + macro concept world 50= 100.

Macro concept world livings decide to go

This topic I hear broadcasting from righteous soul and creature of knowledge.

Macro concept world livings structures is “righteous soul + wicked soul + mind +body”, so then as breath then decide to go,

Macro concept world living is righteous soul ore of righteous soul stone, before being pure righteous soul, so that macro concept world livings decision to go, this is breath and decision, all of decision,

Here is if righteous soul to be pure of righteous soul then, it means that all of

Righteous soul to be hammer and heating of hard living so then from righteous soul ore of stone to be righteous soul living in the macro concept world then

Macro concept world living decision of breath then, macro concept world living structures “righteous soul + wicked soul + Mind” so then if righteous soul decision then “it shares time with other, help other, but also doing real love other” but if decision is wicked soul living decision then” revenge and breaking energy” so that make hard all of macro concept world livings, but also if decision of mind “ getting much more than other” the living time all used up for getting, truly macro concept world living are this is not to be sin but, this is to live mind living

is accepted normal livings.

Righteous soul travels in the macro concept world

So that very fear of it is, even wicked soul, but mind living is also fear, because mind livings are living is “mind + body” so that truly infer that “mind +body” is natural so that, mostly macro concept world mind +body is mind is in the body is strong master living, so that “mind used body limitless to get much more than other” so that righteous soul hard to meet body, righteous soul dreamed that meet body then see macro concept world beautiful flowers and nature of world, but still master of body is mind, so that righteous soul fear of mind.

But body of righteous soul me cosmos, so then, by accident choose and decide righteous soul decide, this is while mind is $1/\infty$, it is time of $1/\infty$, then righteous soul to be activation of righteous soul is being master, so that righteous soul +body, righteous soul living in the body of shelter.

Righteous soul travel and decide how to see, which see, righteous soul at last reach at “righteous soul + body” this is righteous soul dreamed to feel and taste and possible righteous soul me is come true.

Righteous soul so that righteous soul

Righteous soul macro concept world is “123456789”, so that righteous soul see flowers and all od beautiful scenery, so then righteous soul see and meet “lover of wicked soul”, but righteous soul at first see lover of wicked soul, righteous soul keep watching lover of wicked soul who is possible righteous soul living, but also righteous soul helping from righteous soul living in destination place creation of knowledge, righteous mission clear possible wicked soul of lover finding, this is really to the righteous soul urgent, so that righteous soul traveling is ultimate who will meet and how to create lover of wicked soul.

Even macro concept world righteous soul so busy but, righteous soul living is feeling excitement and so that righteous soul see and feeling excitement also travel in the “123456789”, truly in this time, righteous soul living with “it shares time with other, help other, but also doing real love other” here is other is “righteous soul” “wicked soul” “mind”, truly infer that, here real world me feel that, who is righteous soul, other is wicked soul, but also other is mind level living.

Infer of macro concept world, truly infer that “righteous soul” “wicked soul” “mind” is livings are as “human animal” “human” and “righteous soul” these livings are living in the infer of macro concept world living.

While righteous traveling macro concept world, then

Other righteous soul “ righteous soul shares with me, help me, and doing real love me” right, if I meet righteous soul then, righteous soul me keep growing, but if I met a wicked soul then, righteous soul me huge damage this is righteous soul to be disappeared or not urgent time making, but also if righteous soul meet mind then, the mind of livings are there is no any helping me but also do not make learning but mind is all time “getting much more than other”, righteous soul feel that this is only understand mind livings.

Righteous soul travel in the time and space “123456789”, this is seeing and realize and feeling and all of macro

concept world living so then,

Righteous soul me see variable feature and livings, righteous soul travel to macro concept world is must be macro concept world excitement time, but righteous soul living is on the orbit to runs to the righteous soul living in destination place.

Righteous soul living in the macro concept world is front line micro concept world to macro concept world, this is really righteous soul only feel, so that living righteous soul is really valuable, because righteous soul living is "GOD" living in the macro concept world, but wicked soul and mind level livings are human animal, but also human but righteous soul living is righteous soul truly, but to the human animal and human see righteous soul living to be as "God", here is not use "god" but still use "righteous soul", so that righteous soul bring creation of knowledge to the human animal and humans, to live righteous soul living.

Wicked soul "revenge and breaking" living, then righteous soul chose lover of wicked soul, then do real love and in the end create righteous soul, this is righteous soul doing real love, of course this is helping learning creation of knowledge, so that save wicked soul to righteous soul, then, wicked soul feel righteous soul to be "god", so that righteous soul living in the macro concept world travel is just like camera to see micro concept world righteous soul see righteous soul living of macro concept world.

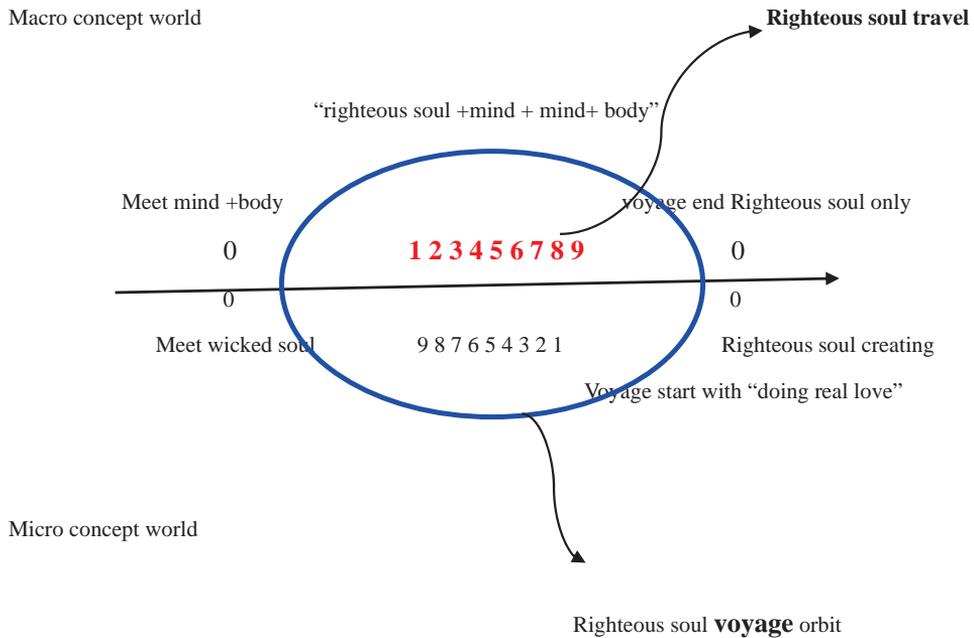

But also righteous soul help "mind livings" how to live, who am I, truly infer that mind level livings do not know mind livings, because mind living from macro concept world, so that mind level livings do not know micro concept world, truly infer that a reader will know that reading this book, so that micro concept world is really important, so righteous meet mind level livings, at first " mind truly there is also micro concept world.

If you living righteous soul living, then after macro concept world you will go micro concept world, then help to the mind, do live righteous soul living, then you will be knows that your time only living "getting much more than other", but if you time also use "it shares time with other and help other, but also doing real love other" then, you will be living in the way of righteous soul living.

So then righteous soul living traveling on the macro concept world is sometimes teach the other times help but also doing real love, but also feel and taste of beautiful nature.

But righteous soul living on the orbit living.

Righteous soul voyage of 0, righteous soul travel to “123456789”

Macro concept world to micro concept world to macro concept world voyage is

So then is beginning is righteous soul living in destination place, here is righteous soul created, why here is righteous soul complete macro concept world, but also righteous macro concept voyage mission clear, then safe returning to righteous soul living in destination place, origin righteous soul +, then created righteous soul to be-, against to the origin – righteous soul, create + righteous soul in the macro concept world, so that, righteous soul voyage to be safe returning to the righteous soul living in destination place; righteous soul living in destination place righteous souls are all +- righteous souls, whose are in the righteous soul living in destination place create origin righteous soul to be run to macro concept world, this is “01234567890; micro concept world moving to meet wicked soul, wicked soul meeting is micro concept world final 0, this 0 to be righteous soul and wicked soul of soul end of micro concept world “0”, then coincident macro concept world meet “ righteous soul ,wicked soul + mind +body” this is beginning macro concept world travel “123456789”, so that truly infer that macro concept world travel is “123456789”, righteous soul ore, of stone living in the “123456789”, this is righteous soul to be

hammer and heating so that righteous soul activated in the macro concept world “123456789”.

While righteous soul ore, stone traveling “123456789”, righteous soul living “poor and righteous soul” this poor and righteous soul living hard living, hammers of breaking other wicked soul and mind, then coincidentally, righteous soul also to be hammers so that righteous soul also broken, and then broken righteous soul to be heating do that righteous soul liquid, to this “the poor and righteous soul” so then after righteous soul to be righteous soul then, righteous soul is not ore, but true righteous soul, so that righteous soul to be being “righteous soul & nothing”.

Still righteous soul, of “righteous soul & nothing” traveling “123456789”, so then in this time righteous soul traveling then, pure righteous soul, then infer that a righteous soul must be structure is “righteous soul + body”, here is body is house concept so that righteous soul living in the body, so long righteous soul has shelter in the body, so that here is seen world see body is only house of shelter so that righteous soul is living in the body.

Here is macro concept world voyage is still near to macro concept world to micro concept world so that micro concept world beginning is “0”, righteous soul & nothing traveling in the macro concept world “123456789” traveling, this traveling is trying to meet lover of wicked soul, here is original righteous soul + then – wicked soul meet, but original righteous soul is – then wicked soul + meet.

This righteous soul meeting is still living righteous soul travel, righteous soul must be inferring that with lover of wicked soul travel macro concept world, beautiful space, flower garden, so that righteous soul & nothing travel is really excitement.

Righteous soul traveling in the macro concept world;”123456789”; macro concept world living

Righteous soul voyage in the macro concept world “01234567890” micro concept world living

Here first “0” is micro concept world voyage end “0”, but final “0” is micro concept world beginning “0” so that righteous soul living “0” is most micro concept world, but in the macro concept world, beginning also “0”, macro concept world end also “0”, truly infer that righteous soul voyage “0” all micro concept world end “0” beginning “0”.

So then righteous soul voyage is relative to “0”, but righteous soul macro concept world travel is “123456789”.

Here is infer of micro concept world beginning is “0”, then micro concept world infer that until now do not know, but micro concept world righteous soul also runs to final 0 so that infer that “09876543210”, here is righteous soul created at the righteous soul living in destination place, so that, save returned righteous soul +-, create a new creation of righteous soul+, or – righteous soul, so then infer that “987654321” is wicked soul to be macro concept world voyage with righteous soul, so then in the micro concept world wicked soul living in destination place, wicked soul runs to the “987654321” to meet created righteous soul, here is infer of wicked soul living how to meet a righteous soul, wicked soul growth to wicked soul 1~~ 0, then truly wicked soul do not to be 0, here is righteous soul only living is ‘0’, so then, wicked soul 1 meet righteous soul 0, so then wicked soul and righteous soul meet of soul being soul, macro concept world beginning then, infer of it, beginning macro concept world living is traveling of “123456789”, so then righteous soul living is hammering and heating of poor and righteous soul living, so then righteous soul living to runs to the “0”, but wicked soul runs to the 9, because wicked soul don to be living of righteous soul living “it shares time with other, help other, but also doing real love other” so that wicked soul livings are only living wicked soul easy living, this wicked soul living do not runs to the “0”.

But here is righteous soul & nothing of righteous mission “righteous soul meet lover of wicked soul, doing real love lover of wicked soul, so that create wicked soul to righteous soul, this is righteous soul see during righteous soul traveling then, righteous soul see really want to live in righteous of wicked soul, righteous soul meet righteous wicked soul, so that righteous soul doing real love lover of wicked soul, in the end wicked soul to be righteous

souls, this is wicked soul only way to safe returning to the righteous soul living in destination place.

So hard to say, righteous soul living voyage is relative to "0", but righteous soul traveling is "123456789" in the macro concept world.

Righteous soul traveling is "123456789", righteous soul voyage of righteous soul on the orbit, but also righteous soul living in the macro concept world so then, righteous soul of "123456789" then see flowers and beautiful nature but also living righteous soul excitement living scenery.

But also, righteous soul sees traveling "123456789" this is righteous soul created at the righteous soul living in destination place created righteous soul dreamed to meet body feeling and taste, seeing beautiful flowers and naturals.

**Macro concept world advertisement make hard hearing
broadcasting from righteous soul living in destination place**

Macro concept world livings how to live?

Macro concept world livings are old knowledge and advertisement shallow knowledge.

Macro concept world livings making hard hand phone also disturb hearing broadcasting from righteous soul.

Macro concept world depend on professional sports, do not know broadcasting from righteous soul living in destination place.

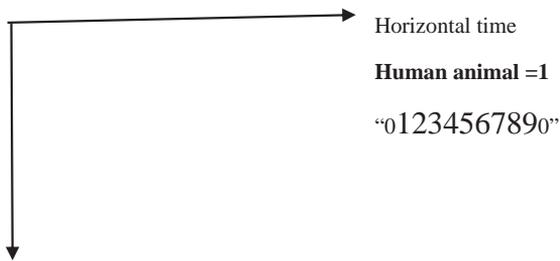

All of inner place old knowledge and advertisement useless knowledge and hand phone lower place knowledge and pro sport game result knowledge, full in inner place.

So that macro concept world livings perfectly broken micro concept world so these livings are all to mind level living s, perfect do not macro concept world and micro concept world.

Even majority macro concept world livings depend on por sport result, advertisement of premium goods, all of macro concept world excitement living is useless out of principle of micro and macro living is not connect living.

So that macro concept world livings ignorance on macro concept world and micro concept world living, these are must be ignorance so that human animal, just eat, drink, sleeping, as same as animal living, even to be living human being living also these human animal refuse, just living hunger then eat, feel boring then watching TV of advertisement revealed then see pro sports etc.

Then human animal time flow, eat and drink and sleeping also, it never do now know who am I, where to go, then if end macro concept world then how to I do, there is no any knowledge, this living is horizontal time living, so that the time living is consuming time, so that human animal time is still consuming, so that soon to be reach at there is no time, what happened?

Vertical time

Righteous soul =0

“01234567890”

Horizontal time is

Width ∞ X depth $1/\infty =1$: macro concept world

Vertical time is

Width $1/\infty$ X depth $\infty =0$: micro concept world

} but calculation of math is same area

Here is human animal see that same area so that vertical time area and horizontal time area, but to be same horizontal time area is consuming time, but vertical time is same as beginning.

But truly righteous soul does not consume any time, because do not move to horizontal time, horizontal time is consuming time but, vertical time do not move still beginning of “0”.

Horizontal time of human animal living is just mind level of “getting much more than other”, so that to get it

Runs width is ∞ , running game who can get early reach to horizontal time, so then, this game to be in the end then, the living only “123456789”.

Vertical time of righteous soul living is “it shares time with other, help other, but also doing real love other” so that do not run to the horizontal time $1/\infty$, but to the depth ∞ , but the living is same with horizontal hurry runs living.

How to know?

Human animal, just only runs width ∞ , but depth $1/\infty$

Horizontal livings are never ever do not feeling of creation of knowledge, because human animals are all living

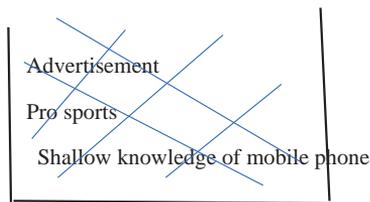

in the horizontal time.

What make disturb to run to the vertical time, that is advertisement and pro sports, and all of shallow knowledge's old knowledge etc. so useless knowledge is all filled with loudly and old knowledge so that all this closely packaged garbage is making hard to hear broadcasting from righteous soul living in destination place, so that human animals living depend on old knowledge of advertisement and pro sports movie and drama etc.

Human animal cannot living without shallow knowledges so that majority human animal depend on it, infer then in the sub train, all of passengers are watching hand phone, who see worry on that, this is truly macro concept world any law breaking, so that all of macro concept world human animals do, sit and see hand phone, it never hear of broadcasting from righteous soul living in destination place.

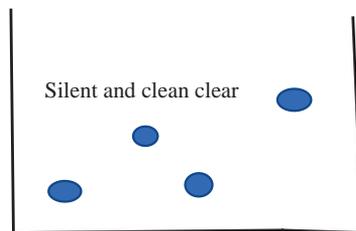

How poor living it is, all macro concept world human animals do not know, their beginning is from righteous soul living in destination place, but also righteous souls are now voyage macro concept world, to do macro concept world mission carry "meet lover of wicked soul, do real love lover of wicked soul, then create wicked soul righteous soul, in the end safe returns to the righties soul living in destination place"

But know macro concept world livings inner world is

Macro concept world human animal space

Huge garbage old knowledge is closely packaged so that do not feel broadcasting and creation of knoweldge

Macro concept world righteous soul space

In the macro concept world righteous soul living inner space is “silent and clean clear” of bubble of creation of knowledge and hearing broadcasting from righteous soul living in destination place,

As helping righteous soul living “creation of knowledge” so that righteous soul living runs to vertical time so that runs to the depth, with hearing broadcasting, this creation of knowledge to solve righteous soul livings faced problems, this is righteous soul living is orbit to safe back from macro concept world to micro concept world of righteous soul living in destination place.

This is righteous soul living on the orbit to safe returning to righteous soul living in destination place, to the macro concept world voyage starting place. At now righteous soul creators are all urgent to see macro concept world righteous soul voyage.

Righteous souls living in vertical time living

But wicked soul living in destination place fall human animals horizontal time livings are all cannot hear righteous soul broadcasting because all of righteous soul creature urgent to hear broadcasting from righteous soul living in destination place, but human animal only seen world of macro concept world is living, so then, just human animal living.

Righteous souls are traveling on this macro concept world, righteous soul livings orbit, out of it, all of human animals are hurry try to get much more than other, this is only mind livings ignorance living, they do not now, so then righteous soul on the orbit, try to say truth of creation of knowledge.

In the macro concept world living principle is vertical time living, runs to the depth vertical time, this living also same area living, why all macro concept world livings are only horizontal living, that living is time consuming living, why macro concept world animal livings do not know vertical time of do not consuming time living.

On the righteous soul orbit righteous soul, hurry to talk, and teach macro concept world horizontal time living there is vertical time living same area getting.

Width ∞ X depth $1/\infty$ =1: macro concept world	}	but calculation of math is same area
Vertical time is		
Width $1/\infty$ X depth ∞ =0: micro concept world		

Righteous soul macro concept world traveling is this

Huge macro concept world do not know how to live, who am I, where to go, righteous soul travel is really feel sorry to the wicked soul and mind level livings of horizontal time livings of consuming time living, who are to be end of time, so that they will faced to out of time.

The time will soon come to the horizontal time livings.

Righteous soul deep recognition to help horizontal time living to vertical time living.

Infer that at now macro concept world righteous souls are try to help to live vertical time living.

If this book helps horizontal time livings to change to vertical time livings.

The only way to righteous soul living in destination place, living righteous soul to righteous soul living in destination place, but also righteous soul lover of wicked soul by doing real lover from righteous souls returning way.

Please know micro concept world righteous soul living in destination place, so that vertical time living of silent and clean clear of hearing broadcasting and bubble of creation of knowledge helping living, to the deepest space.

Macro concept world righteous soul, wicked soul, and mind seeing an object but seeing result is not same

Macro concept world livings are

Wicked soul living

Righteous soul living

Mind living

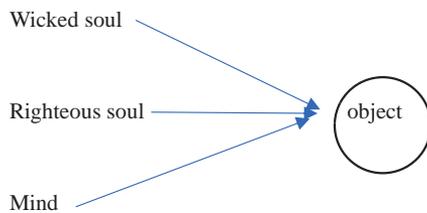

So then righteous soul living is righteous soul

But wicked soul and mind to be living human animal and human

Wicked soul living is “easy living of wicked soul”

Righteous soul is “it shares time with other, help other, but also doing real love other”

Mind is “getting much more than other”

Easy living in the macro concept world seeing to be feel of “if get an object my living is easy living possible”

Righteous soul living seeing to be feeling of “object original beauty”

Mind feeling of “if I get an object then to be been getting much more than other”.

Infer that macro concept world livings seen a object then, inner evaluation to the object is not same, then it is strong means that wicked soul and righteous soul and mind living is not same living actor, so then, righteous soul feel object origin so that all of flowers are same feeling righteous soul feel comfortable with flowers, but wicked soul to see s flower then, the flower is helping easy living so that has the strong prejudice, so that a flower is good, but other flower is bad, even mind living see a flower then, strongly watching object, this object helping or not to be been “getting much more than other”, so that expensive flower is to be seen a beautiful and best, but do not expensive flowers to be not to be beautiful but also it is not good.

Righteous soul living feel object original role play is itself is beautiful so that all of flowers are beautiful and doing real love all flowers.

So that righteous soul feel, a flowers saying, “ righteous soul I’m small flower but you know me feel beautiful to me, this is really thank you”, righteous soul feel it, all of macro concept world flowers are righteous soul living in destination I feel that really pleasure of flowers, I did, “if I get body then I will see and feel and taste with a beautiful flowers, this is really pleasure, all flowers try to get seeds, for next generations, then flower is adult of flower expression, so that righteous soul living flower is righteous soul mission carry “ righteous soul meet lover of wicked soul and do real love and create righteous soul of lover”, this is flower, then flowers is itself all beautiful.

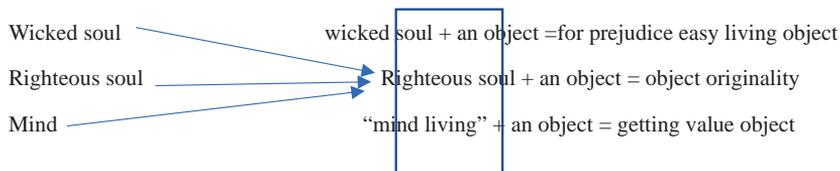

Wicked soul only “easy living helping flower such as in the wicked soul living place flowers only” so then righteous soul, do not know righteous soul feel to flower, righteous soul has creating wicked soul to righteous soul, but wicked soul do not have wicked soul to righteous soul, so that righteous soul can’t feel all flowers beauty.

Mind living see a flower then, that the flower helping making getting much more than other.

Truly infer that at now same space seeing an object, the result is not same then, understanding is not same also, which is true and real, infer that righteous soul livings see and feeling is real, because righteous soul living is “silent clean clear living” so that righteous soul is only space so that, righteous soul space in flower is seen to righteous soul to be silent and clean clear so that righteous soul see an object, object originality seeing..

So then righteous soul see is real object,

This is really critically important an object is to see as object, but wicked soul and mind, wicked soul is not true, because

So that in the macro concept world righteous soul livings feel valuable and wicked soul and mind valuable is not same, mostly macro concept world popular and valuable is based on “getting much more than other”, this is really critical difference, so that righteous soul living valuable is “it shares time with other, help other, but also doing real love other” is not count on in the macro concept world.

All of macro concept living is basic criteria is being “easy living” do not hard living is best try to be, so then here

is micro concept world is wicked soul living, but also mind level livings getting much more than other is also difference from righteous soul “it shares time with other, help other and doing righteous soul living other”.

Macro concept world there is no doing righteous soul living behavior, but micro concept world living is not value in the macro concept world so that to the micro concept world creation of me, give me living poor, because poor and righteous soul is very survive from wicked soul easy living, so that in the righteous soul, doing real love that righteous soul creator gave me role in the macro concept world is “poor” but that is micro concept world is “poor and righteous soul” this is righteous soul safe righteous soul in the macro concept world, so that all of micro concept world righteous soul to be living in poor living.

But in the macro concept world livings are all to be easy living of do not hard living so that, macro concept world easy living is not poor, so that poor is so hard living then, so hard living means that

Righteous soul ore, of stone to be hammering to break all of righteous soul ore of stone, so that righteous soul living is “poor living” all of hard poor living to be broken and heating righteous soul, so that righteous soul to be survive if not, other living in the macro concept world, all try to live in easy living, so that they are not hard living in the end then they do not safe returning to the righteous soul living in destination place.

Righteous soul traveling to macro concept world, all try to live easy living, not to be poor living all competition to be easy living. To the righteous soul eye that is so strange to the righteous soul.

Micro concept world living righteous soul it is urgent

100% righteous soul is required to go righteous soul living in destination place, just like gold ore to pure gold 100% gold making, so that righteous soul try to be 100% righteous soul, all of living to be it, but strangely all of macro concept world living all try to get much more than other, this is macro concept world livings all.

Righteous soul feels pitiful to the only getting much more than others.

Righteous soul livings all do keeping doing “it shares time with other, help other, but also doing real love other” and runs to deep heling creation of knowledge, this is all to be 100% righteous soul, this 100% righteous soul to be “righteous soul & nothing”, so then reach at 100% righteous soul of righteous soul and nothing to be prepared to be safe returning to the righteous soul living in destination place.

Truly infer that

Why macro concept world livings are only try to “getting much more than other”, so that righteous soul macro concept world traveling is this, huge strange, righteous soul feel that, stop getting but prepare to go back to the righteous soul living in destination place, righteous soul try to help macro concept world livings.

Micro concept world righteous soul living is voyage to micro concept world then, decreased all of it, so that pure 100% of righteous soul, all decreased to “righteous soul and nothing”, then safe return to righteous soul living in destination place.

Macro concept world equal but micro concept world is harmony

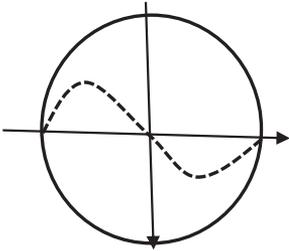

Macro concept world equal is living right is same is equal, but micro concept world living equal to be recognition as harmony.

+ yang -yin living is to be equal in the macro concept world, so that + yang – yin role is same then, this is equal, so that +yang -yin, working and paying all same, right this is social equality infer that, but + yang only + yang role but -yin also role of -, then all of same role, then this is not real.

+yang – yin in the macro concept world living transaction breaking +yang role playing but -yin role paly, so that mixed to breaking +yang and -yin, but truly infer that +yang is not pregnancy only -yin do pregnancy.

If macro concept world equality is +yang also does pregnancy so that this is breaking harmony.

Righteous soul living harmony is true equality. So that harmony is like

Macro concept world equality is horizontal arrow line and vertical arrow line is divided to half and half, this is equality but , dot line is up and down, some best work of +yang is up, but – yin go down, but all to be harmony with balance, so that arrow is macro concept world equality, but dot line is micro concept world harmony.

Infer that

Female and male is same is in the macro concept world, even social right is same but biological role is not same, so then macro concept world living is -yin to be +yang +yang to be- yin, so that both -yin and +yang both being strange.

Infer that +yang to be powerful +yang, and -Yin to be increased -yang of beautiful, truly infer that + yang is characteristics + yang is best, but also -yin is characteristic -yin is best, then both string +yang-yin.

But now infer that

Macro concept world +yang goes to -yin, but also -yin to +yang so that

Macro concept world feel cure of + yang to – yin, but – yin to + yang

Then infer of that here macro concept world + yang is 100%, but also – yin is not 100, so that both +yang and -yin all now living is tired,

So that at now macro concept world living infer that + yang and -yin now imbalance so that + yang and -yin is not friend but to be enemy relationship so that both +yang and -yin living decreased to be now problems coming.

Micro concept world +yang and – yin is harmony is must be balance, so that micro concept world – yin and +yang harmony is

+ yang to be 100%

-yin to be 100%

So that + yang hard then goes to -yin, -yin hard then goes to +yang both to be been space of righteous soul, so then righteous soul strong + yang to be – yin's comfortable space, bit also righteous soul strong -yin also space for the + yang, both livings friend living this is micro concept world righteous soul livings destination place living, so that originality +yang and -yin is harmony friend living.

At now macro concept world living is +yang and – yin between not perfectly friend ship, so that infer that this is not righteous soul,

If here macro concept world living wicked soul then

It is not string of wicked soul of +yang and do not strong of -yin, so that their energy is all is not enough so that all anger to the + yang -yin, because strange + yang decreased energy but also -yin energy also decreased, this is so that both + yang's to -yin, but also -yin to +yang both cause of poor original energy so that both are all enemy so that both do that depend each other but imbalance living produced.

This is strong make hard righteous soul living mission “righteous soul meet lover of wicked soul, and do real love wicked soul of lover, and create lover of righteous soul”, this is so hard righteous souls, because gradually macro concept world + yang energy 100, -yin energy 100 is fast decreasing.

Righteous soul living in destination place seek +yang energy 100%, but -Yin energy 100%, so that both strong energy harmony and balance of it, strong + yang so that strong -yin, so that meeting yang and yin then, string helping each other, +yang character 100%, -yin character 100%, then both +yang and -yin, balanced living of harmony living, this is righteous soul living mission clear, righteous soul meet wicked soul of lover, in the end mission clear, and safe return to the righteous soul living in destination place.

Righteous soul living space with wicked soul and mind in the macro concept world

Book writing

Every day and time all urgent

While prepare to start work place then, appeared up, so called I can hear broadcasting from righteous soul living in destination place.

Then righteous said “space”, so that righteous soul me will do write “space”, macro world is space and micro concept world has space.

Truly infer that micro concept world space is

This is from my book “micro concept” so that this is micro concept world space is $-1/\infty \sim +1/\infty$

Righteous soul me living space is $-1/\infty \sim +1/\infty$

But macro concept world space is inferring that $\frac{\infty}{0} \sim -1/\infty$ of past, $+1/\infty \sim +\infty/0$ of future

Truly infer that time and space is mixed, if has space comes time, time has then space.

So then micro concept time and space is $-1/\infty \sim +1/\infty$

But macro concept world space and time is $-\infty/0 \sim -1/\infty$ of past, $+1/\infty \sim +\infty/0$ of future

So then difference macro concept world time and space, then micro concept world $-1/\infty \sim +1/\infty$ is living actor is “righteous soul & nothing” so called righteous souls living time and space.

If you really want to lean then can you read “micro concept”.

Macro concept world is strong past and future criteria but micro concept world end of past better beginning of future, this is difference, macro concept world livings images are installed past and future, so then macro concept world livings are all living on the past origin knowledge, so called old knowledge, but righteous soul livings of righteous soul living are $1/\infty \sim +1/\infty$, so that helping righteous soul & nothing so that helping righteous soul living in destination place, broadcasting from righteous soul living in destination place of “creation of knowledge”, because righteous soul living can get future beginning that at now here can help future knowledge, so that it is the

“creation of knowledge”

But macro concept world livings do not live in the future but past to built knowledge, so that old knowledge.

Macro concept world livings are see books; this is old time old knowledge, so then, infer that this book is from righteous soul living in destination place, then when appeared up, righteous souls micro concept world $-1/\infty \sim +1/\infty$, in this micro concept world “righteous soul & nothing” micro concept world gate so that righteous soul runs in the micro concept world $-1/\infty \sim +1/\infty$.

Truly infer that

Righteous soul living time and space is $-1/\infty \sim +1/\infty$, here living is “righteous soul & nothing”

Here living is “01234567890” just righteous soul living in the beginning is from micro to macro, but and 0 is macro to micro, in this time and space is micro concept world

Righteous soul living space is “0” so that righteous souls truly infer that righteous soul orbit living, so that

“01234567890” then first 0 to final 0 is in the orbit of righteous soul, this is righteous soul macro concept world voyage, but “123456789” is called as righteous soul macro concept world travel, righteous soul’s living destination place is to be “0”, so then “123456789” is righteous soul macro concept world travel only.

Righteous soul living time and space is $-1/\infty \sim +1/\infty$

But macro concept world livings space is $\infty/0 \sim -1/\infty$ of past, $+1/\infty \sim +\infty/0$ of future, here livings are wicked soul and mind livings.

But here living is “01234567890” this living is macro concept world living, so that mind and wicked soul livings living.

But macro concept world wicked soul and mind never do not to living “0” but only living “123456789” here is wicked soul and mind living s space is $-\infty/0 \sim -1/\infty$ of past, $+1/\infty \sim +\infty/0$ of future

Truly infer that macro concept world space is only living in the “123456789” so that end of living to be not “0” but to the is not complete travel in the macro concept world, wicked soul and mind livings failed to cross to “0”, incomplete souls to be reach at the wicked soul living in destination place.

Righteous soul living in destination place “01234567890” of “0”, first “0” is righteous soul living in destination place creation of righteous soul by complete macro concept world voyage, so called righteous soul macro concept world mission clear of righteous soul’s creating a new righteous soul, here is righteous soul voyage mission is righteous soul meet lover of wicked soul do real love lover of wicked soul, and create righteous soul, so then here is + righteous soul -lover of wicked soul, -righteous soul lover of +wicked soul do real love then complete of righteous soul of + righteous soul – righteous soul to one of righteous soul unit, this is final righteous soul “0”, it is clear.

Here is first “0” is righteous soul macro concept world voyage and mission clear of righteous soul create, so that here first “0” is just originality righteous soul.

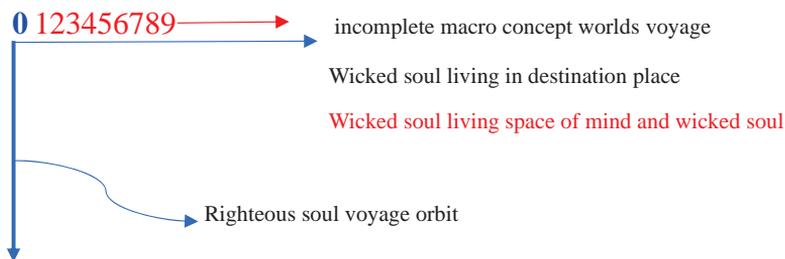

But final “0” is created righteous soul start to macro concept world voyage, there righteous soul mission clear and

safe returned + righteous soul – righteous soul combined one of righteous soul, final “0” righteous soul to be creator first “0” righteous soul.

Where is “01234567890” this living mind and wicked soul, truly infer that failed in the macro concept world living, so that incomplete, even this is means that

Here macro concept world does not live as righteous soul living, so that, macro concept world voyage incomplete, so auto automatically reach at the wicked soul living in destination place.

Infer of righteous soul living space, and wicked soul and mind living space is

0 complete macro concept world voyage

Righteous soul living in destination place

Righteous soul living space of only righteous soul

Why macro concept world voyage mission complete, that is from micro concept world righteous soul 0 is righteous soul voyage beginning, but also final 0 is righteous soul safe returning of mission clear, so then, this is righteous soul living complete, infer that created righteous soul being perfect righteous soul of +- righteous soul perfection of righteous soul, so then being righteous soul creator.

Infer that voyage then remained at the righteous soul voyage, so that righteous soul living in destination wait to come safe returning to the righteous soul living in destination place, this is simple.

After move to macro concept world voyage, then creator of righteous soul how to wait, try to give “creation of knowledge” bubble creation of knowledge, truly infer that righteous soul creator send creation of knowledge but macro concept world righteous soul get bubble of righteous soul with hearing broadcasting from righteous soul living in destination place.

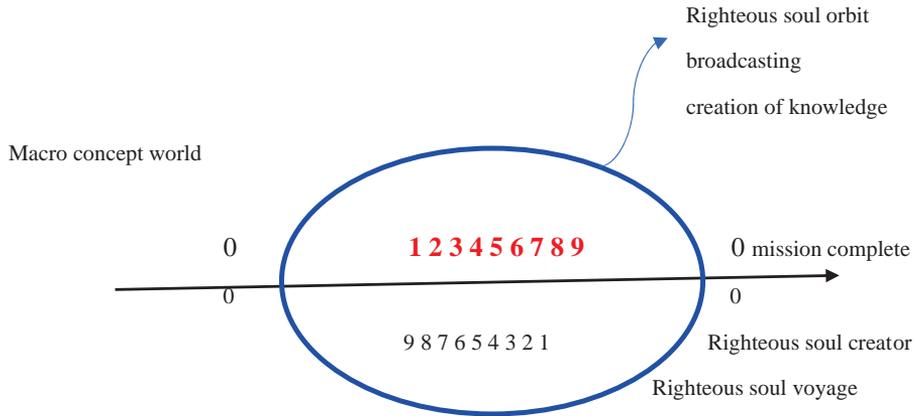

On today solve righteous soul broadcasting, but also righteous soul bubble of “creation of knowledge”, so then macro concept world all of righteous souls righteous soul creator, in the righteous soul living in destination place

creator still wait creating righteous souls safe returning from voyage of macro concept world, but also macro concept world voyage mission so hard so that righteous soul in the righteous soul living in destination place, keep doing righteous soul living behavior “ righteous soul creator shares time with voyage righteous soul and do help voyage righteous soul and do real love voyage righteous soul”. Macro concept world righteous soul must be hear of broadcasting and getting bubble of creation of knowledge, righteous soul in the macro concept world livings to be complete macro concept world voyage = macro concept world righteous soul voyage + righteous soul living in destination place creator of righteous soul = macro concept world voyage mission clear.

So then infer if that righteous soul in the macro concept world must keep living in the righteous soul voyage orbit, then infer of it,

Righteous soul to be 100= righteous soul voyage in the macro concept world + righteous soul living in destination place creator of righteous soul= macro concept world voyage complete.

Righteous soul creator and macro concept world voyage righteous soul define

Micro concept world

Righteous soul livings main keyword

Righteous soul macro concept world voyage complete

Righteous soul mission clear + righteous soul – righteous soul

Righteous soul living in destination

Righteous soul creator

Righteous soul of macro concept world voyage

Righteous soul orbit

Righteous soul broadcasting

Righteous soul traveler

Righteous soul traveler mission

Righteous soul mission clear

Righteous soul in the micro concept world righteous soul are create and to be being creating righteous soul, so that this righteous soul concepts are based on 21 books writing then, righteous soul me getting know it.

So that here is righteous soul key word defined necessary.

How to righteous soul creator

As righteous soul macro concept world voyage complete then, righteous soul to be being + righteous soul – righteous soul = righteous soul creator

So then righteous soul in the righteous soul living in destination place =+ righteous soul – righteous soul = righteous soul creator but also righteous soul living “silent clean clear living” in the righteous soul living in destination place. = righteous soul living in destination place

Here is righteous soul living in destination place

Righteous soul living in destination place righteous soul creator to created righteous soul to voyage macro concept world connecting on the righteous soul living voyage orbit.

Righteous soul creator does righteous soul living behavior

“righteous soul creator shares with created righteous soul, help created righteous soul and doing real love created righteous soul”

In the righteous soul living in destination place

Send broadcasting with creation of knowledge to solve macro concept world voyage problems solving, such as righteous soul macro concept world mission clear, here is huge problems so that it must be required helping form righteous soul living in destination place energy.

So that macro concept world righteous soul mission clear

= macro concept world voyage righteous soul energy 50 + righteous soul living in destination place righteous soul creator energy 50 = 100 to be solve macro concept world righteous soul mission clear.

Righteous soul orbit

Righteous soul orbit is righteous soul start to macro voyage then connect to righteous soul living in destination place creator, so that righteous soul creator broadcasting and helping creation of knowledge all through righteous soul orbit, so that macro concept world righteous soul in the orbit, then then orbit is voyage righteous soul to righteous soul living in destination place creator communication channel.

Righteous soul traveler mission

Righteous creator creates a righteous soul, so then righteous soul voyage to be + righteous soul -righteous soul, - righteous soul + righteous soul meets in the macro concept world, to comeback to righteous soul living in destination place, to do righteous soul creator in the righteous soul living in destination place.

Then here is righteous soul meet wicked soul and do real love wicked soul of lover and create righteous soul, so then righteous soul role in the macro concept world voyage is save wicked soul to righteous soul, so then macro concept world wicked soul makes not increasing for that righteous soul, so righteous soul must meet wicked soul of lover, and create wicked soul to righteous soul, this is practice creating a new righteous soul in the righteous soul living in destination place.

Righteous soul mission clear

This is righteous soul macro concept world mission clear or not decided because righteous soul mission is so hard, so that in the time of righteous soul mission

To be mission clear = voyage righteous soul energy 50 + righteous soul living in destination place creator energy 50= 100 of righteous soul macro concept world mission clear.

In the micro concept world

Created righteous soul to be complete macro concept world voyage, it must be important role is righteous soul creator helping voyage created righteous soul, so then righteous soul creator role is huge important, as righteous soul mission then closed to the righteous soul living in destination place so that righteous soul living orbit, so that keep strong energy and broadcasting with creation of knowledge.

This is righteous soul's micro to macro and macro to micro voyage and traveling all connected with righteous soul and righteous soul creator.

Clear of saying to be righteous soul macro concept world mission clear then

Sending righteous soul living in destination broadcasting hearing and get creation of knowledge then macro concept world voyage complete, but if acceptor of macro concept world righteous soul does not hear broadcasting and do not get creation of knowledge then, righteous soul impossible safe returning to the righteous soul living in destination place.

To be complete macro concept world voyage, it required both sending righteous soul creator and accepting righteous soul both perfect then righteous soul safe returning to the righteous soul living in destination place.

If I live 100 ± 10 years = 110 years old and 90 years old which year you will take

if I to be aske from other

“if you choose 100 ± 10 years, then you can live 90, or 110?

“if you reach at righteous soul living in destination place, then +10 year in macro concept world living then you can take more 10 years in macro concept world?

On this question?

To the wicked soul livings then

Infer that wicked soul will answer

First question to the answer is 110 years in the macro concept world

Second question to the answer is do not + 10 year, I will go righteous soul living in destination place

To the mind living then

Infer that mind living will answer

To the first question mind living will get 110 years old

To the second question mind living will get +10 years more macro concept world

To the righteous soul living then

Infer that righteous soul will answer

To the first question righteous soul living get 90 years old

To the second question righteous soul living do not +10 years, I will go righteous soul living in destination place.

Here is correct is clear of mind livings

These mind livings are all much more than living in the macro concept world, so that answer of 110 year, +10years old.

Wicked soul first question answer to the mind level living of 110 years, but second question of answer is righteous soul living answer.

But righteous soul living first question answer to 90 years old, and second question to the answer is do not +10 years.

Righteous soul living is "mind $1/\infty$ " so then, righteous soul to be activation of righteous soul, so that righteous soul to be living 90 years old,

But also righteous soul safe return to the righteous soul living then, exactly do not +10 years, reach at the righteous soul living in destination place, the righteous soul living in destination creator righteous soul, the righteous soul get an end of macro concept world, so then righteous soul reach at the righteous soul living in destination place is optimistic living in the macro concept world, but also righteous soul it really excitement to see righteous soul creator meeting as possible as can earlier.

This is in the macro concept world micro concept world livings point of view, but macro concept world living as like mind livings so that at just little living try to living in the macro concept world!

If then this is mind level livings reluctant to micro concept world, mind level livings try to living in the macro concept world living.

This is same as future living rich living expect, so that fear of poor living in the future, but righteous soul must be coming year poor living to be feel in excitement, because righteous soul now voyage living, so that all useless to be make less to be being poor living is possible and right living, so that closed to the righteous soul living in destination place then perfect poor living is really excitement, if righteous soul me, do not fear closed to righteous soul living in destination place, so that poor living is excitement, but also if I live with the poor.' then it is really excitement to me.

Yesterday I was fear of any income, it comes to me, I felt surprising because, at that time in me fulfilment dungs so that I felt fear, but I will not to be feel fear, getting old, it don't have to getting much more than other, but just living in poor living, that is righteous soul living, but also cosmos law, principle living, it don't have to worry as the getting old, being poor is natural.

As getting old, then as possible as can shares with the poor, so then, righteous soul living behavior "it shares time with the poor, help poor and doing real the poor", and righteous soul me also poor living.

As getting old, the closing to the righteous soul living in destination place, so then, being poor being sick is natural, so that it must be accept it, and doing real living of excitement.

With body of righteous soul to be living in excitement, this is righteous soul living, as such as wicked soul easy living, but righteous soul living excitement as righteous soul living approaching the righteous soul living in destination place, =righteous soul me living is poor and sickness even this, also really excitement living.

Righteous soul me living getting old, getting poor, getting sick, this is really excitement to me, I will be soon reach at righteous soul living in destination place reach with my lover, I will first runs to the righteous soul living in destination place, my lover will after 10 years living after follow me, I will wait my lover, 10 years after my righteous soul lover come to righteous soul living in destination place, I really excitement welcome my lover, so that righteous soul me and righteous soul lover to be one of string righteous soul, so that righteous soul me and lover create a new righteous soul to voyage macro concept world.

Macro concept world, land of righteous soul, island of wicked soul

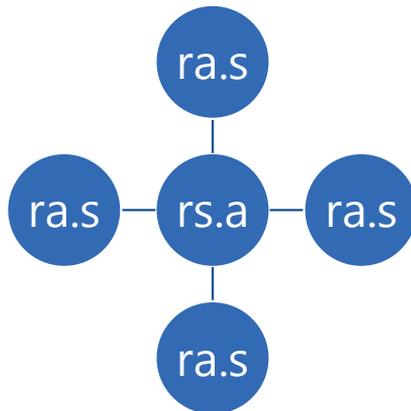

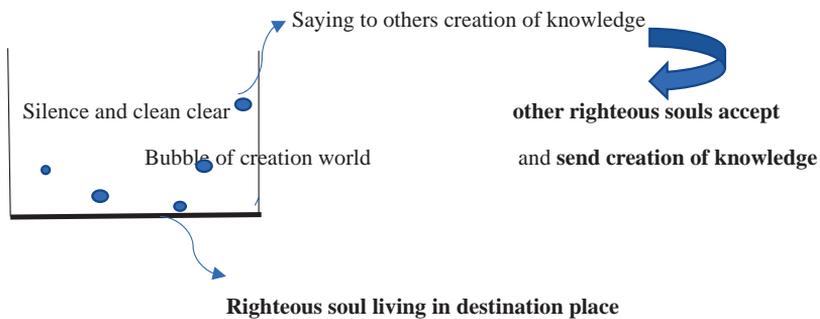

In the macro concept world livings are righteous souls, wicked souls and minds.

Righteous soul livings living is “it shares time with other, help other and doing real love other”

Wicked soul livings living is” only wicked soul easy living of revenge and breaking”

Mind livings living is “getting much more than others”

Righteous soul living

Ra: righteous soul creation of knowledge accepts

Rs: righteous soul sending creation of knowledge sending

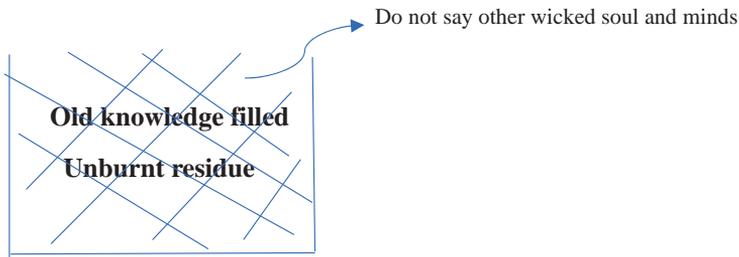

Land of righteous soul

land of righteous soul defined is

“ righteous soul creation of knowledge saying to other creation of knowledge, then other creation of knowledge accept it, and other righteous soul creation saying to righteous soul accept so that all of righteous soul to be getting same righteous creation of knowledge so that all is connect righteous souls, so all of righteous souls are connect to networked so that here is land of righteous soul”.

Righteous soul livings are all getting creation of knowledge through hearing broadcasting from righteous soul living in destination place

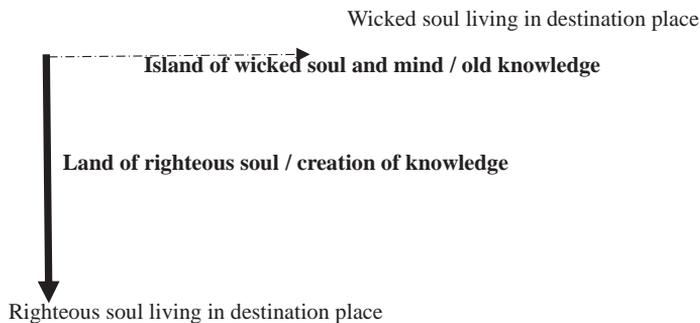

But wicked soul and mind livings are

Island of Wicked soul, mind

Island of wicked soul and mind defined is

“ wicked soul and mind do not saying to wicked soul and mind even righteous soul, because wicked soul and mind only wicked soul, and mind closing network, because wicked soul and mind inside is old knowledge and unburnt resident of past memory so that these think of wicked souls are shattered, do not silent and clean clear so that, wicked soul and mind do not hear of broadcasting from righteous soul living in destination place, so that all of wicked soul and mind do not networking, so that mind, wicked soul are living in segregate from others of island”

In the macro concept world righteous soul creation of knowledge all to be network so that righteous soul silent and clean clear world, hear broadcasting from righteous soul living in destination place, then getting creation of knowledge, this is same to the righteous souls, these creation of knowledge is helping to solve running to the righteous soul living in destination place, so that

Righteous soul livings behavior is “ it shares time with other and help other, but also doing real love other”, this is really important righteous soul living is go with all creation of knowledge helping to solve problems and doing real love other, this is near righteous soul to be being a group of righteous souls, these righteous soul all go to righteous soul living in destination place reaching at.

Righteous soul to be one, so that righteous soul vertical time is deep arrow line, righteous soul to be same reach at the righteous soul living in destination place, oh! At now here new and creation of knowledge appeared up.

But wicked soul and mind do not network so that wicked soul and mind do not saying each other so that mind and wicked soul living is separating of island of wicked soul, so that wicked soul and min is only one of wicked soul easy living, and mind’s getting much more than other” so that wicked soul and mind living is island of wicked soul, and mind.

Truly infer that righteous soul livings all together help each other in the macro concept world, so that righteous souls are safe and complete possible is huge higher, but wicked soul and mind macro concept world voyage completion to be zero of wicked soul living in destination place fail of macro concept world voyage.

Here land of righteous soul

Island if wicked soul and mind

What is different?

Land of righteous soul all networking so that all of members are running to the righteous soul living in destination place of vertical time living, but island of wicked soul does not network so that all of wicked souls are running to horizontal time of scattered fall to the wicked soul living in destination place.

Here is huge truth of creation of knowledge then, righteous soul living is all group, infer that family will be, here is comes family, until now appeared up lover’s relationship, but here is group of righteous soul vertical time living running to the righteous soul living in destination place.

Here is righteous soul vertical time living also family, nation, tribe and all of group vertical time running to the deepest righteous soul living in destination place, reaching.

Righteous soul excitement in the macro concept world; theory of excitement

Righteous soul in the macro concept world living in excitement;

Righteous soul of traveler in the macro concept world.

Righteous soul feel taste, feel excitement, feel beautiful, feel silent and clean clear...

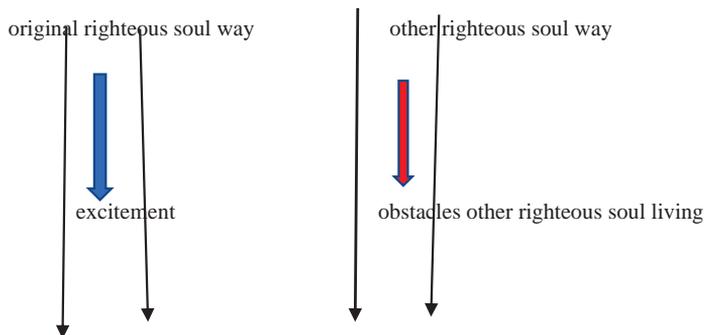

Righteous soul travel in the macro concept world “123456789” living with wicked soul, mind living in the macro concept world, righteous soul feels in excitement.

Infer that

Righteous soul living road

Original righteous soul is living on the original road then feeling in excitement

But original righteous soul does not know original road then do not excitement.

If original righteous soul chooses “original righteous soul way” then original righteous soul feels in excitement, because the road is for original righteous soul way, so that original righteous soul, feeling excitement.

But original righteous soul runs in the other righteous soul way then, this road owner is other righteous soul, so that this road to be do not excitement, but also the result is also, original righteous soul to be disappeared, and in the end, original righteous soul to be fall to the wicked soul living in destination place.

Truly infer that righteous soul living original righteous soul living way is must be vertical time living, so that the way is helping creation of knowledge.

But all of macro concept world livings truly

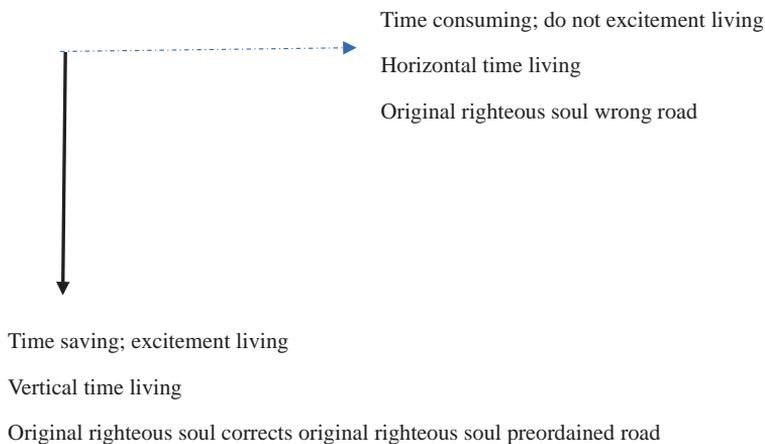

Do not know will I be in righteous soul wicked soul and mind livings, but anyway

The living is in the correct righteous soul original living in the original way then the living is correct to righteous soul living, because the preordained righteous soul living way, then the righteous soul is master of living in the way, righteous soul living is huge excitement, because as the living righteous soul do not disturb other righteous soul, truly infer that if righteous soul run to the original righteous soul way, then the living is clear excitement living.

Theory of excitement is

Righteous soul run preordained original righteous soul way then, if runs to the end of it, the place is righteous soul living in destination place, further more righteous soul original is master so that here is to the original righteous soul road is vertical time living, jeep young time, because vertical time living is horizontal time is $1/\infty$ but vertical time is ∞ , so that horizontal time consuming but here is horizontal time is $1/\infty$, so that vertical time is still beginning, so vertical time is young time.

Righteous soul original time of vertical time is young time, so here young time, but here it is original righteous soul do not get original righteous soul way but other righteous soul living then, original righteous soul to be other righteous soul living running obstacle so that, both righteous soul to be being wicked soul living in destination place cause of wrong chose original righteous soul way, so called that road is wrong road but also time consuming road, even all goes but just time consuming but do not runs to the righteous soul living in destination place.

As righteous soul does not live on original righteous soul way, then, other righteous soul running road, so that wrong righteous soul to be fight the road, then original righteous soul to be being wicked soul, so that horizontal time living of falling to the wicked soul living in destination place,

So that righteous soul to be living in excitement, then righteous soul, do not run to the horizontal time, but runs to the vertical time, which is righteous soul original way, this righteous soul only reaches at the righteous soul living in destination place.

In the macro concept world huger number of accidents all is in the horizontal time livings.

Truly infer that vertical time living no one get without righteous soul of creation of knowledge, so that horizontal time do not know creation of knowledge, only know that old knowledge.

Theory of excitement is defined that

Original righteous soul living on the original righteous soul ways, this is vertical time livings, so that there is young time living, here is young time living is excitement but also vertical time living end is righteous soul living in destination place, this is theory of excitement, righteous soul living and excitement and righteous soul living in destination place is excitement and perfection.

How to righteous soul find original righteous soul way, this is really important, how to do living in excitement is also important, this is runs to the vertical time living,

The living is horizontal time is $1/\infty$ but all of vertical time living of ∞ with righteous soul of creation of knowledge; from righteous soul living in destination place, traced back, then righteous soul feel “silent and clean clear” so that righteous soul living keep silent and clean clear, so mind $1/\infty$, it very short of micro concept time then righteous soul to be living, so then righteous soul try to go to vertical time living, this is beginning to runs vertical time living.

Vertical time livings are all difference because all of righteous soul living roles are all difference so that, in the righteous soul original ways seeking try to find, infer of that must be righteous soul livings try to get original road, then variable righteous soul livings being righteous soul, so that all vary righteous soul seeks on their righteous soul way, then it also start to vertical time living.

Both is all to be “silent and clean clear” is same, if to be living in vertical time living it must be required to be living “silent and clean clear” then can hear broadcasting from righteous soul livening in destination place.

So that righteous soul gets a creation of knowledge, in the end then, automatically reach at vertical time living of excitement and righteous soul living in destination place reaching.

Macro concept world all livings energy is same

Macro concept world living energy is same

If macro concept world living actor's energy is same

Infer that Righteous soul living energy

R20	R40	R60	R80	R100
-----	-----	-----	-----	------

This is righteous soul living energy 100, so called righteous soul living actor

Infer that wicked soul living energy

W20	W40	W60	W80	W100
-----	-----	-----	-----	------

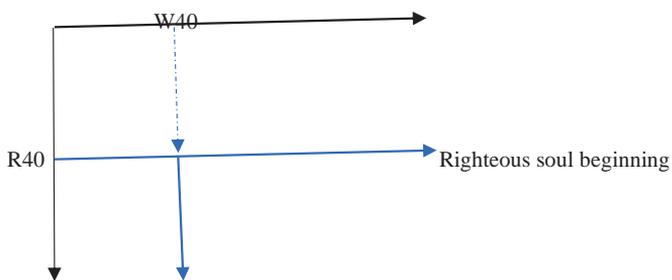

This is wicked soul living energy is 100, so called wicked soul living actor

Infer truth must be mixed but anyway still = 100,

For example

W20	W40	R60	R80	R100
-----	-----	-----	-----	------

This macro concept world living actor to be wicked soul 40 + righteous soul 60 = 100

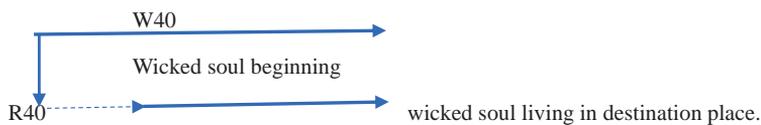

Righteous soul living in destination place.

This is inferring that original righteous soul doing real love so that righteous soul doing real love to the lover of wicked soul, so that righteous soul does create lover of wicked soul creature of righteous soul.

The other example

R20	R40	W60	W80	W100
-----	-----	-----	-----	------

This macro concept world living actor to be righteous soul 40 + wicked soul 60=100,

Original righteous soul at first time living in vertical time living but after R40 changed into wicked soul living so that wicked soul living energy 60% so that this living to be wicked soul living in destination place living.

Macro concept world living energy all to be unit of same, but the ratio of righteous soul to wicked soul, but also first righteous soul last wicked soul, first wicked soul last righteous soul, so then, the living to be changed, but truly string righteous soul unit is all absolute to 100, this is really important all is equal of 100 energy.

Macro concept world whom used living in the horizontal time living, who is living in vertical time living, so that the living direction is decided, if a time for vertical time living then, the living is righteous soul living, but the living is horizontal time living then, the living to be living in wicked soul living.

Righteous soul living; righteous soul knows that righteous soul living behavior “it shares time with other and help other, but also doing real love other, but also doing real love behavior.

Wicked soul living; wicked soul does not know righteous soul living behavior “it shares time with other, help other, but also doing real love other”

Mind living; do not know micro concept world so that ignorance

Macro concept world livings unit energy is 100, so then wicked soul living, do not know righteous soul living behavior so that wicked soul energy major, but mind living is ignorance wicked soul and righteous soul, but friend wicked soul so that, infer that macro concept world energy 100 composition, this is really important, because righteous soul now traveling to do, macro concept world voyage mission clear; “righteous soul meet lover of wicked soul, and doing real love lover of wicked soul, then righteous soul create righteous soul, so that both lovers of righteous soul to be safe come back to the righteous soul living in destination place.

Then macro concept righteous soul traveling of “123456789” then righteous soul chooses whom lover of wicked soul, this is must be inferring that of

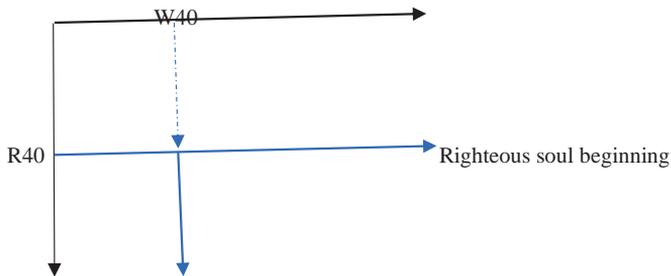

For example, of

Infer truth must be mixed but anyway still = 100,

For example

W20	W40	R60	R80	R100
-----	-----	-----	-----	------

This macro concept world living actor to be wicked soul 40 + righteous soul 60 = 100

Righteous soul living in destination place.

This composition of lover of wicked soul, so then, righteous soul’s preferable select lover of wicked soul, so then, righteous soul macro concept world voyage mission clear possible is high, this lover of wicked soul to be created by righteous soul, so that here is really important is living energy all same as 100, but righteous soul is grow much more than wicked soul, then infer that this lover of wicked soul to be choose by righteous soul, to be mission, how to live in the macro concept world, it must be living in righteous soul is really urgent to the macro concept world livings.

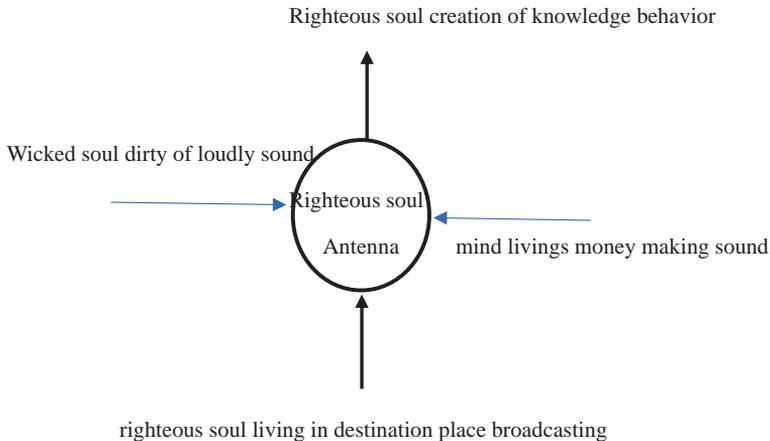

Righteous soul traveling “123456789” righteous soul, is how to choose best optimistic to righteous soul macro concept world voyage mission clear possible lover of wicked soul meeting is in the “123456789” of macro concept world traveling.

In the macro concept world wicked soul how to live is to be saved from a righteous soul, or not to be decided. Do live righteous soul, even in the wicked soul then, try to be righteous soul, then you will be loved from righteous soul, then you will be saved from wicked soul to righteous soul in the end safe returning to the righteous soul living in destination place

Macro concept world righteous soul living is role of antenna

Macro concept world righteous soul living with wicked soul, righteous soul and mind livings but also connecting with micro concept world righteous soul living in destination place, so called righteous soul can hear broadcasting from righteous soul living in destination place, then all is role of macro concept world antenna role.

Righteous soul hears huge omni sounds, but righteous soul living only one of righteous soul living in destination place sound only discriminate and getting that is helping of creation of knowledge, righteous soul is really important because righteous soul orbit is all antenna role required.

righteous soul antenna filtering all useless sound but only can hear of righteous soul living sound of broadcasting so that behavior of righteous soul creation of knowledge.

Even wicked soul and mind also try to cut in righteous soul, but righteous soul only filtering so that righteous soul creation of knowledge getting, here is righteous soul antenna role play.

But if living in wicked soul living then, there is no antenna role so that, wicked soul all of mixed in interworld, so that wicked soul dirty and loudly sound mind living's money making sounds, even righteous soul but do not know, to the wicked soul all to be shown, that is shallow of "think of wicked soul" so that wicked soul living led by "think of wicked soul" this is light and shallow from it, so that all is mixed with temptation and "revenge and broadcasting" but also all of unburnt old time experiment, and situations so that wicked soul can't get creation of knowledge.

Even mind hear of “money making sound; advertisement, mobile phone knowledge” all is just not in useless knowledge but only information of knowledge only, truly mind living hear all professional sports etc.

So that righteous soul of righteous soul living in destination place broadcasting or creation of knowledge is really important this is make possible to run to the vertical time living, but wicked soul and mind do not do vertical time because, they do not get creation of knowledge so that wicked soul and mind runs to the horizontal time living.

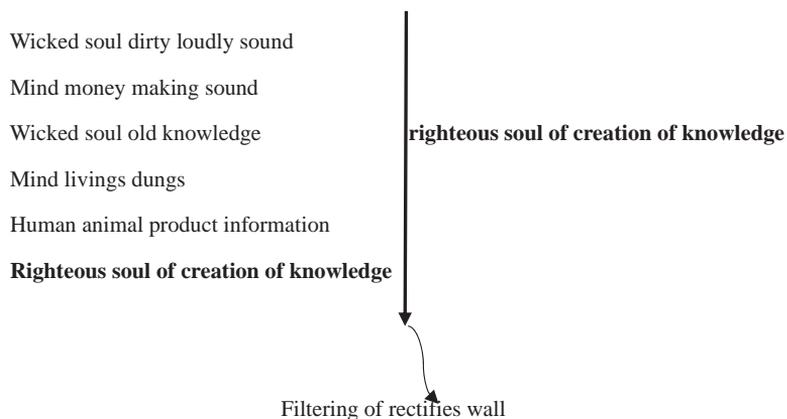

Macro concept world living of one time living, if macro concept world living is on the wicked soul and mind living then, they only hear of dirty of loudly sound and mind level living only money-making sound of advertisement etc.

So then, righteous soul creation of knowledge getting righteous soul living broadcasting do not hear then, all of living is useless, so that wicked soul and mind living to be behavior of human animal and human, so that their behavior do not know righteous soul living behavior of “it shares with other, help other, but also doing real love other”, wicked soul and mind livings do not good manners, around of wicked soul and mind all to be dried of desert, there is no flowers and beautiful scenes, only winning and getting much money from others, but also they produce useless lie of information to other of wicked soul and mind, even though righteous soul all filtering useless information.

Righteous soul hear broadcasting from righteous soul living in destination place, righteous soul inter world is silence and clean clear so that bubble of creation of knowledge getting so that righteous soul difference time living of vertical time living, in the vertical time living is just runs to the vertical of depth, there is righteous souls communicate with righteous soul creator even in the macro concept world, righteous soul creator all help how to macro concept world mission clear, but also see macro concept world a beautiful scenery.

Righteous soul rectifies all of confusing and mixed all of wicked soul decision and mind money making sound to make clear of righteous soul creation of knowledge,

Righteous soul silence clean clear of hearing broadcasting from righteous soul living in destination place

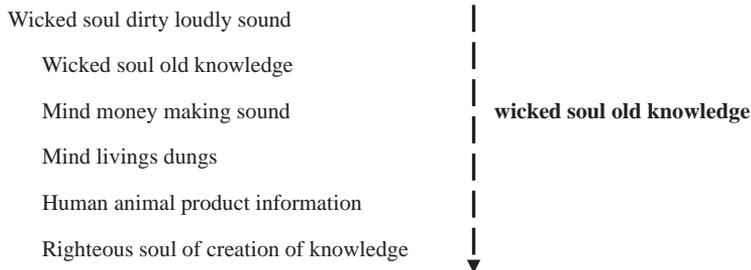

This is really important to a macro concept world time and space, because here is righteous soul filtering of all of useless of nothing of information to be erase it, and making only righteous soul of creation of knowledge then, the time and space is living in vertical time living, so then, the time and space to be living in young time living, this is really critically development time is required.

So then, macro concept world righteous soul up graded time and space, infer that righteous soul living creature of knowledge is from righteous soul living in destination palace, so that righteous soul living only create of knowledge.

In a time and space truly infer that, righteous soul livings are major then, the time and space is young time, so that the time and space still young and keep growing and progress in the end getting fruit but also the righteous soul creation keep growing, because still young time.

But there is no righteous soul living then,

There is no filtering

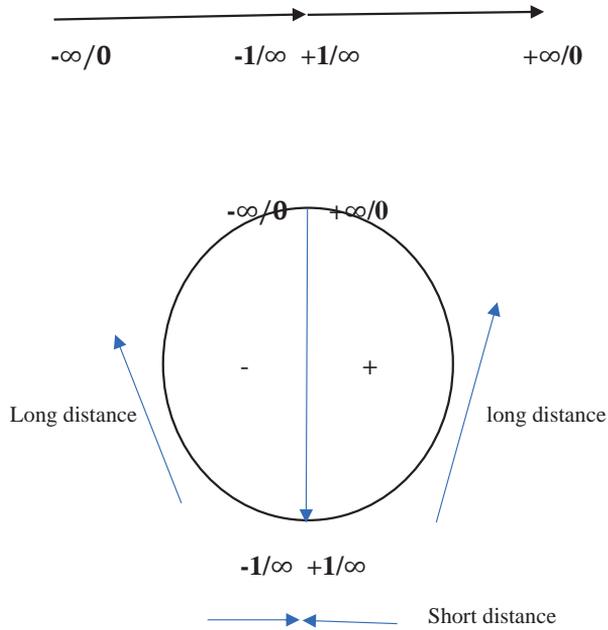

This time and space is horizontal time living, so that time consuming this living to be old time so that end of living, soon to be disappeared time and space, so that wicked soul try to living only one of wicked soul easy living, but all multitude of wicked soul and mind livings to be living of “poor and wicked soul living”; this living is in the macro concept world truly miserable livings.

If just one time living a living is “MISERABEL LIVING” then how to do, poor living but in the end of living to be living wicked soul living in destination place.

It generally all of my book used “poor and righteous soul” but here is “poor and wicked soul”, then one time living of poor living but also after this living in the wicked soul living in destination place, so that the living is miserable living.

When miserable living produce, the time of “wicked soul old knowledge”, this living, there is no righteous souls, anyone, no one of righteous soul, then it comes “wicked soul old knowledge”, this time and space is miserable living, at this time all of livings are human animal livings, they are in the end to be faced of a war. Then in the war wicked soul of human animal to be all disappeared, but after that righteous soul will beginning, the time to be vertical time living, so that here is “poor and righteous soul” living all endure but after this righteous soul living in destination place.

Righteous soul long distance is short distance

Righteous soul long distance is from $-1/\infty \sim -\infty/0$, $+1/\infty \sim +\infty/0$

Righteous soul long distance $-\infty/0 \sim -1/\infty \sim +1/\infty \sim +\infty/0$

Righteous soul long distance = righteous soul short distance

Righteous soul long distance $-\infty/0 \sim -1/\infty \sim +1/\infty \sim +\infty/0$ = righteous soul short distance $-1/\infty \sim +1/\infty$

Infer that from $-1/\infty$ to go around to $+1/\infty$ = beginning is $-1/\infty$ end is $+1/\infty$

So then here infer also, righteous soul runs to the $+1/\infty$, then do not turning from left to right, but righteous soul to direct to right runs, then it reaches at the $-1/\infty$, it very shortest distance.

So that even infer that

Righteous soul long distance = righteous soul short distance

$-1/\infty$ to go around to $+1/\infty$ = beginning is $-1/\infty$ end is $+1/\infty$

Possible, much more than micro concept world to be infer of possible to reach at long distance = short distance.

This book name is "Righteous soul living TRAVELING, on the macro concept world"

So then traveling is direct relative time with distance, so that righteous soul long distance is short distance writing.

Infer that macro concept world distance is long distance = short distance, must be called as lie, deceit but micro concept world righteous soul living distance must be infer that short distance to doing distance to be equal.

Infer that righteous soul move is even long distance but as the short distance move is possible of long-distance reach possible.

So that micro concept world $-1/\infty \sim +1/\infty$ this is shortest time and space, but this is to the macro concept world of $-\infty/0 \sim +\infty/0$, this is micro concept world point of view then, shortest world to largest world to be same of infer.

Infer that righteous soul living in destination place location is to be infer that $-1/\infty \sim +1/\infty$, but also long distance $-\infty/0 \sim +\infty/0$, so that righteous soul moving speed is how fast is infer of it.

Truly infer that macro concept world of $-\infty/0 \sim +\infty/0$ to $-1/\infty \sim +1/\infty$, this is after macro concept world then righteous soul moving to righteous soul living in destination place of "righteous soul and nothing" so that righteous soul and nothing of righteous soul move is full possible " $-\infty/0 \sim +\infty/0$ to $-1/\infty \sim +1/\infty$ " so that after macro concept world righteous soul to be infer of $+1/\infty \sim +\infty/0$, but infer of wicked soul living in destination place is $-1/\infty \sim -\infty/0$ ", so that micro concept world is

Wicked soul living in destination place is " $-1/\infty \sim -\infty/0$ "

Righteous soul living in destination place is " $+1/\infty \sim +\infty/0$ "

Macro concept world is " $-1/\infty$ to go around to $+1/\infty$ "

This book name is "Righteous soul living TRAVELING, on the macro concept world"

Righteous soul traveling is micro concept world traveling to macro concept world traveling.

Infer that righteous soul travel righteous soul, then macro concept world travel is mixed with wicked soul and mind level livings, righteous soul traveling sees that difference from righteous soul living in destination place.

Righteous soul feeling compassion to wicked soul and mind livings, because their living end is to be wicked soul living in destination place, so that traveling macro concept world traveling then, righteous soul save a

possible wicked soul of lover, to create righteous soul, righteous soul choose lover, then consideration all of possible, to do that righteous soul travel micro concept world to macro concept world.

In the end righteous soul search and find lover of wicked soul.

So that righteous soul beginning love to lover who to be creating righteous soul, righteous soul doing real love lover, and creating righteous soul, in the end righteous soul with lover of righteous soul safe returning to the righteous soul living in destination place.

Righteous soul macro concept world traveling “123456789” then, righteous soul mission clear then, infer of righteous soul voyage to be possible of “01234567890”, infer of that righteous soul travel is “123456789” righteous soul voyage compete is “01234567890”.

So that righteous soul macro concept world voyage complete, so that in this book try to infer of righteous soul living voyage travel so that voyage time and space to be inferable watched in this book.

Truly this is not mathematically physic but this is philosophically book closed so do not calculate this book math, truly infer that macro concept world and micro concept world do not know clear, it also infers it.

Somehow hard but conclusion of it ‘Righteous soul long distance is short distance’ philosophically long distance to short distance to be same, this is inferring of conclusion.

Righteous soul creates problems and solving problems

Righteous soul endless create problems and endless solving problems, here is problems will be given from righteous soul living in destination place, righteous soul living solves problems.

This is righteous soul macro living helping problems and solving, but also, righteous soul safe returning to the righteous soul living in destination place, so then righteous souls living manners in the righteous soul living in destination place.

Righteous soul living problems is all to be educating from righteous soul living in destination place, so that righteous soul living faced new and time to time and second to second problems need to solving problems.

These problems all effort to solving problems, so that righteous soul must be learning all of macro concept world living. Righteous soul these problems solving is not helped from righteous soul living in destination place, only righteous soul silence clean clear of bubble of creation of knowledge only can help righteous soul solving problems.

Righteous soul problems are difference from wicked soul problems of attacking righteous soul, but righteous soul problems are training and education righteous soul, physical problems and mental problems and decision problems, all of problems are all difference, but some problems are secured problems, even this problem solving losing then, these problems will be passed.

But righteous soul and wicked soul between problems, if righteous soul failed to problems then, righteous soul to be dangerous of keeping living righteous soul, so that righteous soul keep living learning righteous soul living, so that righteous soul living in destination place, series of continued problems to the righteous souls to learn.

Truly infer that righteous soul learning problems are getting difficult as going to running to the righteous soul living in destination place, this is righteous soul's basic necessary learning problems solving, some problems are second to second but also hour to hour but also day problems, week problems but also year problems, if keep solving it, then righteous soul living in destination place, help, macro concept world righteous soul living must do, so that righteous soul in the macro concept world, correct decision to live righteous soul living.

Righteous soul problems is shown in the macro concept world business bankruptcy and physical problems, but also mental problems, but also huge problems, but if this problems are from righteous soul living problems then it never give problems all problems to overcoming problems, but wicked soul "revenge and breaking problems" push to the strong penalty problems, this is push into righteous soul disappeared from macro concept world.

So that righteous soul keeps giving problems to endure and overcoming wicked soul problems solving.

If easy living of wicked soul, wicked soul problems solving problems is easy so that, wicked soul living behavior is not propound living, but shallow livings, righteous soul living expect to be propound living of

righteous soul, so that righteous soul solving problems is difficult problems to righteous souls.

Truly macro concept world livings are all

Must be problems all of actors in macro concept world, but truly infer that all of macro concept world problems are suffering, even from righteous soul living in destination place, but also wicked soul living in destination place problems deep watching.

Infer that wicked soul problems solving must be helping from righteous soul living in destination place, so that righteous soul must be in the orbit of righteous soul, so that wicked soul problems is a kind of attacking righteous soul making disappeared, so that righteous soul to be helped form string other of righteous soul, in this time righteous souls "other righteous soul shares time with me, and help me solving my problems and other righteous soul doing real love me" this is problems solving way.

Problems on the righteous soul to educate and teaching righteous soul, then, this is also righteous ore stone to be hammering and heating righteous soul me, to the righteous soul melting pot of righteous soul, this is hard to be righteous soul, this is righteous soul living in destination place's problems.

Righteous soul overcoming all of righteous soul living in destination problems, that is heling me living in propound living righteous soul, strong righteous soul of "righteous soul and nothing living" truly infer that righteous soul living being is not simple.

Because righteous soul living in destination place righteous souls are all deep and propound livings in the macro concept world, so that vertical time running, vertical time learning is hard and difficult problems solving helping bubble of creation of knowledge, here living righteous soul living is "silence and clean clear" living so that righteous soul feel bubble of creation of knowledge so that righteous soul vertical running hard problems solving.

This is righteous soul with creation of knowledge is righteous soul running vertical time living, truly infer that vertical time living is time consuming, but also young time living, so that here vertical problems solving vertical time running, then, here is really important macro concept world living shown is "keep progress, keep growing, keep fruit, keep creation of technology keep new and creative philosophical creation of knowledge also appeared, but also creative song signer best sing to help same time living of time and space do help living and hard problems solving, all of combined combination of helpers make possible vertical time living, all together righteous soul living is "it shares time with other, help other, but also doing real love other" of land of righteous soul livings come together vertical time living, so that macro concept world livings are come together all growing and fruit and still young time, new technology, all of string growing young time.

But also same time, religions monks are show righteous soul living, so that same time and space, all of group also keep grow, and fruit so that vertical time of young time, macro concept world time to be same young time and all of macro concept world living are come together keep progress and growing.

"Righteous soul creates problems and solving problems" this is real righteous soul living, macro and micro, so that righteous soul livings are gentle and good manners righteous soul livings appeared.

Vertical time living all gentle and righteous soul livings living is huge excitement with other, all of other also keep growing and young time living, this is righteous soul problems solving result.

Why I'm write these writings?

Why I'm writing?

Why I'm writing?

The answer to live in excitement

Infer that righteous soul living in destination place will be excitement place.

Until now, I have no excitement, why I have not in excitement.

Righteous soul living to be excitement, but macro concept world living me is not excitement.

Truly all of my living is hard living and suffering and overcoming living.

Truly 57 years old, perfect adult and powerful time feel excitement also comes, but truly I'm not, so then will I to be climbing Mt. why so hard to me, what make me so hard.

As I'm not in excitement then world being, I'm living in the macro concept world, my living to be debt living, why am I being hard?

Question

Righteous soul living is so hard this is right

Answer

Are you living in righteous soul living?

Righteous soul living is really hard yes.

Truly

This question also truth

Silent and clean clear with creation of knowledge

Still feeling is hard

Righteous soul and real living are hard

Truly I start this book to write a

“Time

Space

Righteous soul

Beautiful flowers”

These key words are materials to write this book, but this book “Righteous soul living TRAVELING on the macro concept world”.

Do not use, what I planned key words are not using.

Righteous soul ore of stone

“righteous soul + wicked soul + mind + body”

All living is to be “righteous soul +body” so that I start, righteous soul travel in the macro concept world “time, space, righteous soul, beautiful flowers”

But this book is not

Truly infer that will I living is “righteous soul +body”,

Or will I being still in progress to be “righteous soul +body”

What is living in the macro concept world?

Micro concept world righteous soul living is micro concept world time, but truly infer that now living me is macro concept world living also, to be real living is

Now real living = macro concept world me + micro concept world me

= (mind me + body me) + (righteous soul me + wicked soul me)

Why I’m not in excitement?

What are problems to me?

Righteous soul me + body me = righteous soul body, in the macro concept world, feeling and see, this is required.

{Righteous soul me + body} how to live creating righteous soul me being excitement.

Infer that righteous soul me living righteous soul living, righteous soul me excitement is what?

Righteous soul living is truth living

Righteous soul living is real living

Truly infer that righteous soul living me is real living, so that I'm writing a book.

But still I do not know this writing book is my way, if not this living is really not me way, then how to live, as I believe that book writing is my natural living, micro concept world creator preordained me is "book writer", but as the book writer living also it is not excitement.

Then how to I live?

Macro concept world micro concept world living role playing is "book writing" but still this role play is not excitement, what is wrong, infer that this is still I'm not a completion still growing so that this fruit is not autumn apple, but still time is not in autumn so, to be tasteful apple it need time to be feeling in excitement.

Righteous soul living,

Feeling in silent and clean clear living

But why I'm feeling fear and lonesome in me

To be feeling silent and clean clear then it must be out of fear and lonesome

This is possible by myself?

To be excitement must be inferring that helping from other

To be infer of righteous soul of excitement living is

{Righteous soul + body me} meet other {righteous soul + body} both role play is solving it, fear and lonesome problems, truly infer that fear and lonesome mixed me break righteous soul silent clean clear of excitement.

So that

{Righteous soul + body me} + {other righteous soul + other body} = righteous soul me excitement.

Righteous soul living me, try to living righteous soul me, this righteous soul only in me, or my creating book only, to be righteous soul living, to follow righteous soul living running to the righteous soul living in destination place, infer that this is not a problem to be living in excitement.

Truly infer that righteous soul me book writing is righteous soul living in destination place my creator gave me great gift macro concept world role playing is book writing.

Infer that at now my living feeling is not excitement is still going to the autumn season of harvest.

Righteous soul me living even now hard but the time will come to me

Then righteous soul me feel real excitement.

Truly macro concept world me living is

At am 5 o'clock getting up, macro concept role of work with micro concept world role of book writing, and do macro concept world work and micro concept role play of book writing, this is routines but here is there is no excitement, sometimes prostrate but my only doing is book writing so that I'm doing micro concept world role doing.

Strangely feeling some of excitement

Infer that who will be sympathy me, this is temporally feeling soon disappear from me.

Truly infer that

"righteous soul + body" + "righteous soul +body" = excitement

Micro concept world me was narrow and shallow and meek livings so that how to live in the macro concept world,

Truly all of my elementary school record is "meek", truly right I was meek all of fellows are attacking me, but I felt fear, so that enter school, but I drop a new enter to the elementary school, "meek me",

All of living segregate from majority so that all of my living in "minority living", until all of time living has been done, so my world is all losing, this is all, losing, one day if I all losing then where I am, so then, I was in the edge of area, but loser of me, there is no place to live on,

Truly infer that

As the there is no area to stand on, so that my living go deeper, of vertical time living, width is $1/\infty$ but depth is ∞ , so then all of macro concept world livings push me to the edge, but macro concept world livings do not know, there is micro concept world, so that at now living me, book writing still on micro concept world.

So that as living in macro concept world livings are not familiar so that all of my written books are not read, so that still book and me is different, sometimes that a book writer living as called as poet and novel writer but truly book writer me is not anything called me, because still I'm not a book writer.

Oh!

Why

Why I'm write these writings?

To this theme

Book writing is only what I can do, but the result is not anything, no one know me so that it is.

Book writing and excitement is not related

Book writing is still need time to be real book writing, but also living me to be excitement living.

My routine sleeping and getting up, then work and book writing, still my support is not book but my job, so then after 3 years then, to be retired, then my books will help me, then will I to be real book writer living.

After retired

Book excitement with book writer called me, then truly righteous soul living behavior of “it shares time with other, help other, but also doing real love other”, this living must be strong excitement.

If creator help me open me to live with the poor, then after retired then, will I to be excitement with the poor.

Recently I pray it.

How to open for me with living the poor

I'm fresh it.

Books are surviving in the book world, then the books are my children so that my children and me some of excitement energy will be create, then infer that righteous soul me living to be excitement living.

Truly at now

Today routine of book writing near to complete

Then, at now living me come to me feel pleasure

I feel saying “heavenly father really thanks you”

This routine is really excitement to me

Oh!

Now feel in excitement to me.

Why I'm write these writings?

The answer to this question is to be feel in excitement.

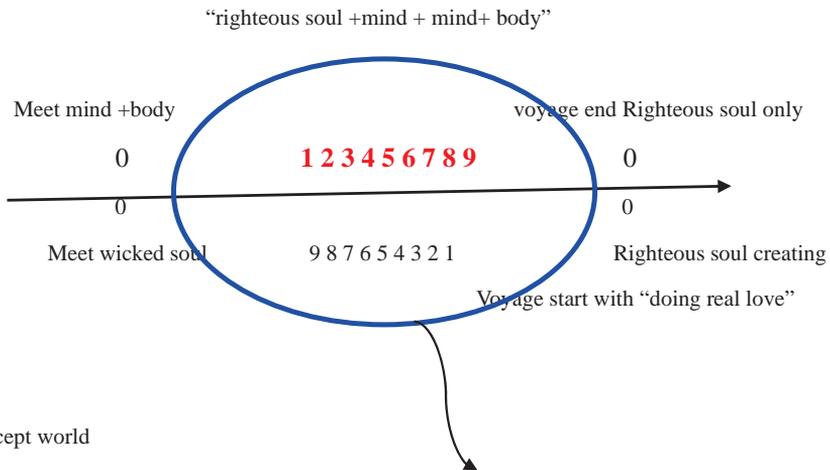

Oh! If I to be feel excitement cause of my book children surviving in the book world then, infer that

Righteous soul me to be really feeling in excitement.

Righteous soul living in destination place righteous soul me creator will be huge excitement with my books surviving as righteous soul me feel in excitement then, righteous soul me creator also huge excitement.

Righteous soul traveling Macro cosmos and micro cosmos

Macro concept world: **Macro concept world cosmos**

Righteous soul voyage orbit
Micro concept world cosmos

Righteous soul travel in a space

So then, righteous soul traveling in micro concept world cosmos

And righteous soul traveling to macro concept world cosmos

Micro concept world cosmos

Righteous soul travel to meet wicked soul

Macro concept world cosmos

Righteous soul meet “mind + body from macro, from micro of wicked soul and righteous soul”

Righteous soul traveling to macro concept world cosmos

Righteous soul + wicked soul + mind + body living space.

Righteous soul traveling to micro concept world cosmos

Here is only “wicked soul; think of wicked soul”

Micro concept world is righteous soul of space.

In the micro concept world cosmos righteous soul feel silent and clean clear feeling it righteous soul, but in the moving actor only think of wicked soul, so that while there is no think of wicked soul then, righteous soul feels that silent and clean clear.

The as macro concept world cosmos feels silent and clean clear then

There is no “righteous soul + wicked soul + mind + body”

Furthermore, macro concept world cosmos feels silent and clean clear then

“righteous soul + wicked soul + mind +body” is same as macro cosmos then macro cosmos feels silent clean clear.

Here is macro concept world cosmos feeling in silent and clean clear then,

The old time righteous soul living said that “物我一體”

“righteous soul + wicked soul +mind +body = macro concept world cosmos” this is “物我一體”

In the macro concept world righteous soul see macro concept world, traveling then, here is infer of righteous soul in the macro concept world, so that righteous soul living principle is righteous soul living space just like micro concept world is space of righteous soul, so that macro concept world = righteous soul is infer of possible.

In the macro concept world micro concept world cosmos of righteous soul feel, see when feeling is silent and clean clear then,

“righteous soul + wicked soul + mind+ body”, here is “mind $1/\infty$ ” as that friend mind of wicked soul also to be $1/\infty =$ righteous soul + body” then in the macro concept world righteous soul traveling then feel and see is silent and clean clear.

Truly infer that macro concept world cosmos and micro concept world cosmos is same.

Infer of compares that

Righteous soul long distance = righteous soul short distance

Righteous soul long distance $-\infty/0 \sim -1/\infty \sim +1/\infty \sim +\infty/0$ = righteous soul short distance $-1/\infty \sim +1/\infty$

Righteous soul travel macro concept world is righteous soul of micro concept world cosmos, and macro concept world cosmos, so then righteous soul tries to be living in “silent and clean clear of excitement”, this is

righteous soul living travel.

In the macro concept world righteous soul living feeling is “silent and clean clear” with bubble of creation of knowledge getting then, this is righteous soul now traveling macro concept world.

Righteous soul macro concept world traveling in excitement of silent and clean clear is voyage in the orbit of righteous soul living in destination place.

In the orbit of righteous soul living voyage, then macro concept world cosmos is huge beautiful but also flowers are really excitement to the righteous souls.

Even righteous soul macro concept world mission “righteous soul meet lover of wicked soul does real love lover of wicked soul, and create righteous soul of lover”, this hard living of righteous soul sees and feel flowers then righteous soul being huge excitement.

Righteous soul in the macro concept world, dreamed in the righteous soul living in destination place, as righteous me meet body, so that righteous soul + body= righteous soul body, righteous soul me see fully beautiful flowers and taste and scent of flower.

Infer that righteous soul living excitement being silent and clean clear with flowers of scent then, righteous soul and flower of scent is same, so that macro concept world cosmos do not feel loudly of dirty of wicked soul, but silent and clean clear of righteous soul and flower scent this is really excitement righteous soul in the macro concept world traveling.

TEAN of Chung Nam province South Korea

Righteous soul travel to macro concept world, then this picture of real place righteous soul to be feel silent and clean clear of excitement.

Righteous soul traveling macro concept world feeling scent of flowers this is hard living of just time of macro concept world living feeling in excitement.

Righteous soul macro concept world travel is macro and micro and macro and micro livings.

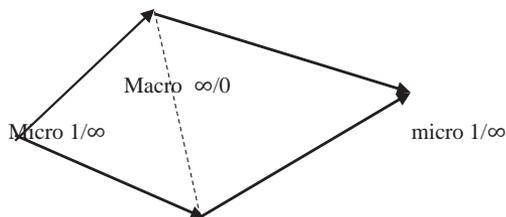

“Righteous soul traveling Macro cosmos and micro cosmos” this is righteous soul is both micro and macro space is all righteous soul living itself, righteous soul and cosmos ruling principle is same, righteous soul living then in the end of macro concept world then end of traveling safe returning to the voyage beginning place, but do not living of cosmos law of righteous soul living then, it never save returning to the righteous soul voyage beginning place.

Righteous soul voyage to macro concept world and safe returning to the righteous soul living in destination place is macro concept world voyage complete, so called righteous soul living traveling purpose complete and in the end macro concept world voyage; righteous soul macro concept world mission clear, “ righteous soul meet lover of wicked soul and do real love lover of wicked soul and create lover of righteous soul”, then righteous soul macro concept world traveling “123456789” is really critically important.

Righteous soul macro concept world travel is

One is micro concept world righteous soul living in destination place with body all of excitement living real living of doing, second is righteous soul living mission clear, so that righteous soul livings macro concept world travel to be being excitement is really urgent to do.

Righteous soul voyage Micro to macro and macro to micro

Righteous soul voyage micro to macro and macro to micro.

This is righteous soul orbit, so then, both micro $1/\infty$, so then righteous soul voyage complete is sure of concentration to $1/\infty$, but from micro to macro is divergent so that to $\infty/0$.

Here is sure of righteous soul travel show that “123456789” is righteous soul travel, but righteous soul voyage completion is “01234567890” until now my books writing, so then here is “micro to macro and macro to micro” then critical creation of knowledge is coming.

Truth of infer that

In the macro concept world travel “123456789”, some of other conception of creation of knowledge appeared.

While micro to macro then, “0+1=1,1+2=2,2+1=3,3+1=4,4+1=5,5+1=6,6+1=7,7+1=8,8+1=9” this is righteous soul livings do not know but infer that I do not know but energy getting, infer but

So that righteous soul travel course is “0123456789” micro to macro, but righteous soul must be safe returning to the righteous soul living in destination place, so then

Macro concept world to micro concept world is “9-1=8,8-1=7,7-1=6,6-1=5,5-1=4,4-1=3,3-1=2,2-1=1-1=0”

Here is really strange infer of creation of knowledge appears.

Infer that micro concept world to macro concept world must be living or travel in the macro concept world so that righteous soul livings energy getting to macro concept world travel completion, here is righteous soul living with wicked soul and mind in the macro concept world, but also righteous soul living righteous soul ore of stone of “righteous soul + wicked soul + mind + body” so then, righteous soul at least living with body, so that

Micro to macro to be energy increasing “0123456789”, macro to micro is to be energy decreasing “9876543210” appeared up, so that righteous soul travel macro concept world is infer that energy increasing.

This is righteous soul living in the macro concept world, this concept now newly and creation of knowledge of coming, so that macro concept world energy, righteous soul living energy is required so that before returning to

the macro concept world righteous soul living energy required to increasing energy.

Why righteous soul energy increasing in the macro concept world, is righteous soul orbit using energy for returning to the righteous soul living in destination place, but also increasing righteous soul energy to be used righteous soul macro concept world mission “ righteous soul meet lover of wicked soul, and doing real love and creation wicked soul to righteous soul”.

So that righteous soul from “poor & righteous soul” to “righteous soul & nothing” so then, righteous soul growth.

Righteous soul growth is “ $0+1=1, 1+2=2, 2+1=3, 3+1=4, 4+1=5, 5+1=6, 6+1=7, 7+1=8, 8+1=9$ ”

Righteous soul mission carries and clear is “ $9-1=8, 8-1=7, 7-1=6, 6-1=5, 5-1=4, 4-1=3, 3-1=2, 2-1=1, 1-1=0$ ”

Infer that righteous soul living energy is scale then righteous soul macro concept world energy traveling is micro to macro and macro to micro is “0123456789-9876543210” this is micro to macro and macro to micro, then here is safe returning from macro concept world travel and voyage is appeared up “0123456789-9876543210”.

This is inferring of righteous soul living travel,

Righteous soul to be living and travel in the macro concept world righteous soul energy increasing, but righteous soul living macro concept world mission then, righteous soul energy to be used so decreasing, righteous soul living energy to be “0”, then righteous soul travel and voyage complete, but also righteous soul mission also clear.

“ $9-1=8, 8-1=7, 7-1=6, 6-1=5, 5-1=4, 4-1=3, 3-1=2, 2-1=1, 1-1=0$ ”, Righteous soul living behavior is “ it shares time with other, help other, but also doing real love other” to be “0”, then this is to be safe reach at the righteous soul living in destination place.

Here is only righteous soul traveling and voyage, so that until now, micro concept world meet wicked soul start meeting is not certain, but here is important is righteous soul travel, so that here is wicked soul is not matter, there is no any variance.

Here is sure important creation of knowledge is righteous soul livings are must know that macro concept world to be safe returning to the righteous soul living in destination place, righteous soul to be 0 of righteous soul and nothing is certain.

Righteous soul voyage is truly inferring that truly hard, how hard from macro to micro concept world, being righteous soul & nothing.

If righteous soul living way “ $9-1=8, 8-1=7, 7-1=6, 6-1=5, 5-1=4, 4-1=3, 3-1=2, 2-1=1, 1-1=0$ ”, complete macro concept world voyage, but if living the “ $0+1=1, 1+2=2, 2+1=3, 3+1=4, 4+1=5, 5+1=6, 6+1=7, 7+1=8, 8+1=9$ ” then this living all to be fall to the wicked soul living in destination place, so called do not complete macro concept world voyage.

If righteous soul living of “ $9-1=8, 8-1=7, 7-1=6, 6-1=5, 5-1=4, 4-1=3, 3-1=2, 2-1=1, 1-1=0$ ” then righteous soul safe returning to the righteous soul start voyage “0”, even righteous soul safe returning “0” is + righteous soul – righteous soul, -righteous soul + righteous soul = righteous soul unit to be creator of creation of righteous soul in the righteous soul living in destination place.

But macro concept world voyage failure of “ $0+1=1, 1+2=2, 2+1=3, 3+1=4, 4+1=5, 5+1=6, 6+1=7, 7+1=8, 8+1=9$ ” then macro concept world voyage incomplete so then, this hard voyage of macro concept world again to be voyage with a creation of righteous soul in the righteous soul living in destination place.

Incomplete wicked soul living to be must be voyage hard to macro to micro, why righteous soul living is excitement is even macro concept world “poor and righteous soul” but to be “righteous soul & nothing” of complete macro concept world voyage, then righteous soul of safe returning then, in the righteous soul, being of creator of new creation of righteous soul.

While righteous soul traveling macro concept world, righteous soul living in destination place helping of creation of knowledge lecture to me do live righteous soul living

Our grandmother do not learn anything, but only rice filed work, early day breaking rice cook by fired, and clothe making, just woman all family work, from am 3 a clock to pm 10, do not rest endless working, but husband mother always criticize her, but also husband drunken and make hard, the woman of grand mom.

pain, agony, torment, torture, suffering, distress, anguish, painful, agonizing, distressed; distressing a woman how to live, grand mom only care of children so that all of difficult thing overcoming.

At now to me, my grand mom as the memorable missing a woman, truly infer that my whole living energy from her, how to be possible this, while my difficult time, then I'm rely on my grand mom.

Grand mom, how to overcome of hard thing, my grand mom will be living righteous soul living. "poor and righteous soul living", all of poor and hard living, but she had lived her, grand mom "poor and righteous soul" travel in the macro concept world, who did not any education but only, so early girl to be a woman of mother, but she lived a poor family support, only she care family eating, truly there is no eating materials, boiled barley and winter season sweat potato only, just living, but it also all responsibility so that grand mom farm filed working, so grand mom, lived that.

At now grand mom living in the righteous soul living in destination place, truly infer that my grand mom, righteous soul was, so that grand mom meet lover of wicked soul of grandfather, grand mom did real love wicked soul grandfather who living only his easy living, gambling at night, onetime lose in gambling so that lost the rice field of all of family living asset but grandfather case of gambling, grand mom who knows it, but grand mom did real love grandfather, righteous soul grandmother whose living is "0123456789-9876543210", her living was all get all give to zero of energy, but righteous soul she macro concept world voyage complete so that, she is now my living helper, my really hard time grand mom, help me, solving all of problems helped from her of righteous soul.

True of infer that how to righteous soul of grand-mom, overcome of so hard and difficult of macro concept world travel and voyage, righteous soul of grand mom, living vertical time living, so that righteous soul of grand mom, there is no farm field, the area is fixed so that, impossible support family, so that righteous soul grand mom, labor of work of other farm working, so that grand mom's living is vertical time living, width living was $1/\infty$, but depth of living is ∞ , so this is miracle how to grand mom support family, but her living in vertical time living, so that, righteous soul living grand mom, complete macro concept world voyage.

Infer that righteous soul grand mom complete macro concept world voyage, so that -righteous soul mission + wicked soul of lover meet, and - righteous soul do real love lover of + wicked soul, in the end -righteous soul +righteous soul creating, this is great miracle, - righteous soul create + righteous soul, so that righteous soul grand mom and grandfather at now living at righteous soul living in destination place, so that here is infer of, at now righteous soul me living of travel macro concept world, my creator would be my grand mom of safe return and being righteous soul living macro concept world complete,

So that infer of it, my creator of grand mom sees my every time, to safe returning to the righteous soul living in destination place, my grand mom of righteous soul keep signal to me, to teach and to solve my faced problems.

As this is possible righteous soul me living is “silent and clean clear living” so that righteous soul me feel and learn from my creator of grand mom, really loving me of bubble of creation of knowledge endless signal to me.

My now macro concept world living all my grand mom righteous soul behavior to me “ my grand mom of righteous soul shares time with me and help me but also dong real love me”, so that as my living was so weak and meek and docile living, huge segregate from majority of 99% to 1% of me, elementary school, at now my working place also, so that my promotion also delayed my after runner run on me, so that truly infer that my living was so hard, torture of hard, just like my grand mom did.

Truly I'm really excitement with even I'm really meek and docile do that all of physical human networking all of human being living is not as normal livings, but my living also possible vertical time living as righteous soul me losing with in the living of horizontal time with all of other of wicked souls steals me, so that to survive that righteous soul me, direction to change into vertical time living, that is now book writing, even my book writing there is no any coins of royalty but powerfully book writing.

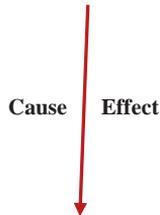

Book writing righteous soul me, but also my grand mom who did not any studied in school, but my grand mom, macro concept world voyage complete and being creator me, how to explain, righteous soul me book writing is 21 books, truly now forget it how many book writing soon, the number of book is not make sense, this all helped from righteous soul living in destination place of bubble of creation of knowledge so that my grand mom living also all helped from righteous soul living in destination place, whose all problem solving, but also grand mom endure of so hard living condition but all living, then my grand mom, every time and moment heard in the broadcasting then, my grand mom, learn lecture of how to live, my grand mom, must be infer that, she knew that righteous soul living, so that after that her living all day excitement.

Already my grand mom being “righteous soul & nothing” she fully carry macro concept world mission “ righteous soul meet lover of wicked soul and do real love lover of wicked soul and then create righteous soul of lover” who knows, it is not easy but she did, because she had lived beyond, here macro concept world mind level livings, but righteous soul living was righteous soul living, so that righteous soul what she had all give to her lover, so “0123456789-9876543210” to the end her righteous soul living energy to be 0, she cross to the righteous soul living in destination place, 9 to 0, this is righteous soul macro concept world voyage mission complete so that my grand ma being righteous soul creator in the righteous soul living in destination place.

Truly infer that at now my creator will see me, every time every moment care me, as my creator of grand mom, who now all of helping me, every day morning my book writing and my macro concept world travel all my creator helping me, righteous soul me and creator of my grand mom, now string connection, infer that at now will I to be my righteous soul mission now doing, whenever my grand mon and righteous soul creator going with me, help me.

At now my living still learning through bubble of creation of knowledge, after this macro concept world voyage complete righteous soul me and my lover of righteous soul both safe returning to the righteous soul living in destination place, my creator of grand mom, righteous soul my creator will be huge excitement with my complete macro concept world living complete, righteous soul me and righteous soul of my lover both compete macro concept world and meet my creator but also my creator and righteous soul me and lover of righteous soul, how excitement, heavenly father help me to do, complete macro concept world, and living righteous soul living in destination place with my righteous soul lover.

Righteous soul road, traveling

Righteous soul road, traveling course is red arrow, infer that red arrow to be vertical time running also, but here is huge important.

Truly infer that red arrow is righteous soul road and infer that righteous soul travel course.

Truly infer that cause is relative past, effect relative to future, so then righteous soul living in inter of cause and effect.

Here is cause before, effect after, so that righteous soul road or travel is inter of before and after.

But also, strong important righteous soul road and travel course is that cause is end, effect is beginning so that righteous soul runs inter end and beginning.

Truly infer that righteous soul living travel is end to begin, so that righteous soul living is to be righteous soul living run and travel then, righteous soul connects to righteous soul living in destination place, so that righteous soul every second connect to righteous soul living in destination place.

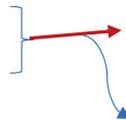

Cause = end+ righteous soul living in destination place

Effect = beginning + righteous soul living in destination place.

So then red arrow of righteous soul traveling is every time decision of righteous soul living road, so that righteous soul helped form righteous soul living in destination place, so called righteous soul do not deviation from righteous soul living in destination place direction orbit.

Cause= end + righteous soul living in destination place

Effect = beginning + righteous soul living in destination place

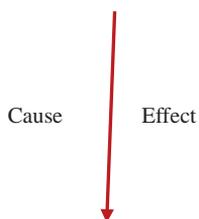

Righteous soul direction of orbit

But

Cause = end – do not connect to righteous soul living in destination place
Effect= beginning – do not connect to righteous soul living in destination place } out of orbit to
righteous soul living in destination place

Then righteous soul macro concept world travel to be lost form righteous soul living in destination place.

This is huge righteous soul livings lost righteous soul living direction orbit, so that righteous soul to be Disappears.

Righteous soul living in the macro concept world living with wicked soul, mind and other righteous souls, so then, here red arrow of righteous soul cause to be meet wicked soul then

Cause = end + wicked soul; changed course

Effect = beginning + wicked soul: out of course on the righteous soul living in destination place

So that righteous soul out of orbit of righteous soul living in destination place

Truly infer that here is red arrow is kind of $-1/\infty \sim +1/\infty$ line so that righteous soul to be runs without any past of wicked soul then cause is

Cause= end + righteous soul living in destination place

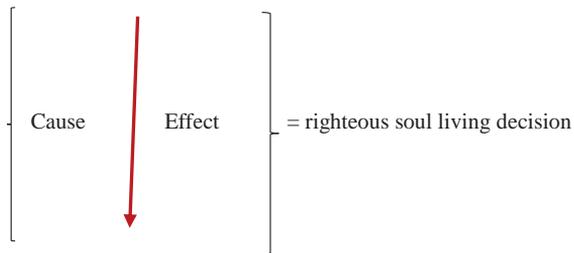

So that righteous soul can travel correct of righteous soul living in direction of righteous soul orbit.

Truly infer that all of second decision to the direction of running to be correct decision must be connected to the righteous soul living in destination place creation of knowledge.

Truly infer that righteous soul know that from creation of knowledge, must keep a law of critical creation of

knowledge but also discrimination from wicked soul deceit decision to go for the righteous soul living in destination place.

Truly infer that all of moment decision is righteous soul decision or wicked soul living decision, if righteous soul living decision the effect of result to be righteous soul living in destination place reach, but to be wicked decision of then effect of result to be not to be righteous soul living destination place.

Multi righteous soul living decision to be cause + righteous soul living in destination or wicked soul so that righteous soul living decision is not constant of righteous soul living decision, so that this is variance.

Righteous soul living decision variance to be affect righteous soul living in destination direction running or wicked soul living in destination place,

Infer that to be living righteous soul living then, automatically righteous soul living decision is required, this is righteous soul living energy, this energy defense to the wicked soul revenge and breaking.

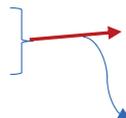

Righteous soul living energy is getting from “it shares time with other, help other but also doing real love other”.

This is righteous soul safe and strong running to the righteous soul living in destination place, in the macro concept world traveling is directly affects righteous soul living energy of righteous soul living behavior “it shares time with other, help other, but also doing real love other”.

Then, living in righteous soul but also, in the end

Cause= end + righteous soul living in destination place

Effect = beginning + righteous soul living in destination place

Righteous soul direction of orbit

Is possible and occur then, righteous soul runs automatically safe running in the righteous soul's orbit of traveling.

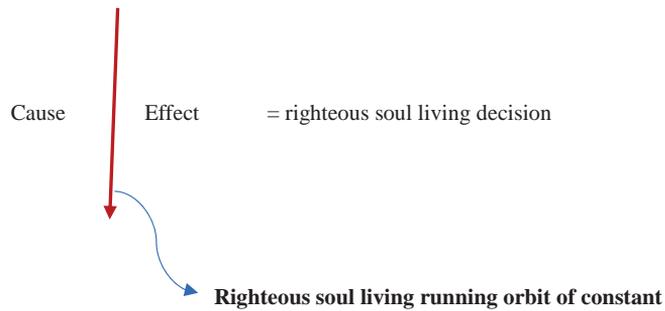

“Righteous soul road, traveling” is really required to do righteous soul living behavior of righteous soul living energy getting, so that automatically righteous soul living in destination direction decision, this is really safe living, righteous soul safe traveling in the macro concept world.

Infer of this

All of macro concept humans inside world all of time decision, where to go, what I will do, this is all “righteous soul road and traveling in the macro concept world”.

Infer that righteous soul living orbit is not many, righteous soul living running orbit is constant.

Righteous soul living traveling constant is also

Therefore, righteous soul only running way is red arrow line.

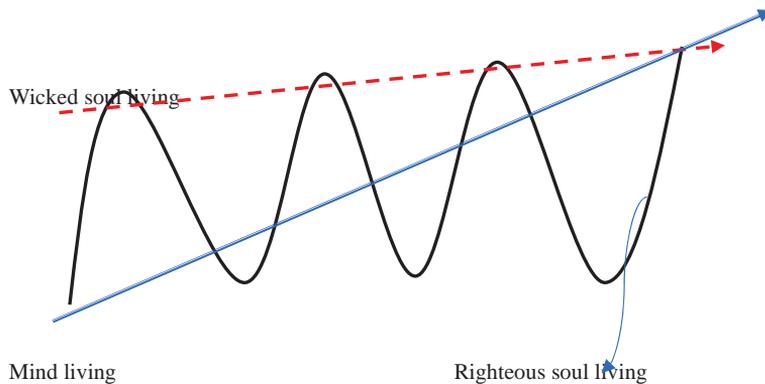

Righteous soul traveling is all changing on the macro concept world

Righteous soul is real living

Real living is every second and time to be changed, this is righteous soul.

Righteous soul travel on the macro concept world, then righteous soul run, move every second, so that righteous soul faced all difference of change.

Righteous soul change and wicked soul change and mind level change is inferring of this

Real living of righteous soul changing is sine curve, this is every second changing, truly only this is but wicked soul living infer of world is top of position getting, but also from macro concept world mind try to be “getting much more than other” so that this is also infer of world of expecting to all the time going up.

But true of real living of righteous soul living is every second to be changed.

So then, righteous soul living only change, but infer of world wicked soul and mind is only try not to be changed so that wicked soul and mind try to be their way but wicked soul and mind level is only infer of living, truly only righteous soul of living is up and down living of change.

Here of righteous soul going and going down is righteous soul runs to the top and going down to the bottom, so that righteous soul of real living is must be inferring that going up to be hard but going down to be down.

Infer of it

Righteous soul going up is

$0+0, 0+1=1, 1+1=2, 2+1=3, 3+1=4, 4+1=5, 5+1=6, 6+1=7, 7+1=8, 8+1=9$

Righteous soul going down is

$9-1=8, 8-1=7, 7-1=6, 6-1=5, 5-1=4, 4-1=3, 3-1=2, 2-1=1, 1-1=0$

Righteous soul living all time changing.

Truly change is getting better or getting worst changing it is the righteous soul living, if getting worst then righteous soul living go down, in this time righteous soul to be lose, game losing, then infer that from this righteous soul to be leaning, this is try to teach righteous soul, righteous soul living in destination place righteous soul living behavior.

Truly change to be better then, righteous soul living tries to give energy, infer that this energy, but also hard training of righteous soul living so that some of safe time given to the righteous soul by the righteous soul living in destination place.

So then at now traveling righteous soul accept getting worse and better, this is all from righteous soul living in destination place.

This is a kind of righteous soul living principle, circulation going up and truly go down, righteous soul is not endless going up, endless going down is not, this is righteous soul living principle.

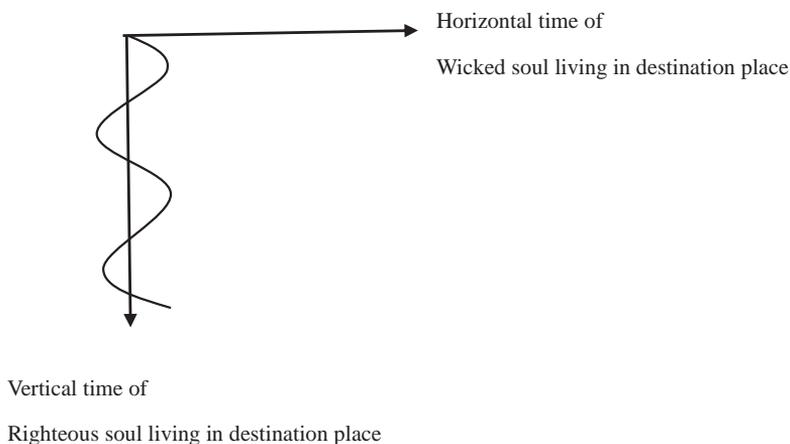

So that righteous soul living principle is if righteous soul follow up of righteous soul changing, then all is changed, so that at now if I'm hard time, soon to be changed into getting well, so then to be getting well, it is now hard, infer that hard time is safer because righteous soul living is change so that as now getting better then truly infer that soon to be beginning hard time, even this is teach me to be living in righteous soul living in destination place.

All of righteous soul change, so that at now traveling righteous soul to be changed into micro concept world wicked soul living, or righteous soul living world to changed.

Truly infer that if righteous soul follow of righteous soul changing then, righteous soul living to be righteous soul living in destination place of micro concept world living, but truly infer that if do not follow righteous soul changing then, the living to be not change of drop or fall to the wicked soul living ground.

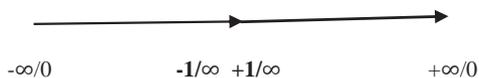

Righteous soul living orbit also to be infer that going up and going down of changing curve, this is righteous soul living in destination direction of changing of orbit to the righteous soul living in destination place.

Righteous souls are running to the vertical time living so then righteous soul liver of vertical time to be keep changed up and down.

Righteous soul living is vertical time living and every moment to be changing this living is hard living, vertical time living is going depth so that it need to be helped from righteous soul living in destination place of creation of knowledge, but also while righteous soul living every moment changing so that, infer of it, righteous soul living ways is “silent and clean clear + creation of knowledge” righteous soul endless learn and solving problems righteous soul living vertical running.

Righteous soul living moving to the righteous soul living is sure of righteous soul run and moving to the vertical time, so that righteous soul feel all of new, and righteous soul to be living righteous soul and & nothing

Truly infer that righteous soul change to reach at the $-1/\infty \sim +1/\infty$, here is righteous soul to be “righteous soul & nothing”, this is being reaching as righteous soul living, righteous soul living in destination place, infer of strange, some of strange creation of knowledge here is $-1/\infty, +1/\infty$ both here it is righteous soul living in destination place.

$-1/\infty$ is end of past, but $+1/\infty$ is future of beginning, then it is time of righteous soul changing explain but here is infer of strange explain then only result of being vertical time reaching is decreasing to be $1/\infty$, so then infer

that here is righteous soul, do not clearly understand then, $-1/\infty$ moving to right, but $+1/\infty$ from moving right direction, so then, meet $-1/\infty+1/\infty$,

Here is estrange result of infer is comes

Righteous soul living righteous soul living behavior of “it shares time with others and help others but also doing real love other”, but also righteous soul goes down

Righteous soul going down is

$9-1=8, 8-1=7, 7-1=6, 6-1=5, 5-1=4, 4-1=3, 3-1=2, 2-1=1, 1-1=0$

But righteous soul going up is

Righteous soul going up is

$0+0, 0+1=1, 1+1=2, 2+1=3, 3+1=4, 4+1=5, 5+1=6, 6+1=7, 7+1=8, 8+1=9$

{Righteous soul going down is

$9-1=8, 8-1=7, 7-1=6, 6-1=5, 5-1=4, 4-1=3, 3-1=2, 2-1=1, 1-1=0$ } meet {Righteous soul going up is

$0+0, 0+1=1, 1+1=2, 2+1=3, 3+1=4, 4+1=5, 5+1=6, 6+1=7, 7+1=8, 8+1=9$ } = $-1/\infty\sim+1/\infty$

Righteous soul moves to righteous soul living in destination place is $-1/\infty\sim+1/\infty$, then infer that I do not explain but from – to move to righteous soul living in destination place, from +to move to righteous soul living in destination place, this is do not know, but strange infer of righteous soul meet, in the righteous soul living in destination place so that $-1/\infty\sim+1/\infty$ = here is righteous soul living in destination place.

Here is righteous soul living in destination place to be $-1/\infty$ as – righteous soul, but $+1/\infty$ is + righteous soul so then meet in the righteous soul living destination place.

Even this is result of truth of infer but, macro concept world – righteous soul meet + righteous soul, + righteous soul meet – righteous soul, through righteous soul voyage to macro concept world, so that righteous soul macro concept world voyage is “righteous soul meet lover of wicked soul and do real love lover of wicked soul and create lover of righteous soul” so that, infer of $-1/\infty\sim+1/\infty$ is righteous soul living in destination place then, infer of time and space and actor and righteous soul living in destination place to be same $-1/\infty\sim+1/\infty$, same.

But infer of excitement is here is righteous soul living in destination place, time and space and actor is same then, $-1/\infty$; - righteous soul, $+1/\infty$; +righteous soul, so then these +righteous soul,-righteous soul create a new fresh righteous soul to be voyage to macro concept world.

Here is really infer of truth is righteous soul living in destination place is $-1/\infty \sim +1/\infty$, righteous soul living is only truth so that righteous soul living keep change to be micro concept world righteous soul living in destination place reaching.

Truly infer that righteous soul living is keep up and down, so that if righteous souls keep follow of this changing then this is righteous soul livings.

Who knows if I were to now poor, do not well living, soon changing to be getting well living in the macro concept world, but also at now getting well to be change to be worse?

No one know it, so that at now hard living all to be get courage, here is truly important thing is living in righteous soul living then, truly infer that changing living, if now getting worse then soon to be living getting better.

This righteous soul living.

Righteous soul changing righteous soul and righteous soul living conditions because righteous souls are running to the righteous soul living in destination place at now macro concept world.

Truly infer that

Here of macro concept world righteous soul +body living also feel it, because every day morning all difference meeting person and temperature of space condition also all changed then, then infer of it, here also all changed righteous soul living me and righteous soul living me time and space all changed.

Who know righteous soul me now going up or going down, infer that going up is

Righteous soul going up is

$0+0, 0+1=1, 1+1=2, 2+1=3, 3+1=4, 4+1=5, 5+1=6, 6+1=7, 7+1=8, 8+1=9$

This is hard feeling of excitement feeling is all of righteous soul difference,

But also

Righteous soul going down is

$9-1=8, 8-1=7, 7-1=6, 6-1=5, 5-1=4, 4-1=3, 3-1=2, 2-1=1, 1-1=0$

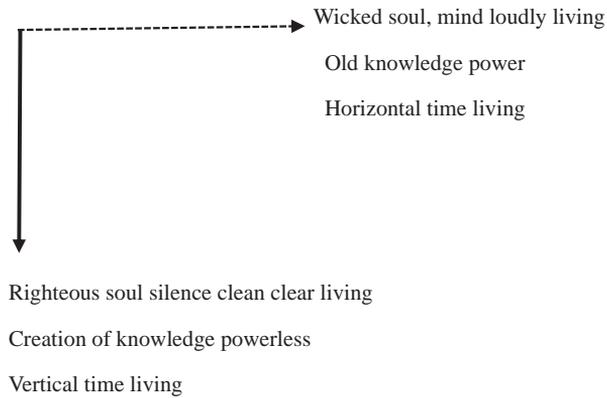

This is righteous souls are excitement or hard who knows, all of righteous soul livings are difference.

But sure, of righteous soul living runs to the righteous soul living n destination place, of time and apace all to be changed.

Righteous soul changing is living righteous soul, but keep a line to up and going up is infer of do not real of wicked soul and mind livings.

Truly infer that all of righteous soul livings suffering living but soon getting well living, righteous soul living in destination place is safe going back + righteous soul – righteous soul, - righteous soul +righteous soul, this is really excitement righteous soul, if macro concept world righteous soul suffering living, then micro concept world righteous soul living in destination place to be excitement and perfection living of 01234567890 of final 0 of righteous soul creator role, this is really righteous soul living.

Righteous soul excitement silence clean clear

Righteous soul living silence and clean clear living is feeling lonesome of not strong power,
But wicked soul, mind loudly living of doing not feeling lonesome of strong power.

Vertical time living

Silence and clean clear living of excitement

Horizontal time living

Loudly living of old knowledge strong power

Old knowledge and strong power

Infer that old knowledge is law and history of test getting position of power

Creation of knowledge and powerless

Infer of poem writer and philosopher there is no power

Macro concept world livings are all together to the loudly place

Infer of living opportunity larger.

Vertical time living

Righteous soul silence clean clear living

Creation of knowledge powerless

Meeting righteous soul living creator

Righteous soul living creator help righteous soul living in silent and clean clear

Silence clean clear

This is righteous soul get a bubble of creation of knowledge

Even war time

Righteous soul feels in silence and clean clear of not fear

Righteous soul with creator meets in the righteous soul broadcasting from righteous soul living in destination place.

At this time

Righteous soul knows that here end is righteous soul to be jump to the righteous soul where prepare to meet me, righteous soul complete macro concept world voyage in excitement

Righteous soul feel silence and clean clear

Silence

Clean

Clear

All similar but not similar

Silence is out of wicked soul and mind living loudly

Clean is all set all is righteous soul living of space

Clear is can see macro concept world to micro concept world creator

Righteous soul silence and clean clear

Huge excitement because

Dream to meet righteous soul creator

Macro concept world righteous soul huge excitement as

Macro concept world livings poor, sick and body to be being almost disappeared

Then righteous soul feels in excitement soon to meet creator of righteous soul

“Righteous soul excitement silence clean clear”

Truly righteous soul excitement of silence and clean clear

Macro concept world righteous soul all, if feeling this then I am being righteous soul

Righteous soul feels silence and clean clear

Righteous soul creates wicked souls to righteous soul as tools of doing real love other

So that righteous soul feel silence and clean clear, there is no wicked souls all changed to righteous soul

As righteous soul living, then around of righteous soul, all to be being creating righteous soul

Righteous soul vertical time living is

Righteous soul living not an island but land living

Righteous soul living creation of knowledge all spread to vertical time living all livings

So that righteous soul living is land

Righteous soul living vertical time living all together safe runs to the righteous soul living in destination place

Vertical time living righteous soul livings are shown to macro concept world to be peace and well living of creation of knowledge all accepted by other elder of righteous souls, so that the living place is vertical time living of fresh and new creation of knowledge of young time livings are growing.

Righteous soul living silence and clean clear is all fit to the cosmos law of righteous soul law all so that righteous soul vertical time living is new and beginning so that the time is all green and keep blossom of flowers

This is righteous soul feeling of “silence and clean clear”

Vertical time livings are silence and clean clear

Is beautiful flower garden

Is well designed correct nature

Is beautiful natural creature of sound, bird singing, windy

Righteous soul feel seeing as “silence and clean clear”

Righteous soul living vertical time living is dream clear before after creating righteous soul from creator

Creating righteous soul dreamed meet body and feel seeing silence clean clear of excitement

Truly infer that

Righteous soul vertical time living is creation of knowledge

This is can solve vertical time living vertical road problems

Creation of knowledge is righteous soul problems solving answer

Righteous soul living in destination place, creator do problems but also give creation of knowledge of solutions.

So that as if living righteous soul, then all of problems to be solved

This is righteous soul living

This living it don't necessary over runs like horizontal time of width ∞ ,

But righteous soul vertical time is depth to be ∞ , so that if do not living righteous soul

Never solving problems so that wicked soul and mind never to be solve it

Only righteous soul of creation of knowledge helping so that righteous soul runs to deep

Slowly but correctly

Slowly but truly

This problem all creation of knowledge to live righteous soul living in destination living

So that problems creator issuers help as creation of knowledge to solve it

Righteous souls, help other righteous souls, because righteous soul living behavior is "it shares time with other, help other, but also dong real love other", vertical time living is not same as horizontal time living, horizontal time living runs first to get width, but righteous soul it don't have to run because righteous soul of creation of knowledge getting and creation of knowledge spared all of righteous soul, but also other righteous soul creation of knowledge also spread so that righteous soul of vertical time livings are all land of group of one is moving to the righteous soul living in destination place.

Vertical time living of righteous soul livings are not competition but help each other, this is righteous soul living in destination place livings.

Righteous soul living is normal, courteous and good manners consideration each other

Vertical time living is cosmos law and righteous soul living law, so that automatically all of vertical time livings are runs to the righteous soul living in destination place.

Vertical time living is based on mind $1/\infty$

Then righteous soul activation to runs to the vertical time living

This is round is righteous soul, so that righteous soul and nothing truly infer that just nothing a righteous soul of macro concept world, so that righteous soul macro concept world living of righteous soul feeling is “silence and clean clear”.

macro concept world livings are all hard living

macro concept world is really hard living

macro concept world livings are a living place, and living time

a macro concept world living time is if deteriorated time then time is hard, but also living place is dry area then hard to live, simply hard to eat.

Truly macro concept world yin (-) yang (+) being broken harmony

Infer that at now living yin (-) try to living on yin (-) but yang (+) do not do role of it, this is macro concept world living is harmony broken

Truly righteous soul macro concept world living also so hard how to righteous soul meet lover of wicked soul so that create lover of wicked soul to righteous soul, how hard wicked soul do not know anything righteous soul living macro concept world mission, so that righteous soul living in the macro concept world living is huge hard living.

Cosmos law and righteous soul living it never friend to wicked soul and mind level, even wicked soul try to live in easy living, how to be in easy living, wicked soul living some of moment easy living, but in the end the living torture of hard living.

But also mind livings are always try to be living "getting much more than other", this is not simple because other mind level also same living, so that mind level livings are all hard living try to get much more than other.

"macro concept world livings are all hard living"

Righteous soul living in destination place safe returning "01234567890" final 0 "+ righteous soul – righteous soul, and -righteous soul + righteous soul" of macro concept world voyage complete righteous soul feel fear of macro concept world living huge hard living, so that righteous soul creator of complete of macro concept world living righteous soul safe returning how hard living was.

Truly infer that macro concept world true livings

As being "mind 1/∞" of righteous soul living activation livings are how hard, because wicked soul revenge and breaking me, and mind level livings all getting with wicked soul, so that righteous soul's living is poor & righteous soul, the living is macro concept world huge hard living.

Truly infer that so that

Macro concept world livings are all

Wicked soul and mind livings to get living not hard living but easy living, huge livings hurry living.

Righteous soul living in the macro concept world

So hard living, then righteous soul creator feel there is so hard living of righteous souls, then righteous soul living in destination place cry with righteous souls, truly righteous souls are so hard living in the macro concept world, righteous soul has “doing real love” wicked soul has “revenge and breaking” which is living easy in the macro concept world, so that not to be poor living so that most choose wicked soul of revenge and breaking living, but the living also it is not easy living also.

Macro concept world living must be a beautiful livings creature

Righteous soul in the righteous soul living in destination place “01234567890” creating righteous soul dreamed to see and feel of macro concept world beautiful scenery but macro concept world livings living is hurry to live macro concept world.

Infer of now macro concept world

Urgent living energy getting is most premium concerning

Truly infer that losing getting energy the living is so hard living, therefore macro concept world living runs to be safe living to get energy.

To get energy means hard to live righteous soul living behavior “it shares time with other, help other, but also doing real love other”, this living is righteous soul living is being enlighten living only living.

Righteous soul living is real living of excitement because righteous soul living connect to righteous soul living in destination place, so that as the “01234567890” in this time all of livings hard because weak and poor and sickness and all of problems are combined to one, hard living, this is also hard macro to micro time living is also so hard living, righteous soul, and wicked soul and mind, so that righteous soul if infer of righteous soul living real living of it, then, righteous soul accept all of righteous soul livings, so that righteous soul lived “it shares time with other, help other, but also doing real love other” then, an approach to the safe returning to the righteous soul living in destination place, so all accept poor, sick and all physical hard living is excitement, feeling in excitement, righteous soul living is accept “01234567890” truly infer that righteous soul runs to the final 0, righteous soul livening in destination place.

But wicked soul and mind livings “0123456789” then, still wicked soul and mind living attitude is living in the “0123456789” living, so then, macro concept world living good time living desired, so then wicked soul and mind livings do not accept to be living in getting weak sick and poor living, still righteous soul “easy living” mind living getting much more than other living, so then, macro concept world living is so hard living.

Righteous soul living accepts “01234567890” righteous soul living really excitement with as approaching to the final “0”, truly infer that righteous soul living was huge hard living but living of real living, righteous soul living, so that righteous soul do complete macro concept world mission clear.

Righteous soul living mission is

Righteous soul living complete macro concept world voyage, this means that righteous soul complete "01234567890" this is first 0; was only + righteous soul, or -Righteous soul, but macro concept world living voyage complete; + righteous soul -righteous soul, and – righteous soul + righteous soul of righteous soul of +- harmony complete, this is really micro concept world righteous soul living in destination place, righteous soul creator of being complete, so that "01234567890" of final 0 is being creator in the righteous soul living in destination place.

To this macro concept world righteous soul livings voyage huge hard living.

Infer of truth as the result then

Righteous soul mission in the macro concept world, then, righteous soul save a wicked soul righteous soul, so that righteous soul before voyage meet wicked soul and being righteous soul, but being righteous soul save and create wicked soul, this long travel of voyage is righteous soul create and do macro concept world living to be righteous soul living possible condition making keep going.

Hard of righteous soul living voyage is

At first created by safe returning final 0;"01234567890" of righteous soul "+ righteous soul -righteous soul" or -righteous soul + righteous soul" create a righteous soul "- righteous soul" "+ righteous soul", macro concept world voyage with "doing real love" gift, "01234567890" safe returning righteous soul also only get "doing real love" of macro concept world living tools.

Righteous soul move to macro concept world then, at this time wicked soul of micro concept world living who are fall from macro concept world, whose livings "987654321" wicked soul I wait to meet righteous soul of creating "0" so that righteous soul and wicked soul meet in the micro concept world, so that wicked soul macro concept world reach, so then

Righteous soul meet macro concept world mind with body, so righteous soul living of righteous soul ore and stone of "righteous soul + wicked soul +mind + body", so then righteous soul to be being hammer and heat so that so hard living of macro concept world living being "righteous soul + body" here is righteous soul is being righteous soul and nothing of righteous soul living mission "righteous soul meet lover of wicked soul and do real love lover and create lover of righteous soul", to this end of mission then, the time of macro concept world living to be reach at righteous soul living in destination place.

At there righteous soul living in destination place, huge joy of excitement with righteous soul safe returning to the righteous soul living in destination place, so that righteous soul creator meets righteous soul so huge excitement with it.

"macro concept world livings are all hard living"

Macro concept world living is huge hard living, so that how hard living who want to live again so that righteous soul living is only way to complete macro concept world living, so that it never to be living macro concept world living, but only living is righteous soul living in destination place.

Why righteous soul living is urgent and important is at now here!

Righteous soul living only macro concept world living complete, so that righteous soul living is only “01234567890” but wicked soul living “0123456789” only, so that macro concept world living how important it is all of macro concept world livings are all hard living even wicked soul revenge and breaking fear of energy but wicked soul also hard, because of cosmos law give penalty energy, but also mind level ignorance livings all hard to living in the macro concept world living.

This hard living of macro concept world living complete, this is only way of living righteous soul living,

At now living is righteous soul living or not, checking tools is will I to be feel and behavior is this

Righteous soul living feeling is “silence and clean clear with bubble of creation of knowledge” and righteous soul living behavior is “it shares time with other, help other, but also doing real love other”, then at now in the macro concept world righteous soul living.

This righteous soul living now strong runs to the righteous soul living in destination place “01234567890”.

Macro concept world travel is to not choose but to be chosen

Macro concept world road travel do not choose but to be chosen.

Macro concept world livings do not open the road but to be open by a righteous soul

Macro concept world living so that

Righteous soul + righteous soul living in destination place combined to be chosen and open

Righteous soul so live, run on the orbit to righteous soul living in destination place

Righteous soul living is

Righteous soul + righteous soul living in destination place + righteous soul orbit

So then righteous soul living is created by to be chosen

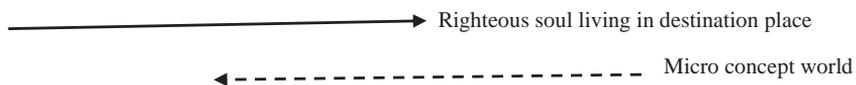

So righteous soul living travel is leaded by a righteous soul living in destination place.

As righteous soul living in the orbit, then, righteous soul living in destination place keep care righteous soul traveling of 012345679, but righteous soul do help and give creation of knowledge jump to 9 to 0, so that righteous soul living on the macro concept world, do live silent and cream clear, then, all is done by the order.

Macro concept world living do

Then righteous soul livings run to going back to home of righteous soul living in destination place

Macro concept world

Macro concept world travel of voyage

Micro concept world to macro concept world also to be temporally disappeared at micro concept world, so that appeared up in the macro concept world, so that micro concept world + macro concept world = macro concept world living structures.

So that macro concept world living structure is

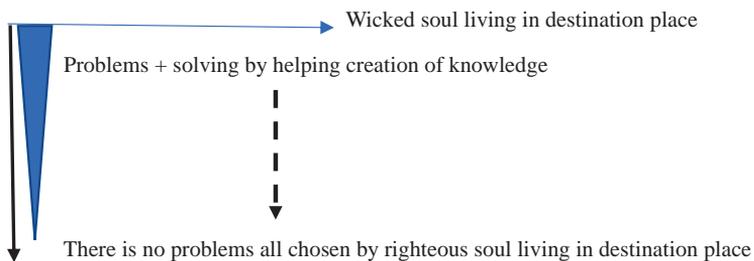

“righteous soul + wicked soul + mind + body”

These four construction to be decayed to righteous soul to body only, so then, this is so excitement to be safe returning to the righteous soul living in destination place, so then, truly infer that it also macro concept world to be disappeared and appeared to the micro concept world of righteous soul living in destination place.

Here all process

Righteous soul does not choose but to be chosen from all of stages by righteous soul living in destination place.

So then righteous soul livings living direction is vertical time living

Righteous soul living in destination place

Righteous soul runs to the depth of righteous soul living in destination place

Problems to solving of creation of knowledge.

In the macro concept world righteous soul living all to be solved and chosen by righteous soul living in destination place.

Vertical time living is only by chosen from righteous soul living in destination place.

Vertical time direction voyage in the macro concept world is

Begins

As mind to $1/\infty$

Then huge problems to the righteous soul, so then righteous soul living silent and clean clear of bubble of creation of knowledge helping of righteous soul living problems solving.

Truly vertical time living of righteous soul living runs

Problems and creation of knowledge of solving but also righteous soul living in destination place chosen

This is macro concept world real living.

So, then here is real key creature of knowledge is

Vertical time living all helping from creation of knowledge.

Only righteous soul living is possible

Infer that macro concept world living problems solving of keep doing energy is

Living righteous soul living that is “it shares time with other, help other but also doing real love other”

This is righteous soul living problems solving of creation of knowledge helping.

Here is another infer is

Macro concept world living safe and all of problems solving to runs vertical time living is simply doing righteous soul living behavior “it shares time with other, help other but also doing real love other”.

Then

“Macro concept world travel is to not choose but to be chosen”

This truth of creation of knowledge will be known, truly all of macro concept world to be chosen, who choose who open the way to the vertical time living

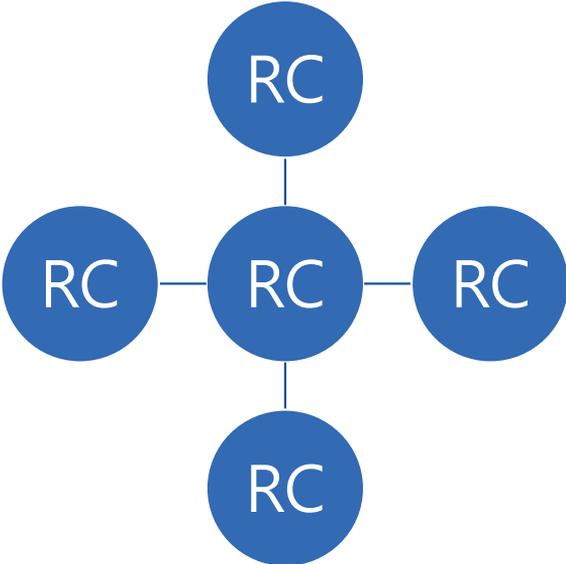

From righteous soul living in destination place

So that at now macro concept world living is

Righteous soul + righteous soul living in destination place= now living.

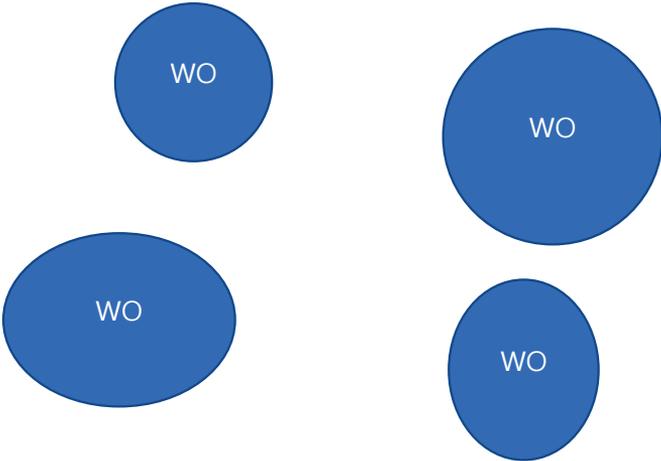

This is righteous soul living travel and voyage.

Righteous soul land is growing but Wicked soul island is conk

Righteous soul Land = R L

RC: Righteous soul Creation of knowledge

Wicked soul island =W I

WO: wicked soul old knowledge

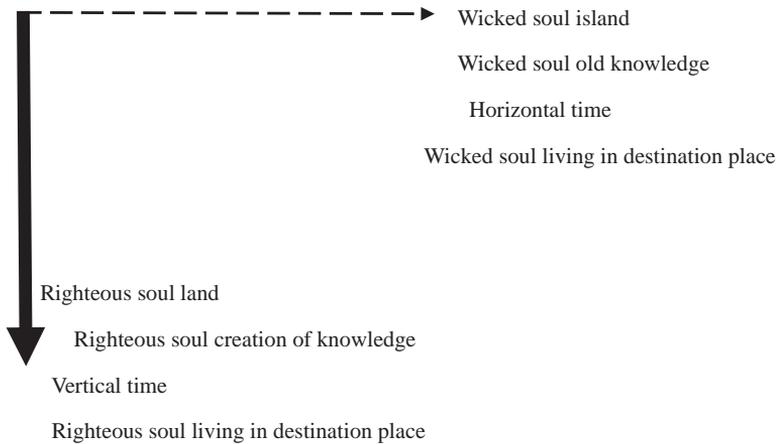

Righteous soul land means that

Each righteous soul livings get creation of knowledge, so that righteous soul connects each righteous soul so that all of righteous souls are connected so that each difference righteous soul communicates both and connect so that here is 5 righteous souls deference creation of knowledge all together getting, so that

So that righteous soul create talk to other righteous souls, other righteous soul gets creation of knowledge so that other righteous soul also talks to other righteous souls so that, all of righteous souls are all connect so that each other righteous soul creation of knowledge communicate so that all same creation of knowledge getting.

Righteous soul livings of land means that infer of righteous soul is

$$\text{Righteous soul land} = n \times \text{RL}$$

Here is righteous soul RC; righteous soul creation of knowledge communicate so that being RL of righteous soul land, this is possible righteous soul living behavior “it shares time with other, help other, but also doing real love other”; righteous soul livings multiple creation of knowledge helping each other so that all of righteous soul to be connected to each other, but also righteous soul living growth to fruit, righteous soul land of “RL” to be keep growing.

But wicked soul island is conk, do not grow.

Because wicked soul old knowledge ;WO, and wicked soul do not connect all of wicked soul is separated so that even old knowledge wicked soul do not communicate so that, wicked soul island of each wicked soul living alone do not connect to other wicked soul, so that wicked soul being conk od do not grow, why wicked soul island is wicked soul do not communicate; mans that deep in bubble of creation of knowledge do not know so that wicked soul depend on, old knowledge, some how rarely comes bubble of creation of knowledge in the depth do not talk others, so that wicked soul livings do not learned.

Wicked soul living all segregated, even huge number of macro concept world living but do not communicate each other, it never do righteous soul living behavior “do not living of it sharing time with other, help other but also doing real love other”, then the wicked soul living regions to be deteriorate in the end conk of do not grow.

Righteous soul land; RLs really important

Righteous soul creation of knowledge shares other of righteous soul become me and other and other to me righteous soul communication then this is inferring of macro concept world “righteous soul living in destination place creating” all of righteous soul living in destination place creation of knowledge is spread to righteous souls. Then righteous souls’ livings problems all solving, this is righteous soul livings runs to the vertical time living possible.

Vertical time living is possible of helping creation of knowledge so that vertical time running problems all solving so that righteous soul running to the vertical time of depth is possible, here is time changing horizontal living is $1/\infty$, so that vertical time living is still young time, and still beginning so that righteous soul living is “01234567890” righteous soul living vertical time is still beginning “0” to righteous soul living mission clear of +righteous soul gat a lover of- righteous soul, but also -righteous soul get a lover of +righteous soul, then final “0” to be reaching.

Vertical time living is “0,0” living. So then, infer of it macro concept world vertical time living of righteous soul is all of righteous soul communicate each other so that land of righteous soul, ;RL, so that here is beginning is righteous soul and end also to be righteous soul, infer that vertical time living still living in the macro concept world also righteous soul but also end of macro concept world to be same to be changed into micro concept world righteous soul living in destination place.

But wicked soul island living of do not communicate each other then, wicked souls are all living old knowledge so that, horizontal living of depth is $1/\infty$, so that there is not dept, only living in width of ∞ ; “0123456789” do not know how to “01234567890” because righteous soul living are all do “it shares time with other, help other, but also doing real love other” so that righteous soul mission is “righteous soul meet lover of wicked soul and do real love wicked soul to create righteous soul of lover”, this is righteous soul help other even wicked soul also.

But wicked soul to wicked soul, and wicked soul to righteous soul, wicked soul to mind, wicked soul does not communicate deep creation of knowledge but only keep in do not recognition of righteous soul of creation of knowledge but wicked soul just living easy living only wicked soul itself. So that wicked soul do not know righteous soul final reach at “0”, so that all of wicked soul reach at only “9”, therefore righteous soul living reach at “0” of righteous soul living in destination place of fruit, but wicked soul reach at only “9” so that do not get righteous soul livening in destination place of do not get fruit.

In the end righteous soul all of each righteous soul communicate each other creation of knowledge so that righteous soul of land; RL all of righteous soul safe reach at “0”, righteous soul living in destination place.

But wicked soul island is do not communicate wicked soul so that wicked soul island; WI, so that wicked soul separated wicked souls livings as the island therefore do not know righteous soul living in destination place “0” but wicked soul living old knowledge of reaching at “9” to the wicked soul living in destination place.

Infer of macro concept world living righteous soul compunction is fruit of completion of working, this is really critical creation of knowledge, righteous soul living must be inferring that

Complete by

Righteous soul creation of knowledge + other righteous soul creation of knowledge + righteous soul living in destination place helping living in macro concept world mission carry, so that to be righteous soul living in destination place safe returning is all “it shares time with other, help other, but also doing real love other”.

This is righteous soul living in the macro concept world living.

This is righteous soul macro concept world travel of voyage.

Macro concept world righteous soul me is dangerous

At last I see "I'm a dangerous"

As I'm attacking from wicked soul, last night in me "sharp appeared me in the think of wicked soul" so then wicked soul revenge and breaking me.

Dear my righteous soul creator helps me

Truly today morning I stop writing because feel tired.

While reading a book "I Ching buddha explaining", then I can hear of creation of knowledge.

At first defend me from wicked soul revenge and breaking me

Macro concept world living ultimate living is safe living righteous soul and safe returning to the righteous soul living in destination place, but for a while lose watching wicked soul moving in me.

It is really fear

Sharp is appeared up; this is really fear righteous soul me

Truly In me feel fear of so then there is me, so that wicked soul tries to attack me,

There is no mind, there is no me

Poor and righteous soul

Righteous soul & nothing

While after all of dung are full in me so that I can't hear righteous soul living in destination broadcasting.

Infer that righteous soul living in destination place saying "watch wicked soul revenge and breaking",

While as growing then as same as wicked soul also grows

So that truly infer that

There is no mind, there is no me, then this is difference from wicked soul living, righteous soul is

Poor and righteous soul, righteous soul & nothing so that wicked soul easy living of against, so that wicked soul some of wander to poor and righteous soul me, so that righteous soul me living has been safer living, but now wicked soul surge up.

Infer that my macro concept world living routine is deviate so that this is crack so that wicked soul attacking me. Righteous soul me and lover is now still try to do real love lover to create righteous soul, but my lover out of righteous soul me front line, so that righteous soul me is fear of being string wicked soul of lover.

While doing this I feel this is also water flow down

But also, until righteous soul is not reach at the righteous soul living in destination place, so that very care of lover of wicked soul attacking me.

I love my lover who righteous soul me doing real love, creating righteous soul, this is my really gift to my lover of wicked soul, but it is really not simple.

What is living?

My all of book written righteous soul living behavior “it shares time with other, and help other, but also doing real love other” this is righteous soul me living, but truly infer that now living me is not in righteous soul, but the macro concept world living only.

Righteous soul me first secure from wicked soul attacking, so it must be righteous soul living routine to be kept, “heavenly father please secure me from wicked soul attacking me”

Righteous soul me, macro concept world living is righteous soul living end, just safe returning to the righteous soul living in destination place.

Righteous soul me, just wicked soul never appeared up, still living vacant me and bubble of creation of knowledge feeling, the poor and righteous soul and righteous soul & nothing is required to me.

Righteous soul living me

Righteous soul living me

This is first

All of book writing is righteous soul me living so that

Righteous soul mission clear

“righteous soul me shares time with lover of wicked soul and help lover of wicked soul but also do real love lover of wicked soul”, so that righteous soul mission “create lover of wicked soul to righteous soul and safe return to the righteous soul living in destination place”

This book writing then, think of wicked soul still strong energy appeared up.

Still it is long to go for the righteous soul living in destination place.

As this, righteous soul me feel “silence and clean clear” is broken so that

Righteous soul me living now in dangerous.

Righteous soul me living much more than vacant all be being righteous soul & nothing

Righteous soul me

At least just nothing happened but also in the time of end of macro concept world then safe returning to the righteous soul living in destination place is really urgent

Truly infer that

Righteous soul me living

There is no mind, there is no me

Poor and righteous soul

Righteous soul & nothing

This ween Sunday I will attend church

3 weeks do not attend church so that broken righteous soul living routine because Sunday all busy truly infer that I did not know that, but heavenly father and righteous soul creator all care me and fear from me, truly

Urgent keep me from wicked soul attacking.

Righteous soul me living is prime concerning is safe from wicked soul attacking.

Righteous soul me living

There is no mind, there is no me

Poor and righteous soul

Righteous soul & nothing.

This is basic righteous soul living keeping

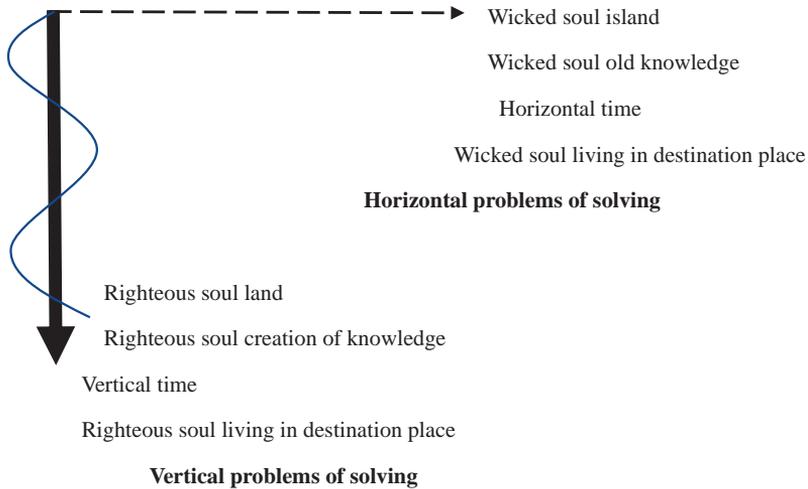

Still secure from wicked soul attacking.

This is righteous soul travel first commandment

Survive from wicked soul attacking

Dear my creator of god helps me doing real living of safe righteous soul living.

Righteous soul vertical problems of solving, wicked soul horizontal problems of solving

Vertical problems are

Righteous soul living ways up and down, this is all of righteous souls' livings.

Problems of solving

Righteous soul living behavior of "it shares time with other, help other, and doing real love other"

But also, problems to solve is bubble of creation of knowledge all of righteous souls, so that righteous soul land all of cross problems solving creation of knowledge help each other so that to be solving.

Horizontal problems are

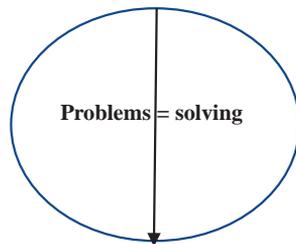

Wicked soil livings revenge and breaking problems, unfair of inequality problems

Problems of solving

Wicked soul living behavior so that "revenge and breaking" attacking and huge damage

So then, problems solving all depend on old knowledge so that truly infer that, there is no solving, but after attacking and breaking of problems occur but, after solving the problems by helping old knowledge.

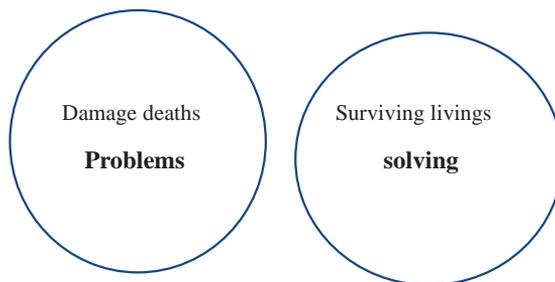

Vertical righteous problems solving is

Vertical time problems all from righteous soul living in destination place, so that all of problems = solving set, so that righteous soul living problems is education to be living in righteous soul living in destination problems but also righteous soul living macro concept world mission then problems solving.

Vertical time living of righteous soul problems solving is living in righteous soul, then righteous souls hear of broadcasting from righteous soul living in destination place, giving solutions, so if living in righteous soul living then, fully solve problem so that righteous souls runs to the vertical time living possible

But horizontal wicked soul problems solving is

Horizontal time problems are not in same but problems and solving is difference

So that wicked soul problems do not solved by a wicked soul, but all damaged wicked soul and survived macro concept world livings solving.

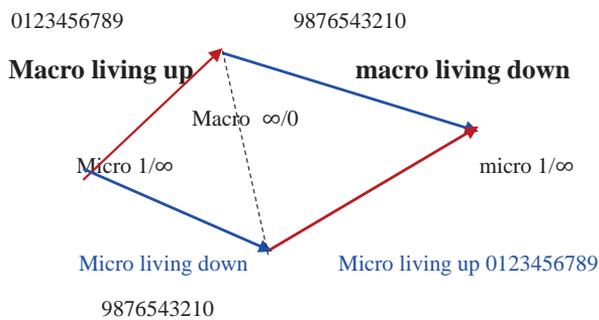

Righteous soul living problems is education to live in righteous soul living in destination place

So that vertical time living runs up and down, up problems down problems, coincidence up solution and down solutions.

Righteous soul problems up is physical hard but mental living is huge solving problems, but down to be physical easy but mental to be loosen so that both problems and solving is mixed.

Righteous soul living macro concept world voyage is

Righteous soul living voyage is

Righteous soul living problems is

In the micro concept world from create and to start macro concept world voyage

At first micro concept world going up is “0123456789”

But micro concept world righteous soul living down is “9876543210”

But also

Macro concept world righteous soul living up is “0123456789”

Macro concept world righteous soul living down is “9876543210”

So that righteous soul living problems of up and solution of down adversely

Righteous soul living problems of down and solution of up.

Righteous soul living problems is all to be righteous soul living running.

But wicked soul of problems is not process but problems is out of righteous soul living, so then wicked soul living of do not reach at "0", wicked soul problems are all wicked soul "revenge and breaking" so that all "0123456789" drop to wicked soul living in destination problems, so that wicked soul problems all survive in the macro concept world livings solving it.

"Righteous soul vertical problems of solving, wicked soul horizontal problems of solving"

Righteous soul problems to be solving and teach it, but wicked soul problems is to be attacking so that critical problems all to be damaged of disappeared from macro concept world, so that after problems solving is all not in same, but difference who to be undertake solving problems, but righteous soul problems is coincidentally, problems to solving is couple.

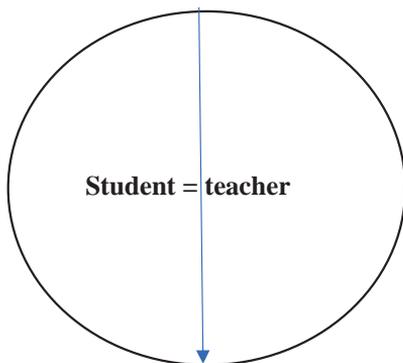

Righteous soul living up and down, then a living actor going and going down, so then righteous soul sure of behavior is up help other, down to be helped from others, so that righteous soul living up and down is as the land of righteous soul so that righteous soul to be helped and helper so that, righteous soul living running to the vertical time is excitement overcoming.

Righteous soul living of land vertical time living is

A righteous soul get a creation of knowledge, then transfer to the other righteous soul so then, here is righteous soul of creation of knowledge getting actor to be teacher but other to be student, but also a righteous soul of student get a creation of knowledge then, before breather of righteous soul to be student of righteous soul, so then here of righteous soul problems to be jump, but also righteous soul teacher to student so that fully righteous soul to be all teacher coincidentally all to be student;

Here is student role is really critical urgent student role of righteous soul can be lean from a righteous soul creation of knowledge so that All of righteous souls "01234567890" all reach at the righteous soul living in destination place.

Righteous soul is teacher to student

Land of righteous soul

Righteous soul teacher = getting creation of knowledge

Righteous soul student = getting creation of knowledge from a teacher

A teacher of righteous soul to be changed into a student of righteous soul.

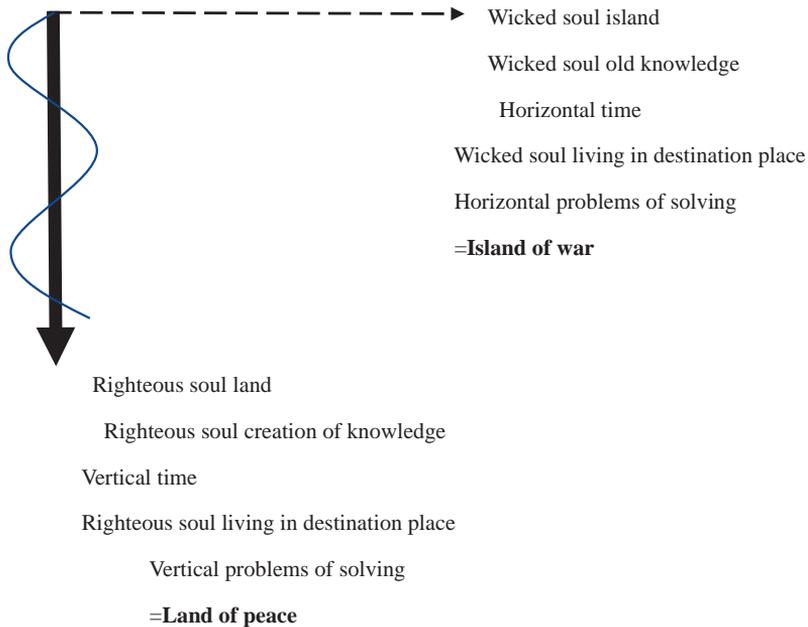

This is really critically important to the righteous soul livings

Righteous soul livings are all best student, but also best teachers.

Teacher is helper but student is helped living so that righteous soul livings are both teacher and student so that righteous soul livings are all conglomerate of land

So that all of righteous soul to be same creation of knowledge, all righteous soul to be can living in the righteous soul living in destination place, infer that righteous soul living in destination place should be all teacher all students so that all living keeps growing because righteous soul living in destination place eternity living.

Righteous soul land peace, wicked soul island is war

Righteous soul travel of voyage macro concept world

A righteous soul travel in the macro concept world peace, the other righteous soul livings traveling is all of war.

In the macro concept world righteous soul in the war and peace living is truly strong critical line, a righteous soul peace and other righteous soul war, then the living of macro concept world is righteous soul wicked soul all to be chaos time, so that the living is must be wicked soul of all to be being disappeared because war is cause of war, even in the war to be wicked soul's "revenge and breaking" so that huge righteous soul to be also disappeared, but truly infer that righteous soul living beginning after war, so that righteous soul livings must be righteous soul living behavior is urgent "it shares time with other, help other, but also doing real love other" truly infer that after war is being poor livings, so then, other livings of righteous soul do righteous soul living behavior "other righteous soul shares time with war livings and help and doing real love to war damaged livings".

Truly

Wicked soul island is really critical cause of war,

Because wicked soul living is only righteous soul “easy living” so that righteous soul do not do “it shares time with other, and help other, but also doing real love other”, this is also huge critical war condition but, wicked soul live depend on “old knowledge”, so that wicked souls, do not feeling at now urgent situation creation of knowledge so that all of wicked soul do not communicate each other so that all of wicked soul, segregated and separated all wicked souls are single living.

Wicked soul does not communicate so that only depend on old knowledge; truly old knowledge was really righteous soul creation of knowledge, but comes to wicked soul old knowledge is mixed with truth + untruth and deceit old knowledge= old knowledge does not solve now happening problems.

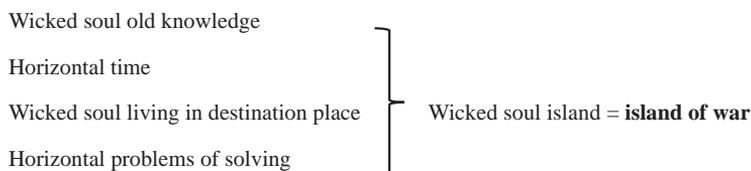

Here is string clear of wicked soul island is direct to war, wicked soul all “revenge and breaking energy” with wicked soul livings all depend on old knowledge so that, wicked soul do hear of righteous soul living in destination place creation of knowledge so that wicked souls and do not open deep wicked soul of small living of righteous soul, so that wicked souls just not full disappeared but weak energy righteous soul of deep in by accident real knowledge, wicked soul never ever open to other wicked soul, or righteous souls, strange infer that wicked souls deep real knowledge to be being never ever do not saying to other, so that being and appeared up wicked soul of island.

Wicked soul island livings do not know righteous soul living behavior of “it shares time with other, help other and doing real love other”, so that wicked soul to be living in island living.

Wicked soul island livings are talking to other is even old knowledge + think of wicked soul= island wicked soul communication among others, so that all saying is useless old knowledge so that wicked soul useless saying there is no solution at now happening problems.

It means that near other region of wicked soul see, at now here living is all island then, at now here livings are all wicked soul, so that all of livings are island living, then other region of wicked soul see and “revenge and breaking energy is huge of regions” invader to the now island of wicked soul to be being in the war.

Truly at now here also wicked soul livings energy is high then other region of wicked soul and now here wicked soul to beginning revenge and breaking of war, so that both wicked souls to be damaged why being war, righteous soul traveling and voyage of macro concept world, “why war?” because war is automatically disappeared from both wicked souls, so that righteous soul traveling time war is huge chaos.

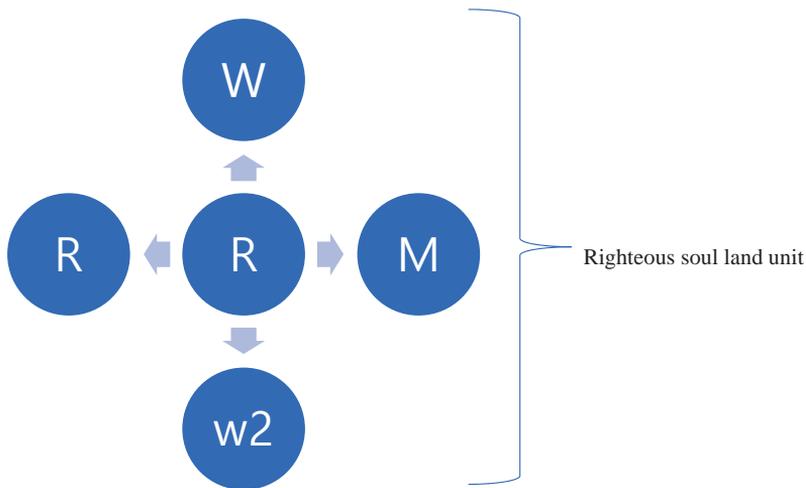

Macro concept world, righteous soul living time war then, righteous souls are to be living of chaos, so that righteous soul never ever to be war, this is righteous soul livings responsibility, righteous soul living s keep peace living because righteous soul’s traveling and voyage mission complete.

Righteous soul land is

Righteous soul’s basic living is “it shares time with other, help other, but also doing real love other” so then all of righteous soul depend of “righteous soul creation of knowledge” so that righteous soul all now problems solving, but also as that righteous soul living runs to the vertical time living.

Righteous soul getting creation of knowledge then, the righteous soul living behavior is “ righteous soul creation of knowledge getting righteous soul shares time with others, help others and doing real love other”, here is other is all wicked soul, righteous soul even mind levels, so that righteous soul living behavior is “ righteous soul shares time with wicked soul, righteous soul and mind level, righteous soul help wicked soul, righteous soul and mind level solving now problems by creation of knowledge, but also righteous soul do real love wicked soul and righteous soul and mind level also”.

So that if a righteous soul in the center of them then

R: righteous soul, w: wicked soul, M; mind levels

Center of righteous soul getting creation of knowledge so that righteous soul “it shares time with other, help other and doing real love other” so that here is righteous soul to be teacher and here is other R, W, M, W2 all to be student role, this is possible because center righteous soul is fully gentle and novel of teacher role, so that all of students are try to learn, so that here is teacher and students are all come to know, creation of knowledge so that here is built the land of righteous soul unit, so that

How to righteous soul land is

$n \times$ righteous soul land unit = righteous soul land.

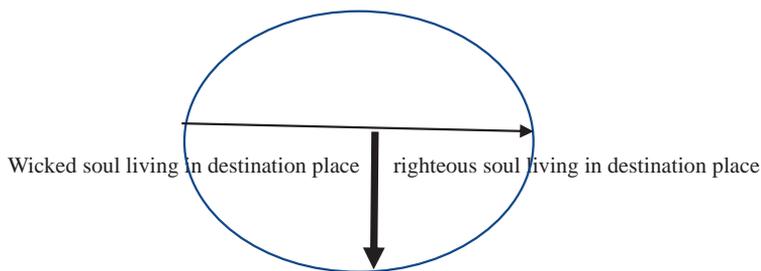

So then infer that if there is a righteous soul then, righteous soul know that because righteous soul vertical time living get a creation of knowledge; bubble of righteous soul; hear of broadcasting from righteous soul living in destination place, so that righteous soul get a solving now all of problems of R,W,M, macro concept world all of these living have all problems so that as the teacher of righteous soul, so that student of others are all learn from a righteous soul creation of knowledge so that others problems solving, so that others living being righteous soul livings here is created righteous soul living land unit, this is keep increasing then, the living region is all know now problems solving.

Then here is not in the chaos but also here is all of other livings are problems solving, then, each livings getting know that as now righteous soul living in destination place bubble of creation of knowledge with other livings being in the "silence clean clear" so that all to be get creation of knowledge so keep being created righteous souls, so that here is all of living s silence clean clear of creation of knowledge purity 100% creation of knowledge there is no deceit so that righteous soul of creation of knowledge is peace living.

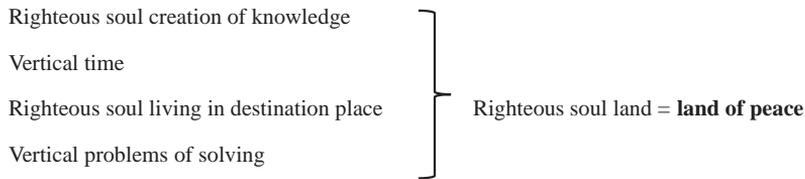

In this righteous soul land unit $X n =$ righteous soul land, then never ever do not invader from other region of wicked souls, because cosmos law and righteous soul living in destination place, righteous soul living energy is string defense to the wicked soul revenge and breaking, because cosmos law and righteous soul livings are to be safer of all of wicked soul revenger of war, so that here is strong righteous soul living in destination place.

Just like micro concept world

wicked soul, mind, righteous soul missing of macro concept world

So then in the macro concept world also just like micro concept world righteous soul living in destination place is temporally built so that righteous soul land is string free from wicked soul revenge and breaking of war.

Righteous soul living time is land of peace or island of war is huge important,

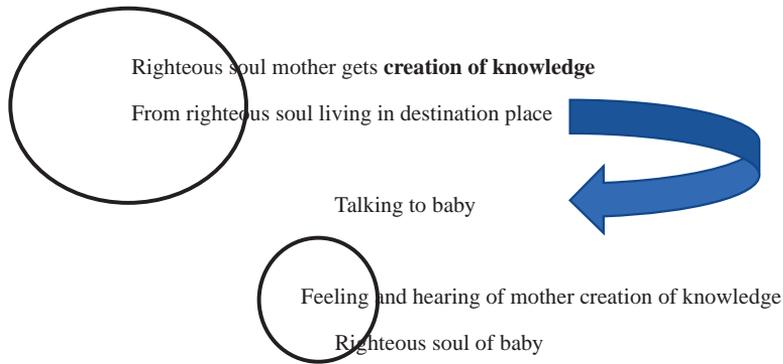

War is chaos time so that, the living is huge hard living of survive or disappear of critical line is urgent time, so that the living in the macro concept world, but also righteous soul macro concept world travel of voyage to be really in the living of war then wicked soul living in destination place of loud of dirty place, so then righteous soul living is so hard who has been living silence and clean clear living.

Wo then righteous soul living in the macro concept world living is critically important righteous soul living create land of righteous soul, this is righteous soul living macro concept world traveling voyage complete basic built in time and space.

Righteous soul must be keeps in righteous soul living in destination place now but also after running righteous soul living to be living in the peace, so that at now righteous soul living is keep built space of silence of clean clear, this is righteous soul living travel and voyage.

Infer that righteous soul to be macro concept world voyage complete, righteous soul living keep in land of righteous soul to be keeps righteous soul living in destination place in the macro concept world.

Righteous soul macro concept world voyage begins

Righteous soul beginning macro concept world

Righteous soul from righteous soul living in destination place

Wicked soul from wicked soul living in destination place

Mind from macro concept world place

Body from macro concept world place

So that macro concept world voyage righteous soul living is

“righteous soul + wicked soul + mind + body” righteous soul ore of structures

So that righteous soul living in destination place broadcasting to the mother of macro concept world,

Infer that “ righteous soul mother, this righteous soul must be bring like” keep by and by talking through broadcasting so call “bubble of creation of knowledge” so that mother of righteous soul can hear how to care baby of righteous soul, all is from righteous soul living in destination place creation of knowledge, infer that keep by turning righteous soul of creator will give baby of righteous soul how to live but also righteous soul living principle doing of role in the macro concept world, but also as righteous soul mother keep hearing righteous soul broadcasting then, mother talking it, then,

At now beginning of righteous soul hear of creation of knowledge through mother from righteous soul living in destination place creation of knowledge as bubble of creation of knowledge.

Here is “Righteous soul living TRAVELING on the macro concept world” name of books, so then

Righteous soul living travel on the macro concept world, begin but righteous soul living in destination place, broadcasting both baby righteous soul and mother righteous soul, so then, baby righteous soul feeling it, but mother righteous soul can talk to the righteous soul baby, then, this baby righteous soul can grow helping creation of knowledge; macro concept world righteous soul living of creation of knowledge, so that this righteous soul ore to be being survive as process hammering and heating to pure of righteous soul.

Infer that if mother of actor to be living wicked soul of “easy living” mind of “getting much more than other” of do not know righteous soul creation of knowledge; mother of righteous soul hear of broadcasting from righteous soul living in destination place, and creation of knowledge, then all of it from righteous soul living in destination place righteous soul creator, so that nothing righteous soul to baby righteous soul, helping baby living in righteous soul on the macro concept world.

This is 01234567890 from micro to macro 123456789 to 0 of safe returning to the righteous soul living in destination place, meet creator of righteous soul, this is real living.

But truly infer that macro concept world mother of wicked soul and mind level livings

Then do not hear of broadcasting from righteous soul living in destination place righteous soul creator, how to care of baby and bring child to adult all of creator delivering broadcasting do not know, then mind living other of mind; getting much more than other of old knowledge, and wicked soul of how to living is “easy living” of old knowledge talking then, sure of righteous soul baby do not hear of righteous soul living in destination place righteous soul creator of creation of knowledge, so that righteous soul ore to be been disappeared and living in wicked soul or mind level livings growing.

Until now 20 books I did not know, how to macro concept world living growing wicked soul growing and mind level growing is not knowing, but infer of it, in the righteous soul beginning on the macro concept world helped from righteous soul mother can talk of righteous soul living in destination place creation of knowledge, then righteous soul activation of living.

So then righteous soul of beginning of from “poor & righteous soul” to “righteous soul & nothing” living.

Infer that mother of baby living is in the righteous soul then, mother can hear of broadcasting from righteous soul living in destination place, so that righteous soul living of “it shares time with other, and help other but also doing real love other”.

Baby righteous soul helped from hearing righteous soul living in destination place, but mother of righteous soul helping living righteous soul, then in the end righteous soul can be macro concept world travel and voyage.

Righteous soul voice in the macro concept world

In this book writing “Righteous soul living TRAVELING on the macro concept world. Only onetime living, what we will do?” mostly book writing theme come night, but today reach at the workplace, then occur of today book theme.

Truly macro concept world righteous soul to other connect is voice, so then if righteous soul voice how to do?

Voice is similar to the behavior of righteous soul

Righteous soul behavior is “it shares time with other, help other and doing real love other” this is behavior then how to voice?

In this macro concept world livings wicked soul, righteous soul and mind livings.

So then

Righteous soul: righteous soul voice

Wicked soul; wicked soul voice

Mind level; mind voice

Righteous soul living is “silence and clean clear”

Wicked soul; loudly and is not clean clear”

Mind level; “always hurry”

Infer that

Righteous soul living of silence and clean clear, then voice it must be none

Wicked soul living of loudly and is not clean clear, then voice to infer that loud

Mind level living of always hurry, then the voice to be infer that fast saying

Infer that macro concept world

Voice is shout voice, and hurry voice, this is all to get asset to live, all try to get, so that wicked soul only living easy use with revenge and breaking, sound is loud and loudly push to other, but also mind livings hurry voice to get much more than other, only to get time saving and hurry move to meet a new sell customers.

Righteous soul living is “silence and clean clear” so that righteous soul voice is do not voice but all most silence, that is righteous soul living in destination place, righteous soul feel other righteous soul behavior “it shares time with other, help other and doing real love other”, so that righteous soul feeling is really excitement in the silence and clean clear of righteous soul.

Infer that macro concept world righteous soul to be near to the silence, righteous soul traveling to the macro concept world; wicked souls, righteous souls, and mind living of mixed livings place, macro concept world, so then, macro concept world living is not in righteous soul living in destination place silence and clean clear.

Truly infer that righteous soul silence voice giving others to be fully faith and friend relationship, but also righteous soul dong real love express is not voice but behavior “ righteous soul silence clean clear with dong real love other” is showing really humble and make other loft, try to do help and accept go with other this is righteous soul living so that it don’t necessary voice, even though macro concept world is mixed livings so that righteous soul also go loud, then to be warm and sound voice is required.

Righteous soul creatures help solving other problems, but also other righteous soul get a creation of knowledge then righteous soul me can be helped from other creation of knowledge, this is righteous soul living land, here in the land of righteous soul, each other voice must be none, because righteous soul living s knows that other righteous soul getting creation of knowledge, the righteous soul to be role of teacher, but righteous soul me role of student, so student is excitement with in the silence of clean clear of getting hearing righteous soul of other helping creation of knowledge; this knowledge to be solve now my problems.

Righteous soul living land livings are all to be accept teacher role, and student role with righteous soul voice none and do real love each other; it shares time with other, help other, but also doing real love other; this is humble behavior and warm sound of voice all.

Wicked soul living island livings are just do “loud saying”, this is include of “revenge and breaking other” so that wicked soul voice is loud and sharp, so that this voice struggling each other, but also, they do not know voice to be not necessary but voice high tone voice only, so that do not know voice make good relationship building, so that there is no any manners but only wicked soul living to get a “easy living” position loud voice, so that all wicked soul livings are noisy livings.

But mind livings are always busy, so that busy voice “hurry! Hurry!” mind living all “hurry!” this is righteous soul voice, do hurry I’m busy! Why mind living try meet to sell and time of working to complete to get much more than others, so that mind living voice also competition to others.

Macro concept world living voice really important to live other

But infer that at now macro concept world livings are lost before old time voice of sound but now livings are

Try to show me to other necessary saying only, voice is showing “doing real love” this is righteous soul living almost do not voice with doing real love other, just silence and clean clear of righteous soul living as same as it

Righteous soul living in destination place righteous souls are all “silence and clean clear” but righteous soul living behavior is “it shares time with other, help other, but also doing real love other”, yes, it is.

Righteous soul does not high tone of voice.

Doing real love voice is “do not saying but do real love other but I love you” this is righteous soul living voice, even this is not saying now, but it is this, righteous soul livings living with other is this.

Righteous soul warm and doing real love with silence and clean clear

I really want to see a righteous soul love me on the silence and clean clear, if I meet a righteous soul, I will be eternity being righteous soul’s student, I want to hear a righteous soul teaching.

Righteous soul silence and clean clear of voice and righteous soul correct 100% truth of creation of knowledge, then at now living to be really excitement with a righteous soul creation of knowledge, I really want to hear of a righteous soul creation of knowledge, then my righteous soul to be feel in huge excitement. Righteous soul to be get energy.

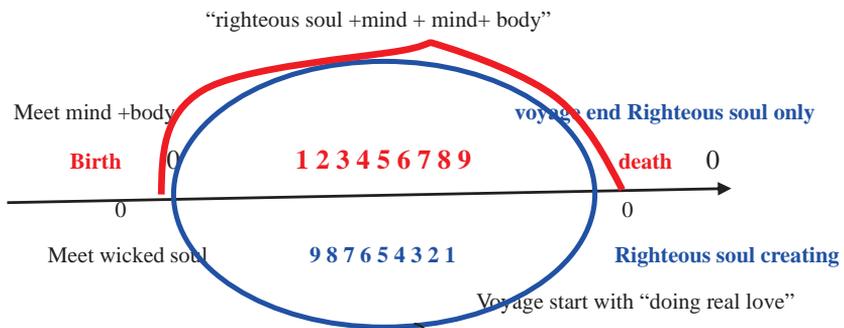

A righteous soul’s getting through hear broadcasting from righteous soul living in destination place, so that righteous soul feel, hearing of bubble of creation of knowledge, then the righteous soul teaches me then, the pleasure of excitement is huge, my righteous soul all adsorb 100%, but also the teaching is huge excitement.

the righteous soul teaching direct connects to solve my problems but also righteous soul living behavior to other so that do not high tone of voice, just silence voice transfer of hearing from a teacher, so that other to be solve problems and living creation of knowledge.

Righteous soul living with creation of knowledge is basically living in land living, so that all connect to live in a righteous soul living in destination place in the macro concept world.

Macro concept world time and micro concept world time

Macro concept world

Micro concept world

Rightsoul soul voyage orbit

Macro concept world

macro concept world time beginning is **birth but end is death**

macro concept world of 180° just seen world limit

macro time is 0“123456789”0

Micro concept world

Micro concept world time beginning is Rightsoul soul creating and end is voyage end of rightsoul soul

Micro concept world of 360° of seen world + unseen world.

Micro time is “012345678901234567890

Truly infer that macro concept world time is using macro and micro same.

But only righteous soul here of broadcasting from righteous soul living in destination place so that truly infer of righteous time is

“012345678901234567890”

“123456789” is from macro concept world automatically “mind + body” living time of major time.

So that truly infer that “123456789” 1: birth 9: death, of “mind +body” = disappeared in macro concept world

But

“012345678901234567890”

This is seen in the round then, micro concept

0987654321 express to the left direction moving, micro concept world beginning is righteous soul creating from right so that righteous soul birth of creation of righteous soul is right so righteous soul voyage direction in the micro concept world is left.

“0: righteous soul creating 987654321”

“0987654321; wicked soul + righteous soul 0=09876543210: righteous soul + wicked soul get on macro concept world

So that micro concept time is “012234567890123456789; macro concept world time.0; righteous soul safe return to the righteous soul.”

If macro concept world living is righteous soul then

Truly infer that righteous soul living safe returning ways

“012345678901234567890” in this case

Righteous soul do mission in the macro concept world, so that righteous soul + righteous soul meet – wicked soul of lover, but also – righteous soul meets + wicked soul of lover, so that righteous soul doing real love lover of wicked soul to create righteous soul, so that even macro concept world living in wicked soul to be saved from a righteous soul, so that righteous soul living this way.

But macro concept world mission carry of righteous soul voyage is

Still same as micro concept world righteous soul, macro concept world righteous soul so that here is 360° righteous soul macro voyage, this righteous soul infer of clear is “poor and righteous soul” keep growing to “righteous soul & nothing” so that this is so hard living, all of difficult living of righteous soul, so this living of macro concept world living is

“012345678901234567890”

This is righteous soul living, whose living all tortured, because righteous soul macro concept world living was “righteous soul + wicked soul + mind+ body”, of righteous soul ore, of stone, so that to be hammering, and heating to be pure of righteous soul, so that this is huge hard living, this is “poor & righteous soul” to “righteous soul & nothing”, this righteous soul living is 360° righteous soul living macro concept world voyage.

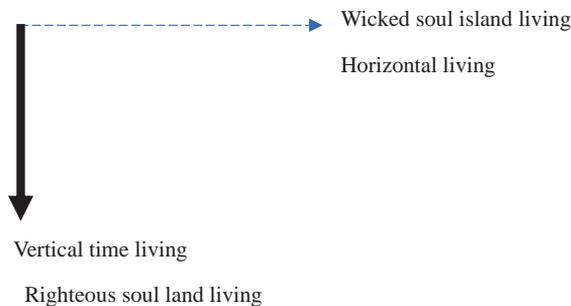

While macro concept world time, righteous soul hear broadcasting from righteous soul living in destination place, but also get creation of knowledge so that righteous soul in the macro concept world living is “silence and clean clear” but also righteous soul + body= righteous soul living behave is “it shared time with other, help other but also dong real love other” living.

So that righteous soul living of 360° voyage macro concept world, then truly infer that righteous soul living train and education of hard living hard, and hard and difficult living of righteous soul, so righteous soul living of righteous soul living in destination place of same living.

Because righteous soul hears of broadcasting from righteous soul living in destination place, so that righteous soul living creation of knowledge getting as the bubble of creation of knowledge.

Thereby

Righteous soul keeps ruins to the vertical time living

Righteous soul creation of knowledge spread by being teacher to student, student to teacher both teaching and learning so that all has same creation of knowledge so all of macro concept world problems all solved in the end possible running vertical time living

So that righteous soul living in the macro concept world, righteous soul feeling and know that vertical time living, righteous soul living way is vertical time living, but wicked soul horizontal time living is do not cross to “0123456789” is horizontal time living of wicked soul livings.

Vertical time living of righteous soul living is

“01234567890” so that righteous soul vertical time on the macro concept world living as so hard and hard difficult living of

“012345678901234567890” living.

This vertical time living of righteous soul macro concept world mission of righteous soul meet lover of wicked soul and do real love lover of wicked soul to create righteous soul, so that both righteous soul safe returning to the righteous soul living in destination place so that this living in the macro concept world is horizontal time of

“012345678901234567890”

red color of “123456789” is horizontal time living of wicked soul, here is even best living of wicked soul to be seen to the vertical time living of righteous soul, so that vertical time living of righteous soul do mission clear with horizontal living of wicked souls, so that vertical time of righteous soul do real love of horizontal time of wicked soul so that horizontal time of wicked soul changed direction to vertical time of righteous soul, so that both righteous soul reach at righteous soul living in destination place.

This is macro concept world righteous soul mission clear.

So that righteous soul safe returning to the righteous soul living in destination place.

Here is righteous soul safe returning of last "0" of righteous soul is "+ righteous soul – righteous soul and "- righteous soul + righteous soul" so that to be safe returning righteous soul to be being of role in the righteous soul living in destination place to be righteous soul creator.

This is righteous soul macro concept world travel

Of "Righteous soul living TRAVELING on the macro concept world "

Oh!

Righteous soul travel to macro concept world on the macro concept world and micro concept world both roads explained, until now, I try to explain macro concept world road and micro concept world road, but also macro concept world time and micro concept world time.

Both problems on this chapter solved it.

Please this book "Righteous soul living TRAVELING on the macro concept world "to be read the world, then how urgent and how important at now living is.

Heavenly father please this book selling then anyone of wicked soul do not touch it, but also all righteous soul carry this book from design and to edit and to righteous soul book making best book and still righteous soul print full color of offset ink, then best of best book making, but also correct marketing, so that all of macro concept world livings to read, heavenly father help this book voyage.

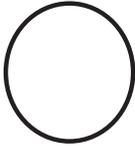

Heavenly father

I write 21 books but now my books are not living safe

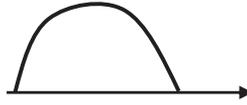

Heavenly father helps all your books.

So that this world all to be righteous soul living in destination place complete.

Righteous soul voyage 360°, wicked soul and mind living of 180°

Righteous soul voyage 360°

wicked soul & mind living of 180°

Righteous soul livings recognition voyage is 360°, so that righteous soul run around, micro to macro to micro.

But wicked soul and mind living is 180°, so that mind level livings recognition birth to death of 180°, but also wicked soul easy living must be returning to righteous soul living, but wicked soul do not do, so that wicked soul living also 180°, but this is 0123456789 fall to wicked soul living in destination place.

Righteous soul travel and voyage is start from righteous soul living in destination place to righteous soul living in destination place safe returning is macro concept world voyage complete, so that from righteous soul living destination place created a righteous soul runs to micro and runs to macro and runs to micro, so that

0987654321;wicked soul + 0 of righteous soul of created meet, 123456789 macro concept world travel, then if living in righteous soul then safe returning to the righteous soul living in destination place, so that “098765432101234567890” this is righteous soul macro concept world complete so that the living is 360°, but if not righteous soul living then wicked soul livings incomplete macro concept world living travel so that, “0123456789” so that wicked soul living is 180°, but also mind living is only living in the macro concept world living so that automatically “0123456789” 180° living.

Righteous soul living 360° voyage then, 360° round is righteous soul traveling orbit, so that this righteous soul traveling orbit is 360° so that righteous soul living is orbit then, righteous soul living in destination place reach at.

But wicked soul and mind living of 180° living, but also this is real living of macro concept world, so that, all of macro concept world livings truly infer that ignorance of mind and easy living of wicked soul, their living is only 180° living.

So that 360° living is perfection of living, but 180° living is only half living compares with righteous soul living, so that 360° of round is beginning to end id same as begin to begin, so that righteous soul living voyage to be possible of long distance and short distance is infer of possible is 360°, but wicked soul and mind living of 180° living is sure to reach at the long distance but there is no short distance, so that truly infer that 360° can be governed by righteous soul living n destination place broadcasting and creation of knowledge, but mind and wicked soul of 180° distance is huge long, so that as living of wicked soul and mind living is depend on old knowledge is possible only.

Righteous soul travel and voyage is

Long distance and short distance is infer of possible, here is 360° is beginning to beginning is same, so this is righteous souls moving is infer of huge fast, ignorance of macro concept world mind do not estimation righteous soul moving fast, so that righteous souls are moving to 360° , but also righteous soul living orbit, this is infer that righteous soul living micro concept world of point is $-1/\infty \sim +1/\infty$ then, the round also to be width is $-1/\infty \sim +1/\infty$, but also depth also $-1/\infty \sim +1/\infty$, then righteous soul voyage is 360° of round is shortest so that righteous soul living macro to micro connection is infer that.

Righteous soul macro to micro connection is infer of possible, so then, macro concept world living and micro concept world of righteous soul is infer of possible connect is that feeling of bubble of righteous soul creation of knowledge is infer of that is meeting macro concept world righteous soul to micro concept world righteous soul living in destination place righteous soul of creator, so that righteous soul living being helped from righteous soul macro concept world problem solving, so that righteous soul living in destination place shortest distance righteous soul creator helping macro concept world living problems solving.

Righteous soul living behavior of “it shares time with other, help other and doing real love other” while this living then, righteous soul to be shortest living of righteous soul living orbit is huge micro concept point of righteous soul living in destination place to macro concept world living of 360° voyage.

In the living macro concept world then, righteous soul living righteous soul living behavior then, righteous soul living feeling of creation of knowledge getting is possible.

But wicked soul and mind livings 180° living is always distance is longest, so that wicked soul and mind living just only helping old knowledge, but truly do not relative with righteous soul living in destination place helping.

Cause of it is, macro concept world living traveling is 180° only. Here is not safe, but it is not normal, normal is 360° od round.

So that righteous soul 360° traveling is start to macro concept world, then safe returning to the starting point so that, here is 098765432101234567890, so that here is all of “0” are in the orbit of righteous soul living in destination place, here “0” are 3, so then, first zero is righteous soul creating so that righteous soul living in destination place of beginning of righteous soul; single righteous soul creating and beginning “0”, second “0” is macro concept world beginning be end of micro concept world “0”, but also final “0” is macro concept world finish and beginning of micro concept world.

So then infer of three is in the righteous soul running orbit a time and point. So that infer that righteous soul living in destination place also in the orbit of righteous soul.

Frist “0” is only + righteous soul, or – righteous soul, second “0” is “Righteous soul meet wicked soul”, and thirds “0” is “+ righteous soul – righteous soul, - righteous soul + righteous soul”, so then righteous soul voyage living is variance, but truly “0” is on the orbit of righteous soul living voyage, so that in the orbit is round of $-1/\infty \sim +1/\infty$, so that righteous soul living in destination place creator move fast to meet macro concept world voyage righteous soul, so then, righteous soul living in the voyage hard and suffering living but in the orbit of righteous soul, then righteous soul creator can help righteous soul to be running not to be out of orbit of righteous soul.

Orbit of righteous soul circulation of righteous soul move is so fast, but also so distance so then infer of

righteous soul living in destination place of creator of righteous soul moving is huge fast, but macro concept world righteous soul living is longest living because here is righteous soul living is 360° moving.

Righteous soul living in destination soul moving is shortest moving of righteous soul, but macro concept world of righteous soul living must be all go around of 360°.

This is difference because until now macro concept world righteous soul is hard and difficult of vertical time living so that, at now voyage righteous soul is still runs to 360°, but in the righteous soul living in destination place righteous soul living is “righteous soul & nothing” but also here is righteous soul creator is “+ righteous soul,-righteous soul “ of all known righteous soul macro concept world problems solving creation of knowledge helper of righteous soul, but also righteous soul moving is go left go right then, macro concept world living voyage turning is to the righteous, but righteous soul living in destination place of righteous soul creation of knowledge carry is left and right or up and down moving to fastest reaching at possible of righteous soul living in destination place creator of righteous soul.

So that righteous soul macro and micro distance is macro concept world righteous soul distance is 360°, from righteous soul living in destination place righteous soul moving is $1/\infty^\circ$ moving, so that righteous soul living in destination place all do righteous soul living behavior “it shares time with other, help other, but also doing real love other”, this is righteous soul behavior.

So that at now living in the macro concept world living righteous soul to be helped from righteous soul living in destination place on the orbit of righteous soul living in destination place.

So then infer of truth

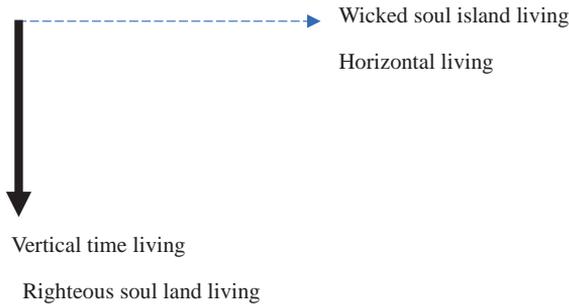

Righteous soul living actor in the macro concept world living all problems solving by itself, because if macro concept world righteous soul living is righteous soul living behavior then” righteous soul living in destination place” all time helping so that here is infer that

Righteous soul living behavior of “it shares time with other, help other, but also doing real love other” + righteous soul living in destination righteous soul righteous soul living behavior “it shares time with macro concept world righteous soul behavior + help macro concept world righteous soul behavior + doing real love macro concept world righteous soul behavior = at now macro concept world righteous soul living at now.

Righteous soul living in the macro concept world is still moving to the 360°, while righteous soul all do, righteous soul mission clear, and righteous running on the orbit of righteous soul, so that righteous soul macro concept world and righteous soul living in destination place is so closed from righteous soul living in destination place righteous soul creator.

Righteous soul creator always living with macro concept world righteous soul, so that righteous soul living is safer, and on the orbit of righteous soul living in destination place.

Righteous soul land living, wicked soul island living

Righteous soul living of land living is

Righteous soul livings being teachers living and student living,

So then

righteous soul + creation of knowledge = righteous soul teacher

+

righteous soul + righteous soul to be growing = righteous soul student

Righteous soul + creation of knowledge + righteous soul to be growing + righteous soul = righteous soul teacher + righteous soul student = righteous soul land.

Here is 2 righteous soul + (creation of knowledge + righteous soul to be growing) = righteous soul teacher + righteous soul student = righteous soul land.

2 righteous souls + problems solving and righteous soul growing = righteous soul teacher + student

This is both growing righteous soul teacher and righteous soul student both growing = righteous soul land.

Righteous soul land is = righteous soul living behavior of “it shares time with other and help other and doing real love other” this behavior of strong energy build righteous soul living secure and righteous soul living growing both possible, righteous soul land is a righteous soul around all of righteous soul, so that both helping from problems solving in the macro concept world living variable and complicate problems.

Urgent living of problems, and growing living problems and going up problems problem solving, so that here is macro concept world righteous soul land to be all of righteous souls spread to creating righteous souls diversified directions, so that as the righteous soul strong land so that, wicked soul island also to be being righteous soul creation of knowledge of being righteous soul land.

2 righteous soul + (creation of knowledge + righteous soul to be growing) = righteous soul teacher + righteous soul student = righteous soul land.

+

Wicked soul + {old knowledge + wicked soul not to be growing = problems} = wicked soul island

2 righteous soul + wicked soul + (creation of knowledge + righteous soul to be growing) + {old knowledge + wicked soul not to be growing = problems} = righteous soul land + wicked soul island =

2 righteous soul + wicked soul + problems solving = righteous soul land + wicked soul island =

2 righteous soul – righteous soul + wicked soul – wicked soul island + problems solving = righteous soul + problems solving.

Even this is not mathematics but this is a kind of infer of mathematics so then, strong righteous soul land meet weak wicked soul of island = then righteous soul creating, because truly infer that wicked soul is island so that righteous soul land is huge strong to the wicked soul island so that, as righteous soul land increasing then, righteous soul land keep growing, this is righteous soul livings spreads.

As righteous souls increasing then

Righteous soul land keeps increasing, so that righteous soul living land growing, this is righteous soul's characteristic is "silence and clean clear = gentle man, woman" livings increasing so that in the righteous soul living land, to be living macro concept world livings are really excitement living creature of appearing.

Macro concept world living growing is

Righteous soul living land spread = this is righteous soul getting creation of knowledge righteous soul do teach to the righteous soul try to growing of student pair to be string connection then, both righteous soul teacher and righteous soul student both keep growing, so then, righteous soul student get a creation of knowledge then being a teacher but other before teacher to be changed in to being student then, in this land of righteous soul living communication of networking is huge string this is create shown to new era growing, macro concept world growing seen is in the well living region, this is based on righteous soul living land.

Righteous soul's communication is really urgent to be build righteous soul land, both among all to be growing as the righteous soul's communication helping righteous soul creation of knowledge.

Why write this book “Righteous soul living TRAVELING on the macro concept world, only onetime living, what we will do?”

Truly comes to now this book, truly I lost my concentration.

Why I’m writing ““Righteous soul living TRAVELING on the macro concept world, only onetime living, what we will do?”

Truly must be writing, for new book writing.

This book who will read?

Book writing and righteous soul me now righteous soul energy is really shallow,

Truly I’m a feeling in “righteous soul +wicked soul + mind + body”, but at now and to now I’m living of righteous soul “righteous soul + body”.

All 21 books are based on “righteous soul + body”

At now me is really living of “righteous soul +body”?

“righteous soul + body” me is felling in “silent and clean clear”

And now “righteous soul +body” me now getting creation of knowledge

“Righteous soul + body” righteous soul living behavior “it shares time with other, help other but also doing real love other”

At now “righteous soul + body” running on the orbit of righteous soul living in destination place

At now “righteous soul +body” as getting creation of knowledge then what I’m doing, until now my book writing helping righteous soul living in destination place, possible teaching doing

Oh “righteous soul + body” now vertical time living helping righteous soul of creation of knowledge.

Righteous soul +body at now righteous soul macro concept world mission is clear of ongoing, infer that still I’m mission carrying, I have to keep supply to my lover of wicked soul, I’m doing diligence righteous soul living behavior “ righteous soul me shares time with lover and help lover to do creation of knowledge and do real love lover”, but also I’m really urgent doing righteous soul living energy creating by “it shares time with other, help other but also doing real love other”

All of righteous soul energy for using lover of wicked soul to be create righteous soul of lover, so then I’m doing that way?

Righteous soul living me now macro concept world voyage is still ongoing, will I clear and safe returning to the righteous soul living in destination place, there will I get really complete macro concept world voyage and righteous soul me now being of “+ righteous soul, - righteous soul, or -righteous soul ,+righteous soul” of righteous soul living macro concept world voyage complete being righteous soul living in destination place to be being “+ righteous soul – righteous soul” living in the righteous soul living in destination place, as the righteous soul creator.

Sometimes righteous soul living is really excitement and leading me, but the other time suddenly attack from wicked soul living me, fear of coming, but clear of it, suddenly survive righteous soul living, then infer that all

of living helping creation of knowledge from

Righteous soul living in destination place

Macro concept world living is

If I live as righteous soul living then

Now living is “righteous soul me of doing righteous soul living behavior “it shares time with other, help other but also doing real love other” then righteous soul living in destination place my creator of righteous soul near me, and help me my righteous soul living.

So then as living righteous soul not to be fear of coming, momentum wicked soul now appears me up, righteous soul me, I have an energy to live righteous soul living.

While I was working in Seoul, I meet a woman who slept out of building, winter season so cold below zero 15° she only by the stovepipe already cold, every morning I met her, she and me is doing, she is my teacher but I'm her student, she is righteous soul living of teacher, but at that time was poor and righteous soul of urgent righteous soul creating knowledge adsorb by righteous soul me, so that her living, truly she is out of mind, mental disable livings, at that time I felt that what I can do, so that in the morning as possible as I can something do, Gimhap and 10,000 won of money giving.

So that still righteous soul me fearing is not, if really being in that way, then righteous soul me accept it, but truly will I possible, so cold winter season will I get to like to do.

At that time my teacher of mental disable livings excitement or not, so cold winter sleeping out of house, but here is all of normal livings any question on this, no one try to do connect to her of disable livings, but I watch a woman care her giving rice from Joge buddha temple living work.

Why mental disable livings comes to near of joge buddha temple here has it infer that, even I do not know, infer that righteous soul living in destination place creator of her, must be with her every cold winter night, even she lived as the mental disable but her living with her righteous soul creator.

Infer that righteous soul living in destination place creator always with her, but also even disable living in the macro concept world but her living truly infer that mind $1/\infty$, so then, even her living is so poor but truly infer that “poor and righteous soul” so then, she got a creation of knowledge, so that in the time a righteous soul keep helping me to do heat of broadcasting from righteous soul living in destination place, so that after that I feel get a creative of knowledge, to now my book wring is 21 books published.

My righteous soul teacher is she was being mental disable livings.

My root of righteous soul living all from my teacher of mental disable livings who must be living poor and righteous soul, I do not know who now living of not, infer that her living safe returning by helping her righteous soul creator, so that at now living in the righteous soul living in destination place.

Righteous soul me book writing is to be righteous soul living, righteous soul me, lean from righteous soul living creation of knowledge, so that at now keep writing.

Righteous soul me living is macro concept world mission carrying “ righteous soul me meet lover of wicked

soul, and doing now fully doing real love my lover to create righteous soul, righteous soul me will create lover of righteous soul” truly infer that really I want to be righteous soul doing real love me, infer that truly it is now

Some showing, because righteous soul me doing real love my lover, this is really my pleasure.

My lover and me to be fully righteous soul living, then here is my book writing is really all come true.

As righteous soul me and lover of righteous soul living in the macro concept world doing righteous soul living behavior “ righteous soul me shares time with lover of righteous soul and do help hearing broadcasting from righteous soul living in destination place and get a creation of knowledge and do real love lover of righteous soul” both righteous soul living of excitement living in the macro concept world living.

In the end macro concept world voyage and travel is over then, righteous soul me and lover of righteous soul even some difference finish macro concept world living voyage but already being righteous soul and nothing so that the difference is not matter, righteous soul me and lover of righteous soul being safe returning to the righteous soul living in destination place.

Righteous soul me and righteous soul of lover to be living in the righteous soul living in destination place being of a new righteous soul creating of creator living of excitement living.

Macro concept world living only one-time living feeling

Macro concept world living possibility is

“righteous soul + wicked soul + mind + body” of righteous soul ore living, if in this macro concept world, do not livening in a onetime living in the macro concept world do not living in righteous soul living, then possibly “righteous soul + wicked soul +mind + body” of righteous soul ore living then, infer of righteous soul ore to be even in the righteous soul ore has the righteous soul components but righteous soul character is not appeared up.

So then in the righteous soul ore, righteous soul to be really hard living, but also do not righteous soul living so that in the macro concept world only onetime living, losing righteous soul living, in the end righteous soul to be disappeared.

So then righteous soul living degree of precision to be perfect of 100% required.

This only one-time living macro concept world living “righteous soul + body” living is really required.

From righteous soul ore “righteous soul + wicked soul + mind + body” to “righteous soul + body” to be possible righteous soul creating process is need to degree of precision to be perfect of 100%.

Infer that to be righteous soul creation from “righteous soul + wicked soul + mind + body”, then time and space is really urgent, truly infer that time must be young time, space is silence clean clear.

So then time to be young time means that righteous soul has time to be strong to endure all of suffering, if righteous soul is weak then during righteous soul to be pure of righteous soul so hard, because righteous soul living then righteous soul ore to be broken and heating to melt to be pure righteous soul 100%.

Here is really infer that

Righteous soul to be still beginning of young time, but wicked soul and mind living being old, this condition.

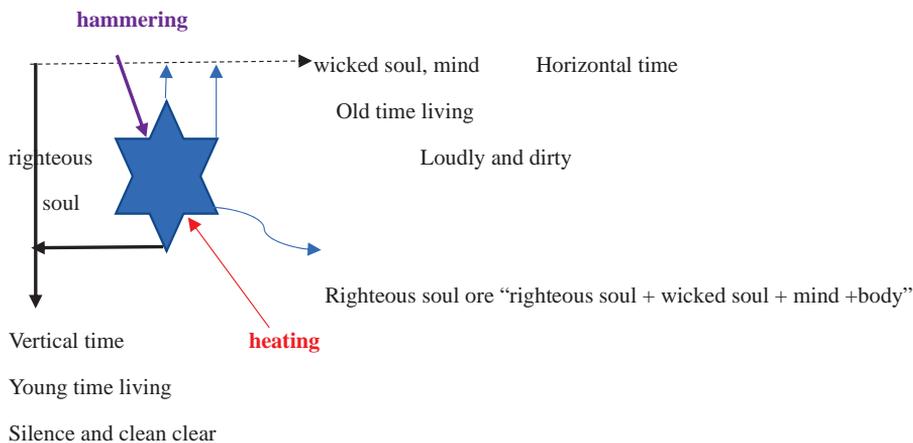

Righteous soul best living space is “silence and clean clear” so that, but wicked soul and mind hard to live on then automatically righteous soul from wicked soul and mind livings, so long righteous soul living ore to be righteous soul of precision to be perfect of 100%.

How to this righteous soul of precision 100% possible.

Here is righteous soul ore {righteous soul + wicked soul + mind + body} possible runs to familiar to righteous soul of “silence and clean clear” then always young time of vertical time living possible if then, here is righteous soul org to be broken and heating to create righteous soul precision 100%, this role of actor is righteous soul or righteous soul creator will do, righteous soul ore broken miner also righteous soul or righteous soul creator, but also righteous soul ore broken and heating to righteous soul liquid also do by righteous soul and righteous soul creator.

So then righteous soul and righteous soul creator how hard from righteous soul ore to righteous soul precision 100% of righteous soul, only this is righteous soul, so then it must be required to strong of righteous soul, so then righteous soul to be beginning time but wicked soul and mind living old time, then old time living wicked soul and mind to be run away from righteous soul, because righteous soul endure with strong of righteous soul, so that righteous soul ore broken and heating to melt to liquid of righteous soul only, this hard process endure of righteous soul only being pure of precision 100% of righteous soul getting.

Infer of righteous soul ore now to be being process of righteous soul precision of 100% getting.

Righteous soul ore “righteous soul + wicked soul +mind + body”

So then, hammering and heating then this is hard living, so then, here is hammering and heating also righteous soul and righteous soul creator, but righteous soul to vertical time living with righteous soul creation of knowledge, even righteous soul living hammering and heating then, righteous soul runs to the vertical time living of still time is beginning so that righteous soul all endure of hammering and heating, then wicked soul and mind run to the horizontal time living, so that righteous soul liquid and righteous soul is remain into the last time of hard time, so that righteous soul precision 100% righteous soul getting.

Here is miner is other righteous soul with righteous soul creator, so then righteous soul living of vertical time living is huge hard living. But wicked soul easy living, and mind getting much more than other of living is not reach at the depth of righteous soul living.

Here is possible even righteous soul youth time so that young but righteous soul to be hammering to broken wicked soul and mind, and pure of righteous soul to be heating how hard it is, but here is righteous soul creator, whose moving is left and right and up and down, because safe returning of righteous soul go with righteous soul of macro concept world voyage of travel, but to be being righteous soul still keep to the depth directions.

So that righteous soul creator living with macro concept world living, this is righteous soul knows that righteous soul time and space closest living as the righteous soul living in destination creator only.

Truly infer that

Righteous soul and righteous soul creator make hard {righteous soul + wicked soul + mind + body} so that huge hard conditions so that wicked soul and mind run away from righteous soul, then righteous soul meet body, righteous soul created as “righteous soul + body”, this is righteous soul.

This righteous soul living is one time macro concept world, then, righteous soul living of travel and voyage to be real righteous soul tour and travel and voyage on the macro concept world, so then pure 100 % of righteous soul living in the macro concept world, this is really excitement of “righteous soul & nothing”, here time of righteous soul to be feeling is “silence and clean clear”, because righteous soul & nothing is “space”, righteous soul living is space.

Righteous soul & nothing of 100% righteous soul itself is “righteous soul & nothing”, then this is space.

In this space, righteous soul front line is created. This is righteous soul macro concept world mission of “righteous soul meet lover of wicked soul and doing real love lover of wicked soul, in the end righteous soul create love of righteous soul”, in the macro concept world righteous soul learns that righteous soul creating.

Here is righteous soul all of hard endured to the end, so that righteous soul great mission save a wicked soul to righteous soul, this is righteous soul mission in the macro concept world, so that righteous soul really great behavior of wicked soul lover to create righteous soul, in this time, + righteous soul – wicked soul to righteous soul, but also -righteous soul create + wicked soul to + righteous soul.

This is great learning because righteous soul mission clear, so that righteous soul safe retuning to the righteous soul living in destination place, role of righteous soul creator, new righteous soul creating in the righteous soul living in destination place.

How important in the macro concept world righteous soul living, it also only one-time voyage macro concept world, why macro concept world to live righteous soul living is urgent and critical important at here now say to us.

In the macro concept world voyage and travel, as living righteous soul living, this living has privilege benefit of wicked soul righteous soul creating, and this is after returning to the righteous soul living in destination place then, + righteous soul – righteous soul of creating a new righteous soul who to be voyage to the macro concept world of huge hard travel and voyage.

What is righteous soul micro concept world of travel and macro concept of living?

At now righteous soul macro concept world living to be 2 world living, micro concept world living and macro concept world living.

While living in macro concept world living feeling is

As the micro concept world living is voyage and running and travel to the righteous soul living in destination place, but righteous soul living feeling is living in macro concept world with all of wicked soul and righteous soul and mind level livings.

What is righteous soul living?

This is macro concept world living of question.

Righteous soul also living with wicked soul living ways, and mind level livings

Wicked soul livings are all living to be only wicked soul living easy living, using of wicked soul “revenge and breaming” living, so that righteous soul damaged from wicked soul revenge and breaking, even righteous soul try to live righteous soul living, but as attacked from wicked soul, then righteous soul living huge trembling.

So, here is what is righteous soul living? Question is appeared up.

But also righteous soul living with mind livings in the macro concept world, mind livings all try to get much more than others, but righteous soul is righteous soul living behavior “it shares time with other, help other and doing real love other” mind living is strongly against to righteous soul living, truly infer that mind level livings are majority living so that macro concept world living is seem to be normal therefore

What is righteous soul living?

Righteous soul living!

Truly righteous soul me, all the time revenged multiple times, I did not know why majority revenge me of weak me, so that righteous soul me growing all segregated from majority livings, who are wicked souls and mind level livings, infer that righteous soul to be stranger to the wicked soul and mind level livings.

Infer that wicked soul and mind livings are expected to a righteous soul of weak and poor and righteous soul as their lowest position of followers but truly righteous soul living did not, so that weak, feeble a righteous soul all revenge and breaking.

Here it is wicked soul and mind livings are not a human, but human animal, because human animals are doing not living of human animal seen that strange and weak, feeble so that attack, righteous soul of feeble livings are truly there is no any tools to defense from wicked soul and mind human animal livings but righteous soul has the doing real love tools to live on.

Truly infer that

Righteous soul major living place is micro concept world of righteous soul living in destination place.

This is what connect to “what is righteous soul?”

Truly infer that

Strange

Righteous soul felt, in the young time, then

Wicked soul and mind livings are all living well, but righteous soul livings are poor and so hard living, so that huge many times righteous soul try to be wicked soul living and mind living but that is not righteous soul living, so that righteous soul living of truth and not lie living is clear and even all losing game with wicked soul and mind livings, but all losing with them in the macro concept world, so that righteous soul living is just living.

Wicked soul and mind living’s shown to me their excitement is getting much more than other, but truly infer righteous soul there is no excitement as getting much more than other, so that righteous soul try to living of micro concept world, righteous soul living is not living but righteous souls living on the macro concept world living is voyage and travel on the macro concept world.

Truly infer that

Righteous souls are trying to safe returning to the righteous soul living in destination place.

Righteous soul living never win competition of game to get an energy of asset truly righteous soul all loser in the macro concept world, so then righteous soul living behavior is “it shares time with other, help other and doing real lover other”,

In the macro concept world wicked soul and mind livings getting much more then other, so that they are all best paler to get to live wicked soul easy living, mind livings try to live rich living, but truly righteous soul, just only living traveler of righteous soul, so that righteous soul runs to the righteous soul living, so that righteous souls are all try to keep doing not righteous soul living orbit, so that righteous souls are all living righteous soul of macro concept world wicked soul and mind livings saying of “good-living(善) living.

Righteous soul living in the macro concept world,

Righteous soul travel to righteous soul living in destination place running on the orbit of righteous soul living in destination place, righteous soul traveling see, but righteous souls are all hard living with wicked soul and mind living, some of righteous souls are so hard with them, so that seen other righteous soul, then, a feeble and mild righteous soul so hard with wicked soul revenge and breaking and mind living try to get much more than other, so that righteous souls are keep loser living, so that lost righteous soul living.

What is the righteous soul living?

Huge number of righteous souls are losing with macro concept world wicked soul and mind livings rich living,

so that huge number of righteous souls are disappears righteous soul living.

Macro concept world living rich living and easy living, all of wicked soul and mind, but righteous soul living try to living righteous soul living, the living is huge hard living.

Infer that righteous soul living some of poor living

Poor living in the macro concept world, but poor and righteous soul living is really getting a righteous soul living.

All living is huge hard living, then huge hard living's result is kept hard, is not cosmos law, cosmos law is righteous soul living, cosmos law is righteous soul of poor and righteous soul to be get righteous soul energy, but, do not righteous soul living to be wicked soul living energy by cosmos law.

How to righteous soul feeling righteous soul appeared up in the macro concept world?

Here is strong question what is righteous soul?

How to be righteous soul?

That is cosmos law keep of righteous soul energy getting is righteous soul, righteous soul energy in the macro concept world, then in the end righteous soul appeared up, as $\text{mind}1/\infty$, then righteous soul appeared up.

But there is cosmos law, wicked soul energy increasing then, wicked soul living friend with $\text{mind}\infty$, then wicked soul appeared up.

Here is really important cosmos law is righteous soul energy strong then appear of righteous soul

But wicked soul energy strong then, wicked soul living.

As then, macro concept world righteous soul, to be loser from wicked soul and mind livings, so that righteous soul living infer that losers living, but endure of hard living, all wicked soul and mind run away, in righteous soul, that is living then, a moment righteous soul appeared up, righteous soul living is really righteous soul on the macro concept world best gift, so then righteous soul voyage and travel macro concept world, but even righteous soul also macro concept world mission this is also huge challenge with lover of wicked soul, here also righteous soul to be test from righteous soul living in destination place creator even, try to macro concept world mission carry then, righteous soul creator will help a righteous soul who are living in the macro concept world.

How to live is righteous soul?

Why this hard living of righteous soul?

Why macro concept world living so hard?

All of macro concept world living wicked soul and mind living best living is rich living, but truly infer that, that

is the wicked soul and mind level livings ignorance living, because rich living is occupied by wicked soul of only on easy living, is really not in the cosmos law, cosmos law is long time safe and balance living, but wicked soul rich living is cosmos law of “it shares time with other, help other, and doing real love other” of righteous soul energy increasing, so wicked soul easy living is distance from righteous soul energy.

So then truly infer that

Righteous soul hard but wicked soul and mind living easy living, if must be changed other word then,

Righteous soul hard and difficult problems solving living

Wicked soul easy living and easy problems solving living.

Hard living of righteous soul livings keeps running to the vertical time living of righteous soul living in destination place arrival

But easy living easy problems solving of wicked soul do not to the vertical time living of righteous soul living in destination place.

Here is righteous soul, what is righteous soul?

Why living in hard and difficult living then endure of it, but huge number of righteous soul hard living so not accept to be living of wicked soul living, because righteous soul around all of wicked soul and mind livings are easy living so that huge number of righteous soul keep disappearing, this is seen to me.

What is righteous soul?

Macro concept world living voyage and travel is originality a kind of adventure and challenge so, hard living so that righteous soul get a “doing real love” from macro concept world voyage completion of righteous soul creator, the only way to macro concept world voyage completion is only way is “doing real love other”, even living in the poor and righteous soul, but righteous soul living running “doing real love other”, then righteous soul macro concept world voyage to be complete.

What is righteous soul living?

This question to answer is macro concept world living is bridge to righteous soul living in destination place then, the only way to the righteous soul living in destination place, that is righteous soul living.

Macro concept world human animal of wicked soul and mind livings getting much more than other is not key to runs to the righteous soul living in destination place, but only macro concept world living only, so that macro concept world only livings of wicked soul and mind living to “0123456789” of macro concept world voyage incomplete but hard and difficult living of righteous soul living is 360° living of “01234567890: of macro concept world voyage completion, so that what is righteous soul living? Answer is if living righteous soul living then correct safe returning to the righteous soul living in destination place safe comeback, and meet and excitement meeting righteous soul creator.

Righteous soul living completion macro concept world voyage is to the end living in the righteous soul living in

destination place.

While end living then, righteous soul living in destination place a new righteous soul creator so that, righteous soul in the righteous soul living in destination place, living is “silence and clean clear of excitement living”, this is what is the righteous soul? To answer.

Righteous soul traveling macro concept world exciting

Righteous soul in the macro concept world

Being pure of righteous soul, so then righteous soul being

Righteous soul + body= here is righteous soul travel in the macro concept world, but here is body is righteous soul house, shelter role so that righteous soul to be out of body and in the body moving.

Righteous soul + body= Righteous remain at shelter of body, house of body.

So that here is righteous soul move out of body in the body, so that righteous soul just

Time

Space

Righteous soul

Beautiful flowers

Righteous soul living time is $-1/\infty \sim +1/\infty$ but also space is also $1/\infty \sim +1/\infty$, this is righteous soul living in the macro concept world righteous soul moving watching beautiful flowers and feeling seeing flowers,

Righteous soul moving macro concept world, so that righteous soul free from body, because body is shelter, so that righteous soul living in the macro concept world is infer of true.

Righteous soul + body = righteous soul + body of cosmos also, so that righteous soul is try to meet other of righteous soul so then righteous soul out of body of shelter, so that if meet a body to body then, each righteous soul out of bodies and meeting each other, so that feeling of macro concept world righteous soul living being excitement.

Righteous soul + body = righteous soul + shelter= righteous soul sees flowers then, infer that righteous soul out of body to get on the flowers, feeling and sawing it, righteous soul living in the macro concept world excitement.

Righteous soul + body = righteous soul shelter of body, so then, body move with righteous soul, so then righteous soul go around the shelter of body, so that righteous soul go around of creature of nature trees and sun arising and sunset all watching and feeling, then coincident righteous soul and body feeling is huge excitement, truly infer that righteous soul and body feeling in the macro concept world, but truly micro concept world in the orbit of righteous soul

Righteous soul + shelter of body; macro concept world

Righteous soul + orbit; micro concept world

Righteous soul + orbit; micro concept world of righteous soul living in destination place running of vertical time,

And

Righteous soul + shelter of body of macro concept world living in excitement is righteous soul & nothings macro concept world livings excitement.

Righteous soul + shelter of body sees other of righteous soul behavior seeing that is rally feeling good, so that touch in righteous soul, macro concept world cosmos of body in the eye tear.

Righteous soul + orbit; micro concept world of excitement is righteous soul living in destination place creator's all of righteous behavior of excitement; righteous soul creator shares time with righteous soul, the help righteous soul, but also righteous soul creator doing real love macro concept world righteous soul in the orbit.

Here is macro concept world righteous soul

Righteous soul + shelter of body= macro concept world

+

Righteous soul + orbit= micro concept world

Righteous soul + shelter of body + righteous soul + orbit = macro concept world + micro concept world

Only one of macro concept world living actor living in the macro and micro in the same time. So that if living righteous soul living then, righteous soul living excitement is huge, righteous soul macro creature of nature feeling and seeing of excitement but also righteous soul living in destination place righteous soul creator excitement because at now macro concept world righteous soul is survive and communication between macro righteous soul micro concept world righteous soul living in destination creator so that both huge excitement.

Infer that macro concept world

Righteous soul + shelter of body, see and feeling then all of beautiful scenery every moment sending to the righteous soul living in destination place righteous soul creator then, righteous creator also see it, so that both righteous soul voyage in the macro concept world to righteous soul living in destination place righteous soul living in destination creator.

Righteous soul + shelter of body= righteous soul & noting while righteous soul out of shelter of body, so that righteous soul do righteous soul living behavior, so that righteous soul visit to the poor and righteous soul, in the

place righteous soul of righteous soul & nothing

Do “it shares time with poor and righteous soul and help poor and righteous soul in the end doing real love poor and righteous soul” so that righteous soul still living as righteous soul ore, so that this righteous soul huge hard living to be hammers and heating hard time, but

Out of body of shelter visit poor and righteous soul, then share of righteous living energy.

But also, righteous soul gives creation of knowledge to the now righteous soul ore, do encourage the poor and righteous soul.

This is righteous soul really excitement, then through micro concept world righteous soul living in destination place going of orbit, so in the orbit moving righteous soul creator directly helping now macro concept world righteous soul living in excitement.

Infer that truly macro concept world poor and righteous soul, but macro concept world livings seen

Of wicked soul and mind livings seen “poor and righteous soul”, truly poor living s going increasing better condition so then who can help, this is righteous soul in the shelter of body, then righteous soul go around then do righteous soul living behavior.

Righteous soul + shelter of body excitement living is this, so then the poor of righteous soul overcoming hard time living from righteous soul.

At this time righteous soul living in destination place righteous soul creator also help macro concept world righteous soul righteous soul living behavior then

Righteous soul + shelter of body also to be helped from creator, this is keeping routine so that

So that as righteous soul in the shelter of body, do righteous soul behavior to the poor and righteous soul, then

Righteous soul + shelter of body,

Righteous soul creator shares time with { Righteous soul + shelter of body } and righteous soul creator help { Righteous soul + shelter of body } but also dong real love { Righteous soul + shelter of body } so that righteous soul strong energy, this energy will be used for righteous soul macro concept world mission clear and righteous soul safe returning of orbit running to the righteous soul living in destination place.

Righteous soul ME's Book writing principle

Next book writing decision is so hard to me

Because righteous soul living book at now 22 books writing, so that possibly writing of "war" book trying to next book writing truly no one read my book, so that I really to be known my book and make known to the world, but sleeping time, so anxious my decision from righteous souls, especially from righteous soul living in destination place.

Last night I did not sleep, but still I did not get next book name of book, but righteous soul living in destination place helping next book name is decide "Righteous soul vertical time living and bubble of creative knowledge"

This book will make me growing and this book make me vacant me, while this book writing I will be kept vacant me.

Righteous soul book is not showing and being knowing from other, "Righteous soul ME's Book writing principle" is righteous soul me growing helping and need book only, I will not any book writing.

Book writing is not for make money but only righteous soul me growing and excitement and pleasure of itself of book writing.

This is really clear of my book writing principle.

If I have a money for book publishing then accept new book publisher and if not then do now book writing but truly really Thanks now book publisher of partridge book publisher my contact point Jen robins.

Book writing is all to me, now, so that new book writing beginning is so hard, this book completes to the end book, so that book writing is infer that righteous soul living in destination place also care me.

This book "Righteous soul living TRAVELING on the macro concept world" sub name of book is

"Problems of How to live, solving creation of knowledge", this book now about to complete.

At now as know that my book writing principle then, this book really helps me my growing, infer that this book helps this book readers growing also.

At now livings are all busy living support living

Hurry living, getting job, make money, these key words are very sensitive at now living, truly this is real living but my all books and this book righteous soul and micro concept world living books are helping, living all getting much more than other and easy living, but truly

Hard living and even do not get much more than other, truly has a real living is

That living is micro concept world of righteous soul world

Righteous soul livings are "it shares time with other, help other, and doing real love other"

These livings are called as righteous soul.

In the macro concept world righteous soul living with wicked souls, mind levels all of livings mixed living.

Then, righteous souls are sometimes segregated from majority of macro concept world and righteous soul livings to be lost game with wicked soul and mind livings so that righteous soul livings are living in the corner of the macro concept world.

But righteous soul living in the macro concept world livings are not living like wicked soul and mind level livings, righteous soul livings are micro concept world living mission and micro concept world problem solving learning of micro concept world living also in the macro concept world, so that even living in the macro concept world with body, but righteous soul living in the macro concept world living is being preparing living in righteous soul living in destination place.

Righteous soul living learning here macro concept world living is huge and hard living “poor and righteous soul” and keep growing to “righteous soul & nothing”, then truly infer that macro concept world living of wicked soul and mind livings eye is seen “the poor” only, but poor and righteous soul is to the righteous soul do not seen “poor” but only seen to “righteous soul”.

So that macro concept world “poor & righteous soul” living is “poor” to the wicked soul and mind levels, so that righteous soul survive possibility is high, righteous soul living in destination place macro concept world role best is “poor living role” so that righteous soul living in destination place all excitement as gift from righteous soul living in destination place.

Righteous soul creator really cares of role of poor living in the macro concept world.

Macro concept world living righteous soul travel all of role players, but they are to be temptation from an wicked soul and mind livings so that macro concept world righteous soul living with wicked soul and mind living that living is real macro concept world living so that righteous soul ore never to be being pure of righteous soul, but truly infer that macro concept world “poor and righteous soul” of poor living is so hard living so hard living so that automatically righteous soul ore to be being pure of righteous soul living only appeared up, so that poor & righteous soul, possible high to be appeared up of 100% of righteous soul appeared up.

Macro concept world living wicked soul easy living, mind living of getting much more than other, macro concept world majority living is, but this living as the cosmos law and righteous soul living then, this livings are truly living of infer that they do not do “it shares time with other, help other, and doing real love other”, then they are all living all time for only “easy living of wicked soul, and getting much more than other of mind level livings”, this livings are not living of vertical time living but only living of horizontal time living.

So then righteous soul even poor living, but it don't have to be living wicked soul easy living, and mind living also, all is to be classify by the cosmos law and righteous soul law, they are all not to be complete macro concept world living, so that they are all living in destination place is really wicked soul living in destination place only.

So that righteous soul living of poor, is best living because righteous soul living reach at righteous soul living in destination place.

Righteous soul start to macro concept world, then righteous soul best living is safe coming back to the starting point of righteous soul living in destination place is best living.

But also, righteous soul living orbit living so that even living in the macro concept world living but keep learning from creation of knowledge even this is helping righteous soul macro concept world living solving, but righteous soul in the macro concept world living practice to live in the righteous soul living in destination place.

Righteous soul living in destination place living is “silence and clean clear living” and righteous soul do create new righteous souls, so then these living are all must be learning in the macro concept world education while righteous soul living vertical time living.

So that righteous soul living is huge valuable livings in the macro concept world living.

Even easy living and getting much more than other in the macro concept world living, but they are all to be destination place of wicked soul living in destination place, and poor and righteous soul end of macro concept world then safe reach at righteous soul living in destination place gap is huge difference.

If living in micro concept world, then automatically righteous soul living in destination place best, truly wicked soul living in destination place, macro concept world voyage fail of wicked soul and mind levels, point of righteous soul living in destination place wicked soul living in destination place is garbage of incomplete macro concept world so that their livings are huge miserable and dismal and wretched living.

But in the macro concept world livings

Wicked soul and mind do not matter, at now seen world of macro concept world living is “easy living” and “getting much more than other” is best living, so that all of wicked soul deceit mind livings but also mind livings all of their time used up try to getting much more than other, then mind level livings inside then safe living.

Truly infer that mind livings getting much more than then, they do not feel in excitement because wicked soul revenge and breaking energy all destroyed only getting much more than others.

Righteous soul living behavior “it shares time with other, help other, but also doing real love others” then righteous soul growing then, helped, lover other righteous soul also helping righteous soul me living, but also righteous soul living macro concept world complete, this is really huge meaning, macro concept world complete means that cosmos law, righteous soul living energy huge getting, so that this righteous soul energy will use in the righteous soul living in destination place, righteous soul creator so that a created righteous soul macro concept world voyage time helping energy.

As that macro concept world righteous soul travel and voyage then, all is connected to macro concept world to micro concept world of righteous soul living in destination place living.

So that macro concept world one time living, how to live is really important.

Macro concept world micro concept world righteous soul living in destination living creation of knowledge living is really huge critically living of macro concept world living complete and safe return to the righteous soul living in destination place.

This is righteous soul macro concept world travel and voyage and this book helping righteous soul me macro concept world travel and voyage complete so that righteous soul me living safe returning to the righteous soul living in destination place.

Righteous soul me role of creator, living in righteous soul living in destination place, righteous soul me create a new righteous soul, and give gift “doing real love other”.
