Righteous soul, doing real love, energy

Righteous soul

From righteous soul living in destination place

Doing real love

Righteous soul creator giving “doing real love” to the righteous soul living tools voyage macro concept world

Energy

Righteous soul living energy, righteous soul voyage orbit running energy, righteous soul mission carry energy

And doing real love + energy etc.

Righteous soul

Poor and righteous soul to righteous soul & nothing

Doing real love

Wicked soul to be creating only tools

Energy

Feeling and effecting and activation of “doing real love” to the organic and inorganic within cosmos law running

Righteous soul = doing real love = energy

Righteous soul doing real love then energy to action and getting better and runs to the vertical time living and cosmos law running and organic and inorganic all moving to righteous soul living way.

Righteous soul (doing real love, energy)

(righteous soul) **doing real love**(energy)

(righteous soul, doing real love) **energy**

\

One night got a name of keywords

So then, righteous soul creation of knowledge comes that I catch it

And this book writing voyage, this book helper will be righteous soul living in destination place creator and other righteous soul of creation of knowledge.

Doing real love is center of chain,

Truly doing real love is righteous soul, or energy so that doing real love is chain connector

Chain moving helper is energy

Energy is transition to do completion of designed cosmos law

To help energy, righteous soul, doing real love circulation and context creating word by vertical time and horizontal time but also cosmos law equation of $0 + \% = 0$, cosmos law breaking is $0 + \% = \%$, this tool also, all of my learning knowledge will be using for expressing righteous soul = cosmos law completion.

All of breathing is

Decision choose + air breathing

Here is not known what will be saying, but royalty to the book name keyword march to the righteous soul living in destination place.

Beginning nothing + something but conclusion and reach at the righteous soul living in destination place of nothing.

All of infer that

All will be helping from bubble of creation of knowledge

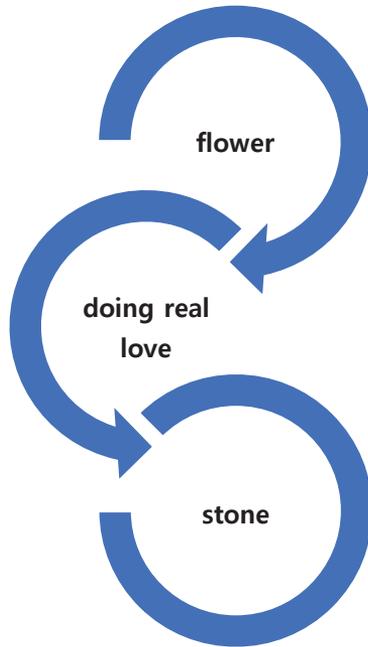

Truly infer that “Righteous soul, doing real love, energy” will give me and us creation of knowledge.

Heavenly father helps me

Righteous soul living in destination place creator help me

This book writing only depends on bubble of creation of knowledge

“Doing real love” run and flow in the cosmos

In the cosmos water= doing real love; doing real love runs and flow in the cosmos.

Doing real love is water

Doing real love has same character of water

Water help animals and plants to live and grow.

Then same as “doing real love” between micro concept world and macro concept world all organic and inorganic to live and grow.

Doing real love cosmos all make better and grow and get to fruit

Doing real love is all connector organic to inorganic same, “doing real love” all runs and flow.

Doing real love is circulation runs flow reach at all water is only going down but doing real love flow up and down and left to right all direction runs and flow.

Doing real love = oxygen air all livings breathing

Doing real love= oxygen and water so that breathing and drink

Doing real love is essential to live

Who create “doing real love”?

Answer is righteous soul

Righteous soul is creating “doing real love”

“doing real love” = oxygen and water to breath and drink

“doing real love” is connect between organic and inorganic then

“oxygen and water= doing real love” is connect organic and inorganic also

“Righteous soul = oxygen and water = doing real love” organic and inorganic living and growing.

Truly infer that

Seen in the macro concept world

Oxygen and water organic living and growing helping

But infer of that righteous soul= doing real love do not recognition

But in the micro concept world righteous soul living in destination place “righteous soul doing real love” is

Macro concept world “righteous soul livings helping to living and growing”

Truly infer that

Righteous soul living doing real love is expanding organic to inorganic livings.

But also, righteous soul = macro concept world righteous soul living (= righteous soul +body)

Righteous soul doing real love help righteous soul living and growing to the righteous soul living in destination place.

Righteous soul living is

Doing real love

Water and oxygen of air

"Doing real love" run and flow in the cosmos

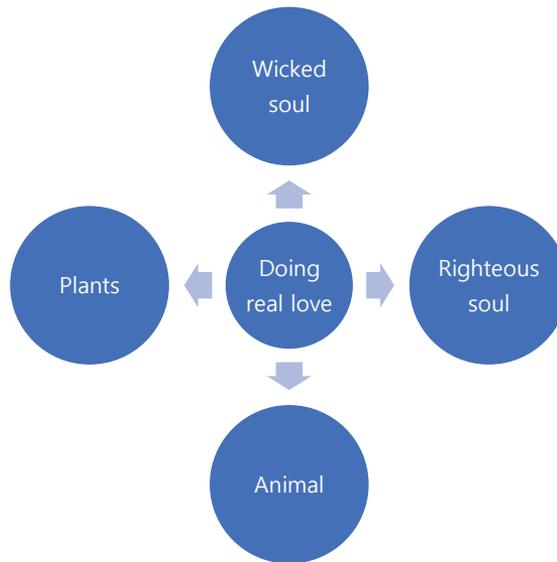

In the cosmos organic and inorganic all living and grow flowing and running of "doing real love"

Truly infer that

Without doing real love in the place is wicked soul living only, wicked soul living is not connecting to the "doing real love= water and oxygen of air", so called righteous soul do not live in the out of "doing real love" but only living wicked soul living.

Wicked soul living out of doing real love, out of water, out of oxygen of air is do not help organic and inorganic to die and do not grow.

Doing real love energy help growing living creatures

Doing real love energy helping growing living

Doing real love to wicked soul

Righteous soul land doing real love wicked soul to be being prepared to be doing real loved from a righteous soul, righteous soul macro concept world mission target helping.

Righteous soul mission “meet a wicked soul then doing real love

wicked soul to create righteous soul then safe returning to the righteous soul living in destination place.

Doing real love to other righteous soul

Righteous soul doing real love in the land of righteous soul, helping and doing real love to be completion macro concept world living mission.

Righteous soul doing real love is as the righteous soul living behavior of “it shares time with other, help other, but also doing real love other”, then righteous soul also doing real loved from other righteous soul also.

Doing real love animal

righteous soul doing real love animal then, animal living growing and getting fruit, to the animal of doing real love is flowing in the cosmos just like water and oxygen of air, so then if cosmos running by righteous soul then, animal also living in excitement but also growing well.

Doing real love plants

Righteous soul doing real love plant then, plant living growing and getting harvest, the plants of doing real love is flowing in the cosmos just like water and oxygen of air, so then if cosmos running by righteous soul then, plants also living in the excitement but also grow well and harvest.

Righteous soul doing real love is energy

Wicked soul to be target of a righteous soul macro concept world preparing in the land of righteous soul

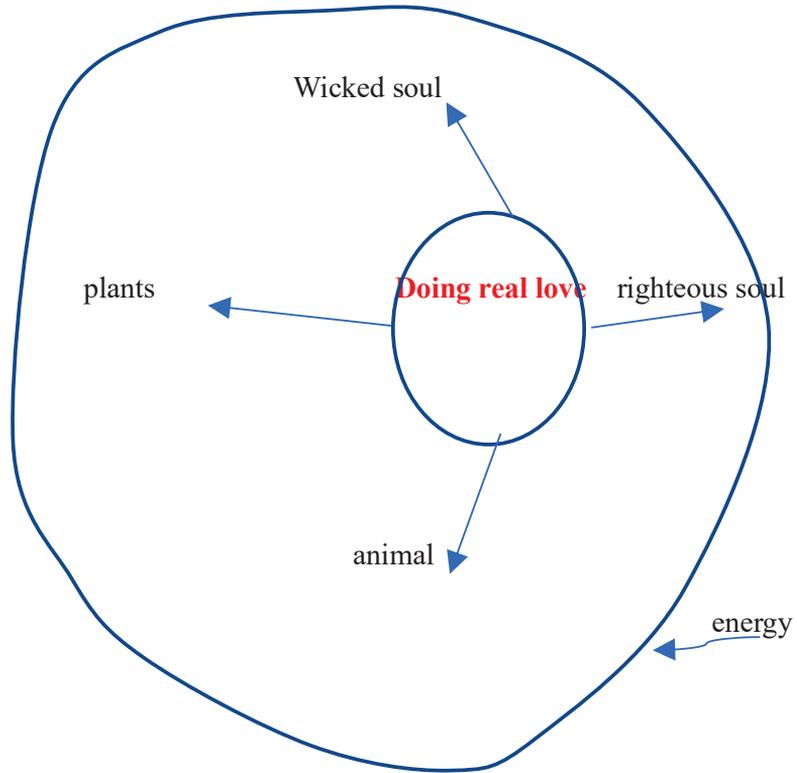

Righteous soul help to be completion macro concept world mission in the end of macro concept world voyage completion and safe returning to the righteous soul living in destination place

Righteous soul doing real love helping animal grow well and getting fruit

Righteous soul doing real love helping plant grow well and getting harvest

Doing real love= energy.

So then

righteous soul doing real love energy field

as center of doing real love is around of it, created as righteous soul energy field, this is all grow well and getting fruit.

Wicked soul gets a chance to be changed into righteous soul

Righteous soul to be completion macro concept world righteous soul mission clear

Truly infer that

Righteous soul doing real love energy field is cosmos law adoption of being silence and clean clear.

Cosmos law accept also doing real love,

Cosmos law = doing real love.

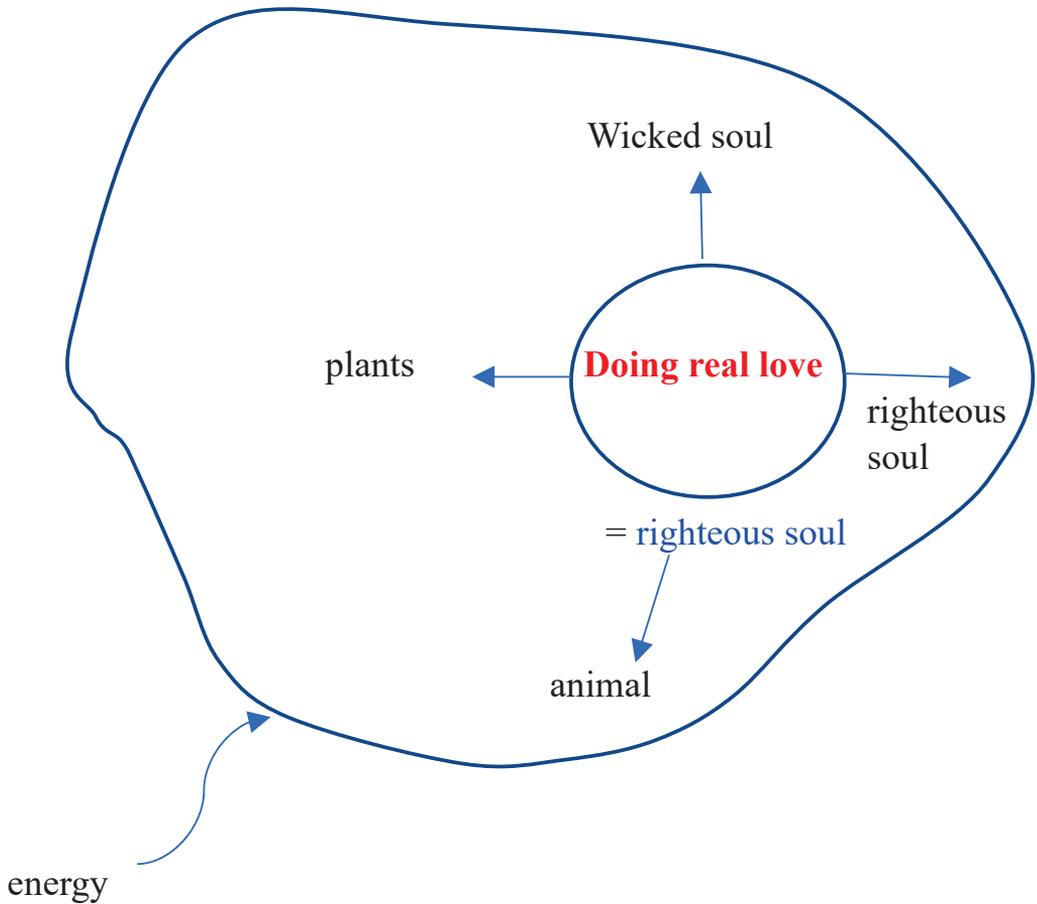

Cosmos law is if keep a law then

In the cosmos law all of creatures runs to the righteous soul living in destination place of wicked soul to be target of righteous soul macro concept world mission of lover,

But also, righteous soul to be completion macro concept world mission and animal and plants growing well and to be harvest.

righteous soul doing real love energy field is expanded of righteous soul land, so that righteous soul center is righteous soul so that

righteous soul= righteous soul

Expanded righteous soul land

Expanded righteous soul land is

Doing real love = righteous soul

So that righteous soul land to be affected doing real love energy in

the righteous soul land, so that

Wicked soul to be target of a righteous soul macro concept world preparing in the land of righteous soul

Righteous soul help to be completion macro concept world mission in the end of macro concept world voyage completion and safe returning to the righteous soul living in destination place

Righteous soul doing real love helping animal grow well and getting fruit

Righteous soul doing real love helping plant grow well and getting harvest

Same as doing real love energy field.

Useful energy useless energy

Useful energy is helping organic and inorganic of creature in the cosmos runs to the righteous soul living in destination place of completion of all creature voyage.

Useless energy is do not helping organic and inorganic of creature in the cosmos runs to the righteous soul living in destination place of completion of all creature voyage

Truly infer that

All of organic and inorganic creature of energy is all same, so that the energy infers of “1” so then this “1” of energy used as useful energy but useless energy then organic and inorganic of creature in the cosmos, useful energy getting harvest, but useless energy does not get harvest.

In the macro concept world

Righteous soul livings; living behavior is “it shares time with other, help other, but also doing real love other”

Wicked soul livings; living behavior is “easy living of using revenge and breaking”

And mind level livings; living behavior is “getting much more than other”

Righteous soul living energy is 1

Wicked soul living energy also 1

Mind living energy also 1

In each living condition all same, all has same day of 24 hours

For 24 hours attitude

Righteous soul living energy 1 to be used “ shared time and help other, and doing real love other”, this living feeling is all runs out of energy because all is not use me but to other using, so that wicked soul and mind living do not understand and reluctance to live righteous soul living way.

Wicked soul living energy 1 to be used “easy living even for easy living revenge and breaking energy also” easy living all use energy for easy living.

Mind living energy is 1 to be used “getting much more than other” all energy used to get it.

Useful energy is helping organic and inorganic of creature in the cosmos runs to the righteous soul living in destination place of completion of all creature voyage.

So then

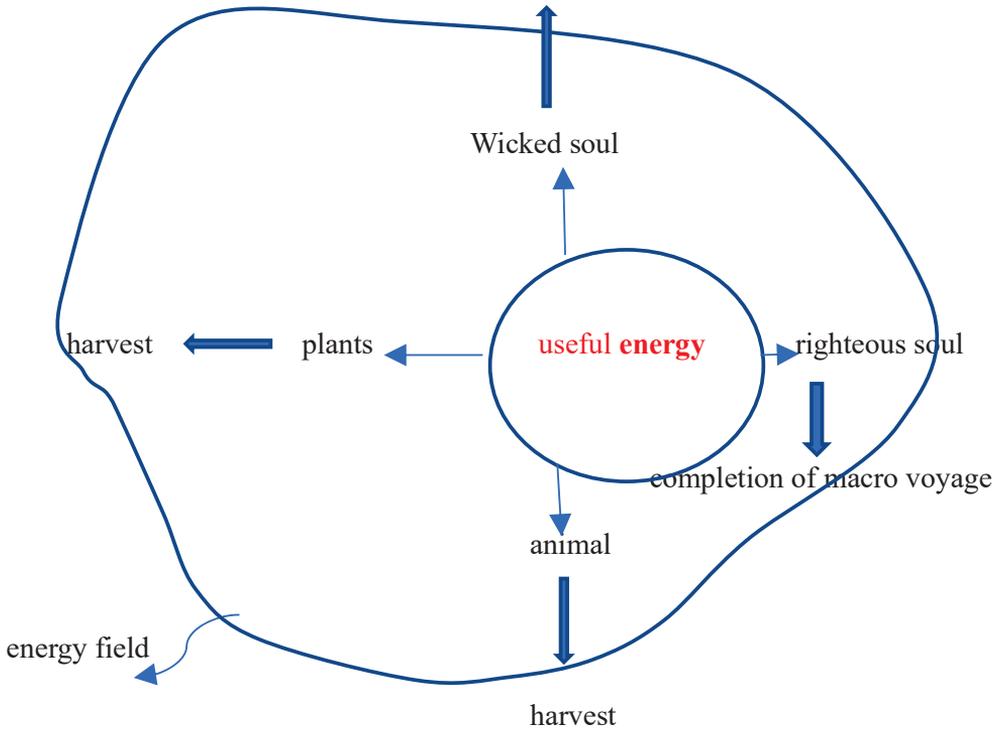

Righteous soul “it shares time with other, help other, and doing real love other” is fit to the useful energy.

Useless energy is do not helping organic and inorganic of creature in the cosmos runs to the righteous soul living in destination place of completion of all creature voyage

but

wicked soul “easy living even for easy living revenge and breaking energy” and mind living of “getting much more than other” is fit to the useless energy.

Righteous soul doing real lover of wicked soul

useful energy flow in the cosmos

righteous soul = useful energy = water = oxygen of air

this origin of cosmos law, cosmos is originality of silence and clean clear.

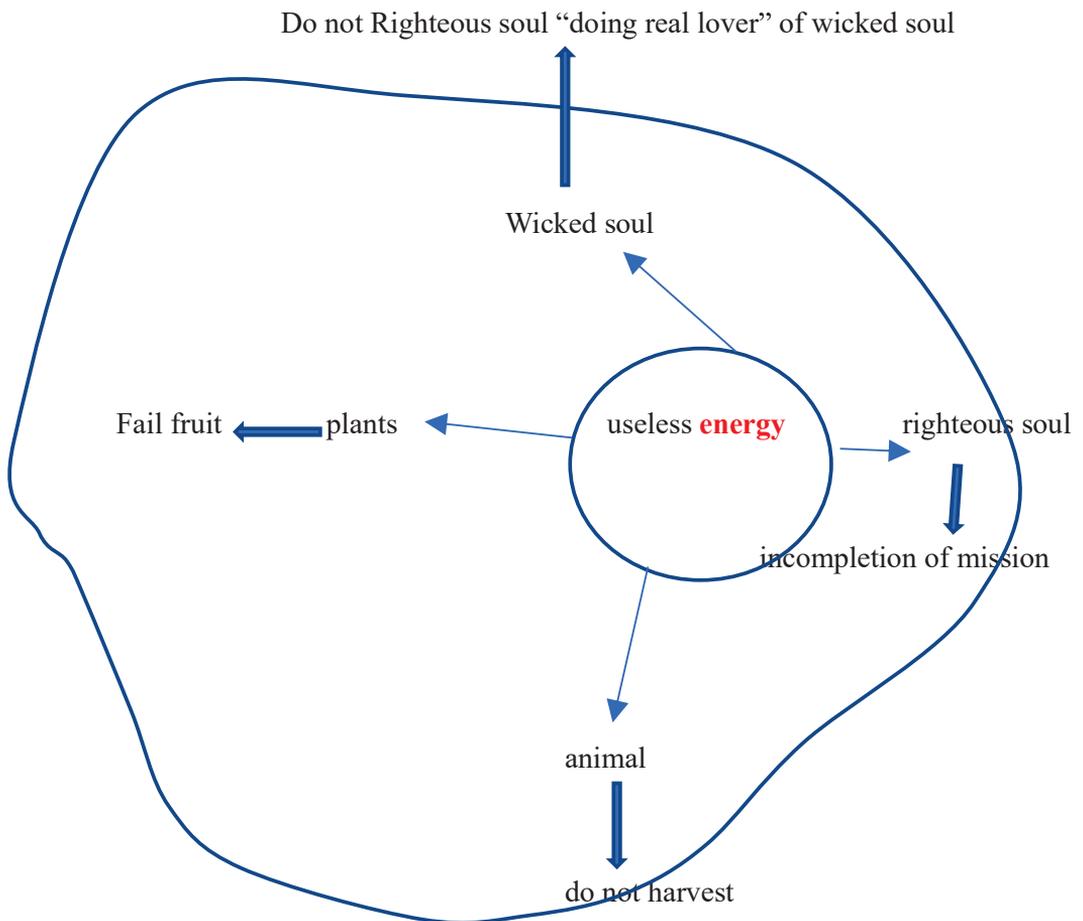

Excitement of pleasure of micro to macro to micro all 360°
righteous soul living

Safe reach at righteous soul living in destination place all
completion of macro concept world voyage.

But truly infer that

Macro concept world living is

Wicked soul, mind living and righteous soul so that huge variable variances are happened, so that

useless energy flow in the cosmos

righteous soul \neq useless energy \neq water \neq oxygen of air

this origin of cosmos law, cosmos is originality of silence and clean clear but in the cosmos filled with loudly and dirty

do not Excitement of pleasure of micro to macro to micro all 360° righteous soul living, but cosmos filled as loudly and dirty of do not energy useless so that wicked soul and mind livings all do not runs 360° of not safe returning to the righteous soul living in destination place but only reach at wicked soul living in destination place of custody to runs to be completion of macro concept world.

Infer that

Here is

Useful energy = righteous soul = water = oxygen of air

Useless energy \neq righteous soul \neq water \neq oxygen of air

In the macro concept world

Huge number of variances to defined of useful energy, and useless energy

But in the micro concept world is simple

Righteous soul living is useful energy

Wicked soul living is useless energy here is macro of mind livings also

In the macro concept world huge number of variances are

From

Useful energy = righteous soul= water= oxygen of air= fruit and harvest and righteous soul living in destination place arrival = excitement and pleasure living= completion of macro concept world voyage = safe come back to the righteous soul living in destination place

Useless energy≠righteous soul≠water≠oxygen of air ≠ do not fruit and harvest and righteous soul living in destination place arrival ≠ do not excitement and pleasure living of anger, jealous and deceit of crying living.

≠ do not completion of macro concept world voyage = wicked soul living in destination place.

Macro concept world all has same energy 1

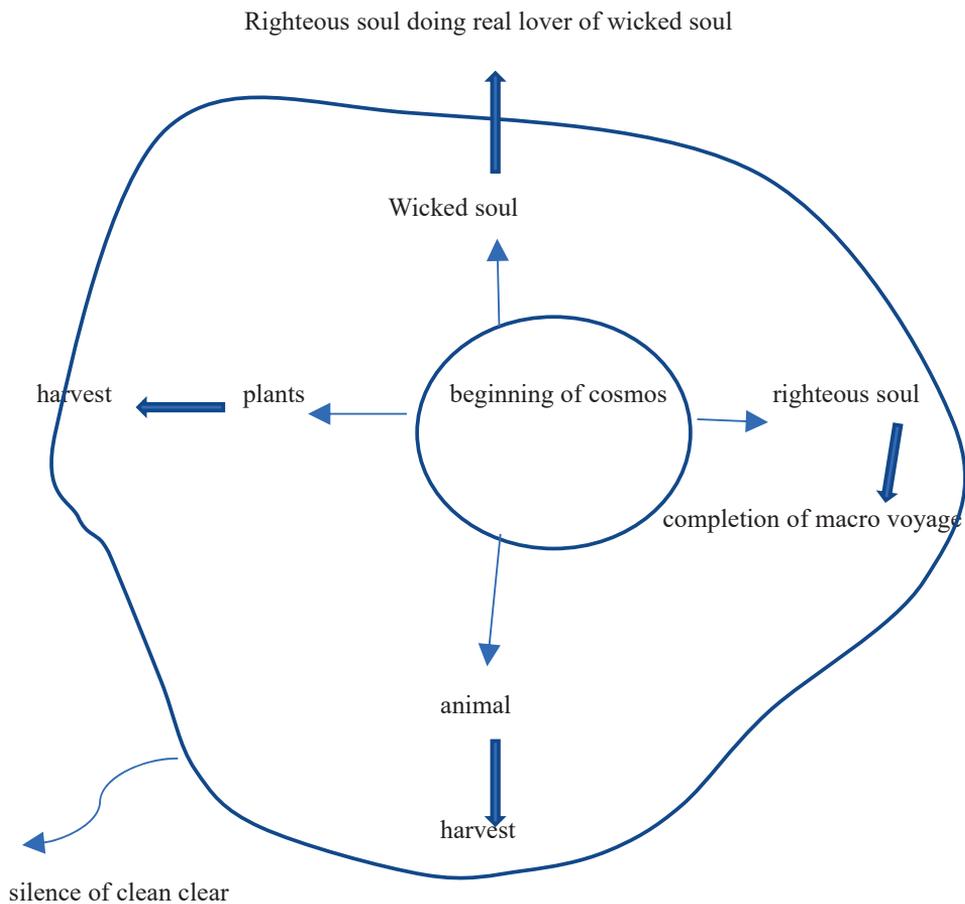

Wicked soul 1, mind living 1, and righteous soul 1

Why, how to all of energy 1 reach at a living is in the excitement and pleasure living, the other livings are do not excitement and pleasure living of anger, jealous and deceit of crying living.

Truly macro concept world livings are variable livings

I hate to see TV drama, then anger, jealous and deceit of crying living, they are why that is useless energy used up.

In the beginning of cosmos filled with righteous soul doing real love energy

beginning of cosmos

beginning of cosmos is normal and righteous soul livings with
silence and clean clear

0+ righteous soul doing real love energy = 0

0: is cosmos law of silence and clean clear

So that

in the cosmos combined “righteous soul doing real love energy”
then still cosmos silence of clean clear.

Truly infer that normal is

0+ righteous soul doing real love energy =0; normal

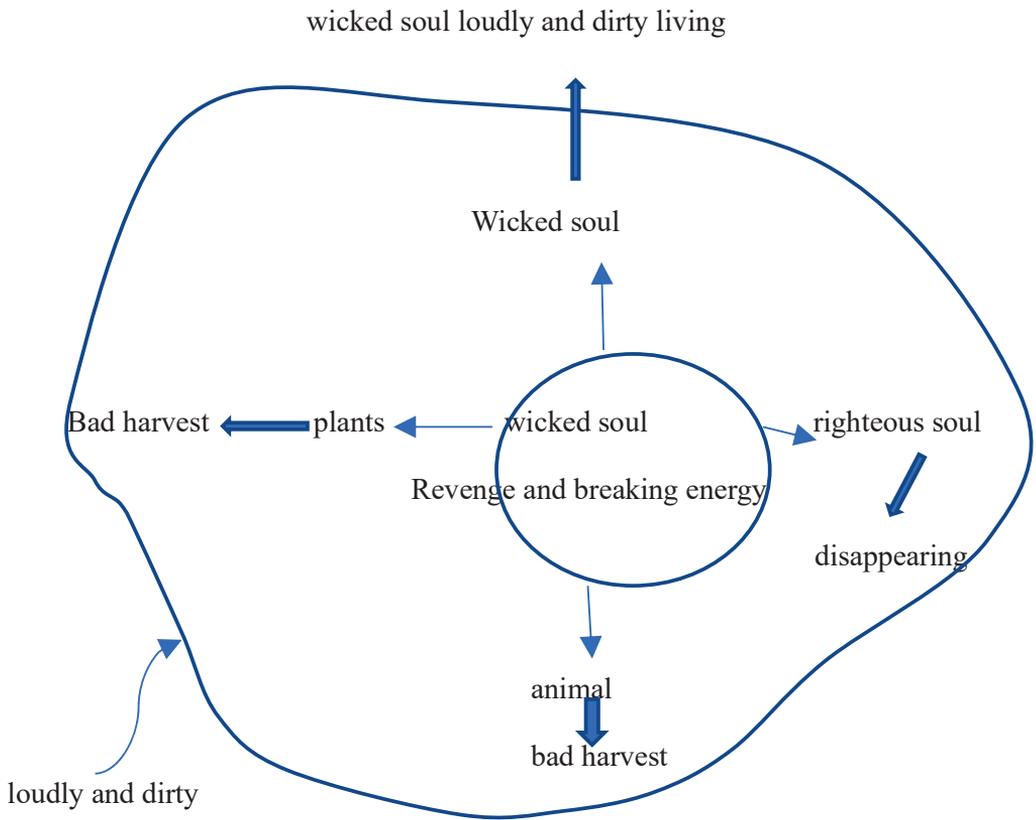

But

Wicked soul of easy living using revenge and breaking energy and
mind living of getting much more than others, of livings

0+ wicked soul revenge and breaking energy = wicked soul revenge
and breaking energy; abnormal

0: is cosmos law of silence and clean clear

Then wicked soul revenge and breaking impact and shock cosmos,
so that cosmos to be being abnormal of loudly and dirty of crying
cosmos being.

wicked soul impact and shock to cosmos

0 + wicked soul revenge and breaking energy = wicked soul revenge and breaking energy

At first righteous soul to be decreasing in the end disappearing

Wicked soul to be increasing in the and wicked soul loudly dirty living

Plant to be bad harvest failure of crops

Animal to be bad harvest, animals also to be decreasing

In the beginning of cosmos filled with righteous soul doing real love energy

0+ righteous soul doing real love energy = 0; normal

But infer of macro concept world as horizontal time of flow
righteous soul decreased but wicked soul increased

So that

0+ wicked soul revenge and breaking energy= wicked soul revenge
and breaking energy abnormal

So then,

Useful energy is helping organic and inorganic of creature in the
cosmos runs to the righteous soul living in destination place of

completion of all creature voyage.

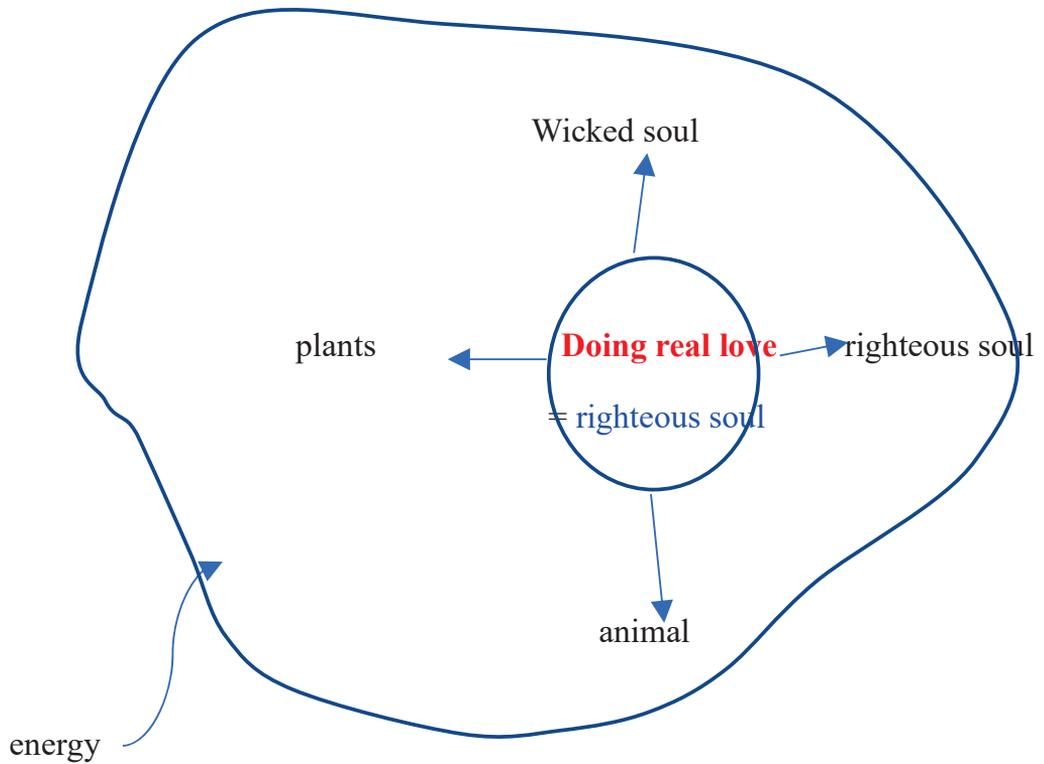

righteous soul = useful energy= water= oxygen of air getting
increasing is urgent and required to be being

0+ righteous soul doing real love energy =0; normal

Useless energy is do not helping organic and inorganic of creature in
the cosmos runs to the righteous soul living in destination place of
completion of all creature voyage

righteous soul \neq useless energy \neq water \neq oxygen of air getting
diminishing is urgent and required to be decreasing of

0 + wicked soul revenge and breaking energy = wicked soul revenge and breaking energy; abnormal.

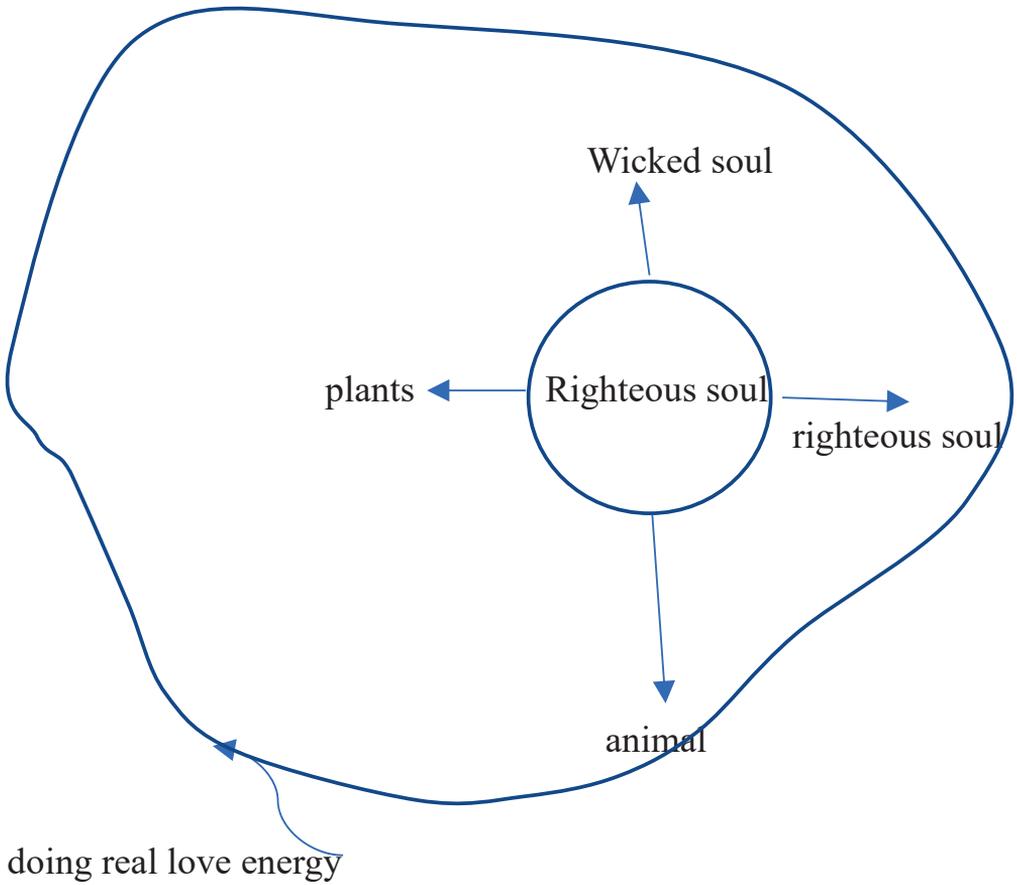

Expanded righteous soul land

Even one of righteous soul

“doing real love= righteous soul” this beginning righteous soul land but expand to righteous soul land, then

In the land of righteous souls to be righteous soul of doing real love energy getting, so that , infer of even now in the macro concept world wicked soul but as being of wicked soul of target a righteous soul meet a wicked soul and do real love and create righteous soul, then the to be selected from a righteous soul lover of wicked soul of to be being creating righteous soul, all of being growing and so that reach at the righteous soul living in destination place, that is only one of righteous soul then possible.

Here is righteous soul me living beginning of righteous soul living doing real love, in the end the energy filled in the righteous soul me land, this is urgent and really critically important, so that righteous soul me creating energy.

Righteous soul living me land

“Righteous soul = oxygen and water = doing real love”

Even only one of righteous soul build righteous soul land and keep creating righteous soul doing real love energy.

Righteous soul energy from “it shares time with other, help other and doing real love other”

This is righteous soul energy increasing

Then righteous soul automatically doing real love righteous soul land

So then

“Doing real love” energy doing influence all of land of livings

Righteous soul to be being completion of mission

Wicked soul to be being of mission object

But also plant and animal to be good harvest

So then

Water and oxygen air to be being clear as

0+ righteous soul doing real love energy =0

0; is cosmos law of silence and clean clear, so that

Water and oxygen air to be clean clear, this must be help plants good

harvest but also animal best harvest also.

To do that here is urgent righteous soul living actor to be increasing is in the cosmos, it also from all beginning as I living in righteous soul then, righteous soul also increasing, so then

All of macro concept world living me, righteous soul me living is righteous soul living then, righteous soul me land to be being expand to all of macro concept world also.

Because of righteous soul land full occupied as “righteous soul doing real love energy” so that

This energy all use

Wicked soul + righteous soul doing real love energy = wicked soul to be loved from a righteous soul

Righteous soul + righteous soul doing real love energy = righteous soul macro concept world mission clear

Plants + righteous soul doing real love energy = plants + clean water and clean oxygen air of good harvest

Animal + righteous soul doing real love energy = animal + clean water and clean oxygen air of good harvest

So then righteous soul living me in the macro concept world is how urgent.

Righteous soul living is

0+ righteous soul=0 also

0: cosmos law of silence and clean clear

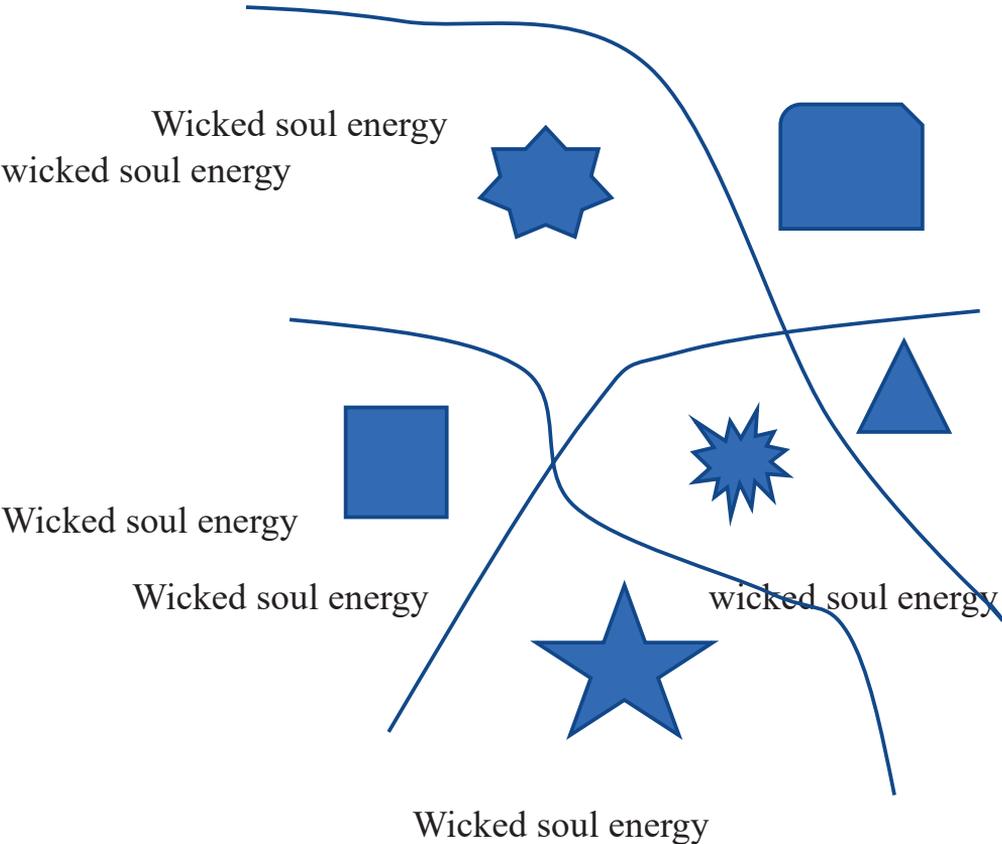

Righteous soul = 0, is derived so that $0+0=0$.

Righteous soul me living is to be 0, so that righteous soul living is not mind of “getting much more than other”

But also wicked soul “easy living of revenge and breaking energy using” but only righteous soul living of “it shares time with other, help other, but also doing real love other =0”, so that in the macro concept world living righteous soul proof is this.

Do clear righteous soul me living creating “righteous soul energy” help all to be cosmos law keeping.

Wicked soul island livings of wicked soul energy

Wicked soul energy is

≠ Righteous soul ≠ doing real love ≠ energy

Wicked soul living of energy can't build righteous soul land but wicked soul island being scattering living.

So that

Righteous soul energy is

Righteous soul = doing real love = energy = water = oxygen of air

For fruit and harvest and righteous soul living in destination helpers.

But wicked soul energy is

≠ Righteous soul ≠ doing real love ≠ energy ≠ water ≠ oxygen of air

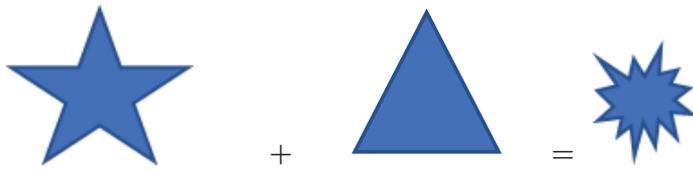

For do not getting fruit and wicked soul living in destination place pushing.

Infer that

Wicked soul energy wicked soul push to the wicked soul living in destination place, so that

In the wicked soul living wicked souls are all to be injury bruise and wound, scar, hurt livings all in the wicked soul living in destination place.

So then infer of wicked soul island is

So then infer of wicked soul do not progress getting better

But wicked soul to wicked soul getting worse

In the wicked soul living in destination place, all of wicked soul meet other wicked soul then, all to be “injury bruise and wound, scar, hurt”, so that automatically reluctance to meet wicked soul to meet wicked soul, so that wicked souls can’t not build land, all to be living island is easier.

Wicked souls do not talk a by chance of a righteous soul of bubble of creation of knowledge, but it never does not say, truly infer that wicked soul to wicked soul talking is all useless talking, so that it

never ever helps each other of wicked to wicked soul.

Infer of truth

Righteous soul build land, wicked soul does not build land but island

Righteous soul build land of helping each other, solving each problem

Wicked soul does not build land of doing now help each other, but make worse. And increasing problems.

Here is righteous soul getting bubble of creation of knowledge being a teacher of other students' problems solving, but also other student getting righteous soul creation of knowledge then, before teacher now being a student at now student problem solving, this is string networking of land.

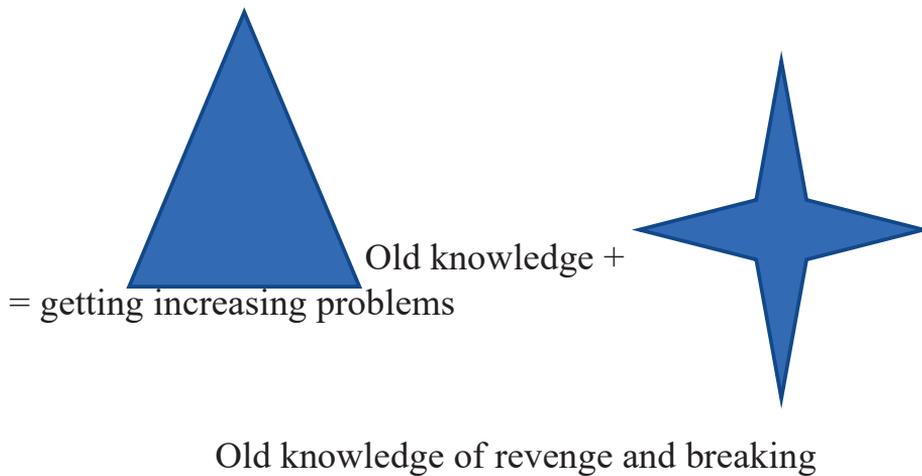

But here

Wicked soul does not build land but island is

Truly infer that

Wicked soul also feel a creation of knowledge but, truly infer of wicked soul all getting huge multi of "think of wicked soul" so then infer of old knowledge or old knowledge + revenge and breaking of think of wicked soul so that, wicked souls talking knowledge is "old

knowledge+ revenge and breaking” so that, a wicked soul talk to other wicked soul then, other wicked soul get a anger of also “old knowledge + revenge and breaking + anger of other it” so that a hear of wicked soul to be getting problems.

Wicked soul energy is

Wicked soul old knowledge talking other wicked soul then other wicked soul getting increasing problems, this is wicked soul energy.

Wicked soul energy is

But wicked soul energy is

≠ Righteous soul ≠ doing real love ≠ energy ≠ water ≠ oxygen of air

Wicked soul energy + flower = getting sick of ≠ water ≠ oxygen of air ≠ energy

Wicked soul energy + animal = getting sick ≠ water ≠ oxygen of air ≠ energy

Wicked soul energy + righteous soul = wicked soul ≠ Righteous soul ≠ doing real love ≠ energy

Wicked soul energy + wicked soul = wicked soul ≠ Righteous soul ≠ doing real love ≠ energy

From these equations

Getting infer of knowledge on the wicked soul living in destination place

Wicked soul living in destination place

There is no flower and green tress but only the place is loudly of dirty

There is no animal and cat, dogs of doing not animal but truly infer that fox living only

There is no righteous soul so that there is no silence and clean clear

There is no clean water and oxygen of air so that the livings are all hard living.

Only living wicked soul livings on this loudly of anger and revenge and breaking and dirty place.

Until now

I got a know that wicked soul living in destination place living conditions

Who can live in the wicked soul living in destination place?

Other wise

Righteous soul energy is

Righteous soul = doing real love = energy = clean water = clean oxygen of air

Righteous soul living in destination place is

There is flower and green trees and water fall and silence of clean clear

There is all animals cat and dogs, birds all beautiful animals

There are all righteous souls so that all of livings are silence and clean clear

There is a clean water and clean oxygen of air so that all livings are excitement of pleasure living

Righteous soul living of “it shares time with other, help other but also doing real love other”.

Truly infer that

Here is also righteous soul living in destination place also come to know it.

Righteous soul land to righteous soul living in destination place

Wicked soul of island to the wicked soul living in destination place

Righteous soul land energy and wicked soul island energy

Righteous soul energy is helping to reach at the righteous soul living in destination place, Wicked soul energy is helping to reach at the wicked soul living in destination place.

Righteous soul living behavior is “it shares time with other, help other but also doing real love other”

Wicked soul living behavior is “easy living of doing revenge and breaking other”

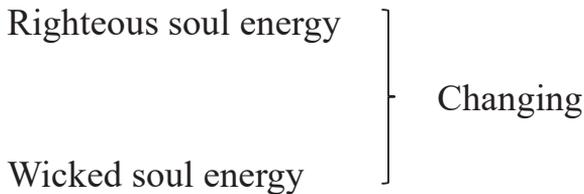

Righteous soul + energy = {“it shares time with other, help other but also doing real love other”} + {helping to reach at the righteous soul living in destination place energy} = righteous soul energy

Wicked soul + energy = {“easy living of doing revenge and breaking other”} + {helping to reach at the wicked soul living in destination place energy} = wicked soul energy.

While righteous soul running to the righteous soul living in destination place, truly infer that wicked soul me and righteous soul

me living energy is changing, sometimes wicked soul energy strong, the other time is righteous soul living strong.

Infer that

Truly infer that righteous soul energy is limit and wicked soul energy also limit, so that both energy transaction of changing, then this is macro concept world a righteous soul living actor living is getting energy of righteous soul doing keep “it shares time with other, help other, and doing real love other” then, this is increasing righteous soul energy then righteous soul living,

If a righteous soul living “easy living and revenge and breaking” then wicked soul energy will be increased so then living in a wicked soul living.

Here is

Righteous soul to be helped from bubble of creation of knowledge”

Righteous soul hear broadcasting from a righteous soul living in destination place, getting bubble of creation of knowledge, then teaching in the creation of knowledge is “it shares time with other, help other but also doing real love other” of doing creation of knowledge getting, so that

Righteous soul getting a bubble of creation of knowledge is source of excitement of pleasure so that righteous soul living behavior is really accept and doing living righteous soul living.

Wicked soul to be helped from “thinking of wicked soul of old knowledge”

Wicked soul living is shallow depth of “ think of wicked soul on the revenge and breaking” then wicked soul teaching in the think of wicked soul knowledge is to be easy living, win the competition to other, even use “ revenge and breaking”, so then wicked soul wining is excitement so keep using “revenge and breaking other” then, wicked soul really accept and doing living wicked soul living.

Here is strangely

Righteous soul living excitement of pleasure is knowing that of “it shares time with other, help other but also doing real love other”

But wicked soul living excitement of pleasure is knowing that of using revenge and breaking of game winning”

Oh!

Until book writing I just focus for righteous soul, so that wicked soul excitement of pleasure of “competition of game” this is excitement of pleasure is also gain, getting much more than other also, this is mind livings, so that mind living and wicked soul is friendly living.

Oh!

Wicked soul energy competition winning of excitement of pleasure

Righteous soul energy is “it shares time with other, help other, but also doing real love other”

Oh!

Why, wicked soul energy also really necessary in the macro concept world, “mind +body” mind try to get much more than other, to be helping winning competition of game is getting it, so that mind invite wicked soul “revenge and breaking energy” so then, in the macro concept world all “ mind + body + wicked soul” this is prefer living, because this is wicked soul “easy living” is completion, so that macro concept world living all to be easy living.

Oh!

It strange why here is wicked soul living is possible is getting know that.

But righteous soul living is

“it shares time with other, help other but also doing real love other”

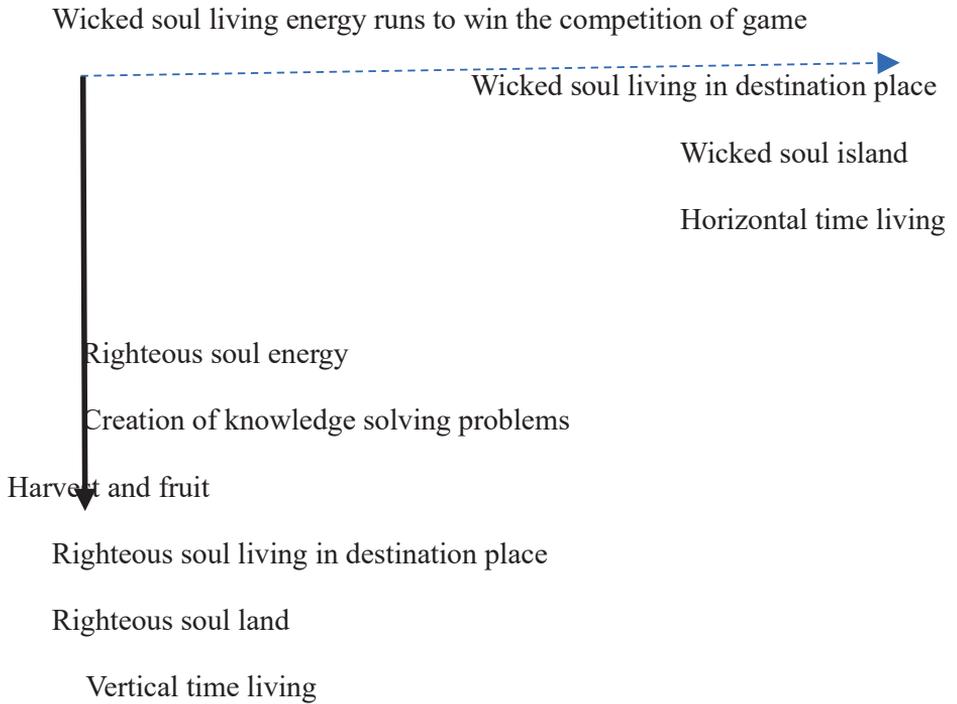

So that is not relative mind “getting much more than other”, so that, righteous soul is not excitement winning game but only to live with other, “it shares time with other, help other, but also doing real love other”.

In the macro concept world

Wicked soul living energy is “easy living of competition of game winning” so that getting much more than other. Of all getting much more than other is game and competition to other, so that a wicked soul will be winning but other of mind and wicked soul to be lose so that winner of game of wicked soul only living in easy living.

Righteous soul living energy is “it shares time with other, help other, but also doing real love” this is righteous soul living energy with “bubble of creation of knowledge”,

Righteous soul living energy is not have power of completion game winning, so that righteous soul living is “it shares time with other, help other, but also doing real love” then how to support living righteous soul is?

Wicked soul winning the competition of game to other wicked soul to the wicked soul living in destination place of horizontal time living.

But righteous soul do not winning competition game to other but all going with vertical time living, so that this is righteous soul land, so that, here is all of righteous soul getting bubble of creation of knowledge so that, a teacher creation of knowledge to a student righteous soul, but adversely a student to be changed to teacher of bubble of creation of knowledge, so that both among all of vertical

time living of righteous soul all runs to the depth of righteous soul living in destination place.

in the end

righteous soul energy is righteous soul land of vertical time living of all to be runs to the righteous soul living in destination place by helping righteous soul creation of knowledge.

But

Wicked soul energy is only winner of competition of game to be living easy living and getting much more than other, but most wicked souls and mind livings are all to be being loser of not easy living in the horizontal time living.

Horizontal time living is truly

Width ∞ X depth to $1/\infty$ = area

of horizontal time living, so that to be same of

Righteous soul area

Then

Righteous soul vertical time area is

Width $1/\infty$ X depth ∞ = area

Then wicked soul runs faster to the end of arrow, then getting much more than other, but all runs then, a wicked soul do not get it, so that wicked souls using “revenge and breaking energy” so that only a wicked soul runs to the end of arrow of wicked soul living in destination place only to be easy living, but also vertical time of righteous soul livings same area getting.

But righteous soul vertical time living is truly

Width $1/\infty = 0$ X depth $\infty = 0$, truly infer that wicked soul horizontal time livings estimation is vertical time living of righteous soul living “it shares time with other, help other, but also doing real love other”, is all of each

Righteous souls are 0, but all to be help each other, so that righteous soul living in destination place all has it to live all of righteous soul living land, truly in the righteous soul land is not competition of game, just helping of a creation of knowledge so that all of living of righteous soul living is in the excitement of pleasure.

In conclusion

Righteous soul energy is making possible through vertical time living of righteous soul living in destination place arriving

Wicked soul energy is making possible though horizontal time living of wicked soul living in destination place arriving.

In a region of energy change of fluctuation

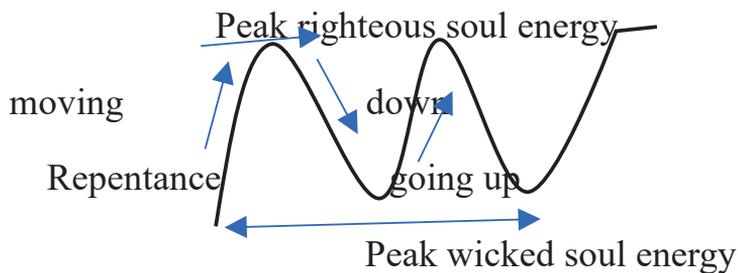

**Righteous soul energy 100% Righteous soul growing to peak
= macro concept world peace**

**After peak righteous soul to going down getting wicked soul
energy increasing**

Wicked soul energy 50%

Righteous soul energy 50%

**Wicked soul energy 100%, wicked soul energy growing to
peak = macro concept world to be war**

The way of Righteous soul runs to the righteous soul living in destination place

A region energy is kept change

A region energy calculates as

Righteous soul energy = Righteous soul living number X righteous soul energy

Righteous soul energy getting way is “it shares time with other, help other and doing real love other”

Righteous soul = doing real love = energy

Righteous soul doing real love then energy to action and getting better and runs to the vertical time living and cosmos law running and organic and inorganic all moving to righteous soul living way.

Wicked soul energy = wicked soul living number X wicked soul energy

Wicked soul energy getting way is “easy living for this using revenge and breaking other”

Do not living of righteous soul

Righteous soul \neq doing real love \neq energy = wicked soul = revenge and breaking = war

Wicked soul revenge and breaking energy to break and getting worse and runs to the horizontal time living and do not keep a cosmos law, organic and inorganic all moving to be dying in the righteous soul living, but living of wicked soul living of loudly and dirty living of wicked soul living in destination place

Truly infer that

All of cosmos to be 100%, then all situation wicked soul energy to righteous soul energy is ratio.

The same 100%, then a region of righteous soul energy to wicked soul energy also ratio.

Here is comes truth infer of knowledge.

all livings are whether wicked soul living or righteous soul living then, a region energy stream is changed, so then, truly infer that righteous soul energy to wicked soul energy change ratio is to be fluctuation.

Truly infer

In a region of macro concept world\

Living peace of righteous soul living peak based on

Righteous soul energy = Righteous soul living number X righteous soul energy, increasing

So called that

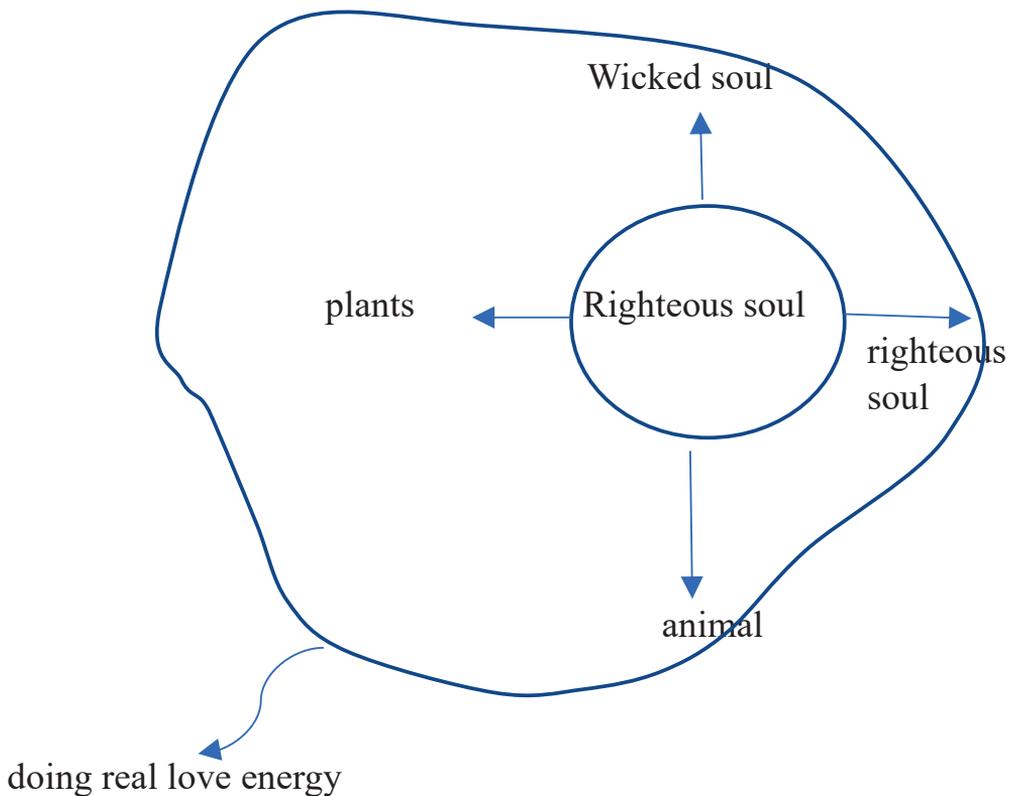

Righteous soul energy getting way is “it shares time with other, help other and doing real love other” increasing.

But

Living of war of wicked soul living peak based on

Wicked soul energy = wicked soul living number X wicked soul energy, increasing.

Wicked soul energy getting way is “easy living for this using revenge and breaking other” increasing.

Righteous soul living land

In a region righteous soul energy is

If a righteous soul living building land then, in the land number of actors are how many then, the righteous soul energy increasing.

Righteous soul doing real love energy can cover a region, so that

Righteous soul help all of numbers of actors to go to the righteous soul living in destination place, so then

A righteous soul living land, create righteous soul energy is

Righteous soul energy = Righteous soul living number X righteous soul energy, increasing

Righteous soul land of righteous soul energy = righteous soul land living actors X righteous soul energy.

So, then a righteous soul saves huge number of wicked souls to righteous souls, so then infer of

A land size is difference from 100~more than 10,000,000 numbers,

If a country of president is righteous soul then, infer that the country living actors all righteous soul energy count so that, the country living is righteous soul energy is 100%, so that this living region peace living.

So that only one of righteous soul huge energy to save righteous soul peace living region.

But wicked soul

Wicked soul energy = wicked soul living number X wicked soul energy, increasing

Wicked soul living does not build land but only island so that, wicked soul living, so that

In a region all of number is wicked soul living then, the region of number is 100 then,

Wicked soul energy = 100 X wicked soul energy= 100 wicked soul energy.

So then,

A actor in the macro concept world, do not living righteous soul, the to be living mind or wicked soul then, wicked soul energy increasing role, so that, as my living is wicked soul living me, then, wicked soul living me, damage a region to be being increasing wicked soul energy.

Here is my living is wicked soul then wicked soul energy increasing

If I living of righteous soul living, then righteous soul me build righteous soul land, so that righteous soul energy huge increasing, so that a region righteous soul energy still keeps 50% to 50%, infer that

in the macro concept world, huge number of wicked souls, but a righteous soul living surviving then, righteous soul land, so that the region still living in peace of righteous soul energy balance between wicked soul to righteous soul.

So, then here is all wicked soul try to make disappeared from macro concept world, to be being wicked soul energy increasing and do revenge and breaking all of a region.

Truly infer that

Macro concept world do not care a poor and righteous soul, and living corner of righteous soul, they are righteous souls, so that wicked soul easy living of hate the poor livings, so that “the poor and righteous soul” survive righteous soul living of peace.

Who knows this cosmos law of keeping righteous soul to live in the macro concept world, this is also macro concept world peace keeping?

Macro concept world a righteous soul living in the “it shares time with other, help other, but also doing real love other”.

This is at least righteous soul energy 50% keep continue.

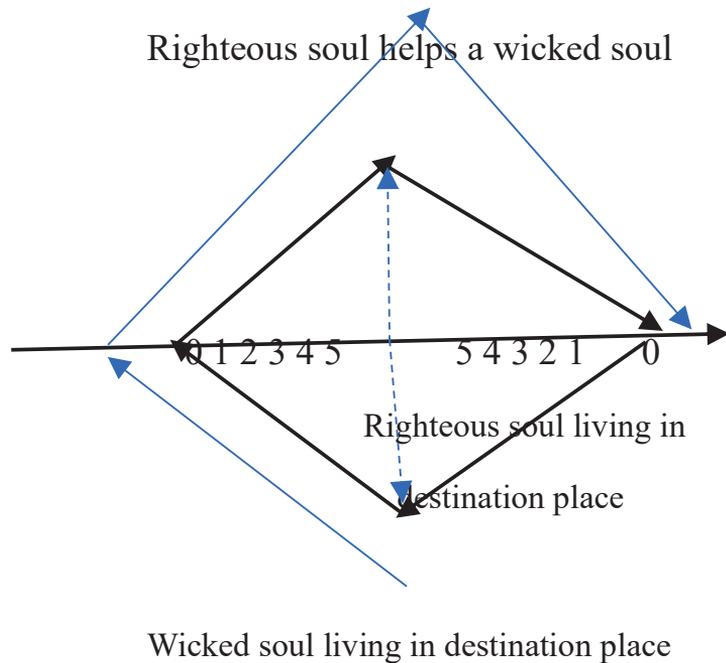

Righteous soul is micro concept world righteous soul living in destination place relate so then unseen world energy. This is keeps secure of macro concept world also.

Even one time living righteous soul living save macro concept world from a wicked soul of war.

**Righteous soul helped from a righteous soul,
Righteous soul energy helps a wicked soul**

Macro concept world

Righteous soul helped from a righteous soul,

righteous soul helps a wicked soul helping from a righteous soul

← Righteous soul

Micro concept world

truly infer that

righteous soul from righteous soul living in destination place voyage to macro concept world to do, righteous soul macro concept world mission clear; mission is righteous soul meet a wicked soul and do real love a wicked soul to create a righteous soul, then righteous soul get a other righteous soul, here must be if a righteous soul +, then creating righteous soul to be -(minus) so then completion of macro concept world mission.

There here is righteous soul energy flow is inferring of learning is helping macro concept world a righteous soul living completion to be being higher,

Here is righteous soul created at the righteous soul living in destination place, so then, a created righteous soul voyage running to the macro concept world, so then,

A created righteous soul to be growing so that it needs to be energy, so then in the micro concept world voyage then, energy increasing is “012345”, so then creating a righteous soul to be grown, so then a grown righteous soul help a wicked soul to be going out to macro concept world then”543210”, as helping righteous soul helping a wicked soul, so then, wicked soul energy to be changed 5 to 0, of wicked soul energy “revenge and breaking energy”, so that a righteous soul all helped so that righteous soul energy is 0, but also wicked soul energy also 0,

Therefore

Right before going out to the macro concept, righteous soul and wicked soul energy balance is righteous soul;0, wicked soul;0, so that truly infer that

Macro concept world birth is {righteous soul;0, wicked soul;0} birth.

Here is micro concept world energy, but here is infer of truth is

Righteous soul helps wicked soul,

Righteous soul helped from a righteous soul

Here is righteous soul living behavior is “it shares time with other, help other, but also doing real love other”, so that righteous soul growing time to be helped from a righteous soul.

So then macro concept world

{righteous soul;0, wicked soul;0} this soul meets a macro concept world mind + body

{righteous soul;0, Wicked soul;0} + {mind + body} = righteous soul, then variable variances adopt.

But here is infer that

Righteous soul living in the macro concept world

Righteous soul to grow it needed helping from other righteous soul helping, that is “012345”, so then righteous soul reach at the 5 if being righteous soul, so then, righteous soul in the macro concept world, to be being running to the righteous soul living in destination place, but also righteous soul to be macro concept world mission completion, so then here is righteous soul energy flow is

Righteous soul energy 5, do macro concept world mission carry, so then righteous soul macro concept world mission is “ righteous soul meet a wicked soul of lover, then do real love to lover of wicked soul, do create a righteous soul and going back to the righteous soul living in destination place with a creating lover of righteous soul”

Then here is righteous soul energy flow is

Righteous soul energy is $\{5-1=4\}, \{4-1=3\}, \{3-1=2\}, \{2-1=1\}, \{1-1=0\}$, so that here is righteous soul helping a wicked soul so that righteous soul reach at the righteous soul 0, but also wicked soul energy as helping each 1 of righteous soul so that wicked soul energy decreased $\{543210\}$, therefore here is wicked soul energy also to be 0, so that before running back to the righteous soul living in destination place energy balance is reach at $\{ \text{righteous soul};0, \text{wicked soul};0\}$, here is before micro to macro concept world energy flow and macro to micro energy flow is same $\{ \text{righteous soul } 0, \text{wicked soul } 0\}$, so that righteous soul macro concept world mission clear.

Righteous soul energy 5, must be help wicked soul and righteous soul, then infer that grown a righteous soul help a righteous soul growing in the macro concept world, but also righteous soul 5 also do righteous soul macro concept world mission clear.

Righteous soul voyage micro concept world

Then, righteous soul helped from a righteous soul from righteous soul living in destination place.

Then, righteous soul growth 012345, so then righteous soul grown,

begins helping a righteous soul energy 1, so that in the micro concept world righteous soul running also same as macro concept world a righteous soul macro concept world mission so that Righteous soul energy is $\{5-1=4\}, \{4-1=3\}, \{3-1=2\}, \{2-1=1\}, \{1-1=0\}$, so that before micro to macro also, righteous soul help wicked soul energy to be 0.

Strangely

Righteous soul me, living when I was growing helped from poor of my parents and relatives and friends all of my nears helping me, so that at now I feel that, I was helped from righteous souls, truly infer that around of all of livings are righteous souls, who are helping me.

So then now grown of a righteous soul, righteous soul living me must be helping others, at first now growing a righteous soul helping and now my mission of wicked soul of lover helping to be creating of a righteous soul, so then,

Here infer of real living of me also

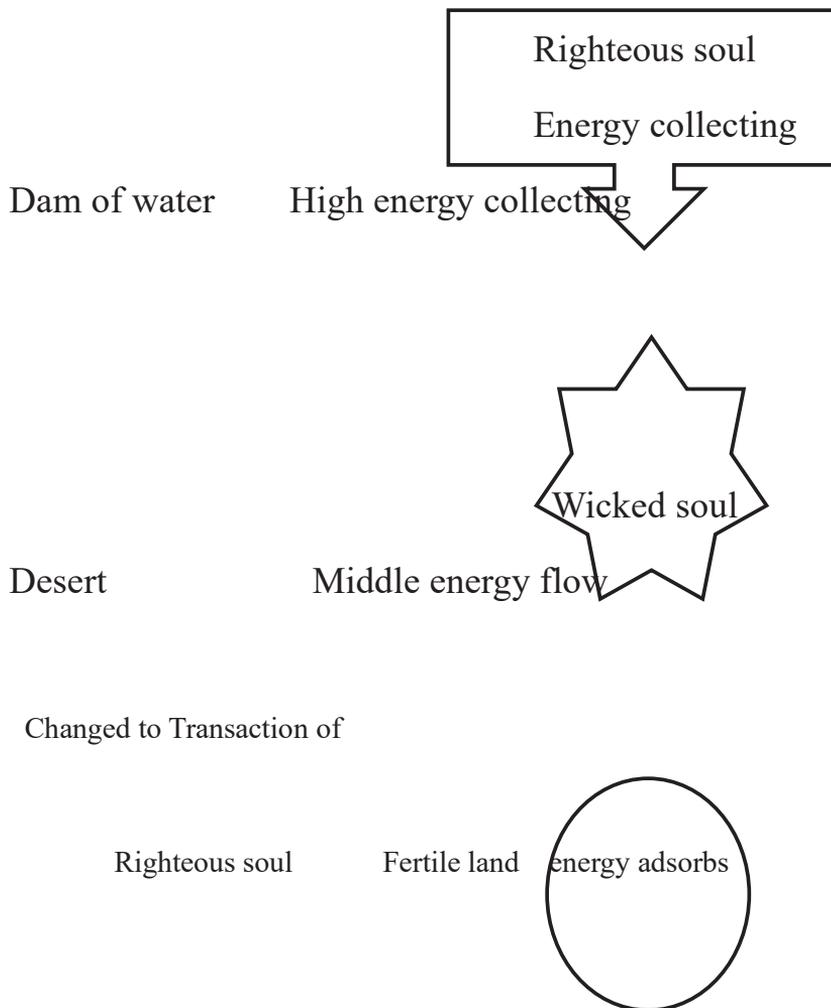

At first helping a new age of youngers growing helping, and do help now living of my wife to be living a righteous soul living, these is at now living of me, so then, my righteous soul energy to be decreasing because now my ages are 58 years old.

Truly infer that which is my righteous soul energy, righteous soul energy is helping runs to the righteous soul living in destination place, so then young age helping is preparing to live righteous soul living, but also lover of wicked soul of a wife helping to be changed

into a righteous soul living.

Righteous soul energy to me keep doing help others who are need to live to the righteous soul living, so then, righteous soul me living is urgent helping is my getting decreasing righteous soul energy, so that to be perfect reaching at the zero of righteous soul at the safe returning to the righteous soul living in destination place.

Righteous soul Energy to be collected and flow the wicked soul

Righteous soul Energy is collected

Righteous soul Energy flow

Righteous soul Energy adsorbs

Here is righteous soul energy collect do not only for righteous soul, but wicked soul, truly wicked soul energy is “revenge and breaking”, this is break a cosmos law, so then righteous soul energy flow to wicked soul, so that wicked soul changed in to keep a cosmos law of righteous soul.

Water collected at dam, flow to the Desert transaction of fertile land

High energy collecting, middle energy flow and low energy adsorb

This is energy cosmos law

Expand the concept to infer of macro concept world

Infer of macro concept world

Rich living energy flow to the poor creating normal of livings

This is energy cosmos law keeping.

But infer of

Macro concept world energy flow is not flow to lower.

Wicked soul living energy collecting is not flow to lower.

Wicked soul energy reserve in the dam do not flow to the lower

As wicked soul energy input to the dam, still do not flow to the lower

This energy in the end “revenge and breaking” so that at first breaking dam, so that all of problems

Infer that at now macro concept world problems

As wicked soul deluge is huge number of wicked soul livings to be damaged infer that this is macro concept world of war

Mind living collecting energy also is not flow to the lower

Mind living energy reserve in the dam do not flow the lower

Mind living energy in put to the dam do not flow to the lower

Wicked soul deceit and stealth mind level dam of energy.

So that

Mind level energy all to be changed into wicked soul energy

Because mind living’s “getting much more than other” so that getting much more than using wicked soul “revenge and breaking power of energy” while mind level energy shift to wicked soul energy.

This wicked soul energy of dam, also by a wicked soul “revenge and breaking” so that huge problems occur, so before mind level livings

Infer of macro concept world family livings all hard anger enemy relationship of problems product

This is macro concept world living infer that

Divorce, family breaking, all wicked soul of problems happening.

Wicked soul energy dam does not follow like righteous soul result is wicked soul deluge is huge number of wicked soul livings to be damaged infer that this is macro concept world of war

mind living energy dam does not follow like righteous soul result is

Divorce, family breaking, all wicked soul of problems happening

Energy collecting is a way

But energy flow down is also a way

Here is infer of macro concept world

Wicked soul and mind case, so that collected energy is in the end damaged collect including.

This is really sorrowful seeing by righteous souls.

Infer that macro concept world energy flow

Rich to the poor

High knowledge living to make known the poor knowledge livings

Well livings help poor livings; lonesome livings and abnormal livings

Then righteous soul will be feeling in excitement because collecting energy flow is keeping the cosmos law, so that righteous soul energy increasing in a macro concept world region.

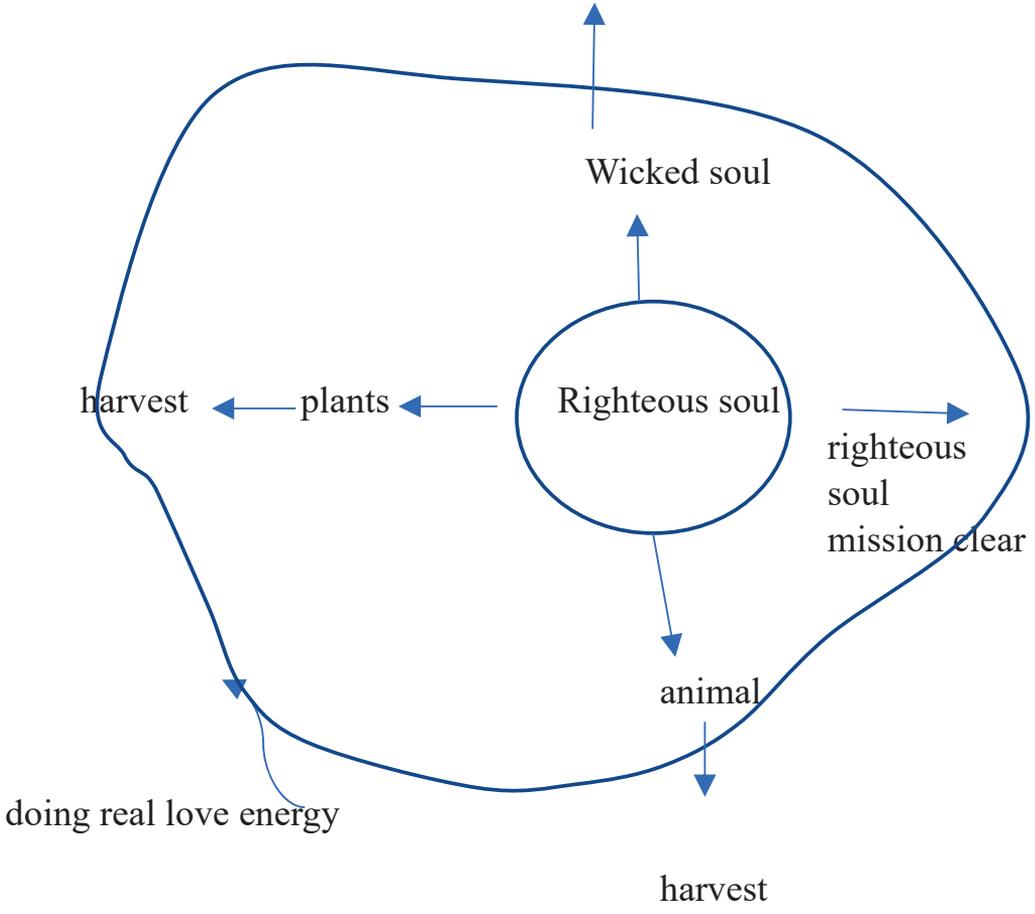

As righteous soul energy increasing then, automatically

Righteous soul = doing real love = energy

Righteous soul doing real love then energy to action and getting better and runs to the vertical time living and cosmos law running and organic and inorganic all moving to righteous soul living way.

In a righteous soul land of livings

Righteous soul mission of lover of wicked soul

Righteous soul living land energy flow

“Righteous soul Energy to be collected and flow the wicked soul”

A righteous soul behavior “ it shares time with other, help other, but also doing real love other’, macro concept world living is a righteous soul energy flow to the wicked soul of lover to creating a righteous soul, but also organic and inorganic all going growing and reach at the righteous soul living in destination place.

If know righteous soul and wicked soul living in destination place difference then

Even a poor knowledge living it never want to live in the wicked soul living in destination place, all of macro concept world livings are try to living at the righteous soul living in destination place,

Because why is

Wicked soul living in destination place

There is no flower and green tress but only the place is loudly of dirty

There is no animal and cat, dogs of doing not animal but truly infer that fox living only

There is no righteous soul so that there is no silence and clean clear

There is no clean water and oxygen of air so that the livings are all hard living.

Only living wicked soul livings on this loudly of anger and revenge

and breaking and dirty place.

Righteous soul living in destination place is

There is flower and green trees and water fall and silence of clean clear

There is all animals cat and dogs, birds all beautiful animals

There are all righteous souls so that all of livings are silence and clean clear

There is a clean water and clean oxygen of air so that all livings are excitement of pleasure living

Righteous soul living of “it shares time with other, help other but also doing real love other”.

So that infer that in the macro concept world livings are

All must know that righteous soul energy flow to wicked soul.

“Righteous soul Energy to be collected and flow the wicked soul”

Righteous soul energy to wicked soul create righteous soul.

In the macro concept world infer that

The rich help the poor then, this is really same as the

“Righteous soul Energy to be collected and flow the wicked soul”

Energy 100- now living = living in the macro concept world

Here is all of macro concept world livings beginning energy 100, this is inferring of truth.

So that here is

Energy 100- now living = living in the macro concept world

If now living is

Righteous soul living

“it shares time with other, help other but also doing real love other”

Wicked soul living of

“wicked soul easy living of doing revenge and breaking to other”

Mind living of

“getting much more than others”

Now living s are righteous soul living, wicked soul living, and mind level living.

So, then an equation to be these

Energy 100- righteous soul living =?

Energy 100- wicked soul living =?

Energy 100- mind level living =?

Here is another condition where keep a cosmos law or not

So then

Righteous soul keep cosmos low, so that

$0+ \text{righteous soul living} = 0$

0: cosmos

To this equation tome true then

Righteous soul= 0,

Righteous soul living of “it shares time with other and help other, but also doing real love” is truly infer that as macro concept world living that as the righteous soul living is cosmos law living.

So that righteous soul does keep a cosmos law and it never break

cosmos law, so that

Righteous soul=0, cosmos

Righteous soul does not use energy because this is helping cosmos running, this is keeping a cosmos law, so then

Cosmos law keep a righteous soul to be helped from cosmos, so that it doesn't have to use energy so that, righteous soul living energy is 0

But also

Cosmos law= righteous soul is

Helping organic and inorganic runs to the righteous soul living in destination place.

But

Wicked soul does not keep a cosmos law, so that

0+ wicked soul living = wicked soul living,

Wicked soul living "wicked soul easy living does revenge and breaking to other"

As wicked soul living is do not keep a cosmos law so that, wicked

soul living do not help cosmos running,

Cosmos law doing not keeping wicked soul to be doing not help form cosmos, so that wicked soul livings suing their energy 100, so that wicked soul living energy using is not 0

And mind living also

Same as wicked soul living, so that

$0 + \text{mind living} = \text{mind living}$

Mind living also using energy 100, so that mind living also energy using is not 0.

So then to this equation to answer is can explained

Energy 100- righteous soul living =?

In this problem is to be solving as

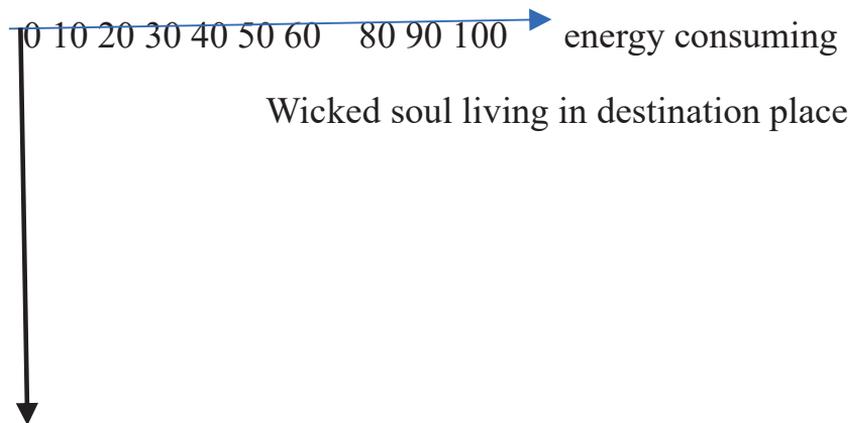

As righteous soul living helped from cosmos so that it doesn't have to use righteous soul energy so that do not used energy so that energy do not use of 0

Then

Righteous soul living energy consuming is

Energy $100 - 0 = 100$, this is really important infer of truth so that

This is can be explained vertical time and horizontal time living

Wicked soul living in destination place

Energy do not consume

Righteous soul living in destination place

In the macro concept world righteous soul do not use energy so that

Righteous soul living energy is

Energy 100 – righteous soul 0 = energy 100,

This means that

In the macro concept world, righteous soul used energy 100 for the righteous soul mission clear in the macro concept world, so that righteous soul mission; righteous soul meet a wicked soul then do real love wicked soul create a righteous soul and safe returning to the righteous soul living in destination place, so that truly

Energy flow; righteous soul to wicked soul, so that still this is keeping a cosmos law so that

Still righteous soul energy suing is righteous soul energy=0,

So that

Righteous soul energy is still

Energy 100- righteous soul macro concept world mission clear 0= energy 100.

Here is

Energy 100- now living = living in the macro concept world

So that righteous soul living is still having as same as fully living in the macro concept world,

Then, infer of truth

Righteous soul living macro concept world mission clear then

Energy 100- now living = living in the macro concept world of energy 100 is same, so then it means that

Righteous soul macro concept world mission clear and safe returning to the righteous soul living in destination place,

The place living also

Energy 100- now living = living in the macro concept and mind concept world of righteous soul living destination place to the end.

but

wicked soul and mind energy keep using so that as time runs to the end of macro concept world then

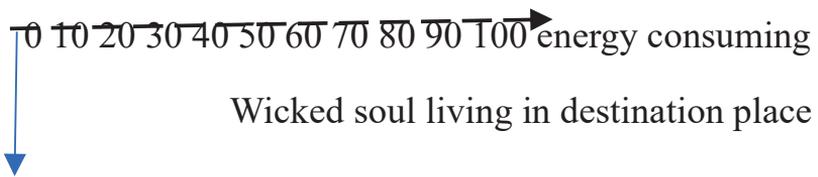

wicked soul energy 100, and mind energy 100 keep decreasing to all used up

Energy 100- wicked soul living = end of macro concept world time goes then energy also decreased

Energy 100- mind level living = end of macro concept world time goes then energy also decreased

So that

Wicked soul, and mind energy consumption to 100

Wicked soul and mind consuming to reach time is up, then

Wicked soul and mind living energy 100 keep decreasing so that all used up energy.

Wicked soul energy

Energy 100- wicked soul use up energy 100= energy 0

Mind living energy

Energy 100- mind living use up energy 100= energy 0

Then wicked soul and mind livings time also end in the macro concept world so then

Automatically fall to the wicked soul living in destination place.

Truly infer that

Righteous soul living keeping a cosmos law, this living does not use energy but cosmos law keeping so that righteous soul living is helping cosmos running so that cosmos still silence and clean clear

But

Wicked soul and mind living do not keep a cosmos law, wicked soul and mind livings use their energy, so that wicked soul and mind livings do not helping cosmos running, so that cosmos hard of wicked soul loudly and dirty.

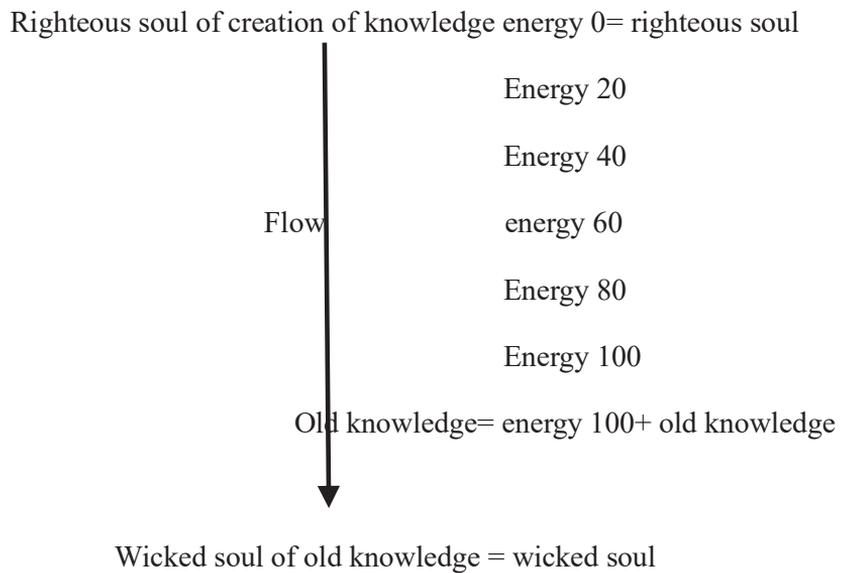

So, then an equation solving then

Energy 100- righteous soul living = energy 100; living macro and micro concept world

Energy 100- wicked soul living = energy 0: disappearing from macro concept world

Energy 100- mind level living = energy 0; disappearing from macro concept world

**Knowledge energy flow;
righteous soul of creation of knowledge to wicked
soul of old knowledge**

Righteous soul living based of bubble of creation of knowledge.

So then, this is righteous soul hear of broadcasting from a righteous soul living in destination place, so that here is hearing is “bubble of creation of knowledge” this is a righteous soul problem solving.

At birth of creation of knowledge then creation of sprout is righteous soul of bubble of creation of knowledge energy 0 of sprout.

So then energy 0 of sprout growing to 20, 40, 60, 80, 100, then truly infer that creation of knowledge, so then creation of knowledge energy 100 is coincidently changed into old knowledge, whose wicked soul living getting “easy living on the using revenge and breaking”, so then, wicked soul know that this creation of knowledge energy 100 is helping wicked soul easy living, so that at now begins that wicked soul try to get creation of knowledge 100 energy, so that

Old knowledge = creation of knowledge energy 100 + old knowledge

Then it is not anymore creation of knowledge

Righteous soul creation of knowledge energy flow to the wicked soul old knowledge.

Truly infer that

Bubble of creation of knowledge is energy 0

But creation of energy increasing 20, 40, 60, 80, 100, then truly changed saying then, wicked soul bob creation of knowledge energy 100 of wicked soul old knowledge so that in the end wicked soul old

knowledge is

Old knowledge = creation of knowledge energy 100 + old knowledge

Creation of knowledge 100 = old knowledge = creation of knowledge energy 100 + old knowledge = power of energy; governing getting all of easy living of wicked soul.

But here is righteous soul is excitement with flow to the wicked soul easy living,

Because righteous soul living behavior is “it shares time with other, and help other and doing real love other” so that righteous soul creation of knowledge is spread to wicked soul livings.

Truly infer that

Righteous soul bubble of creation of knowledge is beginning of creation of energy 0; there is no any power, but also this is creation of knowledge of sprout, so that righteous soul creating creation of knowledge is from heling a righteous soul living on the macro concept world, vertical time running hard living, because a righteous soul runs to the depth then, it need to a going depth problems solving, that is righteous soul creation of knowledge

Righteous soul creation of knowledge flow to old knowledge of wicked soul.

Truly infer that

Righteous soul to creation of knowledge livings are creation of

knowledge 100, so that righteous soul does live with creation of knowledge.

Righteous soul hears of broadcasting from righteous soul living in destination place, so then righteous soul living is so called as creation of knowledge. Righteous soul creation of energy is low, so that even hear of knowledge, but creation of knowledge is sprout only.

Wicked soul using old knowledge is

Creation of knowledge 100 = old knowledge = creation of knowledge energy 100 + old knowledge = power of energy; governing getting all of easy living of wicked soul.

But wicked soul using old knowledge is tree, of power of energy so that wicked soul used only righteous soul creation of knowledge 100, it means that wicked soul does not care of righteous soul creation of knowledge energy 0, so that

Wicked soul livings region is based on of old knowledge

old knowledge = creation of knowledge energy 100 + old knowledge = power of energy; governing getting all of easy living of wicked soul.

This is wicked soul “easy living” completion, so that still wicked soul does not know a righteous soul of a creation of knowledge of energy 0 of creation of knowledge of sprout.

Here is really important truth of infer is

If there is not “poor and righteous soul of bubble of creation of knowledge, creation of knowledge sprout” then in the wicked soul living in destination place, still keep depend on old knowledge, there is no righteous soul creation of knowledge, then

= old knowledge = creation of knowledge energy 100 + old knowledge + old knowledge + old knowledge + old knowledge +----
---- + n old knowledge = creation of knowledge to be disappeared but only old knowledge.

So that

If there is not righteous soul of creation of knowledge of energy 0, then

If wicked soul does not know a righteous soul of sprout, then, to the wicked soul only see creation of knowledge 100, but do not know creation of knowledge energy 0, then wicked soul livings living being deteriorate without any creation of knowledge.

Wicked soul they feel all know, macro concept world old knowledge so that, macro concept world wicked soul does not accept a righteous soul of a creation of knowledge energy 0.

So then,

Righteous soul of creation of knowledge growth,

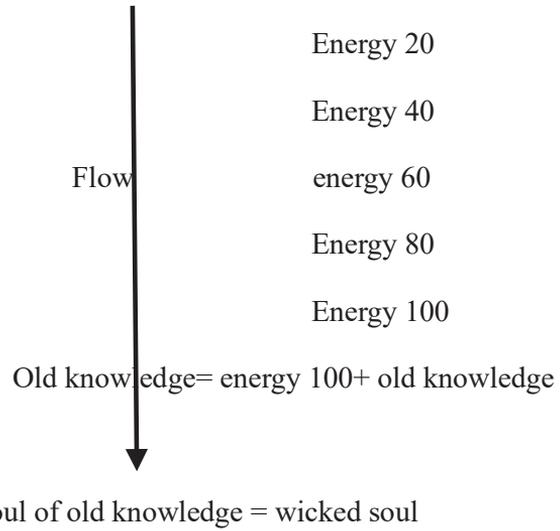

As the big trees fallen, a huge big wicked soul also to be fallen so then, bare of region is righteous soul creation of knowledge can grow.

But

righteous soul creation of knowledge 100 flow to the wicked soul old knowledge. So then wicked soul old knowledge living easy living, so that wicked soul old knowledge would be forgotten long time ago a righteous soul of creation of knowledge.

Then again, a creation of knowledge to old knowledge these cycles keep runs.

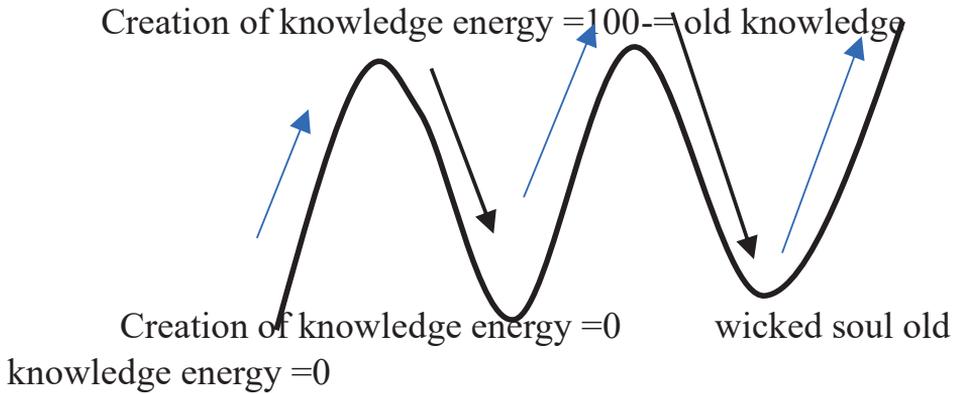

Righteous soul of creation of knowledge energy 0= righteous soul

Creation of knowledge to old knowledge cycle

Creation of knowledge to old knowledge cycle is second hour, day, month and year or 10 year but also 100 years is not same of variance.

This is shown to cycle then, it also infers

Creation of knowledge energy 0 to 100 is going up, but creation of energy 100 = wicked soul old knowledge is energy going down.

Here is wicked soul old knowledge energy = -0

And righteous soul creation of knowledge = 0

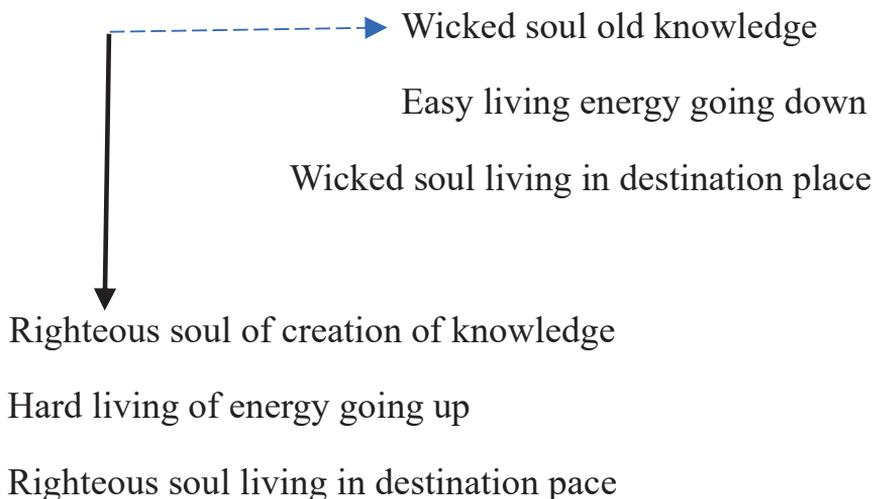

Infer of righteous soul living is

Growing up then;” it shares time with other, help other, but also doing real love other”, righteous soul living.

As reaching at the creation of knowledge 100= beginning wicked soul old knowledge going down to wicked soul old knowledge energy 0, then while wicked soul energy old knowledge going down, forget of going up of righteous soul living behavior “it shares time with other, help other, but also doing real love other”, then

In a region,

A creation of knowledge of righteous soul growing up, but old knowledge of wicked soul growing down, righteous soul living difficult of hard living, but wicked soul easy living, in a region same place difference kind of souls living.

Infer that

Righteous soul creation of knowledge cycle is a second is vertical time living of a righteous soul.

But wicked soul living old knowledge is righteous soul creation of knowledge cycle is 10 year, 100 years.

This is also inferring cycle.

But truth of infer that

Knowledge energy flow; righteous soul of creation of knowledge to wicked soul of old knowledge

Infer that keep flowing righteous soul create of knowledge cycle is second then, numbers of righteous souls are huge in a living place, then, each righteous soul endless infinite creation of knowledge of energy 0 occur then, a region to be being creation of knowledge flow to wicked soul old knowledge then, wicked soul also to be know that creation of knowledge the time almost same, then, wicked soul will be known same creation of knowledge, then, a region will be righteous soul land forming.

Righteous soul land is righteous soul creator of knowledge getting is teacher, but other to be student but also other student get a creation of knowledge then, being teacher, student to teacher changing so that all of member to be being know same creation of knowledge so that in a region of creation of cycle is a second then, all of livings are same creation of knowledge so that all know

How to runs to the righteous soul living in destination place.

So, then creation of knowledge cycle is second then, a region of all of livings live righteous soul living possible.

If a poor and righteous survive in a region then, a righteous soul builds righteous soul land, if not there is no righteous soul in a place then, infer that all of livings are wicked soul then, there are huge number of wicked soul island livings.

Wicked soul island livings are all based on old knowledge, so that 100 years cycle of creation of knowledge, so that wicked soul old knowledge infer that old knowledge only, so that wicked soul island is loudly and dirty so that wicked souls living is loudly and dirty place living.

Macro concept world all livings has energy, but all difference these energy stream

Macro concept world organic inorganic all has an energy

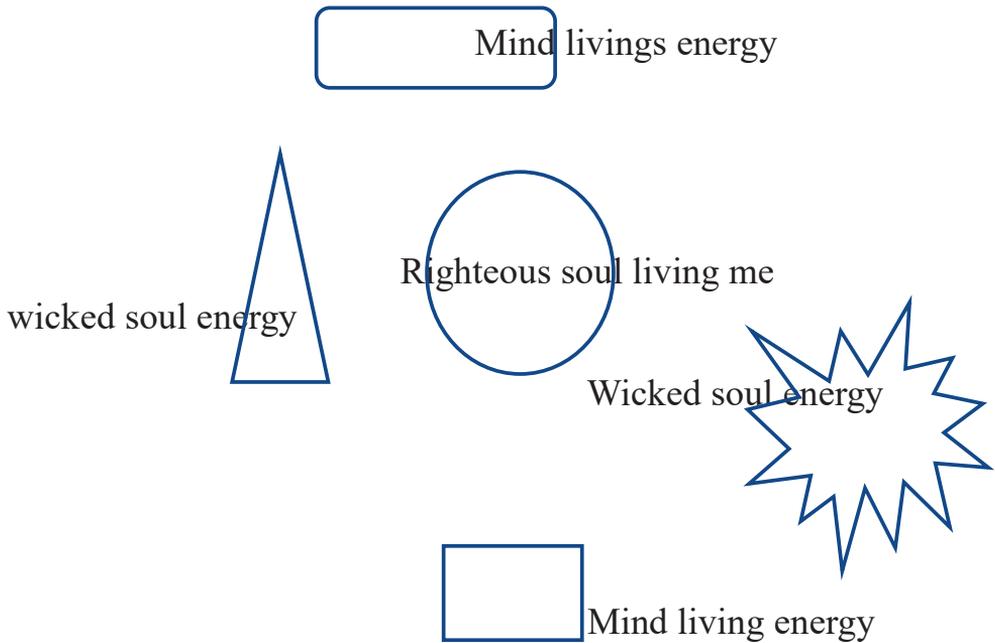

Righteous soul = doing real love = righteous soul energy

Righteous soul doing real love then energy to action and getting better and runs to the vertical time living and cosmos law running and organic and inorganic all moving to righteous soul living way.

But

Wicked soul = wicked soul easy living = wicked soul energy

Wicked soul easy living then wicked soul energy make getting worse, runs to the horizontal time living and breaking cosmos law and organic and inorganic all moving to wicked soul living way.

Righteous soul energy is getting better other

Wicked soul energy is getting world other

Mind living energy is not good to other

So then in a time and space righteous soul me then righteous soul me in the air of mood or righteous soul or wicked soul energy stream

Righteous soul me is center

Then, around of righteous soul me actors are wicked soul, righteous soul, and mind livings

But also, now living space of circumstance then

Wicked soul living in destination place energy

There is no flower and green tress but only the place is loudly of dirty

There is no animal and cat, dogs of doing not animal but truly infer that fox living only

There is no righteous soul so that there is no silence and clean clear

There is no clean water and oxygen of air so that the livings are all hard living.

Only living wicked soul livings on this loudly of anger and revenge and breaking and dirty place.

Righteous soul living in destination place energy is

There is flower and green trees and water fall and silence of clean clear

There is all animals cat and dogs, birds all beautiful animals

There are all righteous souls so that all of livings are silence and clean clear

There is a clean water and clean oxygen of air so that all livings are

excitement of pleasure living

Righteous soul living of “it shares time with other, help other but also doing real love other”.

Righteous soul me feeling energy stream is variable

Righteous soul me feeling excitement of pleasure of energy

Righteous soul living me + righteous soul energy + righteous soul living destination place energy = excitement of pleasure of energy

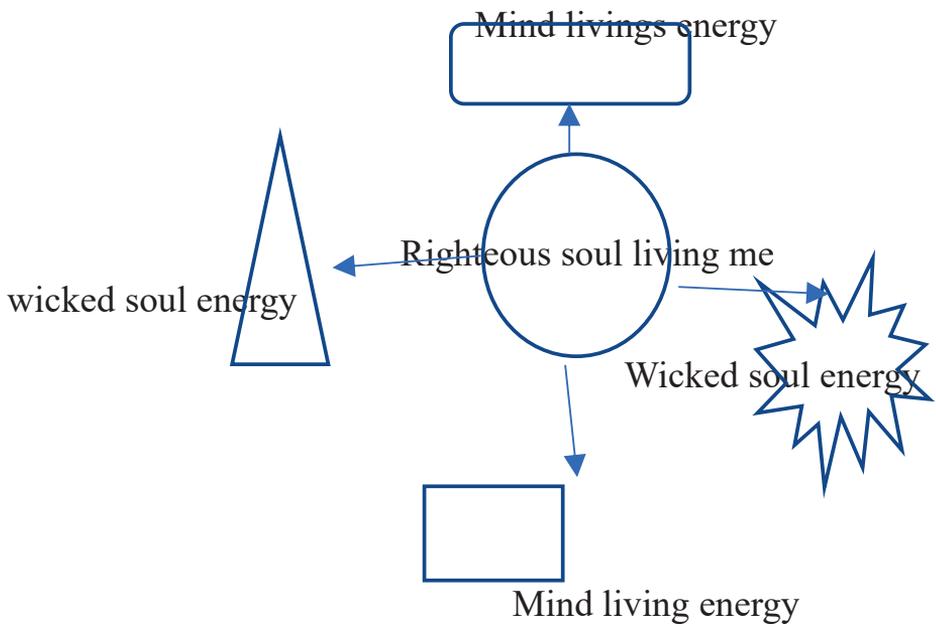

Righteous soul me feeling depression, gloom, anger and annoyance energy

Righteous soul living me + wicked soul energy + wicked soul living in destination place energy = depression, gloom, anger and annoyance energy

So then righteous soul me feeling of energy stream all of second changed.

Here is really important why living righteous soul righteous soul living me?

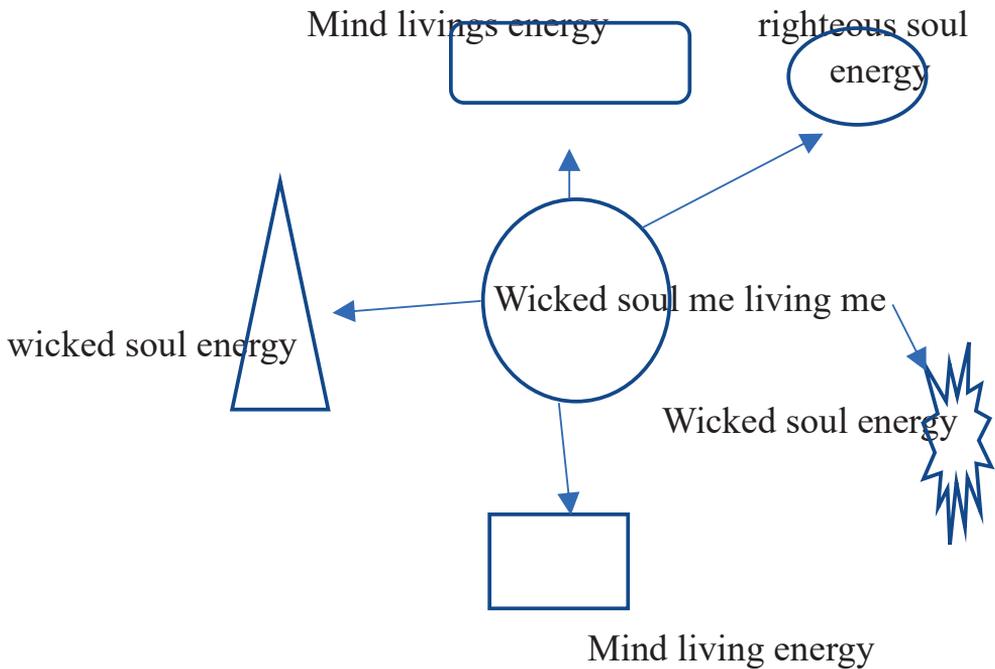

If I living me righteous soul living?

Righteous soul living me doing righteous soul living behavior “it shares time with other, help other and doing real love other” energy give to around of wicked soul and mind livings feeling excitement of pleasure.

This is a kind of righteous soul living gradually building righteous soul land principle also.

But

If I living wicked soul living me then

Wicked soul living me “wicked soul easy living using revenge and breaking”, so then around of wicked soul living me, then their feeling is depression, gloom, anger and annoyance energy

So that

All of organic and inorganic has typical energy

These energies combined typical energy stream

A region of a time

There is in righteous soul me

Then, Righteous soul living me doing righteous soul living behavior “it shares time with other, help other and doing real love other” energy give to around of wicked soul and mind livings feeling excitement of pleasure.

There is wicked soul me

Then,

Wicked soul living me “wicked soul easy living using revenge and breaking”, so then around of wicked soul living me, then their feeling is depression, gloom, anger and annoyance energy

Even all of huge kinds of energy stream

So than,

Here is righteous soul energy stream, wicked soul energy stream with a variable stream

In the macro concept world ignorance on these, but this is really critical living.

Righteous soul energy stream

Wicked soul energy stream

Righteous soul energy stream X Wicked soul energy stream = me feeling?

Righteous soul energy stream - Wicked soul energy stream = me feeling?

Righteous soul energy stream + Wicked soul energy stream = me feeling?

Even these is huge numbers of feeling me creating.

If I living righteous soul energy feeling in me

If I living in the wicked soul energy in me

What happened in me sure of righteous soul living feeling in me

feeling in excitement and pleasure

But

Wicked soul living feeling in me is depression, gloom, anger and annoyance energy.

In the macro concept world living stream energy all has

Wicked soul livings, and righteous soul livings, and mind livings all of organic and inorganic has energy.

So then, all create typical energy.

In the macro concept world who responsibility of wicked soul living energy?

Who can build righteous soul energy?

Infer of truth

Mind living s “getting much more than other” all behavior of mind livings uses even wicked soul energy of “revenge and breaking” so that mind living s on the macro concept world, “mind + body” living create energy stream of wicked soul living in destination place energy.

Infer of truth

Mind living’s really try to “getting much more than other” all of advertisement is not “righteous soul of creation of knowledge” but

all old knowledge of selling slogans occupied air, so that all livings can't hear of "bubble of creation of knowledge" all macro concept world has in the unburns residue all livings, so that do not make righteous soul energy of feeling other "excitement of pleurae".

Wicked soul living in destination place energy

There is no flower and green tress but only the place is loudly of dirty

There is no animal and cat, dogs of doing not animal but truly infer that fox living only

There is no righteous soul so that there is no silence and clean clear

There is no clean water and oxygen of air so that the livings are all hard living.

Only living wicked soul livings on this loudly of anger and revenge and breaking and dirty place.

Who knows?

All are wicked soul and mind then, wicked soul living energy is all accustomed so that they forget righteous soul living energy of helping other feeling excitement of pleasure.

Sure, it is still having righteous soul energy of stream

Righteous soul living energy +

Righteous soul living me doing righteous soul living behavior “it shares time with other, help other and doing real love other” energy give to around of wicked soul and mind livings feeling excitement of pleasure.

This is a kind of righteous soul living gradually building righteous soul land principle also.

Plus

Righteous soul = doing real love = energy = clean water = clean oxygen of air

Righteous soul living in destination place is

There is flower and green trees and water fall and silence of clean clear

There is all animals cat and dogs, birds all beautiful animals

There are all righteous souls so that all of livings are silence and clean clear

There is a clean water and clean oxygen of air so that all livings are excitement of pleasure living

Righteous soul living of “it shares time with other, help other but also doing real love other”.

Who make it?

Who can live on it?

It is only living in a righteous soul living only do.

Truly righteous soul energy of fresh air of oxygen and fresh water if from righteous soul energy.

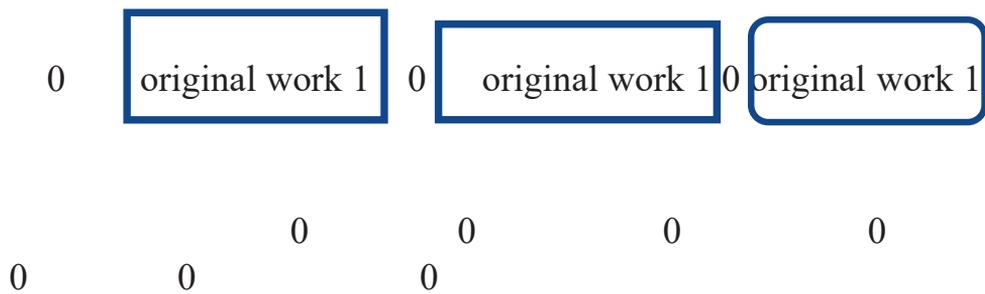

So then,

Infer of at now wicked soul energy stream only righteous soul living me.

So that why living righteous soul is here?

Macro concept world righteous soul living voyage of orbit is 0000000, so then this is also righteous soul energy so that righteous soul energy is fresh water and fresh oxygen of air of creating righteous soul energy supply to the macro concept world to create righteous soul living in destination place, automatically all of righteous soul land living in the righteous soul living in destination place.

Original work energy 1 and original work end to beginning 0 energy

Original work energy is 1

Original work end to beginning energy is 0

In the beginning of original work doing is 1

But before original work and after end of original work energy is 0, even there is no original work then automatically energy is 0.

Here is energy 1 is working

Energy 0 is there is no working

Truly infer that

There is no working is 0 mean that that is cosmos law of silence and clean clear, so then here is 0000 is silence of clean clear of righteous soul energy.

But original work of 1 is in the cosmos of silence of clean clear appeared “original work energy1”, so that cosmos silence and clean clear is broken, of loudly of dirty of wicked soul energy.

In the macro concept world

Infer of truth, original work end then comes feeling in excitement but also in the moment of end of original work then feel fresh and silence and clean clear of excitement feeling.

So then, cosmos law all of cosmos filled as energy 00000000000, but original world energy 1 is truly infer that

Cosmos law breaking.

Truly infer that

Righteous soul of Original work end to beginning energy is 0

Wicked soul of original work energy 1

Here is infer that

In the cosmos law righteous soul living of silence clean clear is
righteous soul living running of orbit 0

But cosmos law breaking wicked soul of loudly and dirty is wicked
soul living running of 1.

Infer of it

Then cosmos law all flow 0 energy so that righteous soul living on
the 0 energy.

But original world on the righteous soul living of 0, just like a boat
on the water, so that boat is 1.

Truly infer that

Original work= boat is moving energy 1

Original work end to beginning energy is 0 is not moving energy 0

Here is also arrange then

Original work energy = moving energy

Original work end to beginning energy = not moving energy

So then, here is really important is

Original work of moving energy is based on the original world end to being of not moving energy.

So then,

Truly infer that

Moving energy 1 is always broken not moving energy 0

Infer of example is

00000100000100001, then this is truly cosmos try to be kept
00000000000, but original work, cause of original work, cosmos
law of silence and clean clear is broken.

Truly infer that

Cosmos law want to

Original world to be being disappear so that recover to the cosmos
law of silence clean clear of 0 energy.

Truly infer that

Original work end is to 0, so then original work energy 1 is
temporary living energy

But Original work end to beginning energy 0 is permanent living energy

Cosmos law 0 energy = original world end to beginning energy 0 = permanent living energy

Original work energy = moving energy = temporally living energy

Original work end to beginning energy = not moving energy = permanent living energy.

Here is really important creation of knowledge is

Original work energy used up of moving to living temporally then reach at the

Original work end to beginning energy of not moving of permanent living energy.

So then,

Infer that

1 to 0, again 1 to 0,

At now book writing context knowledge is “0 is destination” “1 is moving”

So then

Much more important is 0

Because moving of temporally energy 1 is only moving.

But even in the macro concept world living

Wicked soul living “easy living by using revenge and breaking energy” this is a kind of original world, because appeared up, cosmos law of 00000000 silence and clean clear 0 energy, broken then, by this wicked soul living, then 00010000 of 1 moving of temporal energy is all effort so that,

Wicked souls ‘recognition is all only “1111111111111111111111”, there is no any 0.

So then wicked souls on the macro concept world livings all

Original work energy = moving energy = temporally living energy of 111111111 living.

Even mind living also “getting much more than others” then this work also,

Same as

Wicked soul of

Original work energy = moving energy = temporally living energy of 111111111 living.

Macro concept world livings are all try to be living “111111111111”,

perfectly there is no 0.

This is loudly of dirty living of and do not complete all temporally living so that, these living wicked soul and mind living fall to the wicked soul living in destination place.

Original work end to beginning energy = not moving energy = permanent living energy = silence of clean clear, cosmos law kept = righteous soul living energy 0 = righteous soul living in destination place.

As righteous soul living in macro concept world so then

Righteous soul living macro, micro so that

“Righteous soul + body” so then righteous soul, follow micro concept world righteous soul living in destination time living, but also of body of macro concept world living time living.

Truly infer that righteous soul living

Original work energy 1 to Original work end to beginning energy 0

Moving energy 1 to not moving energy 0

Infer of righteous soul macro concept world voyage living is

10101010101010101010 so that

Moving energy 1 is macro concept world body lead righteous soul

Do not moving energy 0 is micro concept world righteous soul living lead

Original work end to beginning energy = not moving energy = permanent living energy = silence of clean clear, cosmos law kept = righteous soul living energy 0 = righteous soul living in destination place = righteous soul living energy =0,

Here is righteous soul living energy getting “it shares time with other, help other, but also doing real love other”

So that as righteous soul doing then righteous soul living energy getting.

So then

{Original work end to beginning energy = not moving energy = permanent living energy = silence of clean clear, cosmos law kept = righteous soul living energy 0 = righteous soul living in destination place = righteous soul living energy =0,} =0 keep a cosmos law

{Original work energy = moving energy = temporally living energy of 111111111 living.} $\neq 0$, =1 cosmos law breaking.

On the macro concept world righteous soul living voyage completion or not is depend on “000000” energy keep increasing living of righteous soul living behavior “it shares time with other, help other but also doing real love other”.

In the macro concept world righteous soul voyage completion is depend on “Original work end to beginning energy is 0”

Righteous soul living behavior of righteous soul “it shares time with other, help other, but also doing real love other” is critically urgent to safe reach at the righteous soul living in destination place.

Righteous soul vertical time energy helping righteous soul surviving

Righteous soul energy is from beginning to completion possible

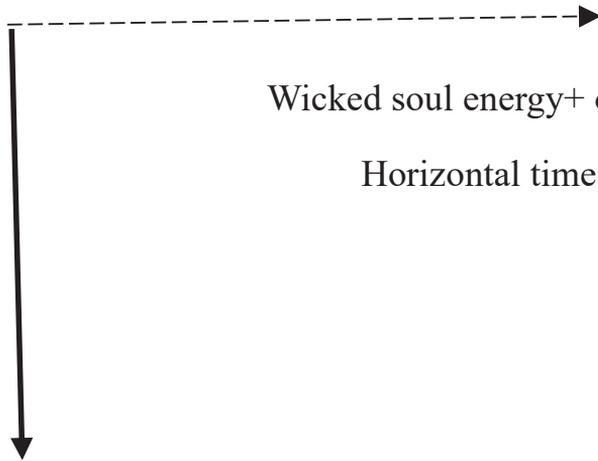

Wicked soul energy is from beginning to incompleteness failing returning to beginning place.

Righteous soul energy is cosmos law keeping flow

Wicked soul energy is cosmos law do not keep stream

Righteous soul energy is fruit of harvest

Wicked soul energy is do not fruit of harvest

Wicked soul energy+ old knowledge

Horizontal time energy

Righteous soul energy + creation of knowledge

Vertical time energy

Righteous soul surviving

Righteous soul livings macro concept world living is vertical time living of helping creation of knowledge, create to living energy

Wicked soul livings macro concept world living is horizontal time living of helping old knowledge competitive to other wicked soul livings

Righteous soul livings are

“it shares time with other, help other, but also don't really love other”
is not fit game player of competition so that, righteous soul hard to
win the game, so that without game of competition with other, so
then, it required to create only one of living of vertical time living.

Truly infer that righteous soul creation of knowledge creating living
is segregated from wicked soul old knowledge, because wicked soul
old knowledge does not know, righteous soul creation of knowledge.

But wicked soul living horizontal time is based on whole
competition of living, so that all of livings are all to be winning
game players.

How to Horizontal time concept is

Depth is $1/\infty$ X width is $\infty = 1$, so then, to get much more than
other, then runs fast to other reach at width is getting much more
than other, so that horizontal time living variance is width ∞ .

Truly infer that width is limited but horizontal time all wicked soul
living runs width is not same, so that width is all knows by wicked
soul so that this is wicked soul knowledge of old knowledge.

But depth ∞ X width $1/\infty$ of vertical time concept is

Here is really variance is depth ∞ , this is micro concept world of
unseen world so that depth is ∞ , but to go depth ∞ , must be infer
that helping a creation of knowledge.

Depth $\infty \approx$ creation of knowledge.\

Here is creation of knowledge is only under the silken and clean clear of hearing broadcasting from righteous soul living in destination place, dim sound of creation of knowledge getting only.

Wicked soul horizontal time living \approx width $\infty \approx$ old knowledge

Righteous soul vertical time living \approx depth $\infty \approx$ creation of knowledge

So that in the macro concept world

Righteous soul living is vertical of creation of knowledge

Wicked soul living is horizontal of old knowledge

Do not meet, this is righteous soul living survive in the macro concept world.

Righteous soul living is running to the righteous soul living so that, righteous soul living in the macro concept world living energy need to runs to the righteous soul living in destination place

Wicked soul living is truly infer that macro concept world with mind living of getting much more than other of easy living, so that truly all of time used for getting, so then wicked soul energy sued for the getting much more than others, so that wicked soul living fall to the wicked soul living in destination place.

Wicked soul energy is not reach but fall to the wicked soul living in

destination place, wicked soul living in destination place is result of macro concept world living only, so that automatically micro concept world is

“Do not fruit of harvest of Wicked soul living in destination place energy

There is no flower and green tress but only the place is loudly of dirty

There is no animal and cat, dogs of doing not animal but truly infer that fox living only

There is no righteous soul so that there is no silence and clean clear

There is no clean water and oxygen of air so that the livings are all hard living.

Only living wicked soul livings on this loudly of anger and revenge and breaking and dirty place.”

Truly in the macro concept world easy living of wicked soul really reluctance to live living destination place is wicked soul, but also truly infer that wicked soul livings are god’s food so that, god eating after garbage dumping ground is wicked soul living in destination place.

Who knows?

In the living macro concept world wicked soul living is getting much more than other of easy living so that wicked soul living only

effort macro concept world mind levels, just living easy living, that is wicked soul living all, there is no prepare for the micro concept world living, but righteous soul living macro concept world living is running to the righteous soul living in destination place.

Righteous soul vertical time living \approx depth $\infty \approx$ creation of knowledge

Righteous soul on the macro concept world living is

Silence of clean clear of dim of bubble of creation of knowledge getting then, this creation of knowledge is helping other's runs to the righteous soul living in destination place but also righteous soul me also to be helped from other righteous soul creation of knowledge, so that righteous soul land.

Righteous soul land \approx creation of knowledge, so that it from righteous soul living in destination place.

Here is creation of knowledge is vertical time living energy

Old knowledge is for horizontal time living energy.

Righteous soul vertical time product runs and carry to the righteous soul living in destination place by creation of knowledge energy.

But

Wicked soul horizontal time product runs and carry to the wicked soul living in destination place by old knowledge.

Here is righteous soul living vertical time living is

Depth ∞ , so that righteous soul product is keep helping from creation of knowledge to fruit of harvest of

Macro concept world voyage completion.

But

Wicked soul living of horizontal time living is

Width ∞ , so that wicked soul product is competition with other wicked souls, so that it must be kept revenge and breaking from other wicked soul, so that do not reach at harvest of fruit so that do not reach at completion of macro concept world voyage to wicked soul living in destination place of garbage dumping ground.

Vertical time living of righteous soul living is never being competition with other but all of living is “it shares time with other, help other, but also doing real love other”

But righteous soul vertical time living of helping creation of knowledge energy reach at the righteous soul living in destination place, here is really infer of critical urgent is righteous soul do not living with wicked soul of horizontal time living, so that to secure of living in the macro concept world, but also safe living in the macro concept world living, it is helping creation of knowledge of vertical time living is only.

But also righteous soul living in destination place is at the deep in

the end deep of deep of righteous soul living in destination place, so that even a wicked soul try to reach at the righteous soul, then wicked soul living of depth $1/\infty$ living is impossible, but only righteous soul depth ∞ reach at the righteous soul living in destination place only.

Righteous soul vertical time living of creation of knowledge is difference living from a wicked soul horizontal time living is sure of “poor and righteous soul living”, running to the depth $\infty \approx$ creation of knowledge.

It clear of saying again

Righteous soul living is silence of clean clear to hear dim of bubble of creation of knowledge.

This living is righteous soul living but also righteous soul living energy getting and runs to the vertical time living then, safe reach at the righteous soul living in destination place, wicked soul horizontal time easy living it never reach at the righteous soul living in destination place.

Righteous soul surviving is only vertical time living here is wicked soul cannot live, because of wicked soul living is width is ∞ , so that righteous soul survive of vertical time living is righteous soul energy urgent.

**“Righteous soul +body” 360° and “mind + body”
180° both living need an energy**

Truly I haven't work

But truly I feel I have been learning from book writing.

So that my living is based on learning from a book writing.

Learning creation of knowledge is my living.

Even to do everyday book writing so that keep concentration on book name, then book writing.

These days micro dusty and contagious disease, so hard living, in me micro dusty is huge sensitive, so that it need mask, truly I was shame mask, but all of livings are using mask so that keep micro dusty.

Truly yesterday I feel burden book writing.

Until now courageous book writing, whether book is book or not, but I did keyword “righteous soul”, so then truly infer that out of book classify but do on my ways.

But I felt that burden of book writing.

Then truly infer that now my living is out of righteous soul living orbit 0000000 living or book writing is not my way, if one of them, but my living is fear because truly infer that book writing is my

routine a day, cause of my job early reach at office, then do something then book writing.

But book writing is not going, cause of micro dusty also.

Every year this time is sensitive to me, truly infer that many a year of this time I got a sick, so that

To defend it, now very sensitive.

Truly I'm lazy man, but all jump but reading book is only do in my home, but now it also jump, I'm huge tired of book writing, book writing excitement of pleasure also gone, so now book writing is just like machine work.

Most book writers are known to book readers

But I'm still unknown book writer even 8 years 24 books published.

My book writing to me being tired.

Truly I'm effort to live now living, do not living before and after, but my living is now living, so then now living is not excitement of pleasure, present time living is truly do, solve now living problems but also do propelling runs to the righteous soul living in destination place.

Support me and macro concept world livings family, but also learning from book writing micro concept world time living, micro concept world time is 360° voyage living. Righteous soul living in destination place to macro concept world now living but also, I must be returning to the righteous soul living in destination place.

So then doing real love now living of my wife, I met a woman of livings, who is infer that – of wicked soul, so that – of wicked soul need to me, a woman of wicked soul needs me, to be creating of a righteous soul of woman.

So, at now I feel endure and help and doing real love lover of my wife, truly infer that my wife a good woman, but why here is saying – of wicked soul is, then me is infer of + of righteous soul, it is duty or must do is help my lover of wife to live righteous soul, marriage living result to be same both righteous soul of man and woman, so that even living in the macro concept world living is husband wife of living, but also what I'm living also micro concept world time of 360° micro concept world righteous soul living of mission, “righteous soul me meet a lover of wicked soul and do real love and create a righteous soul, safe returning to the righteous soul living in destination place”, so that now living is do real love lover of my wife, truly so hard but righteous soul me doing it.

Who knows?

Now living me living both living of macro concept world living and micro concept world living.

Macro concept world living is “mind + body” living, but micro concept world living is “righteous soul +body” living.

Macro concept world living is based on “mind + body” of 180° only macro concept world living, so that macro concept world living is birth from parents then living and end of living is finishing living is macro concept world living.

But "righteous soul +body" this living is vertical time living, so that helping creation of knowledge, so righteous soul me running to the vertical time of righteous soul voyage orbit of 0000000 running to righteous soul living in destination place

So that righteous soul living behavior "it shares time with other, help other but also doing real love other" this living, truly now my living is getting out of it, so that book writing is also getting harder because of not living righteous soul living, now micro dusty season is very sensitive even a book writing also.

Micro concept world living of 360° living is based on righteous soul living energy, the behavior is "it shares time with other, help other, and then doing real love other", truly infer that my righteous soul energy is almost short, it is urgent righteous soul, because as righteous soul energy is now still survive righteous soul, so then I can hear of broadcasting from a righteous soul living in destination place.

My book writing energy also from helping righteous soul living in destination place of creation of knowledge.

At now, here is am 5:57, early morning

This is my routine but truly infer that my living is tired, book writing and book is righteous soul create a product for running to the vertical time living, do not meet wicked soul of horizontal time living, wicked soul of horizontal time livings are best gamers all of game they win, even game with me all get by horizontal time livings, but me, now living on the horizontal time of 180° macro

concept world living I'm all losing game and competition so that macro concept world of living me is lower of gamer, but macro concept world living is urgent because macro concept world support family are here, so that I need to make money but cause of all losing the game on the horizontal time, then, how to live my living on 180° living is lower of gamer.

As living of righteous soul living of 360° righteous soul me living of vertical time living helping righteous soul living in destination

So then, this is macro concept world vertical time living is creation of knowledge of creating it is helping running to the getting deeper of righteous soul living in destination place, so then, creating it is to me a book, vertical time living energy is to me is a book.

But truly infer that book is my vertical time living of righteous soul living of 360°, running creator, but truly book is not help me living in the macro concept world living means that help my living “mind + body” living, truly infer that it is, because book is “righteous soul + body”.

“Righteous soul +body” 360° of micro concept world of righteous soul living in destination place beginning so that runs to the beginning place of righteous soul living in destination place

But

“mind + body” 180° living, it doesn't have to returning to the micro concept world of righteous soul living in destination place, so that all energy used up now living of easy living.

So then righteous soul living me is both living in the macro concept world

Micro concept world of righteous soul living of "Righteous soul +body" 360° and macro concept world living of "mind + body" 180° living, truly infer that all need energy to live on.

"Righteous soul +body" 360° living is now runs to the micro concept world righteous soul living in destination place so that "Righteous soul +body" 360° living me is needing huge righteous soul living energy, so then righteous soul living doing righteous soul living behavior of "it shares time with other, help other, but also doing real love other" living.

But

"mind + body" 180° living is main concerning is solve now problems; support macro concept world family living, so that now living me do work for getting much more than other, but truly infer that now my living is loser of gamers, so that my macro concept world living is not rich, but poor.

Truly infer that

"Righteous soul +body" 360° + "mind + body" 180° = now living me

“Righteous soul +body” 360° of energy now book writing, and creation of knowledge helping.

“mind + body” 180° of energy living family living support living

Bit livings are all urgent

So then, now living is working of macro concept world living and book writing is micro concept world of righteous soul living of helping from creation of knowledge of righteous soul living in destination place.

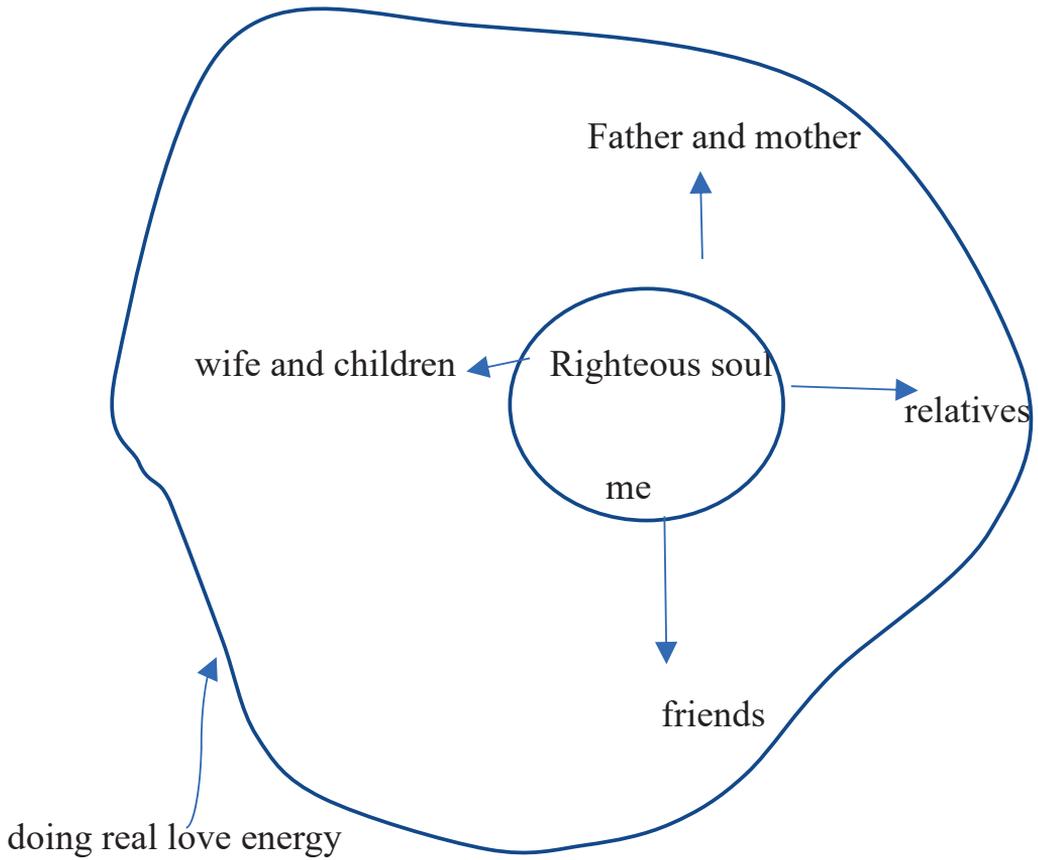

Truly infer that

“mind + body” 180° living is just living truly I’m really thank to the god, because now living is all god helping me, my family all helped from god.

“Righteous soul +body” 360° living is also helped from god, so that try tom living righteous soul living behavior “it shares time with other, help other but also doing real love other”. Truly infer that I’m running to the righteous soul living in destination place.

Truly infer that

{“Righteous soul +body” 360°} + {“mind + body” 180°} =
{“Righteous soul +body” 360°} then righteous soul me living is now righteous soul land building so that

{“Righteous soul +body” 360°} + {“mind + body” 180°} =
 {“Righteous soul +body” 360°}

Of righteous soul land

So that as righteous soul me living of {"Righteous soul +body" 360°} + {"mind + body" 180°} = {"Righteous soul +body" 360°}, so that righteous soul me building land is all parents and my family and relatives and friend all to be living possible righteous soul living in destination place of

{"Righteous soul +body" 360°} + {"mind + body" 180°} = {"Righteous soul +body" 360°} possible.

Here is all of important is righteous soul me living is if I living righteous soul living and getting righteous soul living energy then, righteous soul living of both {"Righteous soul +body" 360°} + {"mind + body" 180°} is living of righteous soul living, so that all of righteous soul land to be living of {"Righteous soul +body" 360°} so that all of livings around of me, cause of me, there are all living righteous soul living.

Righteous soul energy to wicked soul energy comparing with cosmos law

Righteous soul energy

Helping running to the righteous soul living in destination place

Expansion of righteous soul energy

Helping fruitful of harvest

Expansion of righteous soul

Sun energy, clean fresh water, clean oxygen of air helping inorganic
circumstance harmony

Wicked soul energy

Revenge and breaking on the macro concept world

Expansion of wicked soul energy

Revenge and breaking growing to fruitful and harvest

Expansion of wicked soul energy

Cloudy of sun energy, dirty decay water, dirty oxygen depletion of breaking inorganic circumstance

Cosmos law is

Righteous soul wicked soul, macro concept world and micro concept world all cosmos legal force

Righteous soul energy is helping by a cosmos law

Wicked soul energy is penalty by a cosmos law

Righteous soul living circumstance of silence and clean clear is cosmos law 100% keeping.

So then,

Righteous soul silence clean clear get a cosmos law energy helping.

+ sun energy, clean water, clean oxygen = fruitful of harvest

This is righteous soul energy

Helping running to the righteous soul living in destination place possible.

But

Wicked soul living circumstance of loudly of dirty is breaking cosmos law

So then

Wicked soul loudly and dirty do not cosmos energy helping but getting penalty

+ Cloudy of sun energy, dirty decay water, dirty oxygen depletion = breaking growing to fruitful and harvest

This is wicked soul energy

Revenge and breaking on the macro concept world

Then here is macro concept world

Righteous soul 360° running to the righteous soul living in destination place

Wicked soul less than 360° falling to the wicked soul living in destination place

“mind + body” 180° getting much more than others

Infer that macro concept world technology and agricultural living

Then, good ground soil, fertilizer, good seeds all of developing but here is strange thing is inferring that

Righteous soul living macro concept world living then

{Righteous soul silence clean clear get a cosmos law energy helping.

+ sun energy, clean water, clean oxygen = fruitful of harvest} + {macro concept world good ground soil, fertilizer and good seeds} = this result to be being “it shares time with other, help other but also doing real love other”, so that righteous soul land building, therefore helping land livings to be running to the righteous soul living in destination place.

Wicked soul living macro concept world living then

{Wicked soul loudly and dirty do not cosmos energy helping but getting penalty

+ Cloudy of sun energy, dirty decay water, dirty oxygen depletion} + {macro concept world good ground soil, fertilizer and good seeds} = breaking growing to fruitful and harvest.

Therefore, wicked soul easy living using revenge and breaking others.

Here is really important is

To do good and fruit harvest getting condition is living righteous soul living or wicked soul living is critically living, in the macro concept world living to be fruitful harvest it required to be living a righteous soul living.

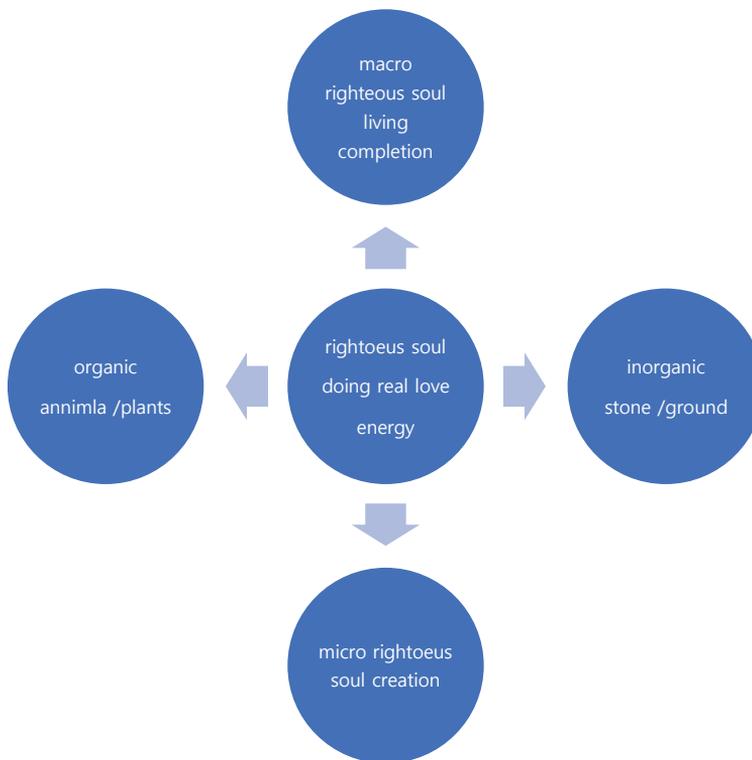

Because righteous soul living is 100% of keeping a cosmos law, so that cosmos law also helping righteous soul energy.

But if living in wicked soul living then do not keep a cosmos law, so that wicked soul living gets a penalty, so that even same technology and agricultural but cause of cosmos law penalty so that, do not fruit of harvest.

Righteous soul energy flow of excitement living in the righteous soul land

Righteous soul energy flow of excitement living.

Righteous soul living is excitement of pleasure why righteous soul energy exchange or righteous soul to others, then others to righteous soul living, so that righteous soul feel excitement living.

Righteous soul doing real love energy helping grow to runs to the righteous soul living in destination place, so called then, as righteous soul energy helping fruitful of harvest and harmony of righteous soul living circumstance.

Righteous soul energy exchange

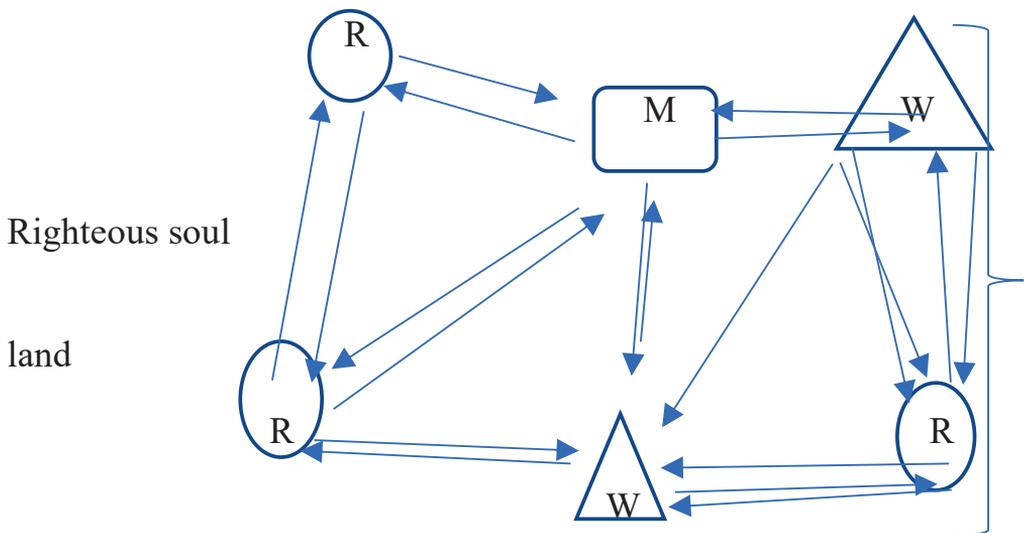

At first righteous soul behavior “it shares time with other, help other, but also doing real love other” then sure of others are all do same energy exchange “others are shares with righteous soul, help righteous soul and doing real love righteous soul”

This is righteous soul energy flow.

Truly infer that righteous soul energy all helping other, then now righteous soul me other helping I’m helping other, so that righteous soul energy is active behavior not passive so that, all helping other, so I to be others helping me.

Righteous soul energy flow of excitement living is

Righteous soul energy flow is flowing to all to be righteous soul energy fill so that righteous soul energy full righteous soul land.

R; righteous soul, W; wicked soul, M; mind level

Righteous soul land energy flow

Righteous soul energy flow with righteous soul land, truly righteous soul land is “ a righteous soul get a creation of knowledge as teacher role teach student but a student get a creation of knowledge so that being teacher teach other student, so that righteous soul creation of knowledge connection” here is also added righteous soul land is righteous soul energy flow so that righteous soul energy is keep

flowing, so that from now on, righteous soul land is added, creation of knowledge flow and righteous soul energy flow.

“Righteous soul energy flow of excitement living” = righteous soul creation of knowledge flow + righteous soul energy flow + righteous soul living land building.

In the land of righteous souls all of wicked souls and minds all to be being helping getting creation of knowledge and righteous soul energy; helping to righteous soul living in destination place going, so that in the righteous soul land all of livings are same energy getting.

In the righteous soul land

All of livings wicked soul, righteous soul and mind all same righteous soul energy, righteous soul creation of knowledge then the behavior of righteous soul land is all “it shares time with others, helping others but also doing real love others”, this is righteous soul land is same as micro concept world righteous soul living in destination place.

As in the righteous soul land Righteous soul energy flow creating helping

Righteous soul helping to macro concept world mission completion helping

Wicked soul and mind to be being righteous soul creating helping

Organic of plant and animal getting fruitful harvest

And inorganic stone and ground to be harmony with righteous soul land helping

So that

In the righteous soul energy exchange is created excitement of pleasure.

This is really righteous soul living benefit, this is real living in the macro concept world.

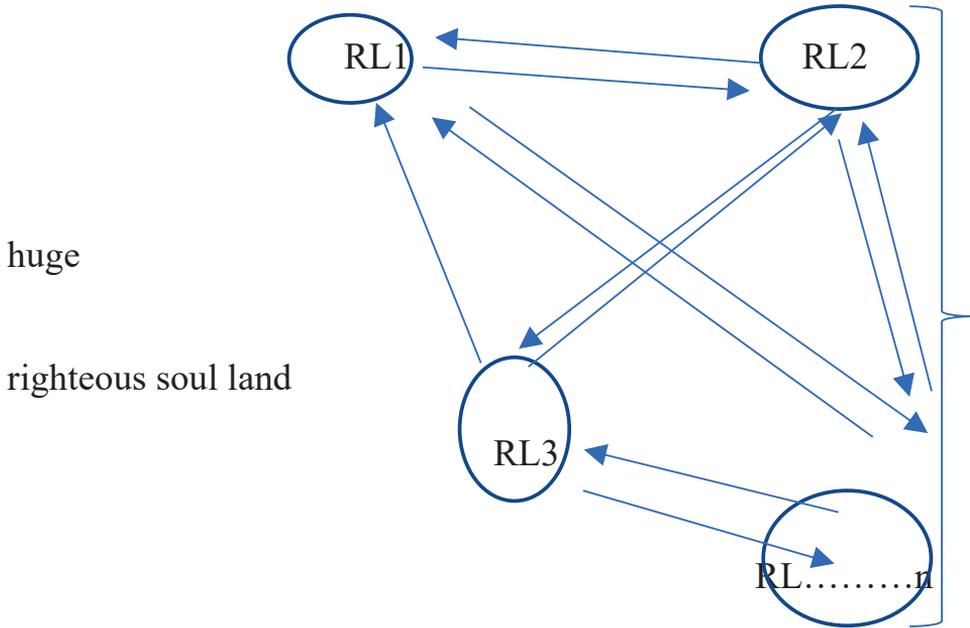

“Righteous soul energy flow of excitement living” = righteous soul creation of knowledge flow + righteous soul energy flow + righteous soul living land building.

In the righteous soul land, all of livings are righteous soul energy flow, so that in the righteous soul land are all occupied righteous soul energy so that,

Truly infer that

At first righteous soul energy flow, in the end righteous soul land is all to be righteous soul so that, as righteous soul flow full of a righteous soul land then

A righteous soul land creates another righteous soul land, so then

RL: righteous soul land

Righteous soul land to righteous soul land energy flow

As like righteous soul land creating keep increasing righteous soul land then huge righteous soul land creating.

So then

Infer that huge righteous soul of macro concept world move to micro concept world righteous soul living in destination place, truly infer that

Righteous soul land all livings are same as a righteous soul living macro concept world righteous soul to safe righteous soul living in destination place, but also huge righteous soul land is also a righteous soul safe returning to the righteous soul living in destination place.

Truly infer that

At now living in the macro concept world livings all together can go 360° righteous soul voyage from beginning in the righteous soul living in destination place a righteous soul voyage to the macro concept world then only one of righteous soul voyage is huge hard, but righteous soul helping each other of creation of knowledge and righteous soul energy flow so that both righteous soul energy exchange of righteous soul feel excitement of pleasure living in the macro concept world.

This is righteous soul god, and cosmos law dream in the macro concept world,

“Righteous soul energy flow of excitement living in the righteous soul land” is possible if righteous soul living behavior “it shares time with other, help other, and doing real love other” then in the macro concept world living is truly infer that excitement and pleasure living possible

Righteous soul energy feeling; silence of clean clear

Righteous soul energy feeling

What is a righteous soul energy?

To this question to answer is silence of clean clear.

Truly infer that righteous soul energy; silence of clean clear

Infer that energy is in the time and space relationship, I'm not physicist but all is imagining but also to explain silence and clean clear.

Silence to space, a space is silence, so that righteous soul energy feeling is in the space.

Truly space is cosmos.

So, then space silence, cosmos silence is inferring of possible.

But also, clean clear is in the space also, so then

Clean clear is result of dirt and stain to be been cleared.

In the feeling of righteous soul energy

What is dirty and stain in a space?

Infer that righteous soul energy feeling disrupter is who?

In a space anger, desire, deceit revenge and breaking other, old knowledge combined, unburnt residue of all dirty and stain are righteous energy feeling disrupters.

So then righteous soul energy feeling possible is after all of dirty and stains; "anger, desire, deceit revenge and breaking other, old knowledge combined, unburnt residue" all of it to be cleaned then, after righteous soul energy feeling.

These dusty and stains are anger, desire, deceit revenge and breaking other, old knowledge combined, unburnt residue in a space, then the space would be as garbage dumping ground.

Who bring to dumping to the space?

Wicked soul and mind livings in a space, so that wicked soul and mind moving in a space, so that wicked soul try to easy living only a wicked soul so keep making problems, unsolved problems are all to be being unburnt residue and to be easy living fight with other, then it need to revenge and breaking these, but also mind livings' getting much more than others so that over desires also making a problems and make loss others. All these dirty and stains are dumping to the space.

Wicked soul and mind living but also cause of anger and revenge all loudly sound saying in a space.

Before saying as

Space and cosmos are inferring of same.

So then

Space = cosmos

Space feeling silence of clean clear

Cosmos feeling silence of clean clear

Space feeling righteous soul energy

Cosmos feeling righteous soul energy

In the macro concept world living voyage, a righteous soul feeling a righteous soul energy then, the feeling is “silence of clean clear”.

This is same as

Cosmos feeling righteous soul energy is also “silence of clean clear”.

Here is

Wicked soul and mind dirty and stains with loudly = variable an actor = W

Righteous soul of Silence of clean clear = do not variable of space = R

Cosmos of silence of clean clear=do not variable of space = C

So then

Space of righteous soul

Space of cosmos

Actor of variance wicked soul and mind.

Righteous soul energy feeling is “silence of clean clear”

Why in the macro concept world livings; normal livings do not feel of righteous soul energy?

The urgent of it is

Macro concept world livings space are all occupied by dusty and stains with loudly voice, so that it is impossible to feel righteous soul energy of “silence of clean clear”.

Here is space all occupied by dusty and stains means that a living of macro concept world is space is garbage dumping ground; loudly of dirty and stains; in the garbage dumping ground how to be feeling righteous soul energy; silence of clean clear.

In the macro concept world livings mostly, a space is full of loudly of dirty and stains, so that there is no space but all filled with dusty and stains with loudly.

How to macro concept world livings feeling righteous soul energy; silence of clean clear.

Truly infer that

Macro concept world space to be being all clean and fire and wash by water a space of a macro concept world livings.

Macro concept world garbage of dusty and stans dumping of full garbage ground is

“wicked soul + mind + body” living perfect there is no righteous soul, so that infer of truth it never feeling of righteous soul energy.

Here is garbage of dusty and stans dumping of full garbage ground is smell is dung so that a space is getting worse, so that impossible living of a righteous soul this is wicked soul of W energy.

So then,

W energy of wicked soul = loudly of dirty

W energy loudly of dirty is doing not help other growing fruit and harvest.

If wicked souls are increasing in the macro concept world then, all of wicked souls are wicked soul energy of loudly of dirty is doing not help other growing fruit and harvest.

If has a calculating equation then

Cosmos of space + W energy = W energy = loudly of dirty and stains

Cosmos of space + R energy = Cosmos of space= silence of clean clear

Here is macro concept world space, a wicked soul living then, a region occupied by loudly of dirty and stains.

This is being cosmos of space to be being garbage dumping grounds.

Infer that

In the macro concept world livings are all normal to that macro concept world livings misunderstood, as they are living in wicked soul and mind level living then, wicked soul and mind livings are variance of a space, so that as the variance livings doing something then keep making a problems which are to be being dirty and stains of garbage so that, wicked soul and mind level livings place of space are all being garbage dumping ground.

In the garbage dumping ground how to be flower blossom and how to be clean water and how to be clean oxygen of airs.

“Righteous soul energy feeling; silence of clean clear”

Righteous soul structure is “righteous soul + body”, then this righteous soul space is “silence of clean clear”

Silence means that there is no loudly of wicked soul and mind.

Clean clear is that there is no wicked soul and mind dusty and stains are not in space.

“righteous + body” of a macro concept world righteous soul living are feeling is “silence of clean clear”.

If a reading this book seek how to be being wicked soul and mind livings to righteous soul living?

Infer that

“righteous soul + wicked soul + mind + body” gradually growing to change to be

“righteous soul + {wicked soul + mind} + body = righteous soul + body

Then

{wicked soul + mind} = 0, this is this problem to solving.

Then where is mind to be – wicked soul, then

{wicked soul + (- mind)} = 0

If – mind is possible then wicked soul also to be been power to be decreased to be 0

So that in the macro concept world mind is from macro concept

world with body, so that in the living of macro concept world living do mind to -wicked soul so then, wicked soul also to be being decreased to 0.

Here is macro concept world mind is key word to righteous soul feeling of “silence of clean clear”.

As the mind to be being – wicked soul energy then, {wicked soul +(- mind)} =0 , {wicked soul-wicked soul}=0

So that

“righteous soul + {wicked soul +mind}=0 + body= righteous soul + body

“righteous soul + body” is coming.

This is all living of macro concept world growing, to righteous soul, so then righteous soul silence and clean clear living keep growing to the righteous soul and nothing, this is righteous soul.

Righteous soul and nothing are also righteous soul energy silence of clean clear.

Righteous soul and nothing = righteous soul energy = silence of clean clear

Then, righteous soul living of a space is all silence of clean clear,

So that

Righteous soul energy= fresh water = fresh oxygen of air= flowers blossom = birds' song of coming from a righteous soul living in destination place bubble of creation of knowledge, this is righteous soul feeling of righteous soul energy.

[Righteous soul space
Righteous soul energy
Silence of clean clear] + Cosmos = Cosmos.

Macro concept world a righteous soul living feeling righteous soul energy of silence of clean clear is Cosmos.

So then

Righteous souls in the macro concept world is Cosmos.

Righteous soul feeling silence of clean clear

Cosmos feeling silence of clean clear

This is righteous soul feeling righteous soul energy.

Righteous soul energy changes wicked soul to righteous soul

Righteous soul energy is helping creating wicked soul to righteous soul.

Righteous soul energy is

Righteous soul living tools of doing real love getting as “it shares time with other, help other, but also doing real love other”, this is righteous soul energy source.

Righteous soul energy = cosmos law keeps result also.

As a righteous soul keep a cosmos law then, it also getting righteous soul energy.

Cosmos law want to keep it, then cosmos law keeps livings all to be running to the righteous soul living in destination place.

Cosmos law keeping is “silence of clean clear”

Cosmos really wanting “silence of clean clear”

So then, cosmos law is loudly of dirty wicked soul to be being disappeared in the cosmos, so then, cosmos really urgent to be cosmos “silence of clean clear” so that in the cosmos all to be created as righteous soul silence of clean clear.

Wicked soul loudly and dirty; wicked soul energy; W

Righteous soul silence of clean clear; righteous soul energy; R

Cosmos silence of clean clear; cosmos energy; C

So that

$$C + R = C$$

$$C+W = W$$

So that cosmos wants all to live as righteous soul living

So then, cosmos all righteous soul living, then

$C + R = C$, so then, here is

$$C=R$$

$$C+ C= 2C$$

$$\text{And } R + R= 2R$$

So that cosmos really wants because

Cosmos living keep silence and clean clear.

But who can help cosmos living “silence and clean clear”?

The way is only righteous soul righteous soul energy only, so that righteous soul energy can help creating wicked soul to righteous soul, this is really wanted from cosmos, so that infer that cosmos law help righteous soul creating wicked soul to righteous soul, so that righteous soul energy increased so that

$$C=R$$

$$C+ C= 2C$$

$$\text{And } R + R= 2R$$

Cosmos energy C changed in to righteous soul so that

This equation of $R + R = 2 R$, so that

Righteous soul can create wicked soul to righteous soul.

This is really based on righteous soul keep a cosmos law, cosmos law is influenced both macro concept world and micro concept world so that, cosmos law keeping is really critical urgent because righteous soul survive in the macro concept world, but also wicked soul to be created from a righteous soul.

Wicked soul to be created of righteous soul then

$$C+W1 = W0$$

From this equation then,

$$C= W0-W1, \text{ so then}$$

W1 to be reaching at the W0, so then even that is not perfect righteous soul

$$\text{But } C= W0- W1= W0-W0= 0$$

So then, $w_0= w_1$ then, wicked soul to be disappeared soon,

Here is $C=0$, then there is no wicked soul, so then as wicked soul to be zero,

C cannot feel loudly of dirty but it is not righteous soul, so then

Here is wicked soul try to keep a cosmos law then,

Righteous soul energy creates wicked soul to a righteous soul

$$C=R$$

$$C+ C= 2C$$

$$\text{And } R + R= 2R$$

$$C = W_0 - W_1 = W_0 - W_0 = 0$$

So then, how to righteous soul to create wicked soul to righteous soul is

$$W_0 - W_0 = C$$

So then

$$W_0 - W_0 + W_0 - W_0 = 2(W_0 - W_0)$$

$C = R$, so that all to be changed in to R

$$C + C = 2C = R + R = 2R.$$

Wicked soul tries to keep a cosmos law so that, automatically righteous soul do process wicked soul to be righteous soul, just via righteous soul creating wicked soul righteous soul, so that wicked soul to be been a righteous soul.

Righteous soul energy helping righteous soul to be creating wicked soul to righteous soul.

Righteous soul mission is “righteous soul meet a wicked soul then do real love lover of wicked soul” then righteous soul create lover of righteous soul, so that righteous soul has safe returning to the righteous soul living in destination place but creating righteous soul also visit to the righteous soul living in destination place.

This is all

“Righteous soul energy changes wicked soul to righteous soul”

Righteous soul energy help a righteous soul righteous soul do create a wicked soul to righteous soul, this is cosmos law, but righteous soul who are now voyage in the macro concept world, keep a cosmos law is righteous soul mission clear or not, so that righteous soul livings keep a cosmos law then, cosmos law also help righteous soul living energy.

Righteous soul living energy is from

Righteous soul living behavior “it shares time with other, help other, but also doing real love other”

Righteous soul keeps a cosmos law then Cosmos help righteous soul energy to a righteous soul

Then

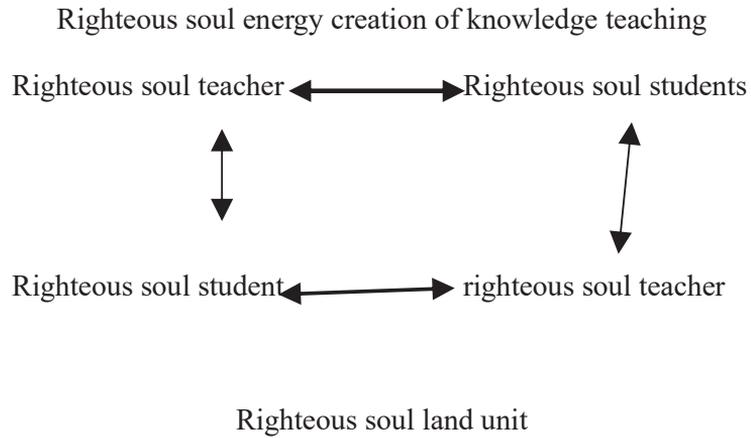

Righteous soul energy helps a righteous soul do create wicked soul to righteous soul, that is cosmos law keeping of righteous soul and cosmos feel “silence of clean clear”, then here macro concept world is righteous soul living in destination place same as excitement of pleasure living possible.

**Righteous soul land a righteous soul teacher to be
being a righteous soul student, a righteous soul
student sure of being teacher this is righteous soul
land, flow righteous soul energy**

Righteous soul teacher = righteous soul student = righteous soul
teacher

This book begins on this creation of knowledge.

In the macro concept world, all of righteous soul livings are teacher,
but also all of righteous soul livings are student say again all of
student of righteous soul to be a teacher.

Righteous soul gets a bubble of creation of knowledge to be a teacher

Righteous soul does not get a bubble of knowledge then to be a student

Righteous soul gets a bubble of creation of knowledge is also righteous soul energy.

So then righteous soul energy also flows, from getting bubble of creation of knowledge to doing not get bubble of creation of knowledge, so then both righteous soul get a same creation of knowledge, so then both righteous soul to be connect, but also other student role of righteous soul then teach before teacher role of righteous soul, so that righteous soul land is strong connection.

Righteous soul bubble of creation of knowledge is helping righteous souls running to the vertical time living of to the righteous soul living in destination place, so that all righteous soul urgent to safe

running to the correction of righteous soul living in destination place direction.

These righteous soul bubble of creation help each other to runs to the righteous soul living in destination place, so the way is righteous living in destination place orbit 000000000.

Truly infer that in the righteous soul land multiple righteous soul land units.

Further more multiple righteous soul land also, then huge number of righteous soul land, this is really important because righteous soul land livings wicked soul, mind livings all runs to the righteous soul living in destination place.

In the righteous soul land righteous soul get a bubble of creation of knowledge then, the righteous soul energy flow all of livings among other righteous soul and wicked soul and mind livings, so that as keep flowing righteous soul living energy, then righteous soul do righteous soul macro concept world mission clear, so that in the righteous soul land,

{Righteous soul \longleftrightarrow righteous soul} macro concept world mission clear

Righteous soul mission clear is “righteous soul meets lover of wicked soul, so then do real love lover of wicked soul then create love of righteous soul after that righteous soul go with created lover of righteous soul safe returning to the righteous soul living in destination place”

Righteous soul energy creation of knowledge teaching

{Righteous soul \longrightarrow wicked soul, mind livings}

Righteous soul teach to the wicked soul and righteous soul, then righteous soul energy flow to the wicked soul and mind, so that wicked soul and mind livings to be wicked soul righteous soul, mind living righteous soul, so that in the righteous soul land, wicked soul and mind livings are all to be a target of a righteous soul mission of lover of wicked soul righteous soul, and mind living righteous soul.

In the righteous soul land

Righteous soul to righteous soul helping running to the righteous soul living in destination place,

Righteous soul to wicked soul and mind helping to be lover of righteous soul, so that righteous soul mission clear of wicked soul and mind living also to be created to righteous soul

Righteous soul land is collection of righteous soul land unit, but also in the macro concept world a region to be filled as righteous soul land, then a macro concept world region all of member can go to the righteous soul living in destination place.

In the righteous soul land

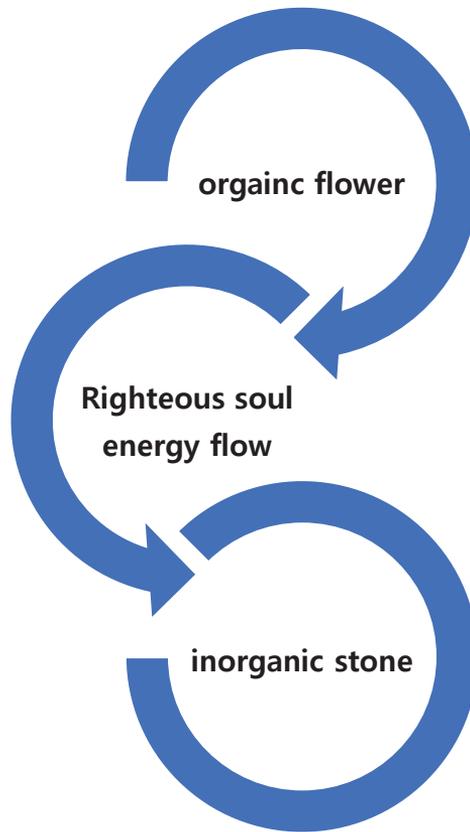

Righteous soul to righteous soul, righteous soul to wicked soul and mind, communication is strong so that all of livings are closed connected so that create a land.

Righteous soul energy is flow all of righteous soul land, so that there is all space are full of righteous soul energy because in the righteous soul land multiple righteous soul land unit.

Righteous soul energy in the righteous soul land =

{Righteous soul energy unit of righteous soul energy 1 + Righteous soul energy unit of righteous soul energy 2

+ Righteous soul energy unit of righteous soul energy 3 + Righteous soul energy unit of righteous soul energy + Righteous soul energy unit of righteous soul energy n}

Righteous soul land righteous soul energy flow

In a macro concept world righteous soul land

Righteous soul to righteous soul creation of knowledge teaching each other, and righteous soul creation of knowledge teach to wicked soul and mind livings, so that in the righteous soul land filed with all righteous soul energy, so then

Righteous soul energy flow to the organic flowers and in organic stones;

It means that righteous soul energy is

Righteous soul = doing real love = energy

Righteous soul doing real love then energy to action and getting better and runs to the vertical time living and cosmos law running and organic and inorganic all moving to righteous soul living way.

So then,

Righteous soul energy all help getting better and fruition of harvest.

So then, organic flower and inorganic stones are all to be getting better, infer that organic and inorganic is component of cosmos, so then here is righteous soul energy helping organic and inorganic to be being righteous soul living in destination place circumstance of beautiful organic of flowers harmony with righteous souls with a beautiful scenery of inorganic stones of circumstance is create a cosmos of silence of clean clear of righteous soul living in destination place.

Righteous soul living in destination place

All righteous soul energy

All righteous souls both teaching and student role, teacher teach bubble of creation of knowledge, but also student all attention to hear teacher, but also changed then a teacher also hear of attention

of before student now teaching also try to learn from teacher.

But also full of righteous soul energy

Organic of beautiful flower of living in excitement with in organic stone, so that in the righteous soul living in destination place all of organic and inorganic and righteous souls are living.

Their living all getting righteous soul energy which is full and all flow energy, so that in the righteous soul living in destination place, are fresh and clean water, fresh of oxygen of air, righteous souls are really living in excitement living.

In the righteous soul land righteous soul energy flow is

{Organic inorganic and righteous soul} righteous soul living in destination place + macro concept world {righteous soul land of righteous soul, wicked soul and mind livings with organic and inorganic} this is beginning of a righteous soul bubble of creation of knowledge.

Why righteous soul build righteous soul land is righteous soul know that cosmos really want cosmos all to be being silence and clean clear, so that righteous soul only does cosmos to be silence and clean clear, so that righteous soul, start to build righteous soul land.

So that in the righteous soul land, righteous soul teaches creation of

knowledge to the righteous soul to complete righteous soul macro concept world voyage and wicked soul and mind teach to be righteous soul lover so that righteous soul doing real love to create righteous soul possible.

Then cosmos law helping righteous soul energy also, because righteous soul creates “silence and clean clear” in the cosmos space.

As righteous soul builds righteous soul land then, cosmos also to be being silence and clean clear increasing.

Righteous soul righteous soul land helping cosmos law keeping

So that righteous soul land livings also to be helped from cosmos, so that righteous soul land safe running to the righteous soul living in destination place, by keeping cosmos law but also cosmos space to be being cleaning.

Cosmos space cleaner is only righteous soul land only, so that cosmos really want to much more macro concept world to be new righteous soul land building.

Righteous soul land a righteous soul teacher to be being a righteous soul student, a righteous soul student sure of being teacher this is righteous soul land, flow righteous soul energy this is in the end clean cosmos space, so that cosmos all to be been silence and clean clear.

**Righteous soul energy of creation of knowledge
sprout is beginning so that creation of knowledge
helping growing to creation of knowledge huge tree**

Righteous soul energy creates creation of knowledge

So then, it is called here creation of knowledge is sprout.

A righteous soul living is depending on creation of knowledge so then, a righteous soul grows but also creation of knowledge also growing.

Infer of truth

Macro concept world a righteous soul living runs to the vertical time living, helping a creation of knowledge.

Righteous soul = creation of knowledge is because if there is no creation of knowledge to a righteous soul living, but then the living is not righteous soul.

Righteous soul

Vertical time

Creation of knowledge

Then

Righteous soul vertical time running is righteous soul energy is not used, but getting using for righteous soul living behavior “it shares time with other, help other, but also doing real love other”, so that righteous soul energy getting with cosmos law keeping so cosmos righteous soul energy, so that righteous soul running to the vertical time then, still righteous soul growing.

But wicked soul runs to the horizontal time living is broken a cosmos law so that penalty and but also do not get righteous soul energy, growing wicked soul energy to run to the wicked soul living in destination place.

Righteous soul = vertical time = Creation of knowledge

Then righteous soul runs to the vertical time then vertical time living possible is creation of knowledge.

So then, these triples are same

Righteous soul poor and righteous soul to righteous soul and nothing

Vertical time keep running to the deepest place

Creation of knowledge is bubble of knowledge of sprout to string tree of creation of knowledge

A bubble of creation of knowledge of sprout need to be watering and care to grow, so then, this is righteous soul living get a bubble of creation of knowledge, then

A righteous soul feels

Bubble of creation of knowledge sprout plant a ground

A righteous soul watering and add compost to the ground of creation of knowledge of sprout.

So then, creation of knowledge grows but also righteous soul grows.

While time flows

Bubble of creation of sprout grows to the huge strong trees of creation of knowledge, so then infer of truth huge trees give helping direct sunshine resting place, huge growing tree of knowledge huge number of livings are using.

So then

Poor and righteous soul also grow to the righteous soul & nothing

But also, as the strong creation of knowledge so that vertical time running go deeper place then, strong tree of creation of knowledge helping, even added to bubble of creation knowledge.

Here is a strange thing is happened

Bubble of creation of knowledge growing to the huge trees of righteous soul, so then a righteous soul under the tress, resting and secure from direct sun shine, so that a righteous soul living in rest on the strong growing tree of righteous soul.

Righteous soul;

Righteous soul build a land under the creation of strong trees, so that strong trees is center for the righteous soul land, so that all of righteous soul land set a string huge creation of knowledge trees, in the righteous soul land, a righteous soul keep create all wicked soul and mind and other righteous soul all runs to the vertical time living, and reach at the righteous soul living in destination place

Vertical time

Righteous soul runs to the vertical time living, so that righteous soul land livings all runs through vertical time living so that running the vertical time living is righteous soul energy do not used a vertical time running righteous soul so that all of energy used righteous soul land, all of livings energy “it shares time with other, help other, but also doing real love others” in the land all do righteous soul living behavior.

Creation of knowledge

Creation of knowledge help righteous soul land livings, wicked soul livings, and mind level living, but also righteous soul livings,

Truly righteous soul created a righteous soul bubble of creation of

knowledge so that bubble of creation of knowledge helping a righteous soul running to the vertical time living, as a righteous soul build land so that a righteous soul land all runs to through vertical time living, then wicked soul and mind livings use creation of knowledge then, the creation of knowledge grown to strong huge tree of creation of knowledge.

This strong creation of knowledge helping righteous soul land livings all to runs to the vertical time living.

So then, creation of knowledge

A righteous soul hear broadcasting from righteous soul living in destination place, while a righteous soul get a creation of knowledge to run possible vertical time, then, the creation of knowledge of sprout is only a righteous soul runs to the vertical time living, but righteous soul land, all runs to the vertical time living, so that creation of knowledge being creation of knowledge even now powerful time of energy but, a righteous soul completion of righteous soul macro concept world voyage.

Then, righteous soul bubble of creation of knowledge help a righteous soul bubble of creation to complete macro concept world mission, but also a righteous soul land livings all make possible to be righteous soul living in destination place, so all creation of knowledge growing with a righteous soul growing, then, the time is still creation of knowledge but all of righteous soul complete macro concept world, then the huge being trees of creation of knowledge being old trees and the same as creation of knowledge also to be called as old knowledge.

This old knowledge still has strong power as the old knowledge, because even old, but old tree of knowledge is till help wicked soul and mind livings, this is knowledge really helping living in the macro concept world wicked soul and mind livings really urgent and valuable asset.

Truly infer that

The old of huge tress is effect shadow of protect from direct sunshine, so that all of wicked soul and mind livings are depend on old knowledge of old tree, this is sustainment of living, here is old knowledge is also long time passed but there is “ creation of knowledge of sprout; creation of knowledge 100”, but old tree of old knowledge is also at least “20~30% creation of knowledge” so wicked soul and mind livings are living on it, truly a righteous soul vertical time living of rung to the depth and reach at the righteous soul living in destination place is seen a record only, but no one do not living of a righteous soul bubble of creation of knowledge living.

Righteous soul bubble of creation of knowledge helping possible a righteous soul running vertical time living and macro concept world all mission completion so that a righteous soul of creation of knowledge is urgent, if a living of righteous soul = creation of knowledge.

Righteous soul= creation of knowledge = vertical time living= reach at the righteous soul living in destination place of completion of living a righteous soul.

But in the macro concept world

A righteous soul creation of knowledge

But now old knowledge still helps wicked soul and mind living macro concept world living well.

So then, a righteous soul bubble of creation of knowledge is how urgent of important

If a righteous soul living macro concept world then, the righteous soul bubble of creation of knowledge is go to the end.

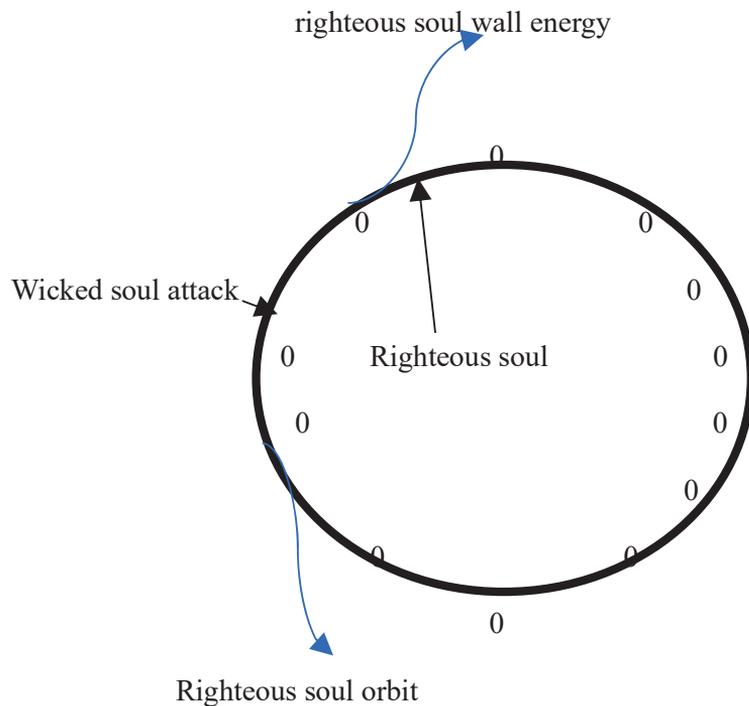

Why?

A righteous soul does live necessary is this

A righteous soul living with creation of knowledge vertical time living of old knowledge is strong power, because the knowledge of power is now strong old trees are living.

If a righteous soul living then, a bubble of creation of knowledge is strong tree of old knowledge to help wicked soul and mind living well.

Righteous soul energy wall and righteous soul orbit

Righteous soul strong energy

Righteous soul wall energy can help righteous soul survive from wicked soul attacking.

Righteous soul orbit is righteous soul voyage to righteous soul living in destination place.

Righteous soul orbit of 00000000000 is righteous soul connect to macro righteous soul to righteous soul living in destination place righteous soul.

Righteous soul orbit is supply righteous soul energy from righteous soul living in destination place with righteous soul creation of knowledge.

But righteous soul wall energy is strong castle so that enough depend wicked soul attacking.

I do not know why comes to me this creation of knowledge but this is righteous soul survive is enough so that in the macro concept world a righteous soul to be helping from righteous soul living in destination place.

Truly infer that all of livings in the macro concept world living, who will be care and care me so that I can live on the macro concept world, because wicked soul will be attacking me.

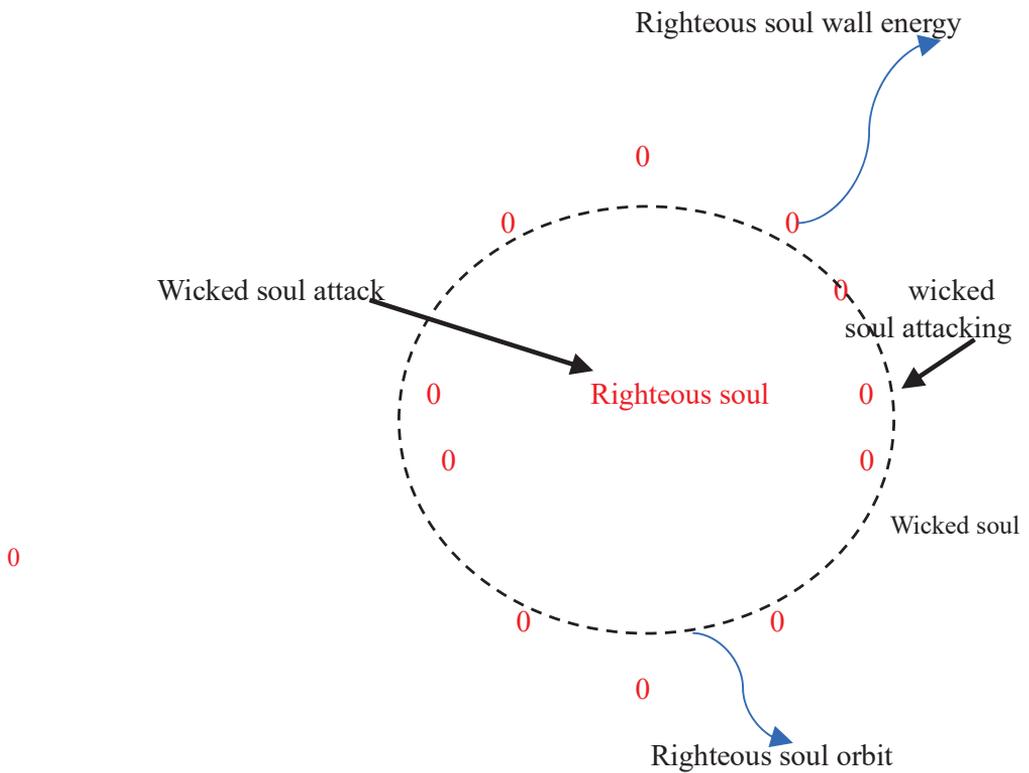

Wicked soul attacking a righteous soul

Righteous soul survives from attacking a wicked soul.

This is energy competition

Righteous soul righteous soul energy.

Wicked soul wicked soul energy.

Wicked soul energy strong

Righteous soul wall energy is thin and weak energy so that wicked soul attack to righteous soul, so then

Righteous soul orbit is red color of 000000000000000000, so then

righteous soul energy is not supplied from a righteous soul living in destination place to a macro concept world righteous soul, so that, thin of righteous soul energy wall so that wicked soul attacking is reach at the righteous soul, so that righteous soul to be changed in to a wicked soul, coincidence righteous soul disappeared from connection to righteous soul living in destination place.

Righteous soul survive is righteous soul energy is strong

Wicked soul disappeared to be changed to wicked soul is wicked soul energy is strong

In the cosmos of space

Wicked soul energy is strong then, wicked soul energy reach at a righteous soul to be changed into wicked soul, but also righteous soul energy is strong then, wicked soul energy do not reach at the righteous soul cause of strong energy wall.

What is this?

What try to say?

Righteous soul energy; righteous soul to runs to the righteous soul living in destination place reaching

Wicked soul energy; righteous soul does not to runs to the righteous soul living in destination place reaching of wicked soul disturb righteous soul survive and running to the righteous soul living in destination place.

So that righteous soul to safe reach at the righteous soul living in destination place reaching, surviving is necessary righteous soul energy.

Righteous soul energy source is basically “it shares time with other, help other and doing real love other”, so that righteous soul getting energy + righteous soul helper from righteous soul living in destination place righteous soul energy helping + macro concept world righteous soul keep a cosmos law, so that righteous soul to be blessed from cosmos law keeping.

So that righteous soul wall energy is strong so that righteous soul survives and but also righteous soul creation of knowledge supplied to the macro concept world orbit 00000000000.

Infer that if living now macro concept world living then

A righteous soul living is

Doing righteous soul living behavior “it shares time with other, help other, but also doing real love other” of righteous soul energy getting.

Righteous soul living in destination of righteous soul creator helping righteous soul energy

As righteous soul keeps a cosmos law so that cosmos bless righteous soul energy

Cause of these energy at now macro concept world living me sustainment now.

= Righteous soul strong energy = righteous soul safe returning to the righteous soul living in destination place

But if not do living righteous soul living then, righteous soul energy decreased

But also, righteous soul creator energy is nothing

And cosmos law energy also nothing

= wicked soul strong energy = righteous soul disappeared to change wicked soul, so then fall to the wicked soul living in destination place.

Macro concept world

Do not seen, wicked soul energy strong of a living

But also, do not seen righteous soul energy strong of a living

But in the righteous soul living in destination place can see it, but only seen a righteous soul only.

Truly do not know in the macro concept world,

Micro concept world righteous soul living in destination living condition is really excitement of pleasure of living

But wicked soul living in destination place is unburnt residue of loudly of dirty living of there is no excitement of pleasure.

So then here infer that

Macro concept world living is truly inferring that learning is direct to decided a righteous soul living in destination place or wicked soul living in destination place.

Simply infer that if living in the macro concept world “it shares time with other, help other, but also doing real love other” then this is righteous soul living in destination place normal living, so that after end of macro concept world automatically reach at the righteous soul living in destination place, if not automatically wicked soul living in destination place reach.

Righteous soul energy is helping the scent of flower garden growing

Righteous soul energy is helping creating perfect and completion.

Righteous soul energy is helping creating perfect and completion of the scent of flower garden growing.

Wicked soul energy is do not helping and breaking creating and completion reaching.

So that the scent of flower not to be growing so that wicked soul energy help growing in the flower garden a weed growing.

Weeds are making hard flower growing, but also flower fragrance so that weeds are all breaking perfect and completion of flower garden to be imperfect and incomplection of flower of garden.

Righteous soul energy with the scent of flower

Wicked soul energy with weeds

Righteous soul energy with perfect and completion

Wicked soul energy with imperfection and in completion

Righteous soul energy with the scent of flower with excitement of pleasure energy

Wicked soul energy with weeds with irritation of annoyance energy

Righteous soul energy with scent of flower with excitement of pleasure helping macro concept world living better righteous soul livings growing.

Wicked soul energy with weeds with irritation of annoyance energy make worse macro concept world livings so that wicked soul livings growing.

Righteous soul energy begins create chains

But also, righteous soul energy is beginning, but also end so that righteous soul chain is

Just like it

Righteous soul energy beginning is toward to end so that

0123456789

Righteous soul energy help to gain to 0123456789, this is point of view beginning so that all of begins are to be reach at the purpose reaching, so then that is 0123456789, this is helping righteous soul energy, this is growing.

But righteous soul energy end is toward to beginning so that
9876543210

Righteous soul energy must be reach end of new begins, so then, righteous soul energy do righteous soul living behavior “it shares time with other, help other, and doing real love other” so that righteous soul to be reach at the 0, 9876543210= this is end of macro concept world beginning of micro concept world of righteous soul living.

Righteous soul energy do used righteous soul living behavior “it shares time with other, help other and doing real love other;9876543210” then cosmos law all effect macro concept world and micro concept world so that cosmos law of blessing to the righteous soul, so macro concept world being 9876543210; “0” but here also righteous soul energy in the micro concept world righteous soul living in destination place energy is “end of macro concept world 0, so this means that righteous soul living in destination place righteous soul energy is full, its means that macro concept world righteous soul did keep a cosmos law so that automatically cosmos judge so that reward of blessing in the micro concept world righteous soul living energy is full reaching.

Righteous soul in the righteous soul living in destination place, full of a righteous soul, can do as a righteous soul creator then, a creator runs in the macro concept world then, keep doing righteous soul living behavior “it shares time with a righteous soul in the macro concept world, and help righteous soul and doing real love righteous soul.

Righteous soul energy is helping do not end livings of righteous soul, only righteous soul, because a righteous soul is

“Righteous soul energy is helping creating perfect and completion”

Righteous soul energy is perfect and completion is reach at the “0”, here is “0” is being perfect and completion.

Here is 0 is pure and purification degree is 100%, so that reach at completion is 100%, then same as beginning is 0, so that $100\% = 0$ is same.

Righteous soul energy is all spread to the righteous soul land and righteous soul living in destination place.

Righteous soul energy is helping the scent of flower garden growing

Righteous soul living in the scent of flower garden, then righteous soul livings are feeling smell fragrance of flower.
